ANTLR Software Rights Notice

ANTLR License
=============
SOFTWARE RIGHTS
ANTLR 1989-2004 Developed by Terence Parr Partially supported by
University of
San Francisco & jGuru.com
We reserve no legal rights to the ANTLR--it is fully in the public domain.
An
individual or company may do whatever they wish with source code
distributed with
ANTLR or the code generated by ANTLR, including the incorporation of
ANTLR, or
its output, into commerical software.
We encourage users to develop software with ANTLR. However, we do ask that
credit
is given to us for developing ANTLR. By "credit", we mean that if you use
ANTLR
or incorporate any source code into one of your programs (commercial
product,
research project, or otherwise) that you acknowledge this fact somewhere
in the
documentation, research report, etc... If you like ANTLR and have
developed a
nice tool with the output, please mention that you developed it using
ANTLR. In
addition, we ask that the headers remain intact in our source code. As
long as
these guidelines are kept, we expect to continue enhancing this system and
expect
to make other tools available as they are completed.

Academic Free License
=====================
v. 2.1
------
This Academic Free License (the "License") applies to any original work of
authorship (the "Original Work") whose owner (the "Licensor") has placed
the
following notice immediately following the copyright notice for the
Original
Work:
  Licensed under the Academic Free License version 2.1
1) Grant of Copyright License. Licensor hereby grants You a world-wide,
royalty-free, non-exclusive, perpetual, sublicenseable license to do the
following:
  * to reproduce the Original Work in copies;
  * to prepare derivative works ("Derivative Works") based upon the
Original
  Work;
  * to distribute copies of the Original Work and Derivative Works to the
  public;
  * to perform the Original Work publicly; and
  * to display the Original Work publicly.
2) Grant of Patent License. Licensor hereby grants You a world-wide,
royalty-free, non-exclusive, perpetual, sublicenseable license, under
patent
claims owned or controlled by the Licensor that are embodied in the
Original Work
as furnished by the Licensor, to make, use, sell and offer for sale the
Original
Work and Derivative Works.
3) Grant of Source Code License. The term "Source Code" means the
preferred form
of the Original Work for making modifications to it and all available
documentation describing how to modify the Original Work. Licensor hereby
agrees
to provide a machine-readable copy of the Source Code of the Original Work
along
with each copy of the Original Work that Licensor distributes. Licensor
reserves
the right to satisfy this obligation by placing a machine-readable copy of
the
```

Source Code in an information repository reasonably calculated to permit
inexpensive and convenient access by You for as long as Licensor continues
to
distribute the Original Work, and by publishing the address of that
information
repository in a notice immediately following the copyright notice that
applies to
the Original Work.
4) Exclusions From License Grant. Neither the names of Licensor, nor the
names of
any contributors to the Original Work, nor any of their trademarks or
service
marks, may be used to endorse or promote products derived from this
Original Work
without express prior written permission of the Licensor. Nothing in this
License
shall be deemed to grant any rights to trademarks, copyrights, patents,
trade
secrets or any other intellectual property of Licensor except as expressly
stated
herein. No patent license is granted to make, use, sell or offer to sell
embodiments of any patent claims other than the licensed claims defined in
Section 2. No right is granted to the trademarks of Licensor even if such
marks
are included in the Original Work. Nothing in this License shall be
interpreted
to prohibit Licensor from licensing under different terms from this
License any
Original Work that Licensor otherwise would have a right to license.
5) This section intentionally omitted.
6) Attribution Rights. You must retain, in the Source Code of any
Derivative
Works that You create, all copyright, patent or trademark notices from the
Source
Code of the Original Work, as well as any notices of licensing and any
descriptive text identified therein as an "Attribution Notice." You must
cause
the Source Code for any Derivative Works that You create to carry a
prominent
Attribution Notice reasonably calculated to inform recipients that You
have
modified the Original Work.
7) Warranty of Provenance and Disclaimer of Warranty. Licensor warrants
that the
copyright in and to the Original Work and the patent rights granted herein
by
Licensor are owned by the Licensor or are sublicensed to You under the
terms of
this License with the permission of the contributor(s) of those copyrights
and
patent rights. Except as expressly stated in the immediately proceeding
sentence,

**December 2022**

the Original Work is provided under this License on an "AS IS" BASIS and
WITHOUT
WARRANTY, either express or implied, including, without limitation, the
warranties of NON-INFRINGEMENT, MERCHANTABILITY or FITNESS FOR A
PARTICULAR
PURPOSE. THE ENTIRE RISK AS TO THE QUALITY OF THE ORIGINAL WORK IS WITH
YOU. This
DISCLAIMER OF WARRANTY constitutes an essential part of this License. No
license
to Original Work is granted hereunder except under this disclaimer.
8) Limitation of Liability. Under no circumstances and under no legal
theory,
whether in tort (including negligence), contract, or otherwise, shall the
Licensor be liable to any person for any direct, indirect, special,
incidental,
or consequential damages of any character arising as a result of this
License or
the use of the Original Work including, without limitation, damages for
loss of
goodwill, work stoppage, computer failure or malfunction, or any and all
other
commercial damages or losses. This limitation of liability shall not apply
to
liability for death or personal injury resulting from Licensor's
negligence to
the extent applicable law prohibits such limitation. Some jurisdictions do
not
allow the exclusion or limitation of incidental or consequential damages,
so this
exclusion and limitation may not apply to You.
9) Acceptance and Termination. If You distribute copies of the Original
Work or a
Derivative Work, You must make a reasonable effort under the circumstances
to
obtain the express assent of recipients to the terms of this License.
Nothing
else but this License (or another written agreement between Licensor and
You)
grants You permission to create Derivative Works based upon the Original
Work or
to exercise any of the rights granted in Section 1 herein, and any attempt
to do
so except under the terms of this License (or another written agreement
between
Licensor and You) is expressly prohibited by U.S. copyright law, the
equivalent
laws of other countries, and by international treaty. Therefore, by
exercising
any of the rights granted to You in Section 1 herein, You indicate Your
acceptance of this License and all of its terms and conditions.
10) Termination for Patent Action. This License shall terminate
automatically and

You may no longer exercise any of the rights granted to You by this License as of
the date You commence an action, including a cross-claim or counterclaim, against
Licensor or any licensee alleging that the Original Work infringes a patent. This
termination provision shall not apply for an action alleging patent infringement
by combinations of the Original Work with other software or hardware.
11) Jurisdiction, Venue and Governing Law. Any action or suit relating to this
License may be brought only in the courts of a jurisdiction wherein the Licensor
resides or in which Licensor conducts its primary business, and under the laws of
that jurisdiction excluding its conflict-of-law provisions. The application of
the United Nations Convention on Contracts for the International Sale of Goods is
expressly excluded. Any use of the Original Work outside the scope of this
License or after its termination shall be subject to the requirements and
penalties of the U.S. Copyright Act, 17 U.S.C. ₪101 et seq., the equivalent laws
of other countries, and international treaty. This section shall survive the
termination of this License.
12) Attorneys Fees. In any action to enforce the terms of this License or seeking
damages relating thereto, the prevailing party shall be entitled to recover its
costs and expenses, including, without limitation, reasonable attorneys' fees and
costs incurred in connection with such action, including any appeal of such
action. This section shall survive the termination of this License.
13) Miscellaneous. This License represents the complete agreement concerning the
subject matter hereof. If any provision of this License is held to be
unenforceable, such provision shall be reformed only to the extent necessary to
make it enforceable.
14) Definition of "You" in This License. "You" throughout this License, whether
in upper or lower case, means an individual or a legal entity exercising rights
under, and complying with all of the terms of, this License. For legal entities,
"You" includes any entity that controls, is controlled by, or is under common
control with you. For purposes of this definition, "control" means (i) the power,

**December 2022**

direct or indirect, to cause the direction or management of such entity, whether
by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the
outstanding shares, or (iii) beneficial ownership of such entity.
15) Right to Use. You may use the Original Work in all ways not otherwise
restricted or conditioned by this License or by law, and Licensor promises not to
interfere with or be responsible for such uses by You.

Apache License
Version 2.0, January 2004
------------------------
http://www.apache.org/licenses/
TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION
1. Definitions.
"License" shall mean the terms and conditions for use, reproduction, and
distribution as defined by Sections 1 through 9 of this document.
"Licensor" shall mean the copyright owner or entity authorized by the
copyright
owner that is granting the License.
"Legal Entity" shall mean the union of the acting entity and all other
entities
that control, are controlled by, or are under common control with that
entity.
For the purposes of this definition, "control" means (i) the power, direct
or
indirect, to cause the direction or management of such entity, whether by
contract or otherwise, or (ii) ownership of fifty percent (50%) or more of
the
outstanding shares, or (iii) beneficial ownership of such entity.
"You" (or "Your") shall mean an individual or Legal Entity exercising
permissions
granted by this License.
"Source" form shall mean the preferred form for making modifications,
including
but not limited to software source code, documentation source, and
configuration
files.
"Object" form shall mean any form resulting from mechanical transformation
or
translation of a Source form, including but not limited to compiled object
code,
generated documentation, and conversions to other media types.
"Work" shall mean the work of authorship, whether in Source or Object
form, made
available under the License, as indicated by a copyright notice that is
included
in or attached to the work (an example is provided in the Appendix below).
"Derivative Works" shall mean any work, whether in Source or Object form,
that is
based on (or derived from) the Work and for which the editorial revisions,
annotations, elaborations, or other modifications represent, as a whole,
an
original work of authorship. For the purposes of this License, Derivative
Works
shall not include works that remain separable from, or merely link (or
bind by
name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original
version
of the Work and any modifications or additions to that Work or Derivative
Works
thereof, that is intentionally submitted to Licensor for inclusion in the
Work by
the copyright owner or by an individual or Legal Entity authorized to
submit on
behalf of the copyright owner. For the purposes of this definition,
"submitted"
means any form of electronic, verbal, or written communication sent to the
Licensor or its representatives, including but not limited to
communication on
electronic mailing lists, source code control systems, and issue tracking
systems
that are managed by, or on behalf of, the Licensor for the purpose of
discussing
and improving the Work, but excluding communication that is conspicuously
marked
or otherwise designated in writing by the copyright owner as "Not a
Contribution."
"Contributor" shall mean Licensor and any individual or Legal Entity on
behalf of
whom a Contribution has been received by Licensor and subsequently
incorporated
within the Work.
2. Grant of Copyright License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide,
non-exclusive, no-charge, royalty-free, irrevocable copyright license to
reproduce, prepare Derivative Works of, publicly display, publicly
perform,
sublicense, and distribute the Work and such Derivative Works in Source or
Object
form.
3. Grant of Patent License. Subject to the terms and conditions of this
License,
each Contributor hereby grants to You a perpetual, worldwide, non-
exclusive,
no-charge, royalty-free, irrevocable (except as stated in this section)
patent
license to make, have made, use, offer to sell, sell, import, and
otherwise
transfer the Work, where such license applies only to those patent claims
licensable by such Contributor that are necessarily infringed by their
Contribution(s) alone or by combination of their Contribution(s) with the
Work to
which such Contribution(s) was submitted. If You institute patent
litigation
against any entity (including a cross-claim or counterclaim in a lawsuit)
alleging that the Work or a Contribution incorporated within the Work
constitutes
direct or contributory patent infringement, then any patent licenses
granted to

You under this License for that Work shall terminate as of the date such
litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or
Derivative Works thereof in any medium, with or without modifications, and
in
Source or Object form, provided that You meet the following conditions:
  a. You must give any other recipients of the Work or Derivative Works a
copy of
    this License; and
  b. You must cause any modified files to carry prominent notices stating
that
    You changed the files; and
  c. You must retain, in the Source form of any Derivative Works that You
    distribute, all copyright, patent, trademark, and attribution notices
from
    the Source form of the Work, excluding those notices that do not
pertain to
    any part of the Derivative Works; and
  d. If the Work includes a "NOTICE" text file as part of its
distribution, then
    any Derivative Works that You distribute must include a readable copy
of the
    attribution notices contained within such NOTICE file, excluding those
    notices that do not pertain to any part of the Derivative Works, in at
least
    one of the following places: within a NOTICE text file distributed as
part of
    the Derivative Works; within the Source form or documentation, if
provided
    along with the Derivative Works; or, within a display generated by the
    Derivative Works, if and wherever such third-party notices normally
appear.
    The contents of the NOTICE file are for informational purposes only
and do
    not modify the License. You may add Your own attribution notices
within
    Derivative Works that You distribute, alongside or as an addendum to
the
    NOTICE text from the Work, provided that such additional attribution
notices
    cannot be construed as modifying the License.
You may add Your own copyright statement to Your modifications and may
provide
additional or different license terms and conditions for use,
reproduction, or
distribution of Your modifications, or for any such Derivative Works as a
whole,
provided Your use, reproduction, and distribution of the Work otherwise
complies
with the conditions stated in this License.
5. Submission of Contributions. Unless You explicitly state otherwise, any
Contribution intentionally submitted for inclusion in the Work by You to
the

Licensor shall be under the terms and conditions of this License, without any
additional terms or conditions. Notwithstanding the above, nothing herein shall
supersede or modify the terms of any separate license agreement you may have
executed with Licensor regarding such Contributions.
6. Trademarks. This License does not grant permission to use the trade names,
trademarks, service marks, or product names of the Licensor, except as required
for reasonable and customary use in describing the origin of the Work and
reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to in
writing, Licensor provides the Work (and each Contributor provides its
Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND,
either express or implied, including, without limitation, any warranties or
conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any risks
associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory, whether in
tort (including negligence), contract, or otherwise, unless required by
applicable law (such as deliberate and grossly negligent acts) or agreed to in
writing, shall any Contributor be liable to You for damages, including any
direct, indirect, special, incidental, or consequential damages of any character
arising as a result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill, work stoppage,
computer failure or malfunction, or any and all other commercial damages or
losses), even if such Contributor has been advised of the possibility of such
damages.
9. Accepting Warranty or Additional Liability. While redistributing the Work or
Derivative Works thereof, You may choose to offer, and charge a fee for,
acceptance of support, warranty, indemnity, or other liability obligations and/or
rights consistent with this License. However, in accepting such obligations, You
may act only on Your own behalf and on Your sole responsibility, not on behalf of
any other Contributor, and only if You agree to indemnify, defend, and hold each

Contributor harmless for any liability incurred by, or claims asserted
against,
such Contributor by reason of your accepting any such warranty or
additional
liability.

enclosed in the appropriate comment syntax for the file format. We also
recommend
that a file or class name and description of purpose be included on the
same
"printed page" as the copyright notice for easier identification within
third-party archives.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION
1. Definitions.
"License" shall mean the terms and conditions for use, reproduction, and
distribution as defined by Sections 1 through 9 of this document.
"Licensor" shall mean the copyright owner or entity authorized by the
copyright
owner that is granting the License.
"Legal Entity" shall mean the union of the acting entity and all other
entities
that control, are controlled by, or are under common control with that
entity.
For the purposes of this definition, "control" means (i) the power, direct
or
indirect, to cause the direction or management of such entity, whether by
contract or otherwise, or (ii) ownership of fifty percent (50%) or more of
the
outstanding shares, or (iii) beneficial ownership of such entity.
"You" (or "Your") shall mean an individual or Legal Entity exercising
permissions
granted by this License.
"Source" form shall mean the preferred form for making modifications,
including
but not limited to software source code, documentation source, and
configuration
files.
"Object" form shall mean any form resulting from mechanical transformation
or
translation of a Source form, including but not limited to compiled object
code,
generated documentation, and conversions to other media types.
"Work" shall mean the work of authorship, whether in Source or Object
form, made
available under the License, as indicated by a copyright notice that is
included
in or attached to the work (an example is provided in the Appendix below).
"Derivative Works" shall mean any work, whether in Source or Object form,
that is
based on (or derived from) the Work and for which the editorial revisions,
annotations, elaborations, or other modifications represent, as a whole,
an
original work of authorship. For the purposes of this License, Derivative
Works

shall not include works that remain separable from, or merely link (or bind by
name) to the interfaces of, the Work and Derivative Works thereof.
"Contribution" shall mean any work of authorship, including the original version
of the Work and any modifications or additions to that Work or Derivative Works
thereof, that is intentionally submitted to Licensor for inclusion in the Work by
the copyright owner or by an individual or Legal Entity authorized to submit on
behalf of the copyright owner. For the purposes of this definition, "submitted"
means any form of electronic, verbal, or written communication sent to the
Licensor or its representatives, including but not limited to communication on
electronic mailing lists, source code control systems, and issue tracking systems
that are managed by, or on behalf of, the Licensor for the purpose of discussing
and improving the Work, but excluding communication that is conspicuously marked
or otherwise designated in writing by the copyright owner as "Not a Contribution."
"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of
whom a Contribution has been received by Licensor and subsequently incorporated
within the Work.
2. Grant of Copyright License. Subject to the terms and conditions of this
License, each Contributor hereby grants to You a perpetual, worldwide,
non-exclusive, no-charge, royalty-free, irrevocable copyright license to
reproduce, prepare Derivative Works of, publicly display, publicly perform,
sublicense, and distribute the Work and such Derivative Works in Source or Object
form.
3. Grant of Patent License. Subject to the terms and conditions of this License,
each Contributor hereby grants to You a perpetual, worldwide, non-exclusive,
no-charge, royalty-free, irrevocable (except as stated in this section) patent
license to make, have made, use, offer to sell, sell, import, and otherwise
transfer the Work, where such license applies only to those patent claims
licensable by such Contributor that are necessarily infringed by their
Contribution(s) alone or by combination of their Contribution(s) with the Work to
which such Contribution(s) was submitted. If You institute patent litigation
against any entity (including a cross-claim or counterclaim in a lawsuit)

alleging that the Work or a Contribution incorporated within the Work
constitutes
direct or contributory patent infringement, then any patent licenses
granted to
You under this License for that Work shall terminate as of the date such
litigation is filed.
4. Redistribution. You may reproduce and distribute copies of the Work or
Derivative Works thereof in any medium, with or without modifications, and
in
Source or Object form, provided that You meet the following conditions:
  a. You must give any other recipients of the Work or Derivative Works a
copy of
    this License; and
  b. You must cause any modified files to carry prominent notices stating
that
    You changed the files; and
  c. You must retain, in the Source form of any Derivative Works that You
    distribute, all copyright, patent, trademark, and attribution notices
from
    the Source form of the Work, excluding those notices that do not
pertain to
    any part of the Derivative Works; and
  d. If the Work includes a "NOTICE" text file as part of its
distribution, then
    any Derivative Works that You distribute must include a readable copy
of the
    attribution notices contained within such NOTICE file, excluding those
    notices that do not pertain to any part of the Derivative Works, in at
least
    one of the following places: within a NOTICE text file distributed as
part of
    the Derivative Works; within the Source form or documentation, if
provided
    along with the Derivative Works; or, within a display generated by the
    Derivative Works, if and wherever such third-party notices normally
appear.
    The contents of the NOTICE file are for informational purposes only
and do
    not modify the License. You may add Your own attribution notices
within
    Derivative Works that You distribute, alongside or as an addendum to
the
    NOTICE text from the Work, provided that such additional attribution
notices
    cannot be construed as modifying the License.
You may add Your own copyright statement to Your modifications and may
provide
additional or different license terms and conditions for use,
reproduction, or
distribution of Your modifications, or for any such Derivative Works as a
whole,
provided Your use, reproduction, and distribution of the Work otherwise
complies

with the conditions stated in this License.
5. Submission of Contributions. Unless You explicitly state otherwise, any
Contribution intentionally submitted for inclusion in the Work by You to
the
Licensor shall be under the terms and conditions of this License, without
any
additional terms or conditions. Notwithstanding the above, nothing herein
shall
supersede or modify the terms of any separate license agreement you may
have
executed with Licensor regarding such Contributions.
6. Trademarks. This License does not grant permission to use the trade
names,
trademarks, service marks, or product names of the Licensor, except as
required
for reasonable and customary use in describing the origin of the Work and
reproducing the content of the NOTICE file.
7. Disclaimer of Warranty. Unless required by applicable law or agreed to
in
writing, Licensor provides the Work (and each Contributor provides its
Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF
ANY KIND,
either express or implied, including, without limitation, any warranties
or
conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any risks
associated with Your exercise of permissions under this License.
8. Limitation of Liability. In no event and under no legal theory, whether
in
tort (including negligence), contract, or otherwise, unless required by
applicable law (such as deliberate and grossly negligent acts) or agreed
to in
writing, shall any Contributor be liable to You for damages, including any
direct, indirect, special, incidental, or consequential damages of any
character
arising as a result of this License or out of the use or inability to use
the
Work (including but not limited to damages for loss of goodwill, work
stoppage,
computer failure or malfunction, or any and all other commercial damages
or
losses), even if such Contributor has been advised of the possibility of
such
damages.
9. Accepting Warranty or Additional Liability. While redistributing the
Work or
Derivative Works thereof, You may choose to offer, and charge a fee for,
acceptance of support, warranty, indemnity, or other liability obligations
and/or
rights consistent with this License. However, in accepting such
obligations, You

may act only on Your own behalf and on Your sole responsibility, not on
behalf of
any other Contributor, and only if You agree to indemnify, defend, and
hold each
Contributor harmless for any liability incurred by, or claims asserted
against,
such Contributor by reason of your accepting any such warranty or
additional
liability.
END OF TERMS AND CONDITIONS
APPENDIX: How to apply the Apache License to your work
To apply the Apache License to your work, attach the following boilerplate
notice, with the fields enclosed by brackets "[]" replaced with your own
identifying information. (Don't include the brackets!) The text should be
enclosed in the appropriate comment syntax for the file format. We also
recommend
that a file or class name and description of purpose be included on the
same
"printed page" as the copyright notice for easier identification within
third-party archives.

The Artistic License
====================
Preamble
The intent of this document is to state the conditions under which a
Package may
be copied, such that the Copyright Holder maintains some semblance of
artistic
control over the development of the package, while giving the users of the
package the right to use and distribute the Package in a more-or-less
customary
fashion, plus the right to make reasonable modifications.
Definitions:
   * "Package" refers to the collection of files distributed by the
Copyright
     Holder, and derivatives of that collection of files created through
textual
     modification.
   * "Standard Version" refers to such a Package if it has not been
modified, or
     has been modified in accordance with the wishes of the Copyright
Holder.
   * "Copyright Holder" is whoever is named in the copyright or copyrights
for the
     package.
   * "You" is you, if you're thinking about copying or distributing this
Package.
   * "Reasonable copying fee" is whatever you can justify on the basis of
media
     cost, duplication charges, time of people involved, and so on. (You
will not
     be required to justify it to the Copyright Holder, but only to the
computing
     community at large as a market that must bear the fee.)
   * "Freely Available" means that no fee is charged for the item itself,
though
     there may be fees involved in handling the item. It also means that
     recipients of the item may redistribute it under the same conditions
they
     received it.
1. You may make and give away verbatim copies of the source form of the
Standard
Version of this Package without restriction, provided that you duplicate
all of
the original copyright notices and associated disclaimers.
2. You may apply bug fixes, portability fixes and other modifications
derived
from the Public Domain or from the Copyright Holder. A Package modified in
such a
way shall still be considered the Standard Version.

3. You may otherwise modify your copy of this Package in any way, provided that
you insert a prominent notice in each changed file stating how and when you
changed that file, and provided that you do at least ONE of the following:
      a) place your modifications in the Public Domain or otherwise make them
      Freely Available, such as by posting said modifications to Usenet or an
      equivalent medium, or placing the modifications on a major archive site
      such as ftp.uu.net, or by allowing the Copyright Holder to include your
      modifications in the Standard Version of the Package.
      b) use the modified Package only within your corporation or organization.
      c) rename any non-standard executables so the names do not conflict with
      standard executables, which must also be provided, and provide a separate
      manual page for each non-standard executable that clearly documents how it
      differs from the Standard Version.
      d) make other distribution arrangements with the Copyright Holder.
4. You may distribute the programs of this Package in object code or executable
form, provided that you do at least ONE of the following:
      a) distribute a Standard Version of the executables and library files,
      together with instructions (in the manual page or equivalent) on where to
      get the Standard Version.
      b) accompany the distribution with the machine-readable source of the
      Package with your modifications.
      c) accompany any non-standard executables with their corresponding Standard
      Version executables, giving the non-standard executables non-standard
      names, and clearly documenting the differences in manual pages (or
      equivalent), together with instructions on where to get the Standard
      Version.
      d) make other distribution arrangements with the Copyright Holder.
5. You may charge a reasonable copying fee for any distribution of this Package.
You may charge any fee you choose for support of this Package. You may not charge
a fee for this Package itself. However, you may distribute this Package in
aggregate with other (possibly commercial) programs as part of a larger (possibly
commercial) software distribution provided that you do not advertise this Package
as a product of your own.

6. The scripts and library files supplied as input to or produced as
output from
the programs of this Package do not automatically fall under the copyright
of
this Package, but belong to whomever generated them, and may be sold
commercially, and may be aggregated with this Package.
7. C or perl subroutines supplied by you and linked into this Package
shall not
be considered part of this Package.

permission.

The "Artistic License"
======================
Preamble
The intent of this document is to state the conditions under which a
Package may
be copied, such that the Copyright Holder maintains some semblance of
artistic
control over the development of the package, while giving the users of the
package the right to use and distribute the Package in a more-or-less
customary
fashion, plus the right to make reasonable modifications.
Definitions:
  *  "Package" refers to the collection of files distributed by the
Copyright
    Holder, and derivatives of that collection of files created through
textual
    modification.
  *  "Standard Version" refers to such a Package if it has not been
modified, or
    has been modified in accordance with the wishes of the Copyright
Holder as
    specified below.
  *  "Copyright Holder" is whoever is named in the copyright or copyrights
for

the package.
  * "You" is you, if you're thinking about copying or distributing this
Package.
  * "Reasonable copying fee" is whatever you can justify on the basis of
media
    cost, duplication charges, time of people involved, and so on. (You
will not
    be required to justify it to the Copyright Holder, but only to the
computing
    community at large as a market that must bear the fee.)
  * "Freely Available" means that no fee is charged for the item itself,
though
    there may be fees involved in handling the item. It also means that
    recipients of the item may redistribute it under the same conditions
they
    received it.
  1. You may make and give away verbatim copies of the source form of the
    Standard Version of this Package without restriction, provided that
you
    duplicate all of the original copyright notices and associated
disclaimers.
  2.  You may apply bug fixes, portability fixes and other modifications
derived
    from the Public Domain or from the Copyright Holder. A Package
modified in
    such a way shall still be considered the Standard Version.
  3. You may otherwise modify your copy of this Package in any way,
provided that
    you insert a prominent notice in each changed file stating how and
when you
    changed that file, and provided that you do at least ONE of the
following:
      a.  place your modifications in the Public Domain or otherwise make
them
        Freely Available, such as by posting said modifications to Usenet
or an
        equivalent medium, or placing the modifications on a major archive
site
        such as uunet.uu.net, or by allowing the Copyright Holder to
include your
        modifications in the Standard Version of the Package.
      b.  use the modified Package only within your corporation or
organization.
      c.  rename any non-standard executables so the names do not conflict
with
        standard executables, which must also be provided, and provide a
separate
        manual page for each non-standard executable that clearly
documents how
        it differs from the Standard Version.
      d.  make other distribution arrangements with the Copyright Holder.
  4. You may distribute the programs of this Package in object code or
executable

---

form, provided that you do at least ONE of the following:
  a.  distribute a Standard Version of the executables and library
files,
      together with instructions (in the manual page or equivalent) on
where to
      get the Standard Version.
  b.  accompany the distribution with the machine-readable source of
the
      Package with your modifications.
  c.  give non-standard executables non-standard names, and clearly
document
      the differences in manual pages (or equivalent), together with
      instructions on where to get the Standard Version.
  d.  make other distribution arrangements with the Copyright Holder.
  5.  You may charge a reasonable copying fee for any distribution of this
    Package. You may charge any fee you choose for support of this
Package. You
    may not charge a fee for this Package itself. However, you may
distribute
    this Package in aggregate with other (possibly commercial) programs as
part
    of a larger (possibly commercial) software distribution provided that
you do
    not advertise this Package as a product of your own. You may embed
this
    Package's interpreter within an executable of yours (by linking); this
shall
    be construed as a mere form of aggregation, provided that the complete
    Standard Version of the interpreter is so embedded.
  6.  The scripts and library files supplied as input to or produced as
output
    from the programs of this Package do not automatically fall under the
    copyright of this Package, but belong to whoever generated them, and
may be
    sold commercially, and may be aggregated with this Package. If such
scripts
    or library files are aggregated with this Package via the so-called
"undump"
    or "unexec" methods of producing a binary executable image, then
distribution
    of such an image shall neither be construed as a distribution of this
Package
    nor shall it fall under the restrictions of Paragraphs 3 and 4,
provided that
    you do not represent such an executable image as a Standard Version of
this
    Package.
  7.  C subroutines (or comparably compiled subroutines in other
languages)
    supplied by you and linked into this Package in order to emulate
subroutines
    and variables of the language defined by this Package shall not be
considered

part of this Package, but are the equivalent of input as in Paragraph 6,
    provided these subroutines do not change the language in any way that would
    cause it to fail the regression tests for the language.
  8.  Aggregation of this Package with a commercial distribution is always
    permitted provided that the use of this Package is embedded; that is,
when no
    overt attempt is made to make this Package's interfaces visible to the
end
    user of the commercial distribution. Such use shall not be construed
as a
    distribution of this Package.
  9. The name of the Copyright Holder may not be used to endorse or
promote
    products derived from this software without specific prior written
    permission.
  10.  THIS PACKAGE IS PROVIDED "AS IS" AND WITHOUT ANY EXPRESS OR IMPLIED
    WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF
    MERCHANTIBILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Artistic License 2.0
Copyright (c) 2000-2006, The Perl Foundation.
Everyone is permitted to copy and distribute verbatim copies of this
license document, but changing it is not allowed.
Preamble
This license establishes the terms under which a given free software
Package may be copied, modified, distributed, and/or redistributed. The
intent is that the Copyright Holder maintains some artistic control over
the development of that Package while still keeping the Package available
as open source and free software.
You are always permitted to make arrangements wholly outside of this
license directly with the Copyright Holder of a given Package. If the
terms of this license do not permit the full use that you propose to make
of the Package, you should contact the Copyright Holder and seek a
different licensing arrangement.
Definitions
"Copyright Holder" means the individual(s) or organization(s) named in the
copyright notice for the entire Package.
"Contributor" means any party that has contributed code or other material
to the Package, in accordance with the Copyright Holder's procedures.

"You" and "your" means any person who would like to copy, distribute, or modify the Package.

"Package" means the collection of files distributed by the Copyright Holder, and derivatives of that collection and/or of those files. A given Package may consist of either the Standard Version, or a Modified Version.

"Distribute" means providing a copy of the Package or making it accessible to anyone else, or in the case of a company or organization, to others outside of your company or organization.

"Distributor Fee" means any fee that you charge for Distributing this Package or providing support for this Package to another party. It does not mean licensing fees.

"Standard Version" refers to the Package if it has not been modified, or has been modified only in ways explicitly requested by the Copyright Holder.

"Modified Version" means the Package, if it has been changed, and such changes were not explicitly requested by the Copyright Holder.

"Original License" means this Artistic License as Distributed with the Standard Version of the Package, in its current version or as it may be modified by The Perl Foundation in the future.

"Source" form means the source code, documentation source, and configuration files for the Package.

"Compiled" form means the compiled bytecode, object code, binary, or any other form resulting from mechanical transformation or translation of the Source form.

Permission for Use and Modification Without Distribution

(1) You are permitted to use the Standard Version and create and use Modified Versions for any purpose without restriction, provided that you do not Distribute the Modified Version.

Permissions for Redistribution of the Standard Version

(2) You may Distribute verbatim copies of the Source form of the Standard Version of this Package in any medium without restriction, either gratis or for a Distributor Fee, provided that you duplicate all of the original copyright notices and associated disclaimers. At your discretion, such verbatim copies may or may not include a Compiled form of the Package.

(3) You may apply any bug fixes, portability changes, and other modifications made available from the Copyright Holder. The resulting Package will still be considered the Standard Version, and as such will be subject to the Original License.

Distribution of Modified Versions of the Package as Source

(4) You may Distribute your Modified Version as Source (either gratis or for a Distributor Fee, and with or without a Compiled form of the Modified Version) provided that you clearly document how it differs from the Standard Version, including, but not limited to, documenting any non-standard features, executables, or modules, and provided that you do at least ONE of the following:

(a) make the Modified Version available to the Copyright Holder of the Standard Version, under the Original License, so that the Copyright Holder may include your modifications in the Standard Version.

(b) ensure that installation of your Modified Version does not prevent the user installing or running the Standard Version. In addition, the Modified Version must bear a name that is different from the name of the Standard Version.

(c) allow anyone who receives a copy of the Modified Version to make the Source form of the Modified Version available to others under

(i) the Original License or

(ii) a license that permits the licensee to freely copy, modify and redistribute the Modified Version using the same licensing terms that apply to the copy that the licensee received, and requires that the Source form of the Modified Version, and of any works derived from it, be made freely available in that license fees are prohibited but Distributor Fees are allowed.

Distribution of Compiled Forms of the Standard Version or Modified Versions without the Source

(5) You may Distribute Compiled forms of the Standard Version without the Source, provided that you include complete instructions on how to get the Source of the Standard Version. Such instructions must be valid at the time of your distribution. If these instructions, at any time while you are carrying out such distribution, become invalid, you must provide new instructions on demand or cease further distribution. If you provide valid instructions or cease distribution within thirty days after you become aware that the instructions are invalid, then you do not forfeit any of your rights under this license.

(6) You may Distribute a Modified Version in Compiled form without the Source, provided that you comply with Section 4 with respect to the Source of the Modified Version.

Aggregating or Linking the Package

(7) You may aggregate the Package (either the Standard Version or Modified Version) with other packages and Distribute the resulting aggregation provided that you do not charge a licensing fee for the Package. Distributor Fees are permitted, and licensing fees for other components in the aggregation are permitted. The terms of this license apply to the use and Distribution of the Standard or Modified Versions as included in the aggregation.

(8) You are permitted to link Modified and Standard Versions with other works, to embed the Package in a larger work of your own, or to build stand-alone binary or bytecode versions of applications that include the Package, and Distribute the result without restriction, provided the result does not expose a direct interface to the Package.

Items That are Not Considered Part of a Modified Version

(9) Works (including, but not limited to, modules and scripts) that merely extend or make use of the Package, do not, by themselves, cause the Package to be a Modified Version. In addition, such works are not considered parts of the Package itself, and are not subject to the terms of this license.

General Provisions

(10) Any use, modification, and distribution of the Standard or Modified Versions is governed by this Artistic License. By using, modifying or distributing the Package, you accept this license. Do not use, modify, or distribute the Package, if you do not accept this license.

(11) If your Modified Version has been derived from a Modified Version made by someone other than you, you are nevertheless required to ensure that your Modified Version complies with the requirements of this license.

(12) This license does not grant you the right to use any trademark, service mark, tradename, or logo of the Copyright Holder.

(13) This license includes the non-exclusive, worldwide, free-of-charge patent license to make, have made, use, offer to sell, sell, import and otherwise transfer the Package with respect to any patent claims licensable by the Copyright Holder that are necessarily infringed by the Package. If you institute patent litigation (including a cross-claim or counterclaim) against any party alleging that the Package constitutes direct or contributory patent infringement, then this Artistic License to you shall terminate on the date that such litigation is filed. (14) Disclaimer of Warranty: THE PACKAGE IS PROVIDED BY THE COPYRIGHT HOLDER AND CONTRIBUTORS "AS IS' AND WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES. THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NON-INFRINGEMENT ARE DISCLAIMED TO THE EXTENT PERMITTED BY YOUR LOCAL LAW. UNLESS REQUIRED BY LAW, NO COPYRIGHT HOLDER OR CONTRIBUTOR WILL BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES ARISING IN ANY WAY OUT OF THE USE OF THE PACKAGE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

      perform, sublicense and distribute the Original Software (or
portions
      thereof), with or without Modifications, and/or as part of a Larger
      Work; and
      (b) under Patent Claims infringed by the making, using or selling of
      Original Software, to make, have made, use, practice, sell, and
offer
      for sale, and/or otherwise dispose of the Original Software (or
      portions thereof).
      (c) The licenses granted in Sections 2.1(a) and (b) are effective on
      the date Initial Developer first distributes or otherwise makes the
      Original Software available to a third party under the terms of this
      License.
      (d) Notwithstanding Section 2.1(b) above, no patent license is
granted:
      (1) for code that You delete from the Original Software, or (2) for
      infringements caused by: (i) the modification of the Original
Software,
      or (ii) the combination of the Original Software with other software
or
      devices.
   2.2. Contributor Grant.
   Conditioned upon Your compliance with Section 3.1 below and subject to
   third party intellectual property claims, each Contributor hereby
grants
   You a world-wide, royalty-free, non-exclusive license:
      (a) under intellectual property rights (other than patent or
trademark)
      Licensable by Contributor to use, reproduce, modify, display,
perform,
      sublicense and distribute the Modifications created by such
Contributor
      (or portions thereof), either on an unmodified basis, with other
      Modifications, as Covered Software and/or as part of a Larger Work;
and
      (b) under Patent Claims infringed by the making, using, or selling
of
      Modifications made by that Contributor either alone and/or in
      combination with its Contributor Version (or portions of such
```

combination), to make, use, sell, offer for sale, have made, and/or
otherwise dispose of: (1) Modifications made by that Contributor (or
portions thereof); and (2) the combination of Modifications made by
that Contributor with its Contributor Version (or portions of such
combination).
   (c) The licenses granted in Sections 2.2(a) and 2.2(b) are effective
on
   the date Contributor first distributes or otherwise makes the
   Modifications available to a third party.
   (d) Notwithstanding Section 2.2(b) above, no patent license is
granted:
   (1) for any code that Contributor has deleted from the Contributor
   Version; (2) for infringements caused by: (i) third party
modifications
   of Contributor Version, or (ii) the combination of Modifications
made
   by that Contributor with other software (except as part of the
   Contributor Version) or other devices; or (3) under Patent Claims
   infringed by Covered Software in the absence of Modifications made
by
   that Contributor.
  3. Distribution Obligations.
   3.1. Availability of Source Code.
   Any Covered Software that You distribute or otherwise make available
in
   Executable form must also be made available in Source Code form and
that
   Source Code form must be distributed only under the terms of this
License.
   You must include a copy of this License with every copy of the Source
Code
   form of the Covered Software You distribute or otherwise make
available.
   You must inform recipients of any such Covered Software in Executable
form
   as to how they can obtain such Covered Software in Source Code form in
a
   reasonable manner on or through a medium customarily used for software
   exchange.
   3.2. Modifications.
   The Modifications that You create or to which You contribute are
governed
   by the terms of this License. You represent that You believe Your
   Modifications are Your original creation(s) and/or You have sufficient
   rights to grant the rights conveyed by this License.
   3.3. Required Notices.
   You must include a notice in each of Your Modifications that
identifies You
   as the Contributor of the Modification. You may not remove or alter
any
   copyright, patent or trademark notices contained within the Covered
   Software, or any notices of licensing or any descriptive text giving
   attribution to any Contributor or the Initial Developer.

3.4. Application of Additional Terms.
You may not offer or impose any terms on any Covered Software in
Source
Code form that alters or restricts the applicable version of this
License
or the recipients rights hereunder. You may choose to offer, and to
charge
a fee for, warranty, support, indemnity or liability obligations to
one or
more recipients of Covered Software. However, you may do so only on
Your
own behalf, and not on behalf of the Initial Developer or any
Contributor.
You must make it absolutely clear that any such warranty, support,
indemnity or liability obligation is offered by You alone, and You
hereby
agree to indemnify the Initial Developer and every Contributor for any
liability incurred by the Initial Developer or such Contributor as a
result
of warranty, support, indemnity or liability terms You offer.
3.5. Distribution of Executable Versions.
You may distribute the Executable form of the Covered Software under
the
terms of this License or under the terms of a license of Your choice,
which
may contain terms different from this License, provided that You are
in
compliance with the terms of this License and that the license for the
Executable form does not attempt to limit or alter the recipient's
rights
in the Source Code form from the rights set forth in this License. If
You
distribute the Covered Software in Executable form under a different
license, You must make it absolutely clear that any terms which differ
from
this License are offered by You alone, not by the Initial Developer or
Contributor. You hereby agree to indemnify the Initial Developer and
every
Contributor for any liability incurred by the Initial Developer or
such
Contributor as a result of any such terms You offer.
3.6. Larger Works.
You may create a Larger Work by combining Covered Software with other
code
not governed by the terms of this License and distribute the Larger
Work as
a single product. In such a case, You must make sure the requirements
of
this License are fulfilled for the Covered Software.
4. Versions of the License.
4.1. New Versions.
Sun Microsystems, Inc. is the initial license steward and may publish

revised and/or new versions of this License from time to time. Each
version
   will be given a distinguishing version number. Except as provided in
   Section 4.3, no one other than the license steward has the right to
modify
   this License.
   4.2. Effect of New Versions.
   You may always continue to use, distribute or otherwise make the
Covered
   Software available under the terms of the version of the License under
   which You originally received the Covered Software. If the Initial
   Developer includes a notice in the Original Software prohibiting it
from
   being distributed or otherwise made available under any subsequent
version
   of the License, You must distribute and make the Covered Software
available
   under the terms of the version of the License under which You
originally
   received the Covered Software. Otherwise, You may also choose to use,
   distribute or otherwise make the Covered Software available under the
terms
   of any subsequent version of the License published by the license
steward.
   4.3. Modified Versions.
   When You are an Initial Developer and You want to create a new license
for
   Your Original Software, You may create and use a modified version of
this
   License if You: (a) rename the license and remove any references to
the
   name of the license steward (except to note that the license differs
from
   this License); and (b) otherwise make it clear that the license
contains
   terms which differ from this License.
 5.  DISCLAIMER OF WARRANTY.
  COVERED SOFTWARE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS,
WITHOUT
  WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT
  LIMITATION, WARRANTIES THAT THE COVERED SOFTWARE IS FREE OF DEFECTS,
  MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE
RISK
  AS TO THE QUALITY AND PERFORMANCE OF THE COVERED SOFTWARE IS WITH YOU.
SHOULD
  ANY COVERED SOFTWARE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE
INITIAL
  DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY
SERVICING,
  REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN
ESSENTIAL PART
  OF THIS LICENSE. NO USE OF ANY COVERED SOFTWARE IS AUTHORIZED HEREUNDER
EXCEPT

UNDER THIS DISCLAIMER.
6.   TERMINATION.
   6.1. This License and the rights granted hereunder will terminate
   automatically if You fail to comply with terms herein and fail to cure
such
   breach within 30 days of becoming aware of the breach. Provisions
which, by
   their nature, must remain in effect beyond the termination of this
License
   shall survive.
   6.2. If You assert a patent infringement claim (excluding declaratory
   judgment actions) against Initial Developer or a Contributor (the
Initial
   Developer or Contributor against whom You assert such claim is
referred to
   as "Participant") alleging that the Participant Software (meaning the
   Contributor Version where the Participant is a Contributor or the
Original
   Software where the Participant is the Initial Developer) directly or
   indirectly infringes any patent, then any and all rights granted
directly
   or indirectly to You by such Participant, the Initial Developer (if
the
   Initial Developer is not the Participant) and all Contributors under
   Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice
from
   Participant terminate prospectively and automatically at the
expiration of
   such 60 day notice period, unless if within such 60 day period You
withdraw
   Your claim with respect to the Participant Software against such
   Participant either unilaterally or pursuant to a written agreement
with
   Participant.
   6.3. In the event of termination under Sections 6.1 or 6.2 above, all
end
   user licenses that have been validly granted by You or any distributor
   hereunder prior to termination (excluding licenses granted to You by
any
   distributor) shall survive termination.
7.   LIMITATION OF LIABILITY.
  UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT
(INCLUDING
  NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER,
ANY
  OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED SOFTWARE, OR ANY
SUPPLIER OF
  ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL,
  INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT
  LIMITATION, DAMAGES FOR LOST PROFITS, LOSS OF GOODWILL, WORK STOPPAGE,
COMPUTER
  FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR
LOSSES, EVEN

IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH
DAMAGES. THIS
LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR
PERSONAL
INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE
LAW
PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION
OR
LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND
LIMITATION MAY NOT APPLY TO YOU.
8.   U.S. GOVERNMENT END USERS.
The Covered Software is a "commercial item," as that term is defined in
48
C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer software"
(as that
term is defined at 48 C.F.R. 252.227-7014(a)(1)) and "commercial
computer
software documentation" as such terms are used in 48 C.F.R. 12.212
(Sept.
1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through
227.7202-4 (June 1995), all U.S. Government End Users acquire Covered
Software
with only those rights set forth herein. This U.S. Government Rights
clause is
in lieu of, and supersedes, any other FAR, DFAR, or other clause or
provision
that addresses Government rights in computer software under this
License.
9.  MISCELLANEOUS.
This License represents the complete agreement concerning subject matter
hereof. If any provision of this License is held to be unenforceable,
such
provision shall be reformed only to the extent necessary to make it
enforceable. This License shall be governed by the law of the
jurisdiction
specified in a notice contained within the Original Software (except to
the
extent applicable law, if any, provides otherwise), excluding such
jurisdiction's conflict-of-law provisions. Any litigation relating to
this
License shall be subject to the jurisdiction of the courts located in
the
jurisdiction and venue specified in a notice contained within the
Original
Software, with the losing party responsible for costs, including,
without
limitation, court costs and reasonable attorneys' fees and expenses. The
application of the United Nations Convention on Contracts for the
International
Sale of Goods is expressly excluded. Any law or regulation which
provides that
the language of a contract shall be construed against the drafter shall
not

apply to this License. You agree that You alone are responsible for compliance
  with the United States export administration regulations (and the export
  control laws and regulation of any other countries) when You use, distribute or
  otherwise make available any Covered Software.
  10.  RESPONSIBILITY FOR CLAIMS.
  As between Initial Developer and the Contributors, each party is responsible
  for claims and damages arising, directly or indirectly, out of its utilization
  of rights under this License and You agree to work with Initial Developer and
  Contributors to distribute such responsibility on an equitable basis. Nothing
  herein is intended or shall be deemed to constitute any admission of liability.

fifty
percent (50%) of the outstanding shares or beneficial ownership of such
entity.
2. License Grants.
  2.1. The Initial Developer Grant.
  Conditioned upon Your compliance with Section 3.1 below and subject to
third

party intellectual property claims, the Initial Developer hereby grants
You a
  world-wide, royalty-free, non-exclusive license:
    (a) under intellectual property rights (other than patent or
trademark)
    Licensable by Initial Developer, to use, reproduce, modify, display,
perform,
    sublicense and distribute the Original Software (or portions thereof),
with
    or without Modifications, and/or as part of a Larger Work; and
    (b) under Patent Claims infringed by the making, using or selling of
Original
    Software, to make, have made, use, practice, sell, and offer for sale,
and/or
    otherwise dispose of the Original Software (or portions thereof).
    (c) The licenses granted in Sections 2.1(a) and (b) are effective on
the date
    Initial Developer first distributes or otherwise makes the Original
Software
    available to a third party under the terms of this License.
    (d) Notwithstanding Section 2.1(b) above, no patent license is
granted: (1)
    for code that You delete from the Original Software, or (2) for
infringements
    caused by: (i) the modification of the Original Software, or (ii) the
    combination of the Original Software with other software or devices.
  2.2. Contributor Grant.
  Conditioned upon Your compliance with Section 3.1 below and subject to
third
  party intellectual property claims, each Contributor hereby grants You a
  world-wide, royalty-free, non-exclusive license:
    (a) under intellectual property rights (other than patent or
trademark)
    Licensable by Contributor to use, reproduce, modify, display, perform,
    sublicense and distribute the Modifications created by such
Contributor (or
    portions thereof), either on an unmodified basis, with other
Modifications,
    as Covered Software and/or as part of a Larger Work; and
    (b) under Patent Claims infringed by the making, using, or selling of
    Modifications made by that Contributor either alone and/or in
combination
    with its Contributor Version (or portions of such combination), to
make, use,
    sell, offer for sale, have made, and/or otherwise dispose of: (1)
    Modifications made by that Contributor (or portions thereof); and (2)
the
    combination of Modifications made by that Contributor with its
Contributor
    Version (or portions of such combination).
    (c) The licenses granted in Sections 2.2(a) and 2.2(b) are effective
on the

date Contributor first distributes or otherwise makes the
Modifications
    available to a third party.
    (d) Notwithstanding Section 2.2(b) above, no patent license is
granted:
       (1) for any code that Contributor has deleted from the Contributor
Version;
       (2) for infringements caused by: (i) third party modifications of
       Contributor Version, or (ii) the combination of Modifications made
by that
       Contributor with other software (except as part of the Contributor
Version)
       or other devices; or
       (3) under Patent Claims infringed by Covered Software in the absence
of
       Modifications made by that Contributor.
  3. Distribution Obligations.
    3.1. Availability of Source Code.
    Any Covered Software that You distribute or otherwise make available
in
    Executable form must also be made available in Source Code form and
that
    Source Code form must be distributed only under the terms of this
License.
    You must include a copy of this License with every copy of the Source
Code
    form of the Covered Software You distribute or otherwise make
available. You
    must inform recipients of any such Covered Software in Executable form
as to
    how they can obtain such Covered Software in Source Code form in a
reasonable
    manner on or through a medium customarily used for software exchange.
    3.2. Modifications.
    The Modifications that You create or to which You contribute are
governed by
    the terms of this License. You represent that You believe Your
Modifications
    are Your original creation(s) and/or You have sufficient rights to
grant the
    rights conveyed by this License.
    3.3. Required Notices.
    You must include a notice in each of Your Modifications that
identifies You
    as the Contributor of the Modification. You may not remove or alter
any
    copyright, patent or trademark notices contained within the Covered
Software,
    or any notices of licensing or any descriptive text giving attribution
to any
    Contributor or the Initial Developer.
    3.4. Application of Additional Terms.

You may not offer or impose any terms on any Covered Software in Source Code
   form that alters or restricts the applicable version of this License or the
   recipients' rights hereunder. You may choose to offer, and to charge a fee
   for, warranty, support, indemnity or liability obligations to one or more
   recipients of Covered Software. However, you may do so only on Your own
   behalf, and not on behalf of the Initial Developer or any Contributor. You
   must make it absolutely clear that any such warranty, support, indemnity or
   liability obligation is offered by You alone, and You hereby agree to
   indemnify the Initial Developer and every Contributor for any liability
   incurred by the Initial Developer or such Contributor as a result of
   warranty, support, indemnity or liability terms You offer.
   3.5. Distribution of Executable Versions.
   You may distribute the Executable form of the Covered Software under the
   terms of this License or under the terms of a license of Your choice, which
   may contain terms different from this License, provided that You are in
   compliance with the terms of this License and that the license for the
   Executable form does not attempt to limit or alter the recipient's rights in
   the Source Code form from the rights set forth in this License. If You
   distribute the Covered Software in Executable form under a different license,
   You must make it absolutely clear that any terms which differ from this
   License are offered by You alone, not by the Initial Developer or
   Contributor. You hereby agree to indemnify the Initial Developer and every
   Contributor for any liability incurred by the Initial Developer or such
   Contributor as a result of any such terms You offer.
   3.6. Larger Works.
   You may create a Larger Work by combining Covered Software with other code
   not governed by the terms of this License and distribute the Larger Work as a
   single product. In such a case, You must make sure the requirements of this
   License are fulfilled for the Covered Software.
  4. Versions of the License.
   4.1. New Versions.
   Oracle is the initial license steward and may publish revised and/or new

versions of this License from time to time. Each version will be given a

distinguishing version number. Except as provided in Section 4.3, no one

other than the license steward has the right to modify this License.

4.2. Effect of New Versions.

You may always continue to use, distribute or otherwise make the Covered

Software available under the terms of the version of the License under which

You originally received the Covered Software. If the Initial Developer

includes a notice in the Original Software prohibiting it from being

distributed or otherwise made available under any subsequent version of the

License, You must distribute and make the Covered Software available under

the terms of the version of the License under which You originally received

the Covered Software. Otherwise, You may also choose to use, distribute or

otherwise make the Covered Software available under the terms of any

subsequent version of the License published by the license steward.

4.3. Modified Versions.

When You are an Initial Developer and You want to create a new license for

Your Original Software, You may create and use a modified version of this

License if You: (a) rename the license and remove any references to the name

of the license steward (except to note that the license differs from this

License); and (b) otherwise make it clear that the license contains terms

which differ from this License.

5. DISCLAIMER OF WARRANTY.

COVERED SOFTWARE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS, WITHOUT

WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT

LIMITATION, WARRANTIES THAT THE COVERED SOFTWARE IS FREE OF DEFECTS,

MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK

AS TO THE QUALITY AND PERFORMANCE OF THE COVERED SOFTWARE IS WITH YOU. SHOULD

ANY COVERED SOFTWARE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL

DEVELOPER OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING,

REPAIR OR CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART

OF THIS LICENSE. NO USE OF ANY COVERED SOFTWARE IS AUTHORIZED HEREUNDER EXCEPT

UNDER THIS DISCLAIMER.

6. TERMINATION.

6.1. This License and the rights granted hereunder will terminate
automatically if You fail to comply with terms herein and fail to cure
such
breach within 30 days of becoming aware of the breach. Provisions
which, by
their nature, must remain in effect beyond the termination of this
License
shall survive.
6.2. If You assert a patent infringement claim (excluding declaratory
judgment actions) against Initial Developer or a Contributor (the
Initial
Developer or Contributor against whom You assert such claim is
referred to as
"Participant") alleging that the Participant Software (meaning the
Contributor Version where the Participant is a Contributor or the
Original
Software where the Participant is the Initial Developer) directly or
indirectly infringes any patent, then any and all rights granted
directly or
indirectly to You by such Participant, the Initial Developer (if the
Initial
Developer is not the Participant) and all Contributors under Sections
2.1
and/or 2.2 of this License shall, upon 60 days notice from Participant
terminate prospectively and automatically at the expiration of such 60
day
notice period, unless if within such 60 day period You withdraw Your
claim
with respect to the Participant Software against such Participant
either
unilaterally or pursuant to a written agreement with Participant.
6.3. If You assert a patent infringement claim against Participant
alleging
that the Participant Software directly or indirectly infringes any
patent
where such claim is resolved (such as by license or settlement) prior
to the
initiation of patent infringement litigation, then the reasonable
value of
the licenses granted by such Participant under Sections 2.1 or 2.2
shall be
taken into account in determining the amount or value of any payment
or
license.
6.4. In the event of termination under Sections 6.1 or 6.2 above, all
end
user licenses that have been validly granted by You or any distributor
hereunder prior to termination (excluding licenses granted to You by
any
distributor) shall survive termination.
  7. LIMITATION OF LIABILITY.
  UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT
(INCLUDING

NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE INITIAL DEVELOPER, ANY

OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED SOFTWARE, OR ANY SUPPLIER OF

ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL,

INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT

LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR

MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH

PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS

LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL

INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW

PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR

LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND

LIMITATION MAY NOT APPLY TO YOU.

8. U.S. GOVERNMENT END USERS.

The Covered Software is a "commercial item," as that term is defined in 48

C.F.R. 2.101 (Oct. 1995), consisting of "commercial computer software" (as that

term is defined at 48 C.F.R. § 252.227-7014(a)(1)) and "commercial computer

software documentation" as such terms are used in 48 C.F.R. 12.212 (Sept.

1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through

227.7202-4 (June 1995), all U.S. Government End Users acquire Covered Software

with only those rights set forth herein. This U.S. Government Rights clause is

in lieu of, and supersedes, any other FAR, DFAR, or other clause or provision

that addresses Government rights in computer software under this License.

9. MISCELLANEOUS.

extent applicable law, if any, provides otherwise), excluding such

jurisdiction's conflict-of-law provisions. Any litigation relating to this

License shall be subject to the jurisdiction of the courts located in the

jurisdiction and venue specified in a notice contained within the Original

without
  limitation, court costs and reasonable attorneys' fees and expenses. The

distribute or
  otherwise make available any Covered Software.
  10. RESPONSIBILITY FOR CLAIMS.
  As between Initial Developer and the Contributors, each party is
responsible
  for claims and damages arising, directly or indirectly, out of its
utilization

Developer and
  Contributors to distribute such responsibility on an equitable basis.
Nothing
  herein is intended or shall be deemed to constitute any admission of
liability.

Common Public License 1.0
(WSDL4J 1.6.3)

Common Public License Version 1.0
==================================
THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS COMMON PUBLIC
LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE
PROGRAM
CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.
1. DEFINITIONS
"Contribution" means:

a) in the case of the initial Contributor, the initial code and
documentation distributed under this Agreement, and
b) in the case of each subsequent Contributor:
i) changes to the Program, and
ii) additions to the Program;
where such changes and/or additions to the Program originate from
and are
distributed by that particular Contributor. A Contribution
'originates'
from a Contributor if it was added to the Program by such
Contributor
itself or anyone acting on such Contributor's behalf. Contributions
do not
include additions to the Program which: (i) are separate modules of
software distributed in conjunction with the Program under their own
license agreement, and (ii) are not derivative works of the Program.
"Contributor" means any person or entity that distributes the Program.
"Licensed Patents " mean patent claims licensable by a Contributor which
are
necessarily infringed by the use or sale of its Contribution alone or when
combined with the Program.
"Program" means the Contributions distributed in accordance with this
Agreement.
"Recipient" means anyone who receives the Program under this Agreement,
including
all Contributors.
2. GRANT OF RIGHTS
a) Subject to the terms of this Agreement, each Contributor hereby
grants
Recipient a non-exclusive, worldwide, royalty-free copyright license
to
reproduce, prepare derivative works of, publicly display, publicly
perform,
distribute and sublicense the Contribution of such Contributor, if
any, and
such derivative works, in source code and object code form.
b) Subject to the terms of this Agreement, each Contributor hereby
grants
Recipient a non-exclusive, worldwide, royalty-free patent license
under
Licensed Patents to make, use, sell, offer to sell, import and
otherwise
transfer the Contribution of such Contributor, if any, in source
code and
object code form. This patent license shall apply to the combination
of the
Contribution and the Program if, at the time the Contribution is
added by
the Contributor, such addition of the Contribution causes such
combination
to be covered by the Licensed Patents. The patent license shall not
apply

to any other combinations which include the Contribution. No hardware per
se is licensed hereunder.
c) Recipient understands that although each Contributor grants the licenses
to its Contributions set forth herein, no assurances are provided by any
Contributor that the Program does not infringe the patent or other
intellectual property rights of any other entity. Each Contributor
disclaims any liability to Recipient for claims brought by any other entity
based on infringement of intellectual property rights or otherwise. As a
condition to exercising the rights and licenses granted hereunder, each
Recipient hereby assumes sole responsibility to secure any other
intellectual property rights needed, if any. For example, if a third party
patent license is required to allow Recipient to distribute the Program, it
is Recipient's responsibility to acquire that license before distributing
the Program.
d) Each Contributor represents that to its knowledge it has sufficient
copyright rights in its Contribution, if any, to grant the copyright
license set forth in this Agreement.
3. REQUIREMENTS
A Contributor may choose to distribute the Program in object code form under its
own license agreement, provided that:
a) it complies with the terms and conditions of this Agreement; and
b) its license agreement:
i) effectively disclaims on behalf of all Contributors all warranties and
conditions, express and implied, including warranties or conditions of
title and non-infringement, and implied warranties or conditions of
merchantability and fitness for a particular purpose;
ii) effectively excludes on behalf of all Contributors all liability for
damages, including direct, indirect, special, incidental and consequential
damages, such as lost profits;
iii) states that any provisions which differ from this Agreement are
offered by that Contributor alone and not by any other party; and
iv) states that source code for the Program is available from such
Contributor, and informs licensees how to obtain it in a reasonable manner
on or through a medium customarily used for software exchange.
When the Program is made available in source code form:
a) it must be made available under this Agreement
; and

---

   b) a copy of this Agreement must be included with each copy of the
Program.
Contributors may not remove or alter any copyright notices contained
within the
Program.
Each Contributor must identify itself as the originator of its
Contribution, if
any, in a manner that reasonably allows subsequent Recipients to identify
the
originator of the Contribution.
4. COMMERCIAL DISTRIBUTION
Commercial distributors of software may accept certain responsibilities
with
respect to end users, business partners and the like. While this license
is
intended to facilitate the commercial use of the Program, the Contributor
who
includes the Program in a commercial product offering should do so in a
manner
which does not create potential liability for other Contributors.
Therefore, if a
Contributor includes the Program in a commercial product offering, such
Contributor ("Commercial Contributor") hereby agrees to defend and
indemnify
every other Contributor ("Indemnified Contributor") against any losses,
damages
and costs (collectively "Losses") arising from claims, lawsuits and other
legal
actions brought by a third party against the Indemnified Contributor to
the
extent caused by the acts or omissions of such Commercial Contributor in
connection with its distribution of the Program in a commercial product
offering.
The obligations in this section do not apply to any claims or Losses
relating to
any actual or alleged intellectual property infringement. In order to
qualify, an
Indemnified Contributor must: a) promptly notify the Commercial
Contributor in
writing of such claim, and b) allow the Commercial Contributor to control,
and
cooperate with the Commercial Contributor in, the defense and any related
settlement negotiations. The Indemnified Contributor may participate in
any such
claim at its own expense.
For example, a Contributor might include the Program in a commercial
product
offering, Product X. That Contributor is then a Commercial Contributor. If
that
Commercial Contributor then makes performance claims, or offers warranties
related to Product X, those performance claims and warranties are such
Commercial
Contributor's responsibility alone. Under this section, the Commercial

Contributor would have to defend claims against the other Contributors related to
those performance claims and warranties, and if a court requires any other
Contributor to pay any damages as a result, the Commercial Contributor must pay
those damages.
5. NO WARRANTY
EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN
"AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR
IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE,
NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each
Recipient is solely responsible for determining the appropriateness of using and
distributing the Program and assumes all risks associated with its exercise of
rights under this Agreement, including but not limited to the risks and costs of
program errors, compliance with applicable laws, damage to or loss of data,
programs or equipment, and unavailability or interruption of operations.
6. DISCLAIMER OF LIABILITY
EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY
CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL,
SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST
PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT,
STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY
OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS
GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
7. GENERAL
If any provision of this Agreement is invalid or unenforceable under applicable
law, it shall not affect the validity or enforceability of the remainder of the
terms of this Agreement, and without further action by the parties hereto, such
provision shall be reformed to the minimum extent necessary to make such
provision valid and enforceable.
If Recipient institutes patent litigation against a Contributor with respect to a
patent applicable to software (including a cross-claim or counterclaim in a
lawsuit), then any patent licenses granted by that Contributor to such Recipient

under this Agreement shall terminate as of the date such litigation is
filed. In
addition, if Recipient institutes patent litigation against any entity
(including
a cross-claim or counterclaim in a lawsuit) alleging that the Program
itself
(excluding combinations of the Program with other software or hardware)
infringes
such Recipient's patent(s), then such Recipient's rights granted under
Section
2(b) shall terminate as of the date such litigation is filed.
All Recipient's rights under this Agreement shall terminate if it fails to
comply
with any of the material terms or conditions of this Agreement and does
not cure
such failure in a reasonable period of time after becoming aware of such
noncompliance. If all Recipient's rights under this Agreement terminate,
Recipient agrees to cease use and distribution of the Program as soon as
reasonably practicable. However, Recipient's obligations under this
Agreement and
any licenses granted by Recipient relating to the Program shall continue
and
survive.
Everyone is permitted to copy and distribute copies of this Agreement, but
in
order to avoid inconsistency the Agreement is copyrighted and may only be
modified in the following manner. The Agreement Steward reserves the right
to
publish new versions (including revisions) of this Agreement from time to
time.
No one other than the Agreement Steward has the right to modify this
Agreement.
IBM is the initial Agreement Steward. IBM may assign the responsibility to
serve
as the Agreement Steward to a suitable separate entity. Each new version
of the
Agreement will be given a distinguishing version number. The Program
(including
Contributions) may always be distributed subject to the version of the
Agreement
under which it was received. In addition, after a new version of the
Agreement is
published, Contributor may elect to distribute the Program (including its
Contributions) under the new version. Except as expressly stated in
Sections 2(a)
and 2(b) above, Recipient receives no rights or licenses to the
intellectual
property of any Contributor under this Agreement, whether expressly, by
implication, estoppel or otherwise. All rights in the Program not
expressly
granted under this Agreement are reserved.
This Agreement is governed by the laws of the State of New York and the

intellectual property laws of the United States of America. No party to
this
Agreement will bring a legal action under this Agreement more than one
year after
the cause of action arose. Each party waives its rights to a jury trial in
any
resulting litigation.

THE WORK (AS DEFINED BELOW) IS PROVIDED UNDER THE TERMS OF THIS CREATIVE
COMMONS
PUBLIC LICENSE ("CCPL" OR "LICENSE"). THE WORK IS PROTECTED BY COPYRIGHT
AND/OR
OTHER APPLICABLE LAW. ANY USE OF THE WORK OTHER THAN AS AUTHORIZED UNDER
THIS
LICENSE OR COPYRIGHT LAW IS PROHIBITED.
BY EXERCISING ANY RIGHTS TO THE WORK PROVIDED HERE, YOU ACCEPT AND AGREE
TO BE
BOUND BY THE TERMS OF THIS LICENSE. THE LICENSOR GRANTS YOU THE RIGHTS
CONTAINED
HERE IN CONSIDERATION OF YOUR ACCEPTANCE OF SUCH TERMS AND CONDITIONS.
1. Definitions
   a. "Collective Work" means a work, such as a periodical issue, anthology
or
     encyclopedia, in which the Work in its entirety in unmodified form,
along
     with a number of other contributions, constituting separate and
independent
     works in themselves, are assembled into a collective whole. A work
that
     constitutes a Collective Work will not be considered a Derivative Work
(as
     defined below) for the purposes of this License.
   b. "Derivative Work" means a work based upon the Work or upon the Work
and
     other pre-existing works, such as a translation, musical arrangement,

      dramatization, fictionalization, motion picture version, sound
recording, art
      reproduction, abridgment, condensation, or any other form in which the
Work
      may be recast, transformed, or adapted, except that a work that
constitutes a
      Collective Work will not be considered a Derivative Work for the
purpose of
      this License. For the avoidance of doubt, where the Work is a musical
      composition or sound recording, the synchronization of the Work in
      timed-relation with a moving image ("synching") will be considered a
      Derivative Work for the purpose of this License.
   c. "Licensor" means the individual or entity that offers the Work under
the
      terms of this License.
   d. "Original Author" means the individual or entity who created the
Work.
   e. "Work" means the copyrightable work of authorship offered under the
terms of
      this License.
   f. "You" means an individual or entity exercising rights under this
License who
      has not previously violated the terms of this License with respect to
the
      Work, or who has received express permission from the Licensor to
exercise
      rights under this License despite a previous violation.
2. Fair Use Rights. Nothing in this license is intended to reduce, limit,
or
restrict any rights arising from fair use, first sale or other limitations
on the
exclusive rights of the copyright owner under copyright law or other
applicable
laws.
3. License Grant. Subject to the terms and conditions of this License,
Licensor
hereby grants You a worldwide, royalty-free, non-exclusive, perpetual (for
the
duration of the applicable copyright) license to exercise the rights in
the Work
as stated below:
   a. to reproduce the Work, to incorporate the Work into one or more
Collective
      Works, and to reproduce the Work as incorporated in the Collective
Works;
   b. to create and reproduce Derivative Works;
   c.  to distribute copies or phonorecords of, display publicly, perform
      publicly, and perform publicly by means of a digital audio
transmission the
      Work including as incorporated in Collective Works;
   d.  to distribute copies or phonorecords of, display publicly, perform
      publicly, and perform publicly by means of a digital audio
transmission

    Derivative Works.
  e.  For the avoidance of doubt, where the work is a musical composition:
      i. Performance Royalties Under Blanket Licenses. Licensor waives the
         exclusive right to collect, whether individually or via a
performance
         rights society (e.g. ASCAP, BMI, SESAC), royalties for the public
         performance or public digital performance (e.g. webcast) of the
Work.
      ii. Mechanical Rights and Statutory Royalties. Licensor waives the
         exclusive right to collect, whether individually or via a music
rights
         agency or designated agent (e.g. Harry Fox Agency), royalties for
any
         phonorecord You create from the Work ("cover version") and
distribute,
         subject to the compulsory license created by 17 USC Section 115 of
the US
         Copyright Act (or the equivalent in other jurisdictions).
  f. Webcasting Rights and Statutory Royalties. For the avoidance of
doubt, where
     the Work is a sound recording, Licensor waives the exclusive right to
     collect, whether individually or via a performance-rights society
(e.g.
     SoundExchange), royalties for the public digital performance (e.g.
webcast)
     of the Work, subject to the compulsory license created by 17 USC
Section 114
     of the US Copyright Act (or the equivalent in other jurisdictions).
The above rights may be exercised in all media and formats whether now
known or
hereafter devised. The above rights include the right to make such
modifications
as are technically necessary to exercise the rights in other media and
formats.
All rights not expressly granted by Licensor are hereby reserved.
4. Restrictions. The license granted in Section 3 above is expressly made
subject
to and limited by the following restrictions:
  a.  You may distribute, publicly display, publicly perform, or publicly
     digitally perform the Work only under the terms of this License, and
You must
     include a copy of, or the Uniform Resource Identifier for, this
License with
     every copy or phonorecord of the Work You distribute, publicly
display,
     publicly perform, or publicly digitally perform. You may not offer or
impose
     any terms on the Work that alter or restrict the terms of this License
or the
     recipients' exercise of the rights granted hereunder. You may not
sublicense
     the Work. You must keep intact all notices that refer to this License
and to

the disclaimer of warranties. You may not distribute, publicly display,
   publicly perform, or publicly digitally perform the Work with any
   technological measures that control access or use of the Work in a manner
   inconsistent with the terms of this License Agreement. The above applies to
   the Work as incorporated in a Collective Work, but this does not require the
   Collective Work apart from the Work itself to be made subject to the terms of
   this License. If You create a Collective Work, upon notice from any Licensor
   You must, to the extent practicable, remove from the Collective Work any
   credit as required by clause 4(b), as requested. If You create a Derivative
   Work, upon notice from any Licensor You must, to the extent practicable,
   remove from the Derivative Work any credit as required by clause 4(b), as
   requested.
   b.  If you distribute, publicly display, publicly perform, or publicly
   digitally perform the Work or any Derivative Works or Collective Works, You
   must keep intact all copyright notices for the Work and provide, reasonable
   to the medium or means You are utilizing: (i) the name of the Original Author
   (or pseudonym, if applicable) if supplied, and/or (ii) if the Original Author
   and/or Licensor designate another party or parties (e.g. a sponsor institute,
   publishing entity, journal) for attribution in Licensor's copyright notice,
   terms of service or by other reasonable means, the name of such party or
   parties; the title of the Work if supplied; to the extent reasonably
   practicable, the Uniform Resource Identifier, if any, that Licensor specifies
   to be associated with the Work, unless such URI does not refer to the
   copyright notice or licensing information for the Work; and in the case of a
   Derivative Work, a credit identifying the use of the Work in the Derivative
   Work (e.g., "French translation of the Work by Original Author," or
   "Screenplay based on original Work by Original Author"). Such credit may be
   implemented in any reasonable manner; provided, however, that in the case of
   a Derivative Work or Collective Work, at a minimum such credit will appear

    where any other comparable authorship credit appears and in a manner
at least
    as prominent as such other comparable authorship credit.
5. Representations, Warranties and Disclaimer
UNLESS OTHERWISE MUTUALLY AGREED TO BY THE PARTIES IN WRITING, LICENSOR
OFFERS
THE WORK AS-IS AND MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND
CONCERNING
THE WORK, EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING, WITHOUT
LIMITATION, WARRANTIES OF TITLE, MERCHANTIBILITY, FITNESS FOR A PARTICULAR
PURPOSE, NONINFRINGEMENT, OR THE ABSENCE OF LATENT OR OTHER DEFECTS,
ACCURACY, OR
THE PRESENCE OF ABSENCE OF ERRORS, WHETHER OR NOT DISCOVERABLE. SOME
JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES, SO SUCH
EXCLUSION
MAY NOT APPLY TO YOU.
6. Limitation on Liability. EXCEPT TO THE EXTENT REQUIRED BY APPLICABLE
LAW, IN
NO EVENT WILL LICENSOR BE LIABLE TO YOU ON ANY LEGAL THEORY FOR ANY
SPECIAL,
INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES ARISING OUT OF
THIS
LICENSE OR THE USE OF THE WORK, EVEN IF LICENSOR HAS BEEN ADVISED OF THE
POSSIBILITY OF SUCH DAMAGES.
7. Termination
  a.  This License and the rights granted hereunder will terminate
automatically
    upon any breach by You of the terms of this License. Individuals or
entities
    who have received Derivative Works or Collective Works from You under
this
    License, however, will not have their licenses terminated provided
such
    individuals or entities remain in full compliance with those licenses.
    Sections 1, 2, 5, 6, 7, and 8 will survive any termination of this
License.
  b.  Subject to the above terms and conditions, the license granted here
is
    perpetual (for the duration of the applicable copyright in the Work).
    Notwithstanding the above, Licensor reserves the right to release the
Work
    under different license terms or to stop distributing the Work at any
time;
    provided, however that any such election will not serve to withdraw
this
    License (or any other license that has been, or is required to be,
granted
    under the terms of this License), and this License will continue in
full
    force and effect unless terminated as stated above.
8. Miscellaneous
  a.  Each time You distribute or publicly digitally perform the Work or a

    Collective Work, the Licensor offers to the recipient a license to the
Work
    on the same terms and conditions as the license granted to You under
this
    License.
  b.  Each time You distribute or publicly digitally perform a Derivative
Work,
    Licensor offers to the recipient a license to the original Work on the
same
    terms and conditions as the license granted to You under this License.
  c.  If any provision of this License is invalid or unenforceable under
    applicable law, it shall not affect the validity or enforceability of
the
    remainder of the terms of this License, and without further action by
the
    parties to this agreement, such provision shall be reformed to the
minimum
    extent necessary to make such provision valid and enforceable.
  d.  No term or provision of this License shall be deemed waived and no
breach
    consented to unless such waiver or consent shall be in writing and
signed by
    the party to be charged with such waiver or consent.
  e.  This License constitutes the entire agreement between the parties
with
    respect to the Work licensed here. There are no understandings,
agreements or
    representations with respect to the Work not specified here. Licensor
shall
    not be bound by any additional provisions that may appear in any
    communication from You. This License may not be modified without the
mutual
    written agreement of the Licensor and You.
----------------------------------------------------------------------

Creative Commons is not a party to this License, and makes no warranty
whatsoever
in connection with the Work. Creative Commons will not be liable to You or
any
party on any legal theory for any damages whatsoever, including without
limitation any general, special, incidental or consequential damages
arising in
connection to this license. Notwithstanding the foregoing two (2)
sentences, if
Creative Commons has expressly identified itself as the Licensor
hereunder, it
shall have all rights and obligations of Licensor.
Except for the limited purpose of indicating to the public that the Work
is
licensed under the CCPL, neither party will use the trademark "Creative

1. Definitions
  a. "Adaptation" means a work based upon the Work, or upon the Work and
other
     pre-existing works, such as a translation, adaptation, derivative
work,
     arrangement of music or other alterations of a literary or artistic
work, or
     phonogram or performance and includes cinematographic adaptations or
any
     other form in which the Work may be recast, transformed, or adapted
including
     in any form recognizably derived from the original, except that a work
that
     constitutes a Collection will not be considered an Adaptation for the
purpose

of this License. For the avoidance of doubt, where the Work is a

timed-relation with a moving image ("synching") will be considered an
Adaptation for the purpose of this License.
  b. "Collection" means a collection of literary or artistic works, such
as
encyclopedias and anthologies, or performances, phonograms or
broadcasts, or
other works or subject matter other than works listed in Section 1(f)
below,
which, by reason of the selection and arrangement of their contents,
constitute intellectual creations, in which the Work is included in
its
entirety in unmodified form along with one or more other
contributions, each
constituting separate and independent works in themselves, which
together are
assembled into a collective whole. A work that constitutes a
Collection will
not be considered an Adaptation (as defined above) for the purposes of
this
License.
  c. "Distribute" means to make available to the public the original and
copies
of the Work or Adaptation, as appropriate, through sale or other
transfer of
ownership.
  d. "Licensor" means the individual, individuals, entity or entities that
offer(s) the Work under the terms of this License.
  e. "Original Author" means, in the case of a literary or artistic work,
the
individual, individuals, entity or entities who created the Work or if
no
individual or entity can be identified, the publisher; and in addition
(i) in
the case of a performance the actors, singers, musicians, dancers, and
other
persons who act, sing, deliver, declaim, play in, interpret or
otherwise
perform literary or artistic works or expressions of folklore; (ii) in
the
case of a phonogram the producer being the person or legal entity who
first
fixes the sounds of a performance or other sounds; and, (iii) in the
case of
broadcasts, the organization that transmits the broadcast.
  f. "Work" means the literary and/or artistic work offered under the
terms of
this License including without limitation any production in the
literary,
scientific and artistic domain, whatever may be the mode or form of
its

expression including digital form, such as a book, pamphlet and other
writing; a lecture, address, sermon or other work of the same nature; a
dramatic or dramatico-musical work; a choreographic work or entertainment in

expressed by a process analogous to photography; a work of applied art; an
illustration, map, plan, sketch or three-dimensional work relative to
geography, topography, architecture or science; a performance; a broadcast; a
phonogram; a compilation of data to the extent it is protected as a
copyrightable work; or a work performed by a variety or circus performer to
the extent it is not otherwise considered a literary or artistic work.
  g. "You" means an individual or entity exercising rights under this License who
    has not previously violated the terms of this License with respect to the
    Work, or who has received express permission from the Licensor to exercise
    rights under this License despite a previous violation.
  h. "Publicly Perform" means to perform public recitations of the Work and to
    communicate to the public those public recitations, by any means or process,
    including by wire or wireless means or public digital performances; to make
    available to the public Works in such a way that members of the public may
    access these Works from a place and at a place individually chosen by them;
    to perform the Work to the public by any means or process and the
    communication to the public of the performances of the Work, including by
    public digital performance; to broadcast and rebroadcast the Work by any
    means including signs, sounds or images.
  i. "Reproduce" means to make copies of the Work by any means including without
    limitation by sound or visual recordings and the right of fixation and
    reproducing fixations of the Work, including storage of a protected
    performance or phonogram in digital form or other electronic medium.
2. Fair Dealing Rights. Nothing in this License is intended to reduce, limit, or
restrict any uses free from copyright or rights arising from limitations or

exceptions that are provided for in connection with the copyright
protection
under copyright law or other applicable laws.
3. License Grant. Subject to the terms and conditions of this License,
Licensor
hereby grants You a worldwide, royalty-free, non-exclusive, perpetual (for
the
duration of the applicable copyright) license to exercise the rights in
the Work
as stated below:
  a. to Reproduce the Work, to incorporate the Work into one or more
Collections,
    and to Reproduce the Work as incorporated in the Collections;
  b. to create and Reproduce Adaptations provided that any such
Adaptation,
    including any translation in any medium, takes reasonable steps to
clearly
    label, demarcate or otherwise identify that changes were made to the
original
    Work. For example, a translation could be marked "The original work
was
    translated from English to Spanish," or a modification could indicate
"The
    original work has been modified.";
  c. to Distribute and Publicly Perform the Work including as incorporated
in
    Collections; and,
  d. to Distribute and Publicly Perform Adaptations.
  e.
    For the avoidance of doubt:
      i. Non-waivable Compulsory License Schemes. In those jurisdictions
in which
        the right to collect royalties through any statutory or compulsory
        licensing scheme cannot be waived, the Licensor reserves the
exclusive
        right to collect such royalties for any exercise by You of the
rights
        granted under this License;
      ii. Waivable Compulsory License Schemes. In those jurisdictions in
which
        the right to collect royalties through any statutory or compulsory
        licensing scheme can be waived, the Licensor waives the exclusive
right
        to collect such royalties for any exercise by You of the rights
granted
        under this License; and,
      iii. Voluntary License Schemes. The Licensor waives the right to
collect
        royalties, whether individually or, in the event that the Licensor
is a
        member of a collecting society that administers voluntary
licensing

        schemes, via that society, from any exercise by You of the rights
granted
        under this License.
The above rights may be exercised in all media and formats whether now
known or
hereafter devised. The above rights include the right to make such
modifications
as are technically necessary to exercise the rights in other media and
formats.
Subject to Section 8(f), all rights not expressly granted by Licensor are
hereby
reserved.
4. Restrictions. The license granted in Section 3 above is expressly made
subject
to and limited by the following restrictions:
  a. You may Distribute or Publicly Perform the Work only under the terms
of this
     License. You must include a copy of, or the Uniform Resource
Identifier (URI)
     for, this License with every copy of the Work You Distribute or
Publicly
     Perform. You may not offer or impose any terms on the Work that
restrict the
     terms of this License or the ability of the recipient of the Work to
exercise
     the rights granted to that recipient under the terms of the License.
You may
     not sublicense the Work. You must keep intact all notices that refer
to this
     License and to the disclaimer of warranties with every copy of the
Work You
     Distribute or Publicly Perform. When You Distribute or Publicly
Perform the
     Work, You may not impose any effective technological measures on the
Work
     that restrict the ability of a recipient of the Work from You to
exercise the
     rights granted to that recipient under the terms of the License. This
Section
     4(a) applies to the Work as incorporated in a Collection, but this
does not
     require the Collection apart from the Work itself to be made subject
to the
     terms of this License. If You create a Collection, upon notice from
any
     Licensor You must, to the extent practicable, remove from the
Collection any
     credit as required by Section 4(b), as requested. If You create an
     Adaptation, upon notice from any Licensor You must, to the extent
     practicable, remove from the Adaptation any credit as required by
Section
     4(b), as requested.
  b. If You Distribute, or Publicly Perform the Work or any Adaptations or

Collections, You must, unless a request has been made pursuant to Section
   4(a), keep intact all copyright notices for the Work and provide, reasonable
   to the medium or means You are utilizing: (i) the name of the Original Author
   (or pseudonym, if applicable) if supplied, and/or if the Original Author
   and/or Licensor designate another party or parties (e.g., a sponsor
   institute, publishing entity, journal) for attribution ("Attribution
   Parties") in Licensor's copyright notice, terms of service or by other
   reasonable means, the name of such party or parties; (ii) the title of the
   Work if supplied; (iii) to the extent reasonably practicable, the URI, if
   any, that Licensor specifies to be associated with the Work, unless such URI
   does not refer to the copyright notice or licensing information for the Work;
   and (iv) , consistent with Section 3(b), in the case of an Adaptation, a
   credit identifying the use of the Work in the Adaptation (e.g., "French
   translation of the Work by Original Author," or "Screenplay based on original
   Work by Original Author"). The credit required by this Section 4 (b) may be
   implemented in any reasonable manner; provided, however, that in the case of
   a Adaptation or Collection, at a minimum such credit will appear, if a credit
   for all contributing authors of the Adaptation or Collection appears, then as
   part of these credits and in a manner at least as prominent as the credits
   for the other contributing authors. For the avoidance of doubt, You may only
   use the credit required by this Section for the purpose of attribution in the
   manner set out above and, by exercising Your rights under this License, You
   may not implicitly or explicitly assert or imply any connection with,
   sponsorship or endorsement by the Original Author, Licensor and/or
   Attribution Parties, as appropriate, of You or Your use of the Work, without
   the separate, express prior written permission of the Original Author,
   Licensor and/or Attribution Parties.
  c. Except as otherwise agreed in writing by the Licensor or as may be otherwise
   permitted by applicable law, if You Reproduce, Distribute or Publicly Perform
   the Work either by itself or as part of any Adaptations or Collections, You

must not distort, mutilate, modify or take other derogatory action in
relation to the Work which would be prejudicial to the Original
Author's
honor or reputation. Licensor agrees that in those jurisdictions (e.g.
Japan), in which any exercise of the right granted in Section 3(b) of
this
License (the right to make Adaptations) would be deemed to be a
distortion,
mutilation, modification or other derogatory action prejudicial to the
Original Author's honor and reputation, the Licensor will waive or not
assert, as appropriate, this Section, to the fullest extent permitted
by the
applicable national law, to enable You to reasonably exercise Your
right
under Section 3(b) of this License (right to make Adaptations) but not
otherwise.
5. Representations, Warranties and Disclaimer
UNLESS OTHERWISE MUTUALLY AGREED TO BY THE PARTIES IN WRITING, LICENSOR
OFFERS
THE WORK AS-IS AND MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND
CONCERNING
THE WORK, EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING, WITHOUT
LIMITATION, WARRANTIES OF TITLE, MERCHANTIBILITY, FITNESS FOR A PARTICULAR
PURPOSE, NONINFRINGEMENT, OR THE ABSENCE OF LATENT OR OTHER DEFECTS,
ACCURACY, OR
THE PRESENCE OF ABSENCE OF ERRORS, WHETHER OR NOT DISCOVERABLE. SOME
JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES, SO SUCH
EXCLUSION
MAY NOT APPLY TO YOU.
6. Limitation on Liability. EXCEPT TO THE EXTENT REQUIRED BY APPLICABLE
LAW, IN
NO EVENT WILL LICENSOR BE LIABLE TO YOU ON ANY LEGAL THEORY FOR ANY
SPECIAL,
INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES ARISING OUT OF
THIS
LICENSE OR THE USE OF THE WORK, EVEN IF LICENSOR HAS BEEN ADVISED OF THE
POSSIBILITY OF SUCH DAMAGES.
7. Termination
  a. This License and the rights granted hereunder will terminate
automatically
    upon any breach by You of the terms of this License. Individuals or
entities
    who have received Adaptations or Collections from You under this
License,
    however, will not have their licenses terminated provided such
individuals or
    entities remain in full compliance with those licenses. Sections 1, 2,
5, 6,
    7, and 8 will survive any termination of this License.
  b. Subject to the above terms and conditions, the license granted here
is
    perpetual (for the duration of the applicable copyright in the Work).

    Notwithstanding the above, Licensor reserves the right to release the
Work
    under different license terms or to stop distributing the Work at any
time;
    provided, however that any such election will not serve to withdraw
this
    License (or any other license that has been, or is required to be,
granted
    under the terms of this License), and this License will continue in
full
    force and effect unless terminated as stated above.
8. Miscellaneous
  a. Each time You Distribute or Publicly Perform the Work or a
Collection, the
    Licensor offers to the recipient a license to the Work on the same
terms and
    conditions as the license granted to You under this License.
  b. Each time You Distribute or Publicly Perform an Adaptation, Licensor
offers
    to the recipient a license to the original Work on the same terms and
    conditions as the license granted to You under this License.
  c. If any provision of this License is invalid or unenforceable under
    applicable law, it shall not affect the validity or enforceability of
the
    remainder of the terms of this License, and without further action by
the
    parties to this agreement, such provision shall be reformed to the
minimum
    extent necessary to make such provision valid and enforceable.
  d. No term or provision of this License shall be deemed waived and no
breach
    consented to unless such waiver or consent shall be in writing and
signed by
    the party to be charged with such waiver or consent.
  e. This License constitutes the entire agreement between the parties
with
    respect to the Work licensed here. There are no understandings,
agreements or
    representations with respect to the Work not specified here. Licensor
shall
    not be bound by any additional provisions that may appear in any
    communication from You. This License may not be modified without the
mutual
    written agreement of the Licensor and You.
  f. The rights granted under, and the subject matter referenced, in this
License
    were drafted utilizing the terminology of the Berne Convention for the
    Protection of Literary and Artistic Works (as amended on September 28,
1979),
    the Rome Convention of 1961, the WIPO Copyright Treaty of 1996, the
WIPO
    Performances and Phonograms Treaty of 1996 and the Universal Copyright

Convention (as revised on July 24, 1971). These rights and subject
matter
take effect in the relevant jurisdiction in which the License terms
are
sought to be enforced according to the corresponding provisions of the
implementation of those treaty provisions in the applicable national
law. If
the standard suite of rights granted under applicable copyright law
includes
additional rights not granted under this License, such additional
rights are
deemed to be included in the License; this License is not intended to
restrict the license of any rights under applicable law.
Creative Commons Notice
Creative Commons is not a party to this License, and makes no warranty
whatsoever in connection with the Work. Creative Commons will not be
liable
to You or any party on any legal theory for any damages whatsoever,
including
without limitation any general, special, incidental or consequential
damages
arising in connection to this license. Notwithstanding the foregoing two
(2)
sentences, if Creative Commons has expressly identified itself as the
Licensor hereunder, it shall have all rights and obligations of
Licensor.
Except for the limited purpose of indicating to the public that the Work
is
licensed under the CCPL, Creative Commons does not authorize the use by
either party of the trademark "Creative Commons" or any related

avoidance
of doubt, this trademark restriction does not form part of this License.

Creative Commons Attribution 4.0
================================
Creative Commons Attribution 4.0 International
Creative Commons Corporation ("Creative Commons") is not a law firm and
does not
provide legal services or legal advice. Distribution of Creative Commons
public

licenses does not create a lawyer-client or other relationship. Creative
Commons
makes its licenses and related information available on an "as-is" basis.
Creative Commons gives no warranties regarding its licenses, any material
licensed under their terms and conditions, or any related information.
Creative
Commons disclaims all liability for damages resulting from their use to
the
fullest extent possible.
Using Creative Commons Public Licenses
Creative Commons public licenses provide a standard set of terms and
conditions
that creators and other rights holders may use to share original works of
authorship and other material subject to copyright and certain other
rights
specified in the public license below. The following considerations are
for
informational purposes only, are not exhaustive, and do not form part of
our
licenses.
Considerations for licensors: Our public licenses are intended for use by
those
authorized to give the public permission to use material in ways otherwise
restricted by copyright and certain other rights. Our licenses are
irrevocable.
Licensors should read and understand the terms and conditions of the
license they
choose before applying it. Licensors should also secure all rights
necessary
before applying our licenses so that the public can reuse the material as
expected. Licensors should clearly mark any material not subject to the
license.
This includes other CC-licensed material, or material used under an
exception or
limitation to copyright. More considerations for licensors.
Considerations for the public: By using one of our public licenses, a
licensor
grants the public permission to use the licensed material under specified
terms
and conditions. If the licensor's permission is not necessary for any
reason-for
example, because of any applicable exception or limitation to copyright-
then that
use is not regulated by the license. Our licenses grant only permissions
under
copyright and certain other rights that a licensor has authority to grant.
Use of
the licensed material may still be restricted for other reasons, including
because others have copyright or other rights in the material. A licensor
may
make special requests, such as asking that all changes be marked or
described.
Although not required by our licenses, you are encouraged to respect those

requests where reasonable. More considerations for the public.
Creative Commons Attribution 4.0 International Public License
By exercising the Licensed Rights (defined below), You accept and agree to
be
bound by the terms and conditions of this Creative Commons Attribution 4.0
International Public License ("Public License"). To the extent this Public
License may be interpreted as a contract, You are granted the Licensed
Rights in
consideration of Your acceptance of these terms and conditions, and the
Licensor
grants You such rights in consideration of benefits the Licensor receives
from
making the Licensed Material available under these terms and conditions.
Section 1 – Definitions.
a. Adapted Material means material subject to Copyright and Similar Rights
that
is derived from or based upon the Licensed Material and in which the
Licensed
Material is translated, altered, arranged, transformed, or otherwise
modified in
a manner requiring permission under the Copyright and Similar Rights held
by the
Licensor. For purposes of this Public License, where the Licensed Material
is a
musical work, performance, or sound recording, Adapted Material is always
produced where the Licensed Material is synched in timed relation with a
moving
image.
b. Adapter's License means the license You apply to Your Copyright and
Similar
Rights in Your contributions to Adapted Material in accordance with the
terms and
conditions of this Public License.
c. Copyright and Similar Rights means copyright and/or similar rights
closely
related to copyright including, without limitation, performance,
broadcast, sound
recording, and Sui Generis Database Rights, without regard to how the
rights are
labeled or categorized. For purposes of this Public License, the rights
specified
in Section 2(b)(1)-(2) are not Copyright and Similar Rights.
d. Effective Technological Measures means those measures that, in the
absence of
proper authority, may not be circumvented under laws fulfilling
obligations under
Article 11 of the WIPO Copyright Treaty adopted on December 20, 1996,
and/or
similar international agreements.
e. Exceptions and Limitations means fair use, fair dealing, and/or any
other
exception or limitation to Copyright and Similar Rights that applies to
Your use

**December 2022**

of the Licensed Material.
f. Licensed Material means the artistic or literary work, database, or other
material to which the Licensor applied this Public License.
g. Licensed Rights means the rights granted to You subject to the terms and
conditions of this Public License, which are limited to all Copyright and Similar
Rights that apply to Your use of the Licensed Material and that the Licensor has
authority to license.
h. Licensor means the individual(s) or entity(ies) granting rights under this
Public License.
i. Share means to provide material to the public by any means or process that
requires permission under the Licensed Rights, such as reproduction, public
display, public performance, distribution, dissemination, communication, or
importation, and to make material available to the public including in ways that
members of the public may access the material from a place and at a time
individually chosen by them.
j. Sui Generis Database Rights means rights other than copyright resulting from
Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996
on the legal protection of databases, as amended and/or succeeded, as well as
other essentially equivalent rights anywhere in the world.
k. You means the individual or entity exercising the Licensed Rights under this
Public License. Your has a corresponding meaning.
Section 2 – Scope.
a. License grant.
1. Subject to the terms and conditions of this Public License, the Licensor
hereby grants You a worldwide, royalty-free, non-sublicensable, non-exclusive,
irrevocable license to exercise the Licensed Rights in the Licensed Material to:
A. reproduce and Share the Licensed Material, in whole or in part; and
B. produce, reproduce, and Share Adapted Material.
2. Exceptions and Limitations. For the avoidance of doubt, where Exceptions and
Limitations apply to Your use, this Public License does not apply, and You do not
need to comply with its terms and conditions.
3. Term. The term of this Public License is specified in Section 6(a).
4. Media and formats; technical modifications allowed. The Licensor authorizes

You to exercise the Licensed Rights in all media and formats whether now known or
hereafter created, and to make technical modifications necessary to do so. The
Licensor waives and/or agrees not to assert any right or authority to forbid You
from making technical modifications necessary to exercise the Licensed Rights,
including technical modifications necessary to circumvent Effective Technological
Measures. For purposes of this Public License, simply making modifications
authorized by this Section 2(a)(4) never produces Adapted Material.
5. Downstream recipients.
A. Offer from the Licensor – Licensed Material. Every recipient of the Licensed
Material automatically receives an offer from the Licensor to exercise the
Licensed Rights under the terms and conditions of this Public License.
B. No downstream restrictions. You may not offer or impose any additional or
different terms or conditions on, or apply any Effective Technological Measures
to, the Licensed Material if doing so restricts exercise of the Licensed Rights
by any recipient of the Licensed Material.
6. No endorsement. Nothing in this Public License constitutes or may be construed
as permission to assert or imply that You are, or that Your use of the Licensed
Material is, connected with, or sponsored, endorsed, or granted official status
by, the Licensor or others designated to receive attribution as provided in
Section 3(a)(1)(A)(i).
b. Other rights.
1. Moral rights, such as the right of integrity, are not licensed under this
Public License, nor are publicity, privacy, and/or other similar personality
rights; however, to the extent possible, the Licensor waives and/or agrees not to
assert any such rights held by the Licensor to the limited extent necessary to
allow You to exercise the Licensed Rights, but not otherwise.
2. Patent and trademark rights are not licensed under this Public License.
3. To the extent possible, the Licensor waives any right to collect royalties
from You for the exercise of the Licensed Rights, whether directly or through a
collecting society under any voluntary or waivable statutory or compulsory
licensing scheme. In all other cases the Licensor expressly reserves any right to
collect such royalties.
Section 3 – License Conditions.

Your exercise of the Licensed Rights is expressly made subject to the
following
conditions.
a. Attribution.
1. If You Share the Licensed Material (including in modified form), You
must:
A. retain the following if it is supplied by the Licensor with the
Licensed
Material:
i. identification of the creator(s) of the Licensed Material and any
others
designated to receive attribution, in any reasonable manner requested by
the
Licensor (including by pseudonym if designated);
ii. a copyright notice;
iii. a notice that refers to this Public License;
iv. a notice that refers to the disclaimer of warranties;
v. a URI or hyperlink to the Licensed Material to the extent reasonably
practicable;
B. indicate if You modified the Licensed Material and retain an indication
of any
previous modifications; and
C. indicate the Licensed Material is licensed under this Public License,
and
include the text of, or the URI or hyperlink to, this Public License.
2. You may satisfy the conditions in Section 3(a)(1) in any reasonable
manner
based on the medium, means, and context in which You Share the Licensed
Material.
For example, it may be reasonable to satisfy the conditions by providing a
URI or
hyperlink to a resource that includes the required information.
3. If requested by the Licensor, You must remove any of the information
required
by Section 3(a)(1)(A) to the extent reasonably practicable.
4. If You Share Adapted Material You produce, the Adapter's License You
apply
must not prevent recipients of the Adapted Material from complying with
this
Public License.
Section 4 – Sui Generis Database Rights.
Where the Licensed Rights include Sui Generis Database Rights that apply
to Your
use of the Licensed Material:
a. for the avoidance of doubt, Section 2(a)(1) grants You the right to
extract,
reuse, reproduce, and Share all or a substantial portion of the contents
of the
database;
b. if You include all or a substantial portion of the database contents in
a
database in which You have Sui Generis Database Rights, then the database
in

**December 2022**

which You have Sui Generis Database Rights (but not its individual
contents) is
Adapted Material; and
c. You must comply with the conditions in Section 3(a) if You Share all or
a
substantial portion of the contents of the database.
For the avoidance of doubt, this Section 4 supplements and does not
replace Your
obligations under this Public License where the Licensed Rights include
other
Copyright and Similar Rights.
Section 5 – Disclaimer of Warranties and Limitation of Liability.
a. Unless otherwise separately undertaken by the Licensor, to the extent
possible, the Licensor offers the Licensed Material as-is and as-
available, and
makes no representations or warranties of any kind concerning the Licensed
Material, whether express, implied, statutory, or other. This includes,
without
limitation, warranties of title, merchantability, fitness for a particular
purpose, non-infringement, absence of latent or other defects, accuracy,
or the
presence or absence of errors, whether or not known or discoverable. Where
disclaimers of warranties are not allowed in full or in part, this
disclaimer may
not apply to You.
b. To the extent possible, in no event will the Licensor be liable to You
on any
legal theory (including, without limitation, negligence) or otherwise for
any
direct, special, indirect, incidental, consequential, punitive, exemplary,
or
other losses, costs, expenses, or damages arising out of this Public
License or
use of the Licensed Material, even if the Licensor has been advised of the
possibility of such losses, costs, expenses, or damages. Where a
limitation of
liability is not allowed in full or in part, this limitation may not apply
to
You.
c. The disclaimer of warranties and limitation of liability provided above
shall
be interpreted in a manner that, to the extent possible, most closely
approximates an absolute disclaimer and waiver of all liability.
Section 6 – Term and Termination.
a. This Public License applies for the term of the Copyright and Similar
Rights
licensed here. However, if You fail to comply with this Public License,
then Your
rights under this Public License terminate automatically.
b. Where Your right to use the Licensed Material has terminated under
Section
6(a), it reinstates:

1. automatically as of the date the violation is cured, provided it is
cured
within 30 days of Your discovery of the violation; or
2. upon express reinstatement by the Licensor.
c. For the avoidance of doubt, this Section 6(b) does not affect any right
the
Licensor may have to seek remedies for Your violations of this Public
License.
d. For the avoidance of doubt, the Licensor may also offer the Licensed
Material
under separate terms or conditions or stop distributing the Licensed
Material at
any time; however, doing so will not terminate this Public License.
e. Sections 1, 5, 6, 7, and 8 survive termination of this Public License.
Section 7 – Other Terms and Conditions.
a. The Licensor shall not be bound by any additional or different terms or
conditions communicated by You unless expressly agreed.
b. Any arrangements, understandings, or agreements regarding the Licensed
Material not stated herein are separate from and independent of the terms
and
conditions of this Public License.
Section 8 – Interpretation.
a. For the avoidance of doubt, this Public License does not, and shall not
be
interpreted to, reduce, limit, restrict, or impose conditions on any use
of the
Licensed Material that could lawfully be made without permission under
this
Public License.
b. To the extent possible, if any provision of this Public License is
deemed
unenforceable, it shall be automatically reformed to the minimum extent
necessary
to make it enforceable. If the provision cannot be reformed, it shall be
severed
from this Public License without affecting the enforceability of the
remaining
terms and conditions.
c. No term or condition of this Public License will be waived and no
failure to
comply consented to unless expressly agreed to by the Licensor.
d. Nothing in this Public License constitutes or may be interpreted as a
limitation upon, or waiver of, any privileges and immunities that apply to
the
Licensor or You, including from the legal processes of any jurisdiction or
authority.
Creative Commons is not a party to its public licenses. Notwithstanding,
Creative
Commons may elect to apply one of its public licenses to material it
publishes
and in those instances will be considered the "Licensor." Except for the
limited

purpose of indicating that material is shared under a Creative Commons
public
license or as otherwise permitted by the Creative Commons policies
published at
creativecommons.org/policies, Creative Commons does not authorize the use
of the
trademark "Creative Commons" or any other trademark or logo of Creative
Commons
without its prior written consent including, without limitation, in
connection
with any unauthorized modifications to any of its public licenses or any
other
arrangements, understandings, or agreements concerning use of licensed
material.
For the avoidance of doubt, this paragraph does not form part of the
public
licenses.

Statement of Purpose
The laws of most jurisdictions throughout the world automatically confer
exclusive Copyright and Related Rights (defined below) upon the creator and
subsequent owner(s) (each and all, an "owner") of an original work of authorship
and/or a database (each, a "Work").
Certain owners wish to permanently relinquish those rights to a Work for the
purpose of contributing to a commons of creative, cultural and scientific works
("Commons") that the public can reliably and without fear of later claims of
infringement build upon, modify, incorporate in other works, reuse and
redistribute as freely as possible in any form whatsoever and for any purposes,
including without limitation commercial purposes. These owners may contribute to
the Commons to promote the ideal of a free culture and the further production of
creative, cultural and scientific works, or to gain reputation or greater
distribution for their Work in part through the use and efforts of others.
For these and/or other purposes and motivations, and without any expectation of
additional consideration or compensation, the person associating CC0 with a Work
(the "Affirmer"), to the extent that he or she is an owner of Copyright and
Related Rights in the Work, voluntarily elects to apply CC0 to the Work and
publicly distribute the Work under its terms, with knowledge of his or her
Copyright and Related Rights in the Work and the meaning and intended legal
effect of CC0 on those rights.
1. Copyright and Related Rights. A Work made available under CC0 may be protected
by copyright and related or neighboring rights ("Copyright and Related Rights").
Copyright and Related Rights include, but are not limited to, the following:
  i. the right to reproduce, adapt, distribute, perform, display, communicate,
    and translate a Work;
  ii.  moral rights retained by the original author(s) and/or performer(s);
  iii. publicity and privacy rights pertaining to a person's image or likeness
    depicted in a Work;
  iv. rights protecting against unfair competition in regards to a Work, subject

to the limitations in paragraph 4(a), below;
  v. rights protecting the extraction, dissemination, use and reuse of
data in a
     Work;
  vi. database rights (such as those arising under Directive 96/9/EC of
the
     European Parliament and of the Council of 11 March 1996 on the legal
     protection of databases, and under any national implementation
thereof,
     including any amended or successor version of such directive); and
  vii. other similar, equivalent or corresponding rights throughout the
world
     based on applicable law or treaty, and any national implementations
thereof.
2. Waiver. To the greatest extent permitted by, but not in contravention
of,
applicable law, Affirmer hereby overtly, fully, permanently, irrevocably
and
unconditionally waives, abandons, and surrenders all of Affirmer's
Copyright and
Related Rights and associated claims and causes of action, whether now
known or
unknown (including existing as well as future claims and causes of
action), in
the Work
  i.  in all territories worldwide,
  ii.  for the maximum duration provided by applicable law or treaty
(including
     future time extensions),
  iii.  in any current or future medium and for any number of copies, and
  iv.  for any purpose whatsoever, including without limitation
commercial,
     advertising or promotional purposes (the "Waiver").
Affirmer makes the Waiver for the benefit of each member of the public at
large
and to the detriment of Affirmer's heirs and successors, fully intending
that
such Waiver shall not be subject to revocation, rescission, cancellation,
termination, or any other legal or equitable action to disrupt the quiet
enjoyment of the Work by the public as contemplated by Affirmer's express
Statement of Purpose.
3. Public License Fallback. Should any part of the Waiver for any reason
be
judged legally invalid or ineffective under applicable law, then the
Waiver shall
be preserved to the maximum extent permitted taking into account
Affirmer's
express Statement of Purpose. In addition, to the extent the Waiver is so
judged
Affirmer hereby grants to each affected person a royalty-free, non
transferable,
non sublicensable, non exclusive, irrevocable and unconditional license to
exercise Affirmer's Copyright and Related Rights in the Work

```
   i.  in all territories worldwide,
   ii.  for the maximum duration provided by applicable law or treaty
(including
     future time extensions),
   iii.  in any current or future medium and for any number of copies, and
   iv.  for any purpose whatsoever, including without limitation
commercial,
     advertising or promotional purposes (the "License").
The License shall be deemed effective as of the date CC0 was applied by
Affirmer
to the Work. Should any part of the License for any reason be judged
legally
invalid or ineffective under applicable law, such partial invalidity or
ineffectiveness shall not invalidate the remainder of the License, and in
such
case Affirmer hereby affirms that he or she will not
   i.  exercise any of his or her remaining Copyright and Related Rights in
the
     Work or
   ii.  assert any associated claims and causes of action with respect to
the
     Work, in either case contrary to Affirmer's express Statement of
Purpose.
4. Limitations and Disclaimers.
  a. No trademark or patent rights held by Affirmer are waived, abandoned,
     surrendered, licensed or otherwise affected by this document.
  b. Affirmer offers the Work as-is and makes no representations or
warranties of
     any kind concerning the Work, express, implied, statutory or
otherwise,
     including without limitation warranties of title, merchantability,
fitness
     for a particular purpose, non infringement, or the absence of latent
or other
     defects, accuracy, or the present or absence of errors, whether or not
     discoverable, all to the greatest extent permissible under applicable
law.
  c. Affirmer disclaims responsibility for clearing rights of other
persons that
     may apply to the Work or any use thereof, including without limitation
any
     person's Copyright and Related Rights in the Work. Further, Affirmer
     disclaims responsibility for obtaining any necessary consents,
permissions or
     other rights required for any use of the Work.
  d. Affirmer understands and acknowledges that Creative Commons is not a
party
     to this document and has no duty or obligation with respect to this
CC0 or
     use of the Work.

Eclipse Public License - v 1.0
==============================
THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE
PUBLIC
LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE
PROGRAM
CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.
1. DEFINITIONS
"Contribution" means:
a) in the case of the initial Contributor, the initial code and
documentation
distributed under this Agreement, and
b) in the case of each subsequent Contributor:
i) changes to the Program, and
ii) additions to the Program;
where such changes and/or additions to the Program originate from and are
distributed by that particular Contributor. A Contribution 'originates'
from a
Contributor if it was added to the Program by such Contributor itself or
anyone
acting on such Contributor's behalf. Contributions do not include
additions to
the Program which: (i) are separate modules of software distributed in

conjunction with the Program under their own license agreement, and (ii)
are not
derivative works of the Program.
"Contributor" means any person or entity that distributes the Program.
"Licensed Patents " mean patent claims licensable by a Contributor which
are
necessarily infringed by the use or sale of its Contribution alone or when
combined with the Program.
"Program" means the Contributions distributed in accordance with this
Agreement.
"Recipient" means anyone who receives the Program under this Agreement,
including
all Contributors.
2. GRANT OF RIGHTS
a) Subject to the terms of this Agreement, each Contributor hereby grants
Recipient a non-exclusive, worldwide, royalty-free copyright license to
reproduce,
prepare derivative works of, publicly display, publicly perform,
distribute and
sublicense the Contribution of such Contributor, if any, and such
derivative
works, in source code and object code form.
b) Subject to the terms of this Agreement, each Contributor hereby grants
Recipient a non-exclusive, worldwide, royalty-free patent license under
Licensed
Patents to make, use, sell, offer to sell, import and otherwise transfer
the
Contribution of such Contributor, if any, in source code and object code
form.
This patent license shall apply to the combination of the Contribution and
the
Program if, at the time the Contribution is added by the Contributor, such
addition of the Contribution causes such combination to be covered by the
Licensed Patents. The patent license shall not apply to any other
combinations
which include the Contribution. No hardware per se is licensed hereunder.
c) Recipient understands that although each Contributor grants the
licenses to
its Contributions set forth herein, no assurances are provided by any
Contributor
that the Program does not infringe the patent or other intellectual
property
rights of any other entity. Each Contributor disclaims any liability to
Recipient
for claims brought by any other entity based on infringement of
intellectual
property rights or otherwise. As a condition to exercising the rights and
licenses granted hereunder, each Recipient hereby assumes sole
responsibility to
secure any other intellectual property rights needed, if any. For example,
if a
third party patent license is required to allow Recipient to distribute
the

Program, it is Recipient's responsibility to acquire that license before
distributing the Program.
d) Each Contributor represents that to its knowledge it has sufficient
copyright
rights in its Contribution, if any, to grant the copyright license set
forth in
this Agreement.
3. REQUIREMENTS
A Contributor may choose to distribute the Program in object code form
under its
own license agreement, provided that:
a) it complies with the terms and conditions of this Agreement; and
b) its license agreement:
i) effectively disclaims on behalf of all Contributors all warranties and
conditions, express and implied, including warranties or conditions of
title and
non-infringement, and implied warranties or conditions of merchantability
and
fitness for a particular purpose;
ii) effectively excludes on behalf of all Contributors all liability for
damages,
including direct, indirect, special, incidental and consequential damages,
such
as lost profits;
iii) states that any provisions which differ from this Agreement are
offered by
that Contributor alone and not by any other party; and
iv) states that source code for the Program is available from such
Contributor,
and informs licensees how to obtain it in a reasonable manner on or
through a
medium customarily used for software exchange.
When the Program is made available in source code form:
a) it must be made available under this Agreement; and
b) a copy of this Agreement must be included with each copy of the
Program.
Contributors may not remove or alter any copyright notices contained
within the
Program.
Each Contributor must identify itself as the originator of its
Contribution, if
any, in a manner that reasonably allows subsequent Recipients to identify
the
originator of the Contribution.
4. COMMERCIAL DISTRIBUTION
Commercial distributors of software may accept certain responsibilities
with
respect to end users, business partners and the like. While this license
is
intended to facilitate the commercial use of the Program, the Contributor
who
includes the Program in a commercial product offering should do so in a
manner

which does not create potential liability for other Contributors. Therefore, if a
Contributor includes the Program in a commercial product offering, such
Contributor ("Commercial Contributor") hereby agrees to defend and indemnify
every other Contributor ("Indemnified Contributor") against any losses, damages
and costs (collectively "Losses") arising from claims, lawsuits and other legal
actions brought by a third party against the Indemnified Contributor to the
extent caused by the acts or omissions of such Commercial Contributor in
connection with its distribution of the Program in a commercial product offering.
The obligations in this section do not apply to any claims or Losses relating to
any actual or alleged intellectual property infringement. In order to qualify, an
Indemnified Contributor must: a) promptly notify the Commercial Contributor in
writing of such claim, and b) allow the Commercial Contributor to control, and
cooperate with the Commercial Contributor in, the defense and any related
settlement negotiations. The Indemnified Contributor may participate in any such
claim at its own expense.
For example, a Contributor might include the Program in a commercial product
offering, Product X. That Contributor is then a Commercial Contributor. If that
Commercial Contributor then makes performance claims, or offers warranties
related to Product X, those performance claims and warranties are such Commercial
Contributor's responsibility alone. Under this section, the Commercial
Contributor would have to defend claims against the other Contributors related to
those performance claims and warranties, and if a court requires any other
Contributor to pay any damages as a result, the Commercial Contributor must pay
those damages.
5. NO WARRANTY
EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED ON AN
"AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR
IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE,
NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each
Recipient is solely responsible for determining the appropriateness of using and
distributing the Program and assumes all risks associated with its exercise of

**December 2022**

rights under this Agreement , including but not limited to the risks and costs of
program errors, compliance with applicable laws, damage to or loss of data,
programs or equipment, and unavailability or interruption of operations.
6. DISCLAIMER OF LIABILITY
EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY
CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL,
SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION LOST
PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT,
STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY
OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY RIGHTS
GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
7. GENERAL
If any provision of this Agreement is invalid or unenforceable under applicable
law, it shall not affect the validity or enforceability of the remainder of the
terms of this Agreement, and without further action by the parties hereto, such
provision shall be reformed to the minimum extent necessary to make such
provision valid and enforceable.
If Recipient institutes patent litigation against any entity (including a
cross-claim or counterclaim in a lawsuit) alleging that the Program itself
(excluding combinations of the Program with other software or hardware) infringes
such Recipient's patent(s), then such Recipient's rights granted under Section
2(b) shall terminate as of the date such litigation is filed.
All Recipient's rights under this Agreement shall terminate if it fails to comply
with any of the material terms or conditions of this Agreement and does not cure
such failure in a reasonable period of time after becoming aware of such
noncompliance. If all Recipient's rights under this Agreement terminate,
Recipient agrees to cease use and distribution of the Program as soon as
reasonably practicable. However, Recipient's obligations under this Agreement and
any licenses granted by Recipient relating to the Program shall continue and
survive.
Everyone is permitted to copy and distribute copies of this Agreement, but in
order to avoid inconsistency the Agreement is copyrighted and may only be
modified in the following manner. The Agreement Steward reserves the right to
publish new versions (including revisions) of this Agreement from time to time.

No one other than the Agreement Steward has the right to modify this Agreement.
The Eclipse Foundation is the initial Agreement Steward. The Eclipse Foundation
may assign the responsibility to serve as the Agreement Steward to a suitable
separate entity. Each new version of the Agreement will be given a distinguishing
version number. The Program (including Contributions) may always be distributed
subject to the version of the Agreement under which it was received. In addition,
after a new version of the Agreement is published, Contributor may elect to
distribute the Program (including its Contributions) under the new version.
Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no
rights or licenses to the intellectual property of any Contributor under this
Agreement, whether expressly, by implication, estoppel or otherwise. All rights
in the Program not expressly granted under this Agreement are reserved.
This Agreement is governed by the laws of the State of New York and the
intellectual property laws of the United States of America. No party to this
Agreement will bring a legal action under this Agreement more than one year after
the cause of action arose. Each party waives its rights to a jury trial in any
resulting litigation.

==============================
THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS ECLIPSE
PUBLIC
LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE
PROGRAM
CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.
1. DEFINITIONS
--------------
"Contribution" means:
  a) in the case of the initial Contributor, the initial content
Distributed
  under this Agreement, and
  b) in the case of each subsequent Contributor:
    i) changes to the Program, and
    ii) additions to the Program;
  where such changes and/or additions to the Program originate from and
are
  Distributed by that particular Contributor. A Contribution "originates"
from a
  Contributor if it was added to the Program by such Contributor itself or
anyone
  acting on such Contributor's behalf. Contributions do not include
changes or
  additions to the Program that are not Modified Works.
"Contributor" means any person or entity that Distributes the Program.
"Licensed Patents" mean patent claims licensable by a Contributor which
are
necessarily infringed by the use or sale of its Contribution alone or when
combined with the Program.
"Program" means the Contributions Distributed in accordance with this
Agreement.
"Recipient" means anyone who receives the Program under this Agreement or
any
Secondary License (as applicable), including Contributors.
"Derivative Works" shall mean any work, whether in Source Code or other
form,
that is based on (or derived from) the Program and for which the editorial
revisions, annotations, elaborations, or other modifications represent, as
a
whole, an original work of authorship.
"Modified Works" shall mean any work in Source Code or other form that
results
from an addition to, deletion from, or modification of the contents of the
Program, including, for purposes of clarity any new file in Source Code
form that

**December 2022**

contains any contents of the Program. Modified Works shall not include works that
contain only declarations, interfaces, types, classes, structures, or files of
the Program solely in each case in order to link to, bind by name, or subclass
the Program or Modified Works thereof.
"Distribute" means the acts of a) distributing or b) making available in any
manner that enables the transfer of a copy.
"Source Code" means the form of a Program preferred for making modifications,
including but not limited to software source code, documentation source, and
configuration files.
"Secondary License" means either the GNU General Public License, Version 2.0, or
any later versions of that license, including any exceptions or additional
permissions as identified by the initial Contributor.
2. GRANT OF RIGHTS
------------------
  a) Subject to the terms of this Agreement, each Contributor hereby grants
  Recipient a non-exclusive, worldwide, royalty-free copyright license to
  reproduce, prepare Derivative Works of, publicly display, publicly perform,
  Distribute and sublicense the Contribution of such Contributor, if any, and
  such Derivative Works.
  b) Subject to the terms of this Agreement, each Contributor hereby grants
  Recipient a non-exclusive, worldwide, royalty-free patent license under
  Licensed Patents to make, use, sell, offer to sell, import and otherwise
  transfer the Contribution of such Contributor, if any, in Source Code or other
  form. This patent license shall apply to the combination of the Contribution
  and the Program if, at the time the Contribution is added by the Contributor,
  such addition of the Contribution causes such combination to be covered by the
  Licensed Patents. The patent license shall not apply to any other combinations
  which include the Contribution. No hardware per se is licensed hereunder.
  c) Recipient understands that although each Contributor grants the licenses to
  its Contributions set forth herein, no assurances are provided by any
  Contributor that the Program does not infringe the patent or other intellectual
  property rights of any other entity. Each Contributor disclaims any liability

to Recipient for claims brought by any other entity based on
infringement of
   intellectual property rights or otherwise. As a condition to exercising
the
   rights and licenses granted hereunder, each Recipient hereby assumes
sole
   responsibility to secure any other intellectual property rights needed,
if any.
   For example, if a third party patent license is required to allow
Recipient to
   Distribute the Program, it is Recipient's responsibility to acquire that
   license before distributing the Program.
   d) Each Contributor represents that to its knowledge it has sufficient
   copyright rights in its Contribution, if any, to grant the copyright
license
   set forth in this Agreement.
   e) Notwithstanding the terms of any Secondary License, no Contributor
makes
   additional grants to any Recipient (other than those set forth in this
   Agreement) as a result of such Recipient's receipt of the Program under
the
   terms of a Secondary License (if permitted under the terms of Section
3).
3. REQUIREMENTS
---------------
3.1 If a Contributor Distributes the Program in any form, then:
   a) the Program must also be made available as Source Code, in accordance
with
   section 3.2, and the Contributor must accompany the Program with a
statement
   that the Source Code for the Program is available under this Agreement,
and
   informs Recipients how to obtain it in a reasonable manner on or through
a
   medium customarily used for software exchange; and
   b) the Contributor may Distribute the Program under a license different
than
   this Agreement, provided that such license:
     i) effectively disclaims on behalf of all other Contributors all
warranties
     and conditions, express and implied, including warranties or
conditions of
     title and non-infringement, and implied warranties or conditions of
     merchantability and fitness for a particular purpose;
     ii) effectively excludes on behalf of all other Contributors all
liability
     for damages, including direct, indirect, special, incidental and
     consequential damages, such as lost profits;
     iii) does not attempt to limit or alter the recipients' rights in the
Source
     Code under section 3.2; and
     iv) requires any subsequent distribution of the Program by any party
to be

under a license that satisfies the requirements of this section 3.
3.2 When the Program is Distributed as Source Code:
  a) it must be made available under this Agreement, or if the Program
    (i) is combined with other material in a separate file or files made
    available under a Secondary License, and
    (ii) the initial Contributor attached to the Source Code the notice described
    in Exhibit A of this Agreement, then the Program may be made available under
    the terms of such Secondary Licenses, and
  b) a copy of this Agreement must be included with each copy of the Program.
3.3 Contributors may not remove or alter any copyright, patent, trademark,
attribution notices, disclaimers of warranty, or limitations of liability
('notices') contained within the Program from any copy of the Program which they
Distribute, provided that Contributors may add their own appropriate notices.
4. COMMERCIAL DISTRIBUTION
--------------------------
Commercial distributors of software may accept certain responsibilities with
respect to end users, business partners and the like. While this license is
intended to facilitate the commercial use of the Program, the Contributor who
includes the Program in a commercial product offering should do so in a manner
which does not create potential liability for other Contributors. Therefore, if a
Contributor includes the Program in a commercial product offering, such
Contributor ("Commercial Contributor") hereby agrees to defend and indemnify
every other Contributor ("Indemnified Contributor") against any losses, damages
and costs (collectively "Losses") arising from claims, lawsuits and other legal
actions brought by a third party against the Indemnified Contributor to the
extent caused by the acts or omissions of such Commercial Contributor in
connection with its distribution of the Program in a commercial product offering.
The obligations in this section do not apply to any claims or Losses relating to
any actual or alleged intellectual property infringement. In order to qualify, an
Indemnified Contributor must: a) promptly notify the Commercial Contributor in
writing of such claim, and b) allow the Commercial Contributor to control, and
cooperate with the Commercial Contributor in, the defense and any related
settlement negotiations. The Indemnified Contributor may participate in any such

claim at its own expense.
For example, a Contributor might include the Program in a commercial
product
offering, Product X. That Contributor is then a Commercial Contributor. If
that
Commercial Contributor then makes performance claims, or offers warranties
related to Product X, those performance claims and warranties are such
Commercial
Contributor's responsibility alone. Under this section, the Commercial
Contributor would have to defend claims against the other Contributors
related to
those performance claims and warranties, and if a court requires any other
Contributor to pay any damages as a result, the Commercial Contributor
must pay
those damages.
5. NO WARRANTY
--------------
EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT
PERMITTED BY
APPLICABLE LAW, THE PROGRAM IS PROVIDED ON AN "AS IS" BASIS, WITHOUT
WARRANTIES
OR CONDITIONS OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT
LIMITATION, ANY WARRANTIES OR CONDITIONS OF TITLE, NON-INFRINGEMENT,
MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Each Recipient is
solely
responsible for determining the appropriateness of using and distributing
the
Program and assumes all risks associated with its exercise of rights under
this
Agreement, including but not limited to the risks and costs of program
errors,
compliance with applicable laws, damage to or loss of data, programs or
equipment, and unavailability or interruption of operations.
6. DISCLAIMER OF LIABILITY
--------------------------
EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, AND TO THE EXTENT
PERMITTED BY
APPLICABLE LAW, NEITHER RECIPIENT NOR ANY CONTRIBUTORS SHALL HAVE ANY
LIABILITY
FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL
DAMAGES (INCLUDING WITHOUT LIMITATION LOST PROFITS), HOWEVER CAUSED AND ON
ANY
THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT
(INCLUDING
NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OR DISTRIBUTION
OF THE
PROGRAM OR THE EXERCISE OF ANY RIGHTS GRANTED HEREUNDER, EVEN IF ADVISED
OF THE
POSSIBILITY OF SUCH DAMAGES.
7. GENERAL
----------
If any provision of this Agreement is invalid or unenforceable under
applicable

law, it shall not affect the validity or enforceability of the remainder of the
terms of this Agreement, and without further action by the parties hereto, such
provision shall be reformed to the minimum extent necessary to make such
provision valid and enforceable.
If Recipient institutes patent litigation against any entity (including a
cross-claim or counterclaim in a lawsuit) alleging that the Program itself
(excluding combinations of the Program with other software or hardware)
infringes
such Recipient's patent(s), then such Recipient's rights granted under
Section
2(b) shall terminate as of the date such litigation is filed.
All Recipient's rights under this Agreement shall terminate if it fails to
comply
with any of the material terms or conditions of this Agreement and does
not cure
such failure in a reasonable period of time after becoming aware of such
noncompliance. If all Recipient's rights under this Agreement terminate,
Recipient agrees to cease use and distribution of the Program as soon as
reasonably practicable. However, Recipient's obligations under this
Agreement and
any licenses granted by Recipient relating to the Program shall continue
and
survive.
Everyone is permitted to copy and distribute copies of this Agreement, but
in
order to avoid inconsistency the Agreement is copyrighted and may only be
modified in the following manner. The Agreement Steward reserves the right
to
publish new versions (including revisions) of this Agreement from time to
time.
No one other than the Agreement Steward has the right to modify this
Agreement.
The Eclipse Foundation is the initial Agreement Steward. The Eclipse
Foundation
may assign the responsibility to serve as the Agreement Steward to a
suitable
separate entity. Each new version of the Agreement will be given a
distinguishing
version number. The Program (including Contributions) may always be
Distributed
subject to the version of the Agreement under which it was received. In
addition,
after a new version of the Agreement is published, Contributor may elect
to
Distribute the Program (including its Contributions) under the new
version.
Except as expressly stated in Sections 2(a) and 2(b) above, Recipient
receives no
rights or licenses to the intellectual property of any Contributor under
this

**December 2022**

Agreement, whether expressly, by implication, estoppel or otherwise. All
rights
in the Program not expressly granted under this Agreement are reserved.
Nothing
in this Agreement is intended to be enforceable by any entity that is not
a
Contributor or Recipient. No third-party beneficiary rights are created
under
this Agreement.
Exhibit A – Form of Secondary Licenses Notice
---------------------------------------------
"This Source Code may also be made available under the following Secondary
Licenses when the conditions for such availability set forth in the
Eclipse
Public License, v. 2.0 are satisfied: {name license(s), version(s), and
exceptions or additional permissions here}."
  Simply including a copy of this Agreement, including this Exhibit A is
not
  sufficient to license the Source Code under Secondary Licenses.
  If it is not possible or desirable to put the notice in a particular
file,
  then You may include the notice in a location (such as a LICENSE file in
a
  relevant directory) where a recipient would be likely to look for such a
  notice.
  You may add additional accurate notices of copyright ownership.

European Union Public Licence V.1.0
===================================
EUPL © the European Community 2007
This European Union Public Licence (the "EUPL") applies to the Work or
Software
(as defined below) which is provided under the terms of this Licence. Any
use of
the Work, other than as authorised under this Licence is prohibited (to
the
extent such use is covered by a right of the copyright holder of the
Work).
The Original Work is provided under the terms of this Licence when the
Licensor
(as defined below) has placed the following notice immediately following
the
copyright notice for the Original Work:
Licensed under the EUPL V.1.0
or has expressed by any other mean his willingness to license under the
EUPL.
1. Definitions
In this Licence, the following terms have the following meaning:

— The Licence: this Licence.
  — The Original Work or the Software: the software distributed and/or
  communicated by the Licensor under this Licence, available as Source
Code and
  also as Executable Code as the case may be.
  — Derivative Works: the works or software that could be created by the
  Licensee, based upon the Original Work or modifications thereof. This
Licence
  does not define the extent of modification or dependence on the Original
Work
  required in order to classify a work as a Derivative Work; this extent
is
  determined by copyright law applicable in the country mentioned in
Article 15.
  — The Work: the Original Work and/or its Derivative Works.
  — The Source Code: the human-readable form of the Work which is the most
  convenient for people to study and modify.
  — The Executable Code: any code which has generally been compiled and
which is
  meant to be interpreted by a computer as a program.
  — The Licensor: the natural or legal person that distributes and/or
  communicates the Work under the Licence.
  — Contributor(s): any natural or legal person who modifies the Work
under the
  Licence, or otherwise contributes to the creation of a Derivative Work.
  — The Licensee or "You": any natural or legal person who makes any usage
of the
  Software under the terms of the Licence.
  — Distribution and/or Communication: any act of selling, giving,
lending,
  renting, distributing, communicating, transmitting, or otherwise making
  available, on-line or off-line, copies of the Work at the disposal of
any other
  natural or legal person.
2. Scope of the rights granted by the Licence
The Licensor hereby grants You a world-wide, royalty-free, non-exclusive,
sub-licensable licence to do the following, for the duration of copyright
vested
in the Original Work:
  — use the Work in any circumstance and for all usage,
  — reproduce the Work,
  — modify the Original Work, and make Derivative Works based upon the
Work,
  — communicate to the public, including the right to make available or
display
  the Work or copies thereof to the public and perform publicly, as the
case may
  be, the Work,
  — distribute the Work or copies thereof,
  — lend and rent the Work or copies thereof,
  — sub-license rights in the Work or copies thereof.
Those rights can be exercised on any media, supports and formats, whether
now

known or later invented, as far as the applicable law permits so.
In the countries where moral rights apply, the Licensor waives his right
to
exercise his moral right to the extent allowed by law in order to make
effective
the licence of the economic rights here above listed.
The Licensor grants to the Licensee royalty-free, non exclusive usage
rights to
any patents held by the Licensor, to the extent necessary to make use of
the
rights granted on the Work under this Licence.
3. Communication of the Source Code
The Licensor may provide the Work either in its Source Code form, or as
Executable Code. If the Work is provided as Executable Code, the Licensor
provides in addition a machine- readable copy of the Source Code of the
Work
along with each copy of the Work that the Licensor distributes or
indicates, in a
notice following the copyright notice attached to the Work, a repository
where
the Source Code is easily and freely accessible for as long as the
Licensor
continues to distribute and/or communicate the Work.
4. Limitations on copyright
Nothing in this Licence is intended to deprive the Licensee of the
benefits from
any exception or limitation to the exclusive rights of the rights owners
in the
Original Work or Software, of the exhaustion of those rights or of other
applicable limitations thereto.
5. Obligations of the Licensee
The grant of the rights mentioned above is subject to some restrictions
and
obligations imposed on the Licensee. Those obligations are the following:
Attribution right: the Licensee shall keep intact all copyright, patent or
trademarks notices and all notices that refer to the Licence and to the
disclaimer of warranties. The Licensee must include a copy of such notices
and a
copy of the Licence with every copy of the Work he/she distributes and/or
communicates. The Licensee must cause any Derivative Work to carry
prominent
notices stating that the Work has been modified and the date of
modification.
Copyleft clause: If the Licensee distributes and/or communicates copies of
the
Original Works or Derivative Works based upon the Original Work, this
Distribution and/or Communication will be done under the terms of this
Licence.
The Licensee (becoming Licensor) cannot offer or impose any additional
terms or
conditions on the Work or Derivative Work that alter or restrict the terms
of the
Licence.

Compatibility clause: If the Licensee Distributes and/or Communicates Derivative
Works or copies thereof based upon both the Original Work and another work
licensed under a Compatible Licence, this Distribution and/or Communication can
be done under the terms of this Compatible Licence. For the sake of this clause,
"Compatible Licence" refers to the licences listed in the appendix attached to
this Licence. Should the Licensee's obligations under the Compatible Licence
conflict with his/her obligations under this Licence, the obligations of the
Compatible Licence shall prevail.
Provision of Source Code: When distributing and/or communicating copies of the
Work, the Licensee will provide a machine-readable copy of the Source Code or
indicate a repository where this Source will be easily and freely available for
as long as the Licensee continues to distribute and/or communicate the Work.
Legal Protection: This Licence does not grant permission to use the trade names,
trademarks, service marks, or names of the Licensor, except as required for
reasonable and customary use in describing the origin of the Work and reproducing
the content of the copyright notice.
6. Chain of Authorship
The original Licensor warrants that the copyright in the Original Work granted
hereunder is owned by him/her or licensed to him/her and that he/she has the
power and authority to grant the Licence.
Each Contributor warrants that the copyright in the modifications he/she brings
to the Work are owned by him/her or licensed to him/her and that he/she has the
power and authority to grant the Licence.
Each time You, as a Licensee, receive the Work, the original Licensor and
subsequent Contributors grant You a licence to their contributions to the Work,
under the terms of this Licence.
7. Disclaimer of Warranty
The Work is a work in progress, which is continuously improved by numerous
contributors. It is not a finished work and may therefore contain defects or
"bugs" inherent to this type of software development.
For the above reason, the Work is provided under the Licence on an "as is" basis
and without warranties of any kind concerning the Work, including without

limitation merchantability, fitness for a particular purpose, absence of defects
or errors, accuracy, non-infringement of intellectual property rights other than
copyright as stated in Article 6 of this Licence. This disclaimer of warranty is
an essential part of the Licence and a condition for the grant of any rights to
the Work.
8. Disclaimer of Liability
Except in the cases of wilful misconduct or damages directly caused to natural
persons, the Licensor will in no event be liable for any direct or indirect,
material or moral, damages of any kind, arising out of the Licence or of the use
of the Work, including without limitation, damages for loss of goodwill, work
stoppage, computer failure or malfunction, loss of data or any commercial damage,
even if the Licensor has been advised of the possibility of such damage. However,
the Licensor will be liable under statutory product liability laws as far such
laws apply to the Work.
9. Additional agreements
While distributing the Original Work or Derivative Works, You may choose to
conclude an additional agreement to offer, and charge a fee for, acceptance of
support, warranty, indemnity, or other liability obligations and/or services
consistent with this Licence. However, in accepting such obligations, You may act
only on your own behalf and on your sole responsibility, not on behalf of the
original Licensor or any other Contributor, and only if You agree to indemnify,
defend, and hold each Contributor harmless for any liability incurred by, or
claims asserted against such Contributor by the fact You have accepted any such
warranty or additional liability.
10. Acceptance of the Licence
The provisions of this Licence can be accepted by clicking on an icon "I agree"
placed under the bottom of a window displaying the text of this Licence or by
affirming consent in any other similar way, in accordance with the rules of
applicable law. Clicking on that icon indicates your clear and irrevocable
acceptance of this Licence and all of its terms and conditions.
Similarly, you irrevocably accept this Licence and all of its terms and

conditions by exercising any rights granted to You by Article 2 of this Licence,
such as the use of the Work, the creation by You of a Derivative Work or the
Distribution and/or Communication by You of the Work or copies thereof.
11. Information to the public
In case of any Distribution and/or Communication of the Work by means of
electronic communication by You (for example, by offering to download the Work
from a remote location) the distribution channel or media (for example, a
website) must at least provide to the public the information requested by the
applicable law regarding the identification and address of the Licensor, the
Licence and the way it may be accessible, concluded, stored and reproduced by the
Licensee.
12. Termination of the Licence
The Licence and the rights granted hereunder will terminate automatically upon
any breach by the Licensee of the terms of the Licence.
Such a termination will not terminate the licences of any person who has received
the Work from the Licensee under the Licence, provided such persons remain in
full compliance with the Licence.
13. Miscellaneous
Without prejudice of Article 9 above, the Licence represents the complete
agreement between the Parties as to the Work licensed hereunder.
If any provision of the Licence is invalid or unenforceable under applicable law,
this will not affect the validity or enforceability of the Licence as a whole.
Such provision will be construed and/or reformed so as necessary to make it valid
and enforceable.
The European Commission may put into force translations and/or binding new
versions of this Licence, so far this is required and reasonable. New versions of
the Licence will be published with a unique version number. The new version of
the Licence becomes binding for You as soon as You become aware of its
publication.
14. Jurisdiction
Any litigation resulting from the interpretation of this License, arising between
the European Commission, as a Licensor, and any Licensee, will be subject to the
jurisdiction of the Court of Justice of the European Communities, as laid down in
article 238 of the Treaty establishing the European Community.
Any litigation arising between Parties, other than the European Commission, and

resulting from the interpretation of this License, will be subject to the
exclusive jurisdiction of the competent court where the Licensor resides
or
conducts its primary business.
15. Applicable Law
This Licence shall be governed by the law of the European Union country
where the
Licensor resides or has his registered office.
This licence shall be governed by the Belgian law if:
— a litigation arises between the European Commission, as a Licensor, and
any
Licensee;
— the Licensor, other than the European Commission, has no residence or
registered office inside a European Union country.

Additional Grant of Patent Rights Version 2
=============================================
"Software" means the software distributed by Facebook, Inc.
Facebook, Inc. ("Facebook") hereby grants to each recipient of the Software
("you") a perpetual, worldwide, royalty-free, non-exclusive, irrevocable (subject
to the termination provision below) license under any Necessary Claims, to make,
have made, use, sell, offer to sell, import, and otherwise transfer the Software.
For avoidance of doubt, no license is granted under Facebook's rights in any
patent claims that are infringed by (i) modifications to the Software made by you
or any third party or (ii) the Software in combination with any software or other
technology.
The license granted hereunder will terminate, automatically and without notice,
if you (or any of your subsidiaries, corporate affiliates or agents) initiate
directly or indirectly, or take a direct financial interest in, any Patent
Assertion: (i) against Facebook or any of its subsidiaries or corporate
affiliates, (ii) against any party if such Patent Assertion arises in whole or in
part from any software, technology, product or service of Facebook or any of its
subsidiaries or corporate affiliates, or (iii) against any party relating to the
Software. Notwithstanding the foregoing, if Facebook or any of its subsidiaries
or corporate affiliates files a lawsuit alleging patent infringement against you
in the first instance, and you respond by filing a patent infringement

counterclaim in that lawsuit against that party that is unrelated to the
Software, the license granted hereunder will not terminate under section
(i) of
this paragraph due to such counterclaim.
A "Necessary Claim" is a claim of a patent owned by Facebook that is
necessarily
infringed by the Software standing alone.
A "Patent Assertion" is any lawsuit or other action alleging direct,
indirect, or
contributory infringement or inducement to infringe any patent, including
a
cross-claim or counterclaim.

Freetype Project License
(The FreeType Project 2.10.1, The FreeType Project 2.10.4, The FreeType
Project 2.9.1)

                    The FreeType Project LICENSE
                    ----------------------------
                            2006-Jan-27
                    Copyright 1996-2002, 2006 by
          David Turner, Robert Wilhelm, and Werner Lemberg
Introduction
============
  The FreeType  Project is distributed in  several archive packages;
  some of them may contain, in addition to the FreeType font engine,
  various tools and  contributions which rely on, or  relate to, the
  FreeType Project.
  This  license applies  to all  files found  in such  packages, and
  which do not  fall under their own explicit  license.  The license
  affects  thus  the  FreeType  font  engine,  the  test  programs,
  documentation and makefiles, at the very least.
  This  license  was  inspired  by  the  BSD,  Artistic,  and  IJG
  (Independent JPEG  Group) licenses, which  all encourage inclusion
  and  use of  free  software in  commercial  and freeware  products
  alike.  As a consequence, its main points are that:
    o We don't promise that this software works. However, we will be
      interested in any kind of bug reports. (`as is' distribution)
    o You can  use this software for whatever you  want, in parts or
      full form, without having to pay us. (`royalty-free' usage)
    o You may not pretend that  you wrote this software.  If you use
      it, or  only parts of it,  in a program,  you must acknowledge
      somewhere  in  your  documentation  that  you  have  used  the
      FreeType code. (`credits')
  We  specifically  permit  and  encourage  the  inclusion  of  this
  software, with  or without modifications,  in commercial products.
  We  disclaim  all warranties  covering  The  FreeType Project  and
  assume no liability related to The FreeType Project.
  Finally,  many  people  asked  us  for  a  preferred  form  for  a
  credit/disclaimer to use in compliance with this license.  We thus
  encourage you to use the following text:
    """
    Portions of this software are copyright © <year> The FreeType
    Project (www.freetype.org).  All rights reserved.
    """
  Please replace <year> with the value from the FreeType version you
  actually use.
Legal Terms
===========
0. Definitions
--------------
  Throughout this license,  the terms `package', `FreeType Project',
  and  `FreeType  archive' refer  to  the  set  of  files  originally
  distributed  by  the  authors  (David Turner,  Robert Wilhelm,  and
  Werner Lemberg) as the `FreeType Project', be they named as alpha,
  beta or final release.
```

`You' refers to  the licensee, or person using  the project, where
`using' is a generic term including compiling the project's source
code as  well as linking it  to form a  `program' or `executable'.
This  program is  referred to  as  `a program  using the  FreeType
engine'.
This  license applies  to all  files distributed  in  the original
FreeType Project,  including  all  source   code,  binaries  and
documentation,  unless  otherwise  stated  in  the  file  in  its
original, unmodified form as  distributed in the original archive.
If you are  unsure whether or not a particular  file is covered by
this license, you must contact us to verify this.
The FreeType  Project is copyright (C) 1996-2000  by David Turner,
Robert Wilhelm, and Werner Lemberg.  All rights reserved except as
specified below.

1. No Warranty
--------------

  THE FREETYPE PROJECT  IS PROVIDED `AS IS' WITHOUT  WARRANTY OF ANY
  KIND, EITHER  EXPRESS OR IMPLIED,  INCLUDING, BUT NOT  LIMITED TO,

  PURPOSE.  IN NO EVENT WILL ANY OF THE AUTHORS OR COPYRIGHT HOLDERS
  BE LIABLE  FOR ANY DAMAGES CAUSED  BY THE USE OR  THE INABILITY TO
  USE, OF THE FREETYPE PROJECT.

2. Redistribution
-----------------

  This  license  grants  a  worldwide, royalty-free,  perpetual  and
  irrevocable right  and license to use,  execute, perform, compile,
  display,  copy,   create  derivative  works   of,  distribute  and
  sublicense the  FreeType Project (in  both source and  object code
  forms)  and  derivative works  thereof  for  any  purpose; and  to
  authorize others  to exercise  some or all  of the  rights granted
  herein, subject to the following conditions:

      o Redistribution of  source code  must retain this  license file
        (`FTL.TXT') unaltered; any  additions, deletions or changes to
        the original  files must be clearly  indicated in accompanying
        documentation.   The  copyright   notices  of   the  unaltered,
        original  files must  be  preserved in  all  copies of  source
        files.
      o Redistribution in binary form must provide a  disclaimer  that
        states  that  the software is based in part of the work of the
        FreeType Team,  in  the  distribution  documentation.  We also
        encourage you to put an URL to the FreeType web page  in  your
        documentation, though this isn't mandatory.
  These conditions  apply to any  software derived from or  based on
  the FreeType Project,  not just the unmodified files.   If you use
  our work, you  must acknowledge us.  However, no  fee need be paid
  to us.

3. Advertising
--------------

  Neither the  FreeType authors and  contributors nor you  shall use
  the name of the  other for commercial, advertising, or promotional
  purposes without specific prior written permission.
  We suggest,  but do not require, that  you use one or  more of the
  following phrases to refer  to this software in your documentation

**December 2022**

or advertising materials: `FreeType Project', `FreeType Engine',
`FreeType library', or `FreeType Distribution'.
As you have not signed this license, you are not required to
accept it. However, as the FreeType Project is copyrighted
material, only this license, or another one contracted with the
authors, grants you the right to use, distribute, and modify it.
Therefore, by using, distributing, or modifying the FreeType
Project, you indicate that you understand and accept all the terms
of this license.
4. Contacts
-----------
There are two mailing lists related to FreeType:
    o freetype@nongnu.org
      Discusses general use and applications of FreeType, as well as
      future and wanted additions to the library and distribution.
      If you are looking for support, start in this list if you
      haven't found anything to help you in the documentation.

GNU Affero General Public License v3.0
(GnuTLS 3.7.3, libcrypt1 4.4.27, neo4j-browser neo4j-3.2.12)

GNU AFFERO GENERAL PUBLIC LICENSE
=================================
Version 3, 19 November 2007
Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>
Everyone is permitted to copy and distribute verbatim copies of this
license
document, but changing it is not allowed.
Preamble
The GNU Affero General Public License is a free, copyleft license for
software
and other kinds of works, specifically designed to ensure cooperation with
the
community in the case of network server software.
The licenses for most software and other practical works are designed to
take
away your freedom to share and change the works. By contrast, our General
Public
Licenses are intended to guarantee your freedom to share and change all
versions
of a program--to make sure it remains free software for all its users.
When we speak of free software, we are referring to freedom, not price.
Our
General Public Licenses are designed to make sure that you have the
freedom to

distribute copies of free software (and charge for them if you wish), that you
receive source code or can get it if you want it, that you can change the
software or use pieces of it in new free programs, and that you know you can do
these things.

Developers that use our General Public Licenses protect your rights with two
steps: (1) assert copyright on the software, and (2) offer you this License which
gives you legal permission to copy, distribute and/or modify the software.

A secondary benefit of defending all users' freedom is that improvements made in
alternate versions of the program, if they receive widespread use, become
available for other developers to incorporate. Many developers of free software
are heartened and encouraged by the resulting cooperation. However, in the case
of software used on network servers, this result may fail to come about. The GNU
General Public License permits making a modified version and letting the public
access it on a server without ever releasing its source code to the public.

The GNU Affero General Public License is designed specifically to ensure that, in
such cases, the modified source code becomes available to the community. It
requires the operator of a network server to provide the source code of the
modified version running there to the users of that server. Therefore, public use
of a modified version, on a publicly accessible server, gives the public access
to the source code of the modified version.

An older license, called the Affero General Public License and published by
Affero, was designed to accomplish similar goals. This is a different license,
not a version of the Affero GPL, but Affero has released a new version of the
Affero GPL which permits relicensing under this license.

The precise terms and conditions for copying, distribution and modification
follow.

TERMS AND CONDITIONS

0. Definitions.

"This License" refers to version 3 of the GNU Affero General Public License.

"Copyright" also means copyright-like laws that apply to other kinds of works,
such as semiconductor masks.

"The Program" refers to any copyrightable work licensed under this License. Each
licensee is addressed as "you". "Licensees" and "recipients" may be individuals
or organizations.
To "modify" a work means to copy from or adapt all or part of the work in a
fashion requiring copyright permission, other than the making of an exact copy.
The resulting work is called a "modified version" of the earlier work or a work
"based on" the earlier work.
A "covered work" means either the unmodified Program or a work based on the
Program.
To "propagate" a work means to do anything with it that, without permission,
would make you directly or secondarily liable for infringement under applicable
copyright law, except executing it on a computer or modifying a private copy.
Propagation includes copying, distribution (with or without modification), making
available to the public, and in some countries other activities as well.
To "convey" a work means any kind of propagation that enables other parties to
make or receive copies. Mere interaction with a user through a computer network,
with no transfer of a copy, is not conveying.
An interactive user interface displays "Appropriate Legal Notices" to the extent
that it includes a convenient and prominently visible feature that (1) displays
an appropriate copyright notice, and (2) tells the user that there is no warranty
for the work (except to the extent that warranties are provided), that licensees
may convey the work under this License, and how to view a copy of this License.
If the interface presents a list of user commands or options, such as a menu, a
prominent item in the list meets this criterion.
1. Source Code.
The "source code" for a work means the preferred form of the work for making
modifications to it. "Object code" means any non-source form of a work.
A "Standard Interface" means an interface that either is an official standard
defined by a recognized standards body, or, in the case of interfaces specified
for a particular programming language, one that is widely used among developers
working in that language.

The "System Libraries" of an executable work include anything, other than the
work as a whole, that (a) is included in the normal form of packaging a Major
Component, but which is not part of that Major Component, and (b) serves only to
enable use of the work with that Major Component, or to implement a Standard
Interface for which an implementation is available to the public in source code
form. A "Major Component", in this context, means a major essential component
(kernel, window system, and so on) of the specific operating system (if any) on
which the executable work runs, or a compiler used to produce the work, or an
object code interpreter used to run it.
The "Corresponding Source" for a work in object code form means all the source
code needed to generate, install, and (for an executable work) run the object
code and to modify the work, including scripts to control those activities.
However, it does not include the work's System Libraries, or general-purpose
tools or generally available free programs which are used unmodified in
performing those activities but which are not part of the work. For example,
Corresponding Source includes interface definition files associated with source
files for the work, and the source code for shared libraries and dynamically
linked subprograms that the work is specifically designed to require, such as by
intimate data communication or control flow between those subprograms and other
parts of the work.
The Corresponding Source need not include anything that users can regenerate
automatically from other parts of the Corresponding Source.
The Corresponding Source for a work in source code form is that same work.
2. Basic Permissions.
All rights granted under this License are granted for the term of copyright on
the Program, and are irrevocable provided the stated conditions are met. This
License explicitly affirms your unlimited permission to run the unmodified
Program. The output from running a covered work is covered by this License only
if the output, given its content, constitutes a covered work. This License
acknowledges your rights of fair use or other equivalent, as provided by
copyright law.

You may make, run and propagate covered works that you do not convey,
without
conditions so long as your license otherwise remains in force. You may
convey
covered works to others for the sole purpose of having them make
modifications
exclusively for you, or provide you with facilities for running those
works,
provided that you comply with the terms of this License in conveying all
material
for which you do not control copyright. Those thus making or running the
covered
works for you must do so exclusively on your behalf, under your direction
and
control, on terms that prohibit them from making any copies of your
copyrighted
material outside their relationship with you.
Conveying under any other circumstances is permitted solely under the
conditions
stated below. Sublicensing is not allowed; section 10 makes it
unnecessary.
3. Protecting Users' Legal Rights From Anti-Circumvention Law.
No covered work shall be deemed part of an effective technological measure
under
any applicable law fulfilling obligations under article 11 of the WIPO
copyright
treaty adopted on 20 December 1996, or similar laws prohibiting or
restricting
circumvention of such measures.
When you convey a covered work, you waive any legal power to forbid
circumvention
of technological measures to the extent such circumvention is effected by
exercising rights under this License with respect to the covered work, and
you
disclaim any intention to limit operation or modification of the work as a
means
of enforcing, against the work's users, your or third parties' legal
rights to
forbid circumvention of technological measures.
4. Conveying Verbatim Copies.
You may convey verbatim copies of the Program's source code as you receive
it, in
any medium, provided that you conspicuously and appropriately publish on
each
copy an appropriate copyright notice; keep intact all notices stating that
this
License and any non-permissive terms added in accord with section 7 apply
to the
code; keep intact all notices of the absence of any warranty; and give all
recipients a copy of this License along with the Program.
You may charge any price or no price for each copy that you convey, and
you may
offer support or warranty protection for a fee.

5. Conveying Modified Source Versions.
You may convey a work based on the Program, or the modifications to produce it
from the Program, in the form of source code under the terms of section 4,
provided that you also meet all of these conditions:
  * a) The work must carry prominent notices stating that you modified it, and
    giving a relevant date.
  * b) The work must carry prominent notices stating that it is released under
    this License and any conditions added under section 7. This requirement
    modifies the requirement in section 4 to "keep intact all notices".
  * c) You must license the entire work, as a whole, under this License to anyone
    who comes into possession of a copy. This License will therefore apply, along
    with any applicable section 7 additional terms, to the whole of the work, and
    all its parts, regardless of how they are packaged. This License gives no
    permission to license the work in any other way, but it does not invalidate
    such permission if you have separately received it.
  * d) If the work has interactive user interfaces, each must display Appropriate
    Legal Notices; however, if the Program has interactive interfaces that do not
    display Appropriate Legal Notices, your work need not make them do so.
A compilation of a covered work with other separate and independent works, which
are not by their nature extensions of the covered work, and which are not
combined with it such as to form a larger program, in or on a volume of a storage
or distribution medium, is called an "aggregate" if the compilation and its
resulting copyright are not used to limit the access or legal rights of the
compilation's users beyond what the individual works permit. Inclusion of a
covered work in an aggregate does not cause this License to apply to the other
parts of the aggregate.
6. Conveying Non-Source Forms.
You may convey a covered work in object code form under the terms of sections 4
and 5, provided that you also convey the machine-readable Corresponding Source
under the terms of this License, in one of these ways:
  * a) Convey the object code in, or embodied in, a physical product (including a
    physical distribution medium), accompanied by the Corresponding Source fixed

on a durable physical medium customarily used for software
interchange.
  * b) Convey the object code in, or embodied in, a physical product
(including a
    physical distribution medium), accompanied by a written offer, valid
for at
    least three years and valid for as long as you offer spare parts or
customer
    support for that product model, to give anyone who possesses the
object code
    either (1) a copy of the Corresponding Source for all the software in
the
    product that is covered by this License, on a durable physical medium
    customarily used for software interchange, for a price no more than
your
    reasonable cost of physically performing this conveying of source, or
(2)
    access to copy the Corresponding Source from a network server at no
charge.
  * c) Convey individual copies of the object code with a copy of the
written
    offer to provide the Corresponding Source. This alternative is allowed
only
    occasionally and noncommercially, and only if you received the object
code
    with such an offer, in accord with subsection 6b.
  * d) Convey the object code by offering access from a designated place
(gratis
    or for a charge), and offer equivalent access to the Corresponding
Source in
    the same way through the same place at no further charge. You need not
    require recipients to copy the Corresponding Source along with the
object
    code. If the place to copy the object code is a network server, the
    Corresponding Source may be on a different server (operated by you or
a third
    party) that supports equivalent copying facilities, provided you
maintain
    clear directions next to the object code saying where to find the
    Corresponding Source. Regardless of what server hosts the
Corresponding
    Source, you remain obligated to ensure that it is available for as
long as
    needed to satisfy these requirements.
  * e) Convey the object code using peer-to-peer transmission, provided
you
    inform other peers where the object code and Corresponding Source of
the work
    are being offered to the general public at no charge under subsection
6d.
A separable portion of the object code, whose source code is excluded from
the

Corresponding Source as a System Library, need not be included in conveying the
object code work.
A "User Product" is either (1) a "consumer product", which means any tangible
personal property which is normally used for personal, family, or household
purposes, or (2) anything designed or sold for incorporation into a dwelling. In
determining whether a product is a consumer product, doubtful cases shall be
resolved in favor of coverage. For a particular product received by a particular
user, "normally used" refers to a typical or common use of that class of product,
regardless of the status of the particular user or of the way in which the
particular user actually uses, or expects or is expected to use, the product. A
product is a consumer product regardless of whether the product has substantial
commercial, industrial or non-consumer uses, unless such uses represent the only
significant mode of use of the product.
"Installation Information" for a User Product means any methods, procedures,
authorization keys, or other information required to install and execute modified
versions of a covered work in that User Product from a modified version of its
Corresponding Source. The information must suffice to ensure that the continued
functioning of the modified object code is in no case prevented or interfered
with solely because modification has been made.
If you convey an object code work under this section in, or with, or specifically
for use in, a User Product, and the conveying occurs as part of a transaction in
which the right of possession and use of the User Product is transferred to the
recipient in perpetuity or for a fixed term (regardless of how the transaction is
characterized), the Corresponding Source conveyed under this section must be
accompanied by the Installation Information. But this requirement does not apply
if neither you nor any third party retains the ability to install modified object
code on the User Product (for example, the work has been installed in ROM).
The requirement to provide Installation Information does not include a
requirement to continue to provide support service, warranty, or updates for a

work that has been modified or installed by the recipient, or for the User
Product in which it has been modified or installed. Access to a network
may be
denied when the modification itself materially and adversely affects the
operation of the network or violates the rules and protocols for
communication
across the network.
Corresponding Source conveyed, and Installation Information provided, in
accord
with this section must be in a format that is publicly documented (and
with an
implementation available to the public in source code form), and must
require no
special password or key for unpacking, reading or copying.
7. Additional Terms.
"Additional permissions" are terms that supplement the terms of this
License by
making exceptions from one or more of its conditions. Additional
permissions that
are applicable to the entire Program shall be treated as though they were
included in this License, to the extent that they are valid under
applicable law.
If additional permissions apply only to part of the Program, that part may
be
used separately under those permissions, but the entire Program remains
governed
by this License without regard to the additional permissions.
When you convey a copy of a covered work, you may at your option remove
any
additional permissions from that copy, or from any part of it. (Additional
permissions may be written to require their own removal in certain cases
when you
modify the work.) You may place additional permissions on material, added
by you
to a covered work, for which you have or can give appropriate copyright
permission.
Notwithstanding any other provision of this License, for material you add
to a
covered work, you may (if authorized by the copyright holders of that
material)
supplement the terms of this License with terms:
  * a) Disclaiming warranty or limiting liability differently from the
terms of
    sections 15 and 16 of this License; or
  * b) Requiring preservation of specified reasonable legal notices or
author
    attributions in that material or in the Appropriate Legal Notices
displayed
    by works containing it; or
  * c) Prohibiting misrepresentation of the origin of that material, or
requiring
    that modified versions of such material be marked in reasonable ways
as

```
     different from the original version; or
   * d) Limiting the use for publicity purposes of names of licensors or
authors
     of the material; or
   * e) Declining to grant rights under trademark law for use of some trade
names,
     trademarks, or service marks; or
   * f) Requiring indemnification of licensors and authors of that material
by
     anyone who conveys the material (or modified versions of it) with
contractual
     assumptions of liability to the recipient, for any liability that
these
     contractual assumptions directly impose on those licensors and
authors.
All other non-permissive additional terms are considered "further
restrictions"
within the meaning of section 10. If the Program as you received it, or
any part
of it, contains a notice stating that it is governed by this License along
with a
term that is a further restriction, you may remove that term. If a license
document contains a further restriction but permits relicensing or
conveying
under this License, you may add to a covered work material governed by the
terms
of that license document, provided that the further restriction does not
survive
such relicensing or conveying.
If you add terms to a covered work in accord with this section, you must
place,
in the relevant source files, a statement of the additional terms that
apply to
those files, or a notice indicating where to find the applicable terms.
Additional terms, permissive or non-permissive, may be stated in the form
of a
separately written license, or stated as exceptions; the above
requirements apply
either way.
8. Termination.
You may not propagate or modify a covered work except as expressly
provided under
this License. Any attempt otherwise to propagate or modify it is void, and
will
automatically terminate your rights under this License (including any
patent
licenses granted under the third paragraph of section 11).
However, if you cease all violation of this License, then your license
from a
particular copyright holder is reinstated (a) provisionally, unless and
until the
copyright holder explicitly and finally terminates your license, and (b)
```

permanently, if the copyright holder fails to notify you of the violation by some
reasonable means prior to 60 days after the cessation.
Moreover, your license from a particular copyright holder is reinstated
permanently if the copyright holder notifies you of the violation by some
reasonable means, this is the first time you have received notice of
violation of
this License (for any work) from that copyright holder, and you cure the
violation prior to 30 days after your receipt of the notice.
Termination of your rights under this section does not terminate the
licenses of
parties who have received copies or rights from you under this License. If
your
rights have been terminated and not permanently reinstated, you do not
qualify to
receive new licenses for the same material under section 10.
9. Acceptance Not Required for Having Copies.
You are not required to accept this License in order to receive or run a
copy of
the Program. Ancillary propagation of a covered work occurring solely as a
consequence of using peer-to-peer transmission to receive a copy likewise
does
not require acceptance. However, nothing other than this License grants
you
permission to propagate or modify any covered work. These actions infringe
copyright if you do not accept this License. Therefore, by modifying or
propagating a covered work, you indicate your acceptance of this License
to do
so.
10. Automatic Licensing of Downstream Recipients.
Each time you convey a covered work, the recipient automatically receives
a
license from the original licensors, to run, modify and propagate that
work,
subject to this License. You are not responsible for enforcing compliance
by
third parties with this License.
An "entity transaction" is a transaction transferring control of an
organization,
or substantially all assets of one, or subdividing an organization, or
merging
organizations. If propagation of a covered work results from an entity
transaction, each party to that transaction who receives a copy of the
work also
receives whatever licenses to the work the party's predecessor in interest
had or
could give under the previous paragraph, plus a right to possession of the
Corresponding Source of the work from the predecessor in interest, if the
predecessor has it or can get it with reasonable efforts.
You may not impose any further restrictions on the exercise of the rights
granted
or affirmed under this License. For example, you may not impose a license
fee,

royalty, or other charge for exercise of rights granted under this
License, and
you may not initiate litigation (including a cross-claim or counterclaim
in a
lawsuit) alleging that any patent claim is infringed by making, using,
selling,
offering for sale, or importing the Program or any portion of it.
11. Patents.
A "contributor" is a copyright holder who authorizes use under this
License of
the Program or a work on which the Program is based. The work thus
licensed is
called the contributor's "contributor version".
A contributor's "essential patent claims" are all patent claims owned or
controlled by the contributor, whether already acquired or hereafter
acquired,
that would be infringed by some manner, permitted by this License, of
making,
using, or selling its contributor version, but do not include claims that
would
be infringed only as a consequence of further modification of the
contributor
version. For purposes of this definition, "control" includes the right to
grant
patent sublicenses in a manner consistent with the requirements of this
License.
Each contributor grants you a non-exclusive, worldwide, royalty-free
patent
license under the contributor's essential patent claims, to make, use,
sell,
offer for sale, import and otherwise run, modify and propagate the
contents of
its contributor version.
In the following three paragraphs, a "patent license" is any express
agreement or
commitment, however denominated, not to enforce a patent (such as an
express
permission to practice a patent or covenant not to sue for patent
infringement).
To "grant" such a patent license to a party means to make such an
agreement or
commitment not to enforce a patent against the party.
If you convey a covered work, knowingly relying on a patent license, and
the
Corresponding Source of the work is not available for anyone to copy, free
of
charge and under the terms of this License, through a publicly available
network
server or other readily accessible means, then you must either (1) cause
the
Corresponding Source to be so available, or (2) arrange to deprive
yourself of

the benefit of the patent license for this particular work, or (3)
arrange, in a
manner consistent with the requirements of this License, to extend the
patent
license to downstream recipients. "Knowingly relying" means you have
actual
knowledge that, but for the patent license, your conveying the covered
work in a
country, or your recipient's use of the covered work in a country, would
infringe
one or more identifiable patents in that country that you have reason to
believe
are valid.
If, pursuant to or in connection with a single transaction or arrangement,
you
convey, or propagate by procuring conveyance of, a covered work, and grant
a
patent license to some of the parties receiving the covered work
authorizing them
to use, propagate, modify or convey a specific copy of the covered work,
then the
patent license you grant is automatically extended to all recipients of
the
covered work and works based on it.
A patent license is "discriminatory" if it does not include within the
scope of
its coverage, prohibits the exercise of, or is conditioned on the non-
exercise of
one or more of the rights that are specifically granted under this
License. You
may not convey a covered work if you are a party to an arrangement with a
third
party that is in the business of distributing software, under which you
make
payment to the third party based on the extent of your activity of
conveying the
work, and under which the third party grants, to any of the parties who
would
receive the covered work from you, a discriminatory patent license (a) in
connection with copies of the covered work conveyed by you (or copies made
from
those copies), or (b) primarily for and in connection with specific
products or
compilations that contain the covered work, unless you entered into that
arrangement, or that patent license was granted, prior to 28 March 2007.
Nothing in this License shall be construed as excluding or limiting any
implied
license or other defenses to infringement that may otherwise be available
to you
under applicable patent law.
12. No Surrender of Others' Freedom.
If conditions are imposed on you (whether by court order, agreement or
otherwise)

that contradict the conditions of this License, they do not excuse you from the
conditions of this License. If you cannot convey a covered work so as to satisfy
simultaneously your obligations under this License and any other pertinent
obligations, then as a consequence you may not convey it at all. For example, if
you agree to terms that obligate you to collect a royalty for further conveying
from those to whom you convey the Program, the only way you could satisfy both
those terms and this License would be to refrain entirely from conveying the
Program.
13. Remote Network Interaction; Use with the GNU General Public License.
Notwithstanding any other provision of this License, if you modify the Program,
your modified version must prominently offer all users interacting with it
remotely through a computer network (if your version supports such interaction)
an opportunity to receive the Corresponding Source of your version by providing
access to the Corresponding Source from a network server at no charge, through
some standard or customary means of facilitating copying of software. This
Corresponding Source shall include the Corresponding Source for any work covered
by version 3 of the GNU General Public License that is incorporated pursuant to
the following paragraph.
Notwithstanding any other provision of this License, you have permission to link
or combine any covered work with a work licensed under version 3 of the GNU
General Public License into a single combined work, and to convey the resulting
work. The terms of this License will continue to apply to the part which is the
covered work, but the work with which it is combined will remain governed by
version 3 of the GNU General Public License.
14. Revised Versions of this License.
The Free Software Foundation may publish revised and/or new versions of the GNU
Affero General Public License from time to time. Such new versions will be
similar in spirit to the present version, but may differ in detail to address new
problems or concerns.
Each version is given a distinguishing version number. If the Program specifies
that a certain numbered version of the GNU Affero General Public License "or any

later version" applies to it, you have the option of following the terms and
conditions either of that numbered version or of any later version published by
the Free Software Foundation. If the Program does not specify a version number of
the GNU Affero General Public License, you may choose any version ever published
by the Free Software Foundation.
If the Program specifies that a proxy can decide which future versions of the GNU
Affero General Public License can be used, that proxy's public statement of
acceptance of a version permanently authorizes you to choose that version for the
Program.
Later license versions may give you additional or different permissions. However,
no additional obligations are imposed on any author or copyright holder as a
result of your choosing to follow a later version.
15. Disclaimer of Warranty.
THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.
EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER
PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER
EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE
QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE
DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
16. Limitation of Liability.
IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY
COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS
PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL,
INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE
THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED
INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE
PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY
HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
17. Interpretation of Sections 15 and 16.
If the disclaimer of warranty and limitation of liability provided above cannot

be given local legal effect according to their terms, reviewing courts
shall
apply local law that most closely approximates an absolute waiver of all
civil
liability in connection with the Program, unless a warranty or assumption
of
liability accompanies a copy of the Program in return for a fee.
END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Programs
If you develop a new program, and you want it to be of the greatest
possible use
to the public, the best way to achieve this is to make it free software
which
everyone can redistribute and change under these terms.
To do so, attach the following notices to the program. It is safest to
attach
them to the start of each source file to most effectively state the
exclusion of
warranty; and each file should have at least the "copyright" line and a
pointer
to where the full notice is found.
    <one line to give the program's name and a brief idea of what it
does.>
    Copyright (C) <year>  <name of author>
    This program is free software: you can redistribute it and/or modify
    it under the terms of the GNU Affero General Public License as
    published by the Free Software Foundation, either version 3 of the
    License, or (at your option) any later version.
    This program is distributed in the hope that it will be useful,
    but WITHOUT ANY WARRANTY; without even the implied warranty of
    MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE.  See the
    GNU Affero General Public License for more details.
    You should have received a copy of the GNU Affero General Public
License
    along with this program.  If not, see <http://www.gnu.org/licenses/>.
Also add information on how to contact you by electronic and paper mail.
If your software can interact with users remotely through a computer
network, you
should also make sure that it provides a way for users to get its source.
For
example, if your program is a web application, its interface could display
a
"Source" link that leads users to an archive of the code. There are many
ways you
could offer source, and different solutions will be better for different
programs; see section 13 for the specific requirements.
You should also get your employer (if you work as a programmer) or school,
if
any, to sign a "copyright disclaimer" for the program, if necessary. For
more
information on this, and how to apply and follow the GNU AGPL, see
<http://www.gnu.org/licenses/>.

GNU Free Documentation License
==============================
Version 1.2, November 2002
  Copyright (C) 2000,2001,2002  Free Software Foundation, Inc.
  51 Franklin St, Fifth Floor, Boston, MA  02110-1301  USA
  Everyone is permitted to copy and distribute verbatim copies
  of this license document, but changing it is not allowed.
0. PREAMBLE
The purpose of this License is to make a manual, textbook, or other
functional
and useful document "free" in the sense of freedom: to assure everyone the
effective freedom to copy and redistribute it, with or without modifying
it,
either commercially or noncommercially. Secondarily, this License
preserves for
the author and publisher a way to get credit for their work, while not
being
considered responsible for modifications made by others.
This License is a kind of "copyleft", which means that derivative works of
the
document must themselves be free in the same sense. It complements the GNU
General Public License, which is a copyleft license designed for free
software.
We have designed this License in order to use it for manuals for free
software,
because free software needs free documentation: a free program should come
with
manuals providing the same freedoms that the software does. But this
License is
not limited to software manuals; it can be used for any textual work,
regardless
of subject matter or whether it is published as a printed book. We
recommend this
License principally for works whose purpose is instruction or reference.
1. APPLICABILITY AND DEFINITIONS
This License applies to any manual or other work, in any medium, that
contains a
notice placed by the copyright holder saying it can be distributed under
the
terms of this License. Such a notice grants a world-wide, royalty-free
license,
unlimited in duration, to use that work under the conditions stated
herein. The
"Document", below, refers to any such manual or work. Any member of the
public is
a licensee, and is addressed as "you". You accept the license if you copy,
modify

or distribute the work in a way requiring permission under copyright law.
A "Modified Version" of the Document means any work containing the
Document or a
portion of it, either copied verbatim, or with modifications and/or
translated
into another language.
A "Secondary Section" is a named appendix or a front-matter section of the
Document that deals exclusively with the relationship of the publishers or
authors of the Document to the Document's overall subject (or to related
matters)
and contains nothing that could fall directly within that overall subject.
(Thus,
if the Document is in part a textbook of mathematics, a Secondary Section
may not
explain any mathematics.) The relationship could be a matter of historical
connection with the subject or with related matters, or of legal,
commercial,
philosophical, ethical or political position regarding them.
The "Invariant Sections" are certain Secondary Sections whose titles are
designated, as being those of Invariant Sections, in the notice that says
that
the Document is released under this License. If a section does not fit the
above
definition of Secondary then it is not allowed to be designated as
Invariant. The
Document may contain zero Invariant Sections. If the Document does not
identify
any Invariant Sections then there are none.
The "Cover Texts" are certain short passages of text that are listed, as
Front-Cover Texts or Back-Cover Texts, in the notice that says that the
Document
is released under this License. A Front-Cover Text may be at most 5 words,
and a
Back-Cover Text may be at most 25 words.
A "Transparent" copy of the Document means a machine-readable copy,
represented
in a format whose specification is available to the general public, that
is
suitable for revising the document straightforwardly with generic text
editors or
(for images composed of pixels) generic paint programs or (for drawings)
some
widely available drawing editor, and that is suitable for input to text
formatters or for automatic translation to a variety of formats suitable
for
input to text formatters. A copy made in an otherwise Transparent file
format
whose markup, or absence of markup, has been arranged to thwart or
discourage
subsequent modification by readers is not Transparent. An image format is
not
Transparent if used for any substantial amount of text. A copy that is not
"Transparent" is called "Opaque".

Examples of suitable formats for Transparent copies include plain ASCII without
markup, Texinfo input format, LaTeX input format, SGML or XML using a publicly
available DTD, and standard-conforming simple HTML, PostScript or PDF designed
for human modification. Examples of transparent image formats include PNG, XCF
and JPG. Opaque formats include proprietary formats that can be read and edited
only by proprietary word processors, SGML or XML for which the DTD and/or
processing tools are not generally available, and the machine-generated HTML,
PostScript or PDF produced by some word processors for output purposes only.
The "Title Page" means, for a printed book, the title page itself, plus such
following pages as are needed to hold, legibly, the material this License
requires to appear in the title page. For works in formats which do not have any
title page as such, "Title Page" means the text near the most prominent
appearance of the work's title, preceding the beginning of the body of the text.
A section "Entitled XYZ" means a named subunit of the Document whose title either
is precisely XYZ or contains XYZ in parentheses following text that translates
XYZ in another language. (Here XYZ stands for a specific section name mentioned
below, such as "Acknowledgements", "Dedications", "Endorsements", or "History".)
To "Preserve the Title" of such a section when you modify the Document means that
it remains a section "Entitled XYZ" according to this definition.
The Document may include Warranty Disclaimers next to the notice which states
that this License applies to the Document. These Warranty Disclaimers are
considered to be included by reference in this License, but only as regards
disclaiming warranties: any other implication that these Warranty Disclaimers may
have is void and has no effect on the meaning of this License.
2. VERBATIM COPYING
You may copy and distribute the Document in any medium, either commercially or
noncommercially, provided that this License, the copyright notices, and the
license notice saying this License applies to the Document are reproduced in all
copies, and that you add no other conditions whatsoever to those of this License.
You may not use technical measures to obstruct or control the reading or further

copying of the copies you make or distribute. However, you may accept
compensation in exchange for copies. If you distribute a large enough
number of
copies you must also follow the conditions in section 3.
You may also lend copies, under the same conditions stated above, and you
may
publicly display copies.
3. COPYING IN QUANTITY
If you publish printed copies (or copies in media that commonly have
printed
covers) of the Document, numbering more than 100, and the Document's
license
notice requires Cover Texts, you must enclose the copies in covers that
carry,
clearly and legibly, all these Cover Texts: Front-Cover Texts on the front
cover,
and Back-Cover Texts on the back cover. Both covers must also clearly and
legibly
identify you as the publisher of these copies. The front cover must
present the
full title with all words of the title equally prominent and visible. You
may add
other material on the covers in addition. Copying with changes limited to
the
covers, as long as they preserve the title of the Document and satisfy
these
conditions, can be treated as verbatim copying in other respects.
If the required texts for either cover are too voluminous to fit legibly,
you
should put the first ones listed (as many as fit reasonably) on the actual
cover,
and continue the rest onto adjacent pages.
If you publish or distribute Opaque copies of the Document numbering more
than
100, you must either include a machine-readable Transparent copy along
with each
Opaque copy, or state in or with each Opaque copy a computer-network
location
from which the general network-using public has access to download using
public-standard network protocols a complete Transparent copy of the
Document,
free of added material. If you use the latter option, you must take
reasonably
prudent steps, when you begin distribution of Opaque copies in quantity,
to
ensure that this Transparent copy will remain thus accessible at the
stated
location until at least one year after the last time you distribute an
Opaque
copy (directly or through your agents or retailers) of that edition to the
public.
It is requested, but not required, that you contact the authors of the
Document

**December 2022**

well before redistributing any large number of copies, to give them a
chance to
provide you with an updated version of the Document.
4. MODIFICATIONS
You may copy and distribute a Modified Version of the Document under the
conditions of sections 2 and 3 above, provided that you release the
Modified
Version under precisely this License, with the Modified Version filling
the role
of the Document, thus licensing distribution and modification of the
Modified
Version to whoever possesses a copy of it. In addition, you must do these
things
in the Modified Version:

  * A. Use in the Title Page (and on the covers, if any) a title distinct
from
    that of the Document, and from those of previous versions (which
should, if
    there were any, be listed in the History section of the Document). You
may
    use the same title as a previous version if the original publisher of
that
    version gives permission.
  * B. List on the Title Page, as authors, one or more persons or entities
    responsible for authorship of the modifications in the Modified
Version,
    together with at least five of the principal authors of the Document
(all of
    its principal authors, if it has fewer than five), unless they release
you
    from this requirement.
  * C. State on the Title page the name of the publisher of the Modified
Version,
    as the publisher.
  * D. Preserve all the copyright notices of the Document.
  * E. Add an appropriate copyright notice for your modifications adjacent
to the
    other copyright notices.
  * F. Include, immediately after the copyright notices, a license notice
giving
    the public permission to use the Modified Version under the terms of
this
    License, in the form shown in the Addendum below.
  * G. Preserve in that license notice the full lists of Invariant
Sections and
    required Cover Texts given in the Document's license notice.
  * H. Include an unaltered copy of this License.
  * I. Preserve the section Entitled "History", Preserve its Title, and
add to it
    an item stating at least the title, year, new authors, and publisher
of the
    Modified Version as given on the Title Page. If there is no section
Entitled

"History" in the Document, create one stating the title, year,
authors, and
    publisher of the Document as given on its Title Page, then add an item
    describing the Modified Version as stated in the previous sentence.
  * J. Preserve the network location, if any, given in the Document for
public
    access to a Transparent copy of the Document, and likewise the network
    locations given in the Document for previous versions it was based on.
These
    may be placed in the "History" section. You may omit a network
location for a
    work that was published at least four years before the Document
itself, or if
    the original publisher of the version it refers to gives permission.
  * K. For any section Entitled "Acknowledgements" or "Dedications",
Preserve the
    Title of the section, and preserve in the section all the substance
and tone
    of each of the contributor acknowledgements and/or dedications given
therein.
  * L. Preserve all the Invariant Sections of the Document, unaltered in
their
    text and in their titles. Section numbers or the equivalent are not
    considered part of the section titles.
  * M. Delete any section Entitled "Endorsements". Such a section may not
be
    included in the Modified Version.
  * N. Do not retitle any existing section to be Entitled "Endorsements"
or to
    conflict in title with any Invariant Section.
  * O. Preserve any Warranty Disclaimers.
If the Modified Version includes new front-matter sections or appendices
that
qualify as Secondary Sections and contain no material copied from the
Document,
you may at your option designate some or all of these sections as
invariant. To
do this, add their titles to the list of Invariant Sections in the
Modified
Version's license notice. These titles must be distinct from any other
section
titles.
You may add a section Entitled "Endorsements", provided it contains
nothing but
endorsements of your Modified Version by various parties--for example,
statements
of peer review or that the text has been approved by an organization as
the
authoritative definition of a standard.
You may add a passage of up to five words as a Front-Cover Text, and a
passage of
up to 25 words as a Back-Cover Text, to the end of the list of Cover Texts
in the

Modified Version. Only one passage of Front-Cover Text and one of Back-Cover Text
may be added by (or through arrangements made by) any one entity. If the Document
already includes a cover text for the same cover, previously added by you or by
arrangement made by the same entity you are acting on behalf of, you may not add
another; but you may replace the old one, on explicit permission from the previous publisher that added the old one.
The author(s) and publisher(s) of the Document do not by this License give permission to use their names for publicity for or to assert or imply endorsement
of any Modified Version.
5. COMBINING DOCUMENTS
You may combine the Document with other documents released under this License,
under the terms defined in section 4 above for modified versions, provided that
you include in the combination all of the Invariant Sections of all of the
original documents, unmodified, and list them all as Invariant Sections of your
combined work in its license notice, and that you preserve all their Warranty
Disclaimers.
The combined work need only contain one copy of this License, and multiple
identical Invariant Sections may be replaced with a single copy. If there are
multiple Invariant Sections with the same name but different contents, make the
title of each such section unique by adding at the end of it, in parentheses, the
name of the original author or publisher of that section if known, or else a
unique number. Make the same adjustment to the section titles in the list of
Invariant Sections in the license notice of the combined work.
In the combination, you must combine any sections Entitled "History" in the
various original documents, forming one section Entitled "History";
likewise
combine any sections Entitled "Acknowledgements", and any sections Entitled
"Dedications". You must delete all sections Entitled "Endorsements."
6. COLLECTIONS OF DOCUMENTS
You may make a collection consisting of the Document and other documents released
under this License, and replace the individual copies of this License in the
various documents with a single copy that is included in the collection, provided
that you follow the rules of this License for verbatim copying of each of the

documents in all other respects.
You may extract a single document from such a collection, and distribute it
individually under this License, provided you insert a copy of this License into
the extracted document, and follow this License in all other respects regarding
verbatim copying of that document.
7. AGGREGATION WITH INDEPENDENT WORKS
A compilation of the Document or its derivatives with other separate and
independent documents or works, in or on a volume of a storage or distribution
medium, is called an "aggregate" if the copyright resulting from the compilation
is not used to limit the legal rights of the compilation's users beyond what the
individual works permit. When the Document is included in an aggregate, this
License does not apply to the other works in the aggregate which are not
themselves derivative works of the Document.
If the Cover Text requirement of section 3 is applicable to these copies of the
Document, then if the Document is less than one half of the entire aggregate, the
Document's Cover Texts may be placed on covers that bracket the Document within
the aggregate, or the electronic equivalent of covers if the Document is in
electronic form. Otherwise they must appear on printed covers that bracket the
whole aggregate.
8. TRANSLATION
Translation is considered a kind of modification, so you may distribute
translations of the Document under the terms of section 4. Replacing Invariant
Sections with translations requires special permission from their copyright
holders, but you may include translations of some or all Invariant Sections in
addition to the original versions of these Invariant Sections. You may include a
translation of this License, and all the license notices in the Document, and any
Warranty Disclaimers, provided that you also include the original English version
of this License and the original versions of those notices and disclaimers. In
case of a disagreement between the translation and the original version of this
License or a notice or disclaimer, the original version will prevail.
If a section in the Document is Entitled "Acknowledgements",
"Dedications", or

**December 2022**

"History", the requirement (section 4) to Preserve its Title (section 1)
will
typically require changing the actual title.
9. TERMINATION
You may not copy, modify, sublicense, or distribute the Document except as
expressly provided for under this License. Any other attempt to copy,
modify,
sublicense or distribute the Document is void, and will automatically
terminate
your rights under this License. However, parties who have received copies,
or
rights, from you under this License will not have their licenses
terminated so
long as such parties remain in full compliance.
10. FUTURE REVISIONS OF THIS LICENSE
The Free Software Foundation may publish new, revised versions of the GNU
Free
Documentation License from time to time. Such new versions will be similar
in
spirit to the present version, but may differ in detail to address new
problems
or concerns. See http://www.gnu.org/copyleft/.
Each version of the License is given a distinguishing version number. If
the
Document specifies that a particular numbered version of this License "or
any
later version" applies to it, you have the option of following the terms
and
conditions either of that specified version or of any later version that
has been
published (not as a draft) by the Free Software Foundation. If the
Document does
not specify a version number of this License, you may choose any version
ever
published (not as a draft) by the Free Software Foundation.
How to use this License for your documents
To use this License in a document you have written, include a copy of the
License
in the document and put the following copyright and license notices just
after
the title page:
  Copyright (c)  YEAR  YOUR NAME.
  Permission is granted to copy, distribute and/or modify this document
  under the terms of the GNU Free Documentation License, Version 1.2
  or any later version published by the Free Software Foundation;
  with no Invariant Sections, no Front-Cover Texts, and no Back-Cover
  Texts.  A copy of the license is included in the section entitled "GNU
  Free Documentation License".
If you have Invariant Sections, Front-Cover Texts and Back-Cover Texts,
replace
the "with...Texts." line with this:
  with the Invariant Sections being LIST THEIR TITLES, with the
  Front-Cover Texts being LIST, and with the Back-Cover Texts being LIST.

If you have Invariant Sections without Cover Texts, or some other combination of
the three, merge those two alternatives to suit the situation.
If your document contains nontrivial examples of program code, we recommend
releasing these examples in parallel under your choice of free software license,
such as the GNU General Public License, to permit their use in free software.

GNU Free Documentation License
Version 1.3, 3 November 2008
Copyright © 2000, 2001, 2002, 2007, 2008 Free Software Foundation, Inc.
<http://fsf.org/>
Everyone is permitted to copy and distribute verbatim copies of this license
document, but changing it is not allowed.
0. PREAMBLE
The purpose of this License is to make a manual, textbook, or other functional
and useful document "free" in the sense of freedom: to assure everyone the
effective freedom to copy and redistribute it, with or without modifying it,
either commercially or noncommercially. Secondarily, this License preserves for
the author and publisher a way to get credit for their work, while not being
considered responsible for modifications made by others.
This License is a kind of "copyleft", which means that derivative works of the
document must themselves be free in the same sense. It complements the GNU
General Public License, which is a copyleft license designed for free software.
We have designed this License in order to use it for manuals for free software,
because free software needs free documentation: a free program should come with
manuals providing the same freedoms that the software does. But this License is
not limited to software manuals; it can be used for any textual work, regardless
of subject matter or whether it is published as a printed book. We recommend this
License principally for works whose purpose is instruction or reference.
1. APPLICABILITY AND DEFINITIONS
This License applies to any manual or other work, in any medium, that contains a

notice placed by the copyright holder saying it can be distributed under the
terms of this License. Such a notice grants a world-wide, royalty-free license,
unlimited in duration, to use that work under the conditions stated herein. The
"Document", below, refers to any such manual or work. Any member of the public is
a licensee, and is addressed as "you". You accept the license if you copy, modify
or distribute the work in a way requiring permission under copyright law.
A "Modified Version" of the Document means any work containing the Document or a
portion of it, either copied verbatim, or with modifications and/or translated
into another language.
A "Secondary Section" is a named appendix or a front-matter section of the
Document that deals exclusively with the relationship of the publishers or
authors of the Document to the Document's overall subject (or to related matters)
and contains nothing that could fall directly within that overall subject. (Thus,
if the Document is in part a textbook of mathematics, a Secondary Section may not
explain any mathematics.) The relationship could be a matter of historical
connection with the subject or with related matters, or of legal, commercial,
philosophical, ethical or political position regarding them.
The "Invariant Sections" are certain Secondary Sections whose titles are
designated, as being those of Invariant Sections, in the notice that says that
the Document is released under this License. If a section does not fit the above
definition of Secondary then it is not allowed to be designated as Invariant. The
Document may contain zero Invariant Sections. If the Document does not identify
any Invariant Sections then there are none.
The "Cover Texts" are certain short passages of text that are listed, as
Front-Cover Texts or Back-Cover Texts, in the notice that says that the Document
is released under this License. A Front-Cover Text may be at most 5 words, and a
Back-Cover Text may be at most 25 words.
A "Transparent" copy of the Document means a machine-readable copy, represented
in a format whose specification is available to the general public, that is
suitable for revising the document straightforwardly with generic text editors or
(for images composed of pixels) generic paint programs or (for drawings) some
widely available drawing editor, and that is suitable for input to text

**December 2022**

formatters or for automatic translation to a variety of formats suitable for
input to text formatters. A copy made in an otherwise Transparent file format
whose markup, or absence of markup, has been arranged to thwart or discourage
subsequent modification by readers is not Transparent. An image format is not
Transparent if used for any substantial amount of text. A copy that is not
"Transparent" is called "Opaque".
Examples of suitable formats for Transparent copies include plain ASCII without
markup, Texinfo input format, LaTeX input format, SGML or XML using a publicly
available DTD, and standard-conforming simple HTML, PostScript or PDF designed
for human modification. Examples of transparent image formats include PNG, XCF
and JPG. Opaque formats include proprietary formats that can be read and edited
only by proprietary word processors, SGML or XML for which the DTD and/or
processing tools are not generally available, and the machine-generated HTML,
PostScript or PDF produced by some word processors for output purposes only.
The "Title Page" means, for a printed book, the title page itself, plus such
following pages as are needed to hold, legibly, the material this License
requires to appear in the title page. For works in formats which do not have any
title page as such, "Title Page" means the text near the most prominent
appearance of the work's title, preceding the beginning of the body of the text.
The "publisher" means any person or entity that distributes copies of the
Document to the public.
A section "Entitled XYZ" means a named subunit of the Document whose title either
is precisely XYZ or contains XYZ in parentheses following text that translates
XYZ in another language. (Here XYZ stands for a specific section name mentioned
below, such as "Acknowledgements", "Dedications", "Endorsements", or "History".)
To "Preserve the Title" of such a section when you modify the Document means that
it remains a section "Entitled XYZ" according to this definition.
The Document may include Warranty Disclaimers next to the notice which states
that this License applies to the Document. These Warranty Disclaimers are
considered to be included by reference in this License, but only as regards
disclaiming warranties: any other implication that these Warranty Disclaimers may

have is void and has no effect on the meaning of this License.
2. VERBATIM COPYING
You may copy and distribute the Document in any medium, either commercially or
noncommercially, provided that this License, the copyright notices, and the
license notice saying this License applies to the Document are reproduced in all
copies, and that you add no other conditions whatsoever to those of this License.
You may not use technical measures to obstruct or control the reading or further
copying of the copies you make or distribute. However, you may accept
compensation in exchange for copies. If you distribute a large enough number of
copies you must also follow the conditions in section 3.
You may also lend copies, under the same conditions stated above, and you may
publicly display copies.
3. COPYING IN QUANTITY
If you publish printed copies (or copies in media that commonly have printed
covers) of the Document, numbering more than 100, and the Document's license
notice requires Cover Texts, you must enclose the copies in covers that carry,
clearly and legibly, all these Cover Texts: Front-Cover Texts on the front cover,
and Back-Cover Texts on the back cover. Both covers must also clearly and legibly
identify you as the publisher of these copies. The front cover must present the
full title with all words of the title equally prominent and visible. You may add
other material on the covers in addition. Copying with changes limited to the
covers, as long as they preserve the title of the Document and satisfy these
conditions, can be treated as verbatim copying in other respects.
If the required texts for either cover are too voluminous to fit legibly, you
should put the first ones listed (as many as fit reasonably) on the actual cover,
and continue the rest onto adjacent pages.
If you publish or distribute Opaque copies of the Document numbering more than
100, you must either include a machine-readable Transparent copy along with each
Opaque copy, or state in or with each Opaque copy a computer-network location
from which the general network-using public has access to download using
public-standard network protocols a complete Transparent copy of the Document,

free of added material. If you use the latter option, you must take
reasonably
prudent steps, when you begin distribution of Opaque copies in quantity,
to
ensure that this Transparent copy will remain thus accessible at the
stated
location until at least one year after the last time you distribute an
Opaque
copy (directly or through your agents or retailers) of that edition to the
public.
It is requested, but not required, that you contact the authors of the
Document
well before redistributing any large number of copies, to give them a
chance to
provide you with an updated version of the Document.
4. MODIFICATIONS
You may copy and distribute a Modified Version of the Document under the
conditions of sections 2 and 3 above, provided that you release the
Modified
Version under precisely this License, with the Modified Version filling
the role
of the Document, thus licensing distribution and modification of the
Modified
Version to whoever possesses a copy of it. In addition, you must do these
things
in the Modified Version:
  * A. Use in the Title Page (and on the covers, if any) a title distinct
from
    that of the Document, and from those of previous versions (which
should, if
    there were any, be listed in the History section of the Document). You
may
    use the same title as a previous version if the original publisher of
that
    version gives permission.
  * B. List on the Title Page, as authors, one or more persons or entities
    responsible for authorship of the modifications in the Modified
Version,
    together with at least five of the principal authors of the Document
(all of
    its principal authors, if it has fewer than five), unless they release
you
    from this requirement.
  * C. State on the Title page the name of the publisher of the Modified
Version,
    as the publisher.
  * D. Preserve all the copyright notices of the Document.
  * E. Add an appropriate copyright notice for your modifications adjacent
to the
    other copyright notices.
  * F. Include, immediately after the copyright notices, a license notice
giving

the public permission to use the Modified Version under the terms of this
License, in the form shown in the Addendum below.
* G. Preserve in that license notice the full lists of Invariant Sections and
required Cover Texts given in the Document's license notice.
* H. Include an unaltered copy of this License.
* I. Preserve the section Entitled "History", Preserve its Title, and add to it
an item stating at least the title, year, new authors, and publisher of the
Modified Version as given on the Title Page. If there is no section Entitled
"History" in the Document, create one stating the title, year, authors, and
publisher of the Document as given on its Title Page, then add an item
describing the Modified Version as stated in the previous sentence.
* J. Preserve the network location, if any, given in the Document for public
access to a Transparent copy of the Document, and likewise the network
locations given in the Document for previous versions it was based on. These
may be placed in the "History" section. You may omit a network location for a
work that was published at least four years before the Document itself, or if
the original publisher of the version it refers to gives permission.
* K. For any section Entitled "Acknowledgements" or "Dedications", Preserve the
Title of the section, and preserve in the section all the substance and tone
of each of the contributor acknowledgements and/or dedications given therein.
* L. Preserve all the Invariant Sections of the Document, unaltered in their
text and in their titles. Section numbers or the equivalent are not
considered part of the section titles.
* M. Delete any section Entitled "Endorsements". Such a section may not be
included in the Modified Version.
* N. Do not retitle any existing section to be Entitled "Endorsements" or to
conflict in title with any Invariant Section.
* O. Preserve any Warranty Disclaimers.
If the Modified Version includes new front-matter sections or appendices that
qualify as Secondary Sections and contain no material copied from the Document,
you may at your option designate some or all of these sections as invariant. To
do this, add their titles to the list of Invariant Sections in the Modified

Version's license notice. These titles must be distinct from any other section
titles.
You may add a section Entitled "Endorsements", provided it contains nothing but
endorsements of your Modified Version by various parties—for example, statements
of peer review or that the text has been approved by an organization as the
authoritative definition of a standard.
You may add a passage of up to five words as a Front-Cover Text, and a passage of
up to 25 words as a Back-Cover Text, to the end of the list of Cover Texts in the
Modified Version. Only one passage of Front-Cover Text and one of Back-Cover Text
may be added by (or through arrangements made by) any one entity. If the Document
already includes a cover text for the same cover, previously added by you or by
arrangement made by the same entity you are acting on behalf of, you may not add
another; but you may replace the old one, on explicit permission from the previous publisher that added the old one.
The author(s) and publisher(s) of the Document do not by this License give permission to use their names for publicity for or to assert or imply endorsement
of any Modified Version.
5. COMBINING DOCUMENTS
You may combine the Document with other documents released under this License,
under the terms defined in section 4 above for modified versions, provided that
you include in the combination all of the Invariant Sections of all of the
original documents, unmodified, and list them all as Invariant Sections of your
combined work in its license notice, and that you preserve all their Warranty
Disclaimers.
The combined work need only contain one copy of this License, and multiple
identical Invariant Sections may be replaced with a single copy. If there are
multiple Invariant Sections with the same name but different contents, make the
title of each such section unique by adding at the end of it, in parentheses, the
name of the original author or publisher of that section if known, or else a
unique number. Make the same adjustment to the section titles in the list of
Invariant Sections in the license notice of the combined work.
In the combination, you must combine any sections Entitled "History" in the

various original documents, forming one section Entitled "History";
likewise
combine any sections Entitled "Acknowledgements", and any sections
Entitled
"Dedications". You must delete all sections Entitled "Endorsements".
6. COLLECTIONS OF DOCUMENTS
You may make a collection consisting of the Document and other documents
released
under this License, and replace the individual copies of this License in
the
various documents with a single copy that is included in the collection,
provided
that you follow the rules of this License for verbatim copying of each of
the
documents in all other respects.
You may extract a single document from such a collection, and distribute
it
individually under this License, provided you insert a copy of this
License into
the extracted document, and follow this License in all other respects
regarding
verbatim copying of that document.
7. AGGREGATION WITH INDEPENDENT WORKS
A compilation of the Document or its derivatives with other separate and
independent documents or works, in or on a volume of a storage or
distribution
medium, is called an "aggregate" if the copyright resulting from the
compilation
is not used to limit the legal rights of the compilation's users beyond
what the
individual works permit. When the Document is included in an aggregate,
this
License does not apply to the other works in the aggregate which are not
themselves derivative works of the Document.
If the Cover Text requirement of section 3 is applicable to these copies
of the
Document, then if the Document is less than one half of the entire
aggregate, the
Document's Cover Texts may be placed on covers that bracket the Document
within
the aggregate, or the electronic equivalent of covers if the Document is
in
electronic form. Otherwise they must appear on printed covers that bracket
the
whole aggregate.
8. TRANSLATION
Translation is considered a kind of modification, so you may distribute
translations of the Document under the terms of section 4. Replacing
Invariant
Sections with translations requires special permission from their
copyright
holders, but you may include translations of some or all Invariant
Sections in

addition to the original versions of these Invariant Sections. You may include a
translation of this License, and all the license notices in the Document, and any
Warranty Disclaimers, provided that you also include the original English version
of this License and the original versions of those notices and disclaimers. In
case of a disagreement between the translation and the original version of this
License or a notice or disclaimer, the original version will prevail.
If a section in the Document is Entitled "Acknowledgements",
"Dedications", or
"History", the requirement (section 4) to Preserve its Title (section 1) will
typically require changing the actual title.
9. TERMINATION
You may not copy, modify, sublicense, or distribute the Document except as
expressly provided under this License. Any attempt otherwise to copy, modify,
sublicense, or distribute it is void, and will automatically terminate your
rights under this License.
However, if you cease all violation of this License, then your license from a
particular copyright holder is reinstated (a) provisionally, unless and until the
copyright holder explicitly and finally terminates your license, and (b)
permanently, if the copyright holder fails to notify you of the violation by some
reasonable means prior to 60 days after the cessation.
Moreover, your license from a particular copyright holder is reinstated
permanently if the copyright holder notifies you of the violation by some
reasonable means, this is the first time you have received notice of violation of
this License (for any work) from that copyright holder, and you cure the
violation prior to 30 days after your receipt of the notice.
Termination of your rights under this section does not terminate the licenses of
parties who have received copies or rights from you under this License. If your
rights have been terminated and not permanently reinstated, receipt of a copy of
some or all of the same material does not give you any rights to use it.
10. FUTURE REVISIONS OF THIS LICENSE
The Free Software Foundation may publish new, revised versions of the GNU Free
Documentation License from time to time. Such new versions will be similar in
spirit to the present version, but may differ in detail to address new problems
or concerns. See http://www.gnu.org/copyleft/.

Each version of the License is given a distinguishing version number. If the
Document specifies that a particular numbered version of this License "or any
later version" applies to it, you have the option of following the terms and
conditions either of that specified version or of any later version that has been
published (not as a draft) by the Free Software Foundation. If the Document does
not specify a version number of this License, you may choose any version ever
published (not as a draft) by the Free Software Foundation. If the Document
specifies that a proxy can decide which future versions of this License can be
used, that proxy's public statement of acceptance of a version permanently
authorizes you to choose that version for the Document.
11. RELICENSING
"Massive Multiauthor Collaboration Site" (or "MMC Site") means any World Wide Web
server that publishes copyrightable works and also provides prominent facilities
for anybody to edit those works. A public wiki that anybody can edit is an
example of such a server. A "Massive Multiauthor Collaboration" (or "MMC")
contained in the site means any set of copyrightable works thus published on the
MMC site.
"CC-BY-SA" means the Creative Commons Attribution-Share Alike 3.0 license
published by Creative Commons Corporation, a not-for-profit corporation with a
principal place of business in San Francisco, California, as well as future
copyleft versions of that license published by that same organization.
"Incorporate" means to publish or republish a Document, in whole or in part, as
part of another Document.
An MMC is "eligible for relicensing" if it is licensed under this License, and if
all works that were first published under this License somewhere other than this
MMC, and subsequently incorporated in whole or in part into the MMC, (1) had no
cover texts or invariant sections, and (2) were thus incorporated prior to
November 1, 2008.
The operator of an MMC Site may republish an MMC contained in the site under
CC-BY-SA on the same site at any time before August 1, 2009, provided the MMC is
eligible for relicensing.
ADDENDUM: How to use this License for your documents
To use this License in a document you have written, include a copy of the License

in the document and put the following copyright and license notices just
after
the title page:
    Copyright (C)  YEAR  YOUR NAME.
    Permission is granted to copy, distribute and/or modify this document
    under the terms of the GNU Free Documentation License, Version 1.3
    or any later version published by the Free Software Foundation;
    with no Invariant Sections, no Front-Cover Texts, and no Back-Cover
Texts.
    A copy of the license is included in the section entitled "GNU
    Free Documentation License".
If you have Invariant Sections, Front-Cover Texts and Back-Cover Texts,
replace
the "with … Texts." line with this:
    with the Invariant Sections being LIST THEIR TITLES, with the
    Front-Cover Texts being LIST, and with the Back-Cover Texts being
LIST.
If you have Invariant Sections without Cover Texts, or some other
combination of
the three, merge those two alternatives to suit the situation.
If your document contains nontrivial examples of program code, we
recommend
releasing these examples in parallel under your choice of free software
license,
such as the GNU General Public License, to permit their use in free
software.

GNU GENERAL PUBLIC LICENSE

 Copyright (C) 1989 Free Software Foundation, Inc.
                    51 Franklin St, Fifth Floor, Boston, MA  02110-1301
USA
 Everyone is permitted to copy and distribute verbatim copies
 of this license document, but changing it is not allowed.
                            Preamble
  The license agreements of most software companies try to keep users
at the mercy of those companies.  By contrast, our General Public
License is intended to guarantee your freedom to share and change free
software--to make sure the software is free for all its users.  The
General Public License applies to the Free Software Foundation's
software and to any other program whose authors commit to using it.
You can use it for your programs, too.
  When we speak of free software, we are referring to freedom, not
price.  Specifically, the General Public License is designed to make
sure that you have the freedom to give away or sell copies of free
software, that you receive source code or can get it if you want it,
that you can change the software or use pieces of it in new free
programs; and that you know you can do these things.

   To protect your rights, we need to make restrictions that forbid
anyone to deny you these rights or to ask you to surrender the rights.
These restrictions translate to certain responsibilities for you if you
distribute copies of the software, or if you modify it.
   For example, if you distribute copies of a such a program, whether
gratis or for a fee, you must give the recipients all the rights that
you have.  You must make sure that they, too, receive or can get the
source code.  And you must tell them their rights.
   We protect your rights with two steps: (1) copyright the software, and
(2) offer you this license which gives you legal permission to copy,
distribute and/or modify the software.
   Also, for each author's protection and ours, we want to make certain
that everyone understands that there is no warranty for this free
software.  If the software is modified by someone else and passed on, we
want its recipients to know that what they have is not the original, so
that any problems introduced by others will not reflect on the original
authors' reputations.
   The precise terms and conditions for copying, distribution and
modification follow.
                    GNU GENERAL PUBLIC LICENSE
   TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
   0. This License Agreement applies to any program or other work which
contains a notice placed by the copyright holder saying it may be
distributed under the terms of this General Public License.  The
"Program", below, refers to any such program or work, and a "work based
on the Program" means either the Program or any work containing the
Program or a portion of it, either verbatim or with modifications.  Each
licensee is addressed as "you".
   1. You may copy and distribute verbatim copies of the Program's source
code as you receive it, in any medium, provided that you conspicuously and
appropriately publish on each copy an appropriate copyright notice and
disclaimer of warranty; keep intact all the notices that refer to this
General Public License and to the absence of any warranty; and give any
other recipients of the Program a copy of this General Public License
along with the Program.  You may charge a fee for the physical act of
transferring a copy.
   2. You may modify your copy or copies of the Program or any portion of
it, and copy and distribute such modifications under the terms of
Paragraph
1 above, provided that you also do the following:
     a) cause the modified files to carry prominent notices stating that
     you changed the files and the date of any change; and
     b) cause the whole of any work that you distribute or publish, that
     in whole or in part contains the Program or any part thereof, either
     with or without modifications, to be licensed at no charge to all
     third parties under the terms of this General Public License (except
     that you may choose to grant warranty protection to some or all
     third parties, at your option).
     c) If the modified program normally reads commands interactively when
     run, you must cause it, when started running for such interactive use
     in the simplest and most usual way, to print or display an
     announcement including an appropriate copyright notice and a notice
     that there is no warranty (or else, saying that you provide a

warranty) and that users may redistribute the program under these
conditions, and telling the user how to view a copy of this General
Public License.
d) You may charge a fee for the physical act of transferring a
copy, and you may at your option offer warranty protection in
exchange for a fee.

Mere aggregation of another independent work with the Program (or its
derivative) on a volume of a storage or distribution medium does not bring
the other work under the scope of these terms.

3. You may copy and distribute the Program (or a portion or derivative of
it, under Paragraph 2) in object code or executable form under the terms of
Paragraphs 1 and 2 above provided that you also do one of the following:
a) accompany it with the complete corresponding machine-readable
source code, which must be distributed under the terms of
Paragraphs 1 and 2 above; or,
b) accompany it with a written offer, valid for at least three
years, to give any third party free (except for a nominal charge
for the cost of distribution) a complete machine-readable copy of the
corresponding source code, to be distributed under the terms of
Paragraphs 1 and 2 above; or,
c) accompany it with the information you received as to where the
corresponding source code may be obtained.  (This alternative is
allowed only for noncommercial distribution and only if you
received the program in object code or executable form alone.)

Source code for a work means the preferred form of the work for making
modifications to it.  For an executable file, complete source code means
all the source code for all modules it contains; but, as a special
exception, it need not include source code for modules which are standard
libraries that accompany the operating system on which the executable
file runs, or for standard header files or definitions files that
accompany that operating system.

4. You may not copy, modify, sublicense, distribute or transfer the
Program except as expressly provided under this General Public License.
Any attempt otherwise to copy, modify, sublicense, distribute or transfer
the Program is void, and will automatically terminate your rights to use
the Program under this License.  However, parties who have received
copies, or rights to use copies, from you under this General Public
License will not have their licenses terminated so long as such parties
remain in full compliance.

5. By copying, distributing or modifying the Program (or any work based
on the Program) you indicate your acceptance of this license to do so,
and all its terms and conditions.

6. Each time you redistribute the Program (or any work based on the
Program), the recipient automatically receives a license from the original
licensor to copy, distribute or modify the Program subject to these
terms and conditions.  You may not impose any further restrictions on the
recipients' exercise of the rights granted herein.

7. The Free Software Foundation may publish revised and/or new versions
of the General Public License from time to time.  Such new versions will
be similar in spirit to the present version, but may differ in detail to
address new problems or concerns.

Each version is given a distinguishing version number.  If the Program
specifies a version number of the license which applies to it and "any
later version", you have the option of following the terms and conditions
either of that version or of any later version published by the Free
Software Foundation.  If the Program does not specify a version number of
the license, you may choose any version ever published by the Free
Software
Foundation.
  8. If you wish to incorporate parts of the Program into other free
programs whose distribution conditions are different, write to the author
to ask for permission.  For software which is copyrighted by the Free
Software Foundation, write to the Free Software Foundation; we sometimes
make exceptions for this.  Our decision will be guided by the two goals
of preserving the free status of all derivatives of our free software and
of promoting the sharing and reuse of software generally.
                          NO WARRANTY
  9. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY
FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.  EXCEPT WHEN
OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES
PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED
OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.  THE ENTIRE RISK AS
TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU.  SHOULD THE
PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING,
REPAIR OR CORRECTION.
  10. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN
WRITING
WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR
REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES,
INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES
ARISING
OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED
TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY
YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER
PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE
POSSIBILITY OF SUCH DAMAGES.
                   END OF TERMS AND CONDITIONS
          Appendix: How to Apply These Terms to Your New Programs
  If you develop a new program, and you want it to be of the greatest
possible use to humanity, the best way to achieve this is to make it
free software which everyone can redistribute and change under these
terms.
  To do so, attach the following notices to the program.  It is safest to
attach them to the start of each source file to most effectively convey
the exclusion of warranty; and each file should have at least the
"copyright" line and a pointer to where the full notice is found.
    <one line to give the program's name and a brief idea of what it
does.>

    This program is free software; you can redistribute it and/or modify
    it under the terms of the GNU General Public License as published by
    the Free Software Foundation; either version 1, or (at your option)
    any later version.

     This program is distributed in the hope that it will be useful,
     but WITHOUT ANY WARRANTY; without even the implied warranty of
     MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE.  See the
     GNU General Public License for more details.
     You should have received a copy of the GNU General Public License
     along with this program; if not, write to the Free Software
     Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston MA  02110-
1301 USA.
Also add information on how to contact you by electronic and paper mail.
If the program is interactive, make it output a short notice like this
when it starts in an interactive mode:
     Gnomovision version 69, Copyright (C) 19xx name of author
     Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show
w'.
     This is free software, and you are welcome to redistribute it
     under certain conditions; type `show c' for details.
The hypothetical commands `show w' and `show c' should show the
appropriate parts of the General Public License.  Of course, the
commands you use may be called something other than `show w' and `show
c'; they could even be mouse-clicks or menu items--whatever suits your
program.
You should also get your employer (if you work as a programmer) or your
school, if any, to sign a "copyright disclaimer" for the program, if
necessary.  Here a sample; alter the names:
  Yoyodyne, Inc., hereby disclaims all copyright interest in the
  program `Gnomovision' (a program to direct compilers to make passes
  at assemblers) written by James Hacker.

Everyone is permitted to copy and distribute verbatim copies of this license
document, but changing it is not allowed.
Preamble
The license agreements of most software companies try to keep users at the mercy
of those companies. By contrast, our General Public License is intended to
guarantee your freedom to share and change free software--to make sure the
software is free for all its users. The General Public License applies to the
Free Software Foundation's software and to any other program whose authors commit
to using it. You can use it for your programs, too.
When we speak of free software, we are referring to freedom, not price.
Specifically, the General Public License is designed to make sure that you have
the freedom to give away or sell copies of free software, that you receive source
code or can get it if you want it, that you can change the software or use pieces
of it in new free programs; and that you know you can do these things.
To protect your rights, we need to make restrictions that forbid anyone to deny
you these rights or to ask you to surrender the rights. These restrictions
translate to certain responsibilities for you if you distribute copies of the
software, or if you modify it.
For example, if you distribute copies of a such a program, whether gratis or for
a fee, you must give the recipients all the rights that you have. You must make
sure that they, too, receive or can get the source code. And you must tell them
their rights.
We protect your rights with two steps: (1) copyright the software, and (2) offer
you this license which gives you legal permission to copy, distribute and/or
modify the software.
Also, for each author's protection and ours, we want to make certain that
everyone understands that there is no warranty for this free software. If the
software is modified by someone else and passed on, we want its recipients to
know that what they have is not the original, so that any problems introduced by
others will not reflect on the original authors' reputations.

The precise terms and conditions for copying, distribution and modification
follow.
GNU GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
   1.   This License Agreement applies to any program or other work which contains
     a notice placed by the copyright holder saying it may be distributed under
     the terms of this General Public License. The "Program", below, refers to any
     such program or work, and a "work based on the Program" means either the
     Program or any work containing the Program or a portion of it, either
     verbatim or with modifications. Each licensee is addressed as "you".
   2. You may copy and distribute verbatim copies of the Program's source code as
     you receive it, in any medium, provided that you conspicuously and
     appropriately publish on each copy an appropriate copyright notice and
     disclaimer of warranty; keep intact all the notices that refer to this
     General Public License and to the absence of any warranty; and give any other
     recipients of the Program a copy of this General Public License along with
     the Program. You may charge a fee for the physical act of transferring a
     copy.
   3.   You may modify your copy or copies of the Program or any portion of it, and
     copy and distribute such modifications under the terms of Paragraph 1 above,
     provided that you also do the following:
       a. cause the modified files to carry prominent notices stating that you
         changed the files and the date of any change; and
       b. cause the whole of any work that you distribute or publish, that in
         whole or in part contains the Program or any part thereof, either with or
         without modifications, to be licensed at no charge to all third parties
         under the terms of this General Public License (except that you may
         choose to grant warranty protection to some or all third parties, at your
         option).
       c. If the modified program normally reads commands interactively when run,
         you must cause it, when started running for such interactive use in the
         simplest and most usual way, to print or display an announcement
         including an appropriate copyright notice and a notice that there is no

warranty (or else, saying that you provide a warranty) and that
users may
redistribute the program under these conditions, and telling the
user how
to view a copy of this General Public License.
d.  You may charge a fee for the physical act of transferring a
copy, and
you may at your option offer warranty protection in exchange for a
fee.
Mere aggregation of another independent work with the Program (or its
derivative) on a volume of a storage or distribution medium does not
bring
the other work under the scope of these terms.
4. You may copy and distribute the Program (or a portion or derivative
of it,
under Paragraph 2) in object code or executable form under the terms
of
Paragraphs 1 and 2 above provided that you also do one of the
following:
a.  accompany it with the complete corresponding machine-readable
source
code, which must be distributed under the terms of Paragraphs 1
and 2
above; or,
b. accompany it with a written offer, valid for at least three
years, to
give any third party free (except for a nominal charge for the
cost of
distribution) a complete machine-readable copy of the
corresponding
source code, to be distributed under the terms of Paragraphs 1 and
2
above; or,
c.  accompany it with the information you received as to where the
corresponding source code may be obtained. (This alternative is
allowed
only for noncommercial distribution and only if you received the
program
in object code or executable form alone.)
Source code for a work means the preferred form of the work for making
modifications to it. For an executable file, complete source code
means all
the source code for all modules it contains; but, as a special
exception, it
need not include source code for modules which are standard libraries
that
accompany the operating system on which the executable file runs, or
for
standard header files or definitions files that accompany that
operating
system.
5.  You may not copy, modify, sublicense, distribute or transfer the
Program

**December 2022**

except as expressly provided under this General Public License. Any
attempt
otherwise to copy, modify, sublicense, distribute or transfer the
Program is
void, and will automatically terminate your rights to use the Program
under
this License. However, parties who have received copies, or rights to
use
copies, from you under this General Public License will not have their
licenses terminated so long as such parties remain in full compliance.
  6.  By copying, distributing or modifying the Program (or any work based
on the
Program) you indicate your acceptance of this license to do so, and
all its
terms and conditions.
  7. Each time you redistribute the Program (or any work based on the
Program),
the recipient automatically receives a license from the original
licensor to
copy, distribute or modify the Program subject to these terms and
conditions.
You may not impose any further restrictions on the recipients'
exercise of
the rights granted herein.
  8.  The Free Software Foundation may publish revised and/or new versions
of the
General Public License from time to time. Such new versions will be
similar
in spirit to the present version, but may differ in detail to address
new
problems or concerns.
Each version is given a distinguishing version number. If the Program
specifies a version number of the license which applies to it and "any
later

either of
that version or of any later version published by the Free Software
Foundation. If the Program does not specify a version number of the
license,
you may choose any version ever published by the Free Software

programs
whose distribution conditions are different, write to the author to
ask for
permission. For software which is copyrighted by the Free Software
Foundation, write to the Free Software Foundation; we sometimes make
exceptions for this. Our decision will be guided by the two goals of
preserving the free status of all derivatives of our free software and
of
promoting the sharing and reuse of software generally.
NO WARRANTY

   9. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE
      PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE
      STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE
      PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED,
      INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND
      FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND
      PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE,
      YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
   10.  IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL
      ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE
      THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY
      GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE
      OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR
      DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR
      A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH
      HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.
Preamble
The licenses for most software are designed to take away your freedom to
share
and change it. By contrast, the GNU General Public License is intended to
guarantee your freedom to share and change free software--to make sure the
software is free for all its users. This General Public License applies to
most
of the Free Software Foundation's software and to any other program whose
authors
commit to using it. (Some other Free Software Foundation software is
covered by
the GNU Library General Public License instead.) You can apply it to your
programs, too.
When we speak of free software, we are referring to freedom, not price.
Our
General Public Licenses are designed to make sure that you have the
freedom to
distribute copies of free software (and charge for this service if you
wish),
that you receive source code or can get it if you want it, that you can
change
the software or use pieces of it in new free programs; and that you know
you can
do these things.
To protect your rights, we need to make restrictions that forbid anyone to
deny
you these rights or to ask you to surrender the rights. These restrictions
translate to certain responsibilities for you if you distribute copies of
the
software, or if you modify it.
For example, if you distribute copies of such a program, whether gratis or
for a
fee, you must give the recipients all the rights that you have. You must
make
sure that they, too, receive or can get the source code. And you must show
them
these terms so they know their rights.
We protect your rights with two steps: (1) copyright the software, and (2)
offer

you this license which gives you legal permission to copy, distribute and/or
modify the software.
Also, for each author's protection and ours, we want to make certain that
everyone understands that there is no warranty for this free software. If the
software is modified by someone else and passed on, we want its recipients to
know that what they have is not the original, so that any problems introduced by
others will not reflect on the original authors' reputations.
Finally, any free program is threatened constantly by software patents. We wish
to avoid the danger that redistributors of a free program will individually
obtain patent licenses, in effect making the program proprietary. To prevent
this, we have made it clear that any patent must be licensed for everyone's free
use or not licensed at all.
The precise terms and conditions for copying, distribution and modification
follow.
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
0. This License applies to any program or other work which contains a notice
placed by the copyright holder saying it may be distributed under the terms of
this General Public License. The "Program", below, refers to any such program or
work, and a "work based on the Program" means either the Program or any
derivative work under copyright law: that is to say, a work containing the
Program or a portion of it, either verbatim or with modifications and/or
translated into another language. (Hereinafter, translation is included without
limitation in the term "modification".) Each licensee is addressed as "you".
Activities other than copying, distribution and modification are not covered by
this License; they are outside its scope. The act of running the Program is not
restricted, and the output from the Program is covered only if its contents
constitute a work based on the Program (independent of having been made by
running the Program). Whether that is true depends on what the Program does.
1. You may copy and distribute verbatim copies of the Program's source code as
you receive it, in any medium, provided that you conspicuously and appropriately
publish on each copy an appropriate copyright notice and disclaimer of warranty;

keep intact all the notices that refer to this License and to the absence
of any
warranty; and give any other recipients of the Program a copy of this
License
along with the Program.
You may charge a fee for the physical act of transferring a copy, and you
may at
your option offer warranty protection in exchange for a fee.
2. You may modify your copy or copies of the Program or any portion of it,
thus
forming a work based on the Program, and copy and distribute such
modifications
or work under the terms of Section 1 above, provided that you also meet
all of
these conditions:
      a) You must cause the modified files to carry prominent notices
stating
      that you changed the files and the date of any change.
      b) You must cause any work that you distribute or publish, that in
whole or
      in part contains or is derived from the Program or any part thereof,
to be
      licensed as a whole at no charge to all third parties under the
terms of
      this License.
      c) If the modified program normally reads commands interactively
when run,
      you must cause it, when started running for such interactive use in
the
      most ordinary way, to print or display an announcement including an
      appropriate copyright notice and a notice that there is no warranty
(or
      else, saying that you provide a warranty) and that users may
redistribute
      the program under these conditions, and telling the user how to view
a copy
      of this License. (Exception: if the Program itself is interactive
but does
      not normally print such an announcement, your work based on the
Program is
      not required to print an announcement.)
These requirements apply to the modified work as a whole. If identifiable
sections of that work are not derived from the Program, and can be
reasonably
considered independent and separate works in themselves, then this
License, and
its terms, do not apply to those sections when you distribute them as
separate
works. But when you distribute the same sections as part of a whole which
is a
work based on the Program, the distribution of the whole must be on the
terms of

this License, whose permissions for other licensees extend to the entire
whole,
and thus to each and every part regardless of who wrote it.
Thus, it is not the intent of this section to claim rights or contest your
rights
to work written entirely by you; rather, the intent is to exercise the
right to
control the distribution of derivative or collective works based on the
Program.
In addition, mere aggregation of another work not based on the Program
with the
Program (or with a work based on the Program) on a volume of a storage or
distribution medium does not bring the other work under the scope of this
License.
3. You may copy and distribute the Program (or a work based on it, under
Section
2) in object code or executable form under the terms of Sections 1 and 2
above
provided that you also do one of the following:
      a) Accompany it with the complete corresponding machine-readable
source
      code, which must be distributed under the terms of Sections 1 and 2
above
      on a medium customarily used for software interchange; or,
      b) Accompany it with a written offer, valid for at least three
years, to
      give any third party, for a charge no more than your cost of
physically
      performing source distribution, a complete machine-readable copy of
the
      corresponding source code, to be distributed under the terms of
Sections 1
      and 2 above on a medium customarily used for software interchange;
or,
      c) Accompany it with the information you received as to the offer to
      distribute corresponding source code. (This alternative is allowed
only for
      noncommercial distribution
and only if you received the program in object code or executable form
with such
an offer, in accord with Subsection b above.)
The source code for a work means the preferred form of the work for making
modifications to it. For an executable work, complete source code means
all the
source code for all modules it contains, plus any associated interface
definition
files, plus the scripts used to control compilation and installation of
the
executable. However, as a special exception, the source code distributed
need not
include anything that is normally distributed (in either source or binary
form)

with the major components (compiler, kernel, and so on) of the operating
system
on which the executable runs, unless that component itself accompanies the
executable.
If distribution of executable or object code is made by offering access to
copy
from a designated place, then offering equivalent access to copy the
source code
from the same place counts as distribution of the source code, even though
third
parties are not compelled to copy the source along with the object code.
4. You may not copy, modify, sublicense, or distribute the Program except
as
expressly provided under this License. Any attempt otherwise to copy,
modify,
sublicense or distribute the Program is void, and will automatically
terminate
your rights under this License. However, parties who have received copies,
or
rights, from you under this License will not have their licenses
terminated so
long as such parties remain in full compliance.
5. You are not required to accept this License, since you have not signed
it.
However, nothing else grants you permission to modify or distribute the
Program
or its derivative works. These actions are prohibited by law if you do not
accept
this License. Therefore, by modifying or distributing the Program (or any
work
based on the Program), you indicate your acceptance of this License to do
so, and
all its terms and conditions for copying, distributing or modifying the
Program
or works based on it.
6. Each time you redistribute the Program (or any work based on the
Program), the
recipient automatically receives a license from the original licensor to
copy,
distribute or modify the Program subject to these terms and conditions.
You may
not impose any further restrictions on the recipients' exercise of the
rights
granted herein. You are not responsible for enforcing compliance by third
parties
to this License.
7. If, as a consequence of a court judgment or allegation of patent
infringement
or for any other reason (not limited to patent issues), conditions are
imposed on
you (whether by court order, agreement or otherwise) that contradict the
conditions of this License, they do not excuse you from the conditions of
this

License. If you cannot distribute so as to satisfy simultaneously your
obligations under this License and any other pertinent obligations, then
as a
consequence you may not distribute the Program at all. For example, if a
patent
license would not permit royalty-free redistribution of the Program by all
those
who receive copies directly or indirectly through you, then the only way
you
could satisfy both it and this License would be to refrain entirely from
distribution of the Program.
If any portion of this section is held invalid or unenforceable under any
particular circumstance, the balance of the section is intended to apply
and the
section as a whole is intended to apply in other circumstances.
It is not the purpose of this section to induce you to infringe any
patents or
other property right claims or to contest validity of any such claims;
this
section has the sole purpose of protecting the integrity of the free
software
distribution system, which is implemented by public license practices.
Many
people have made generous contributions to the wide range of software
distributed
through that system in reliance on consistent application of that system;
it is
up to the author/donor to decide if he or she is willing to distribute
software
through any other system and a licensee cannot impose that choice.
This section is intended to make thoroughly clear what is believed to be a
consequence of the rest of this License.
8. If the distribution and/or use of the Program is restricted in certain
countries either by patents or by copyrighted interfaces, the original
copyright
holder who places the Program under this License may add an explicit
geographical
distribution limitation excluding those countries, so that distribution is
permitted only in or among countries not thus excluded. In such case, this
License incorporates the limitation as if written in the body of this
License.
9. The Free Software Foundation may publish revised and/or new versions of
the
General Public License from time to time. Such new versions will be
similar in
spirit to the present version, but may differ in detail to address new
problems
or concerns.
Each version is given a distinguishing version number. If the Program
specifies a
version number of this License which applies to it and "any later
version", you

have the option of following the terms and conditions either of that
version or
of any later version published by the Free Software Foundation. If the
Program
does not specify a version number of this License, you may choose any
version
ever published by the Free Software Foundation.
10. If you wish to incorporate parts of the Program into other free
programs
whose distribution conditions are different, write to the author to ask
for
permission. For software which is copyrighted by the Free Software
Foundation,
write to the Free Software Foundation; we sometimes make exceptions for
this. Our
decision will be guided by the two goals of preserving the free status of
all
derivatives of our free software and of promoting the sharing and reuse of
software generally.
NO WARRANTY
11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY
FOR THE
PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE
STATED
IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM
"AS IS"
WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT
NOT
LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A
PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF
THE
PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE
COST OF
ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING
WILL
ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR
REDISTRIBUTE THE
PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY
GENERAL,
SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR
INABILITY
TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA
BEING
RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A
FAILURE OF
THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR
OTHER
PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

The GNU General Public License (GPL)
===================================
Version 2, June 1991
--------------------
Copyright (C) 1989, 1991 Free Software Foundation, Inc.
59 Temple Place, Suite 330, Boston, MA 02111-1307 USAEveryone is permitted
to copy and distribute verbatim copies
of this license document, but changing it is not allowed.
Preamble
The licenses for most software are designed to take away your freedom to
share
and change it. By contrast, the GNU General Public License is intended to
guarantee your freedom to share and change free software--to make sure the
software is free for all its users. This General Public License applies to
most
of the Free Software Foundation's software and to any other program whose
authors
commit to using it. (Some other Free Software Foundation software is
covered by
the GNU Library General Public License instead.) You can apply it to your
programs, too.
When we speak of free software, we are referring to freedom, not price.
Our
General Public Licenses are designed to make sure that you have the
freedom to
distribute copies of free software (and charge for this service if you
wish),

that you receive source code or can get it if you want it, that you can change
the software or use pieces of it in new free programs; and that you know you can
do these things.
To protect your rights, we need to make restrictions that forbid anyone to deny
you these rights or to ask you to surrender the rights. These restrictions
translate to certain responsibilities for you if you distribute copies of the
software, or if you modify it.
For example, if you distribute copies of such a program, whether gratis or for a
fee, you must give the recipients all the rights that you have. You must make
sure that they, too, receive or can get the source code. And you must show them
these terms so they know their rights.
We protect your rights with two steps: (1) copyright the software, and (2) offer
you this license which gives you legal permission to copy, distribute and/or
modify the software.
Also, for each author's protection and ours, we want to make certain that
everyone understands that there is no warranty for this free software. If the
software is modified by someone else and passed on, we want its recipients to
know that what they have is not the original, so that any problems introduced by
others will not reflect on the original authors' reputations.
Finally, any free program is threatened constantly by software patents. We wish
to avoid the danger that redistributors of a free program will individually
obtain patent licenses, in effect making the program proprietary. To prevent
this, we have made it clear that any patent must be licensed for everyone's free
use or not licensed at all.
The precise terms and conditions for copying, distribution and modification
follow.
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
  1.  This License applies to any program or other work which contains a notice
    placed by the copyright holder saying it may be distributed under the terms
    of this General Public License. The "Program", below, refers to any such
    program or work, and a "work based on the Program" means either the Program

or any derivative work under copyright law: that is to say, a work
containing
the Program or a portion of it, either verbatim or with modifications
and/or
translated into another language. (Hereinafter, translation is
included
without limitation in the term "modification".) Each licensee is
addressed as
"you".
Activities other than copying, distribution and modification are not
covered
by this License; they are outside its scope. The act of running the
Program
is not restricted, and the output from the Program is covered only if
its
contents constitute a work based on the Program (independent of having
been
made by running the Program). Whether that is true depends on what the
Program does.
2. You may copy and distribute verbatim copies of the Program's source
code as
you receive it, in any medium, provided that you conspicuously and
appropriately publish on each copy an appropriate copyright notice and
disclaimer of warranty; keep intact all the notices that refer to this
License and to the absence of any warranty; and give any other
recipients of
the Program a copy of this License along with the Program.
You may charge a fee for the physical act of transferring a copy, and
you may
at your option offer warranty protection in exchange for a fee.
3. You may modify your copy or copies of the Program or any portion of
it, thus
forming a work based on the Program, and copy and distribute such
modifications or work under the terms of Section 1 above, provided
that you
also meet all of these conditions:
a. You must cause the modified files to carry prominent notices
stating
that you changed the files and the date of any change.
b. You must cause any work that you distribute or publish, that in
whole or
in part contains or is derived from the Program or any part
thereof, to
be licensed as a whole at no charge to all third parties under the
terms
of this License.
c. If the modified program normally reads commands interactively
when run,
you must cause it, when started running for such interactive use
in the
most ordinary way, to print or display an announcement including
an

appropriate copyright notice and a notice that there is no
warranty (or
else, saying that you provide a warranty) and that users may
redistribute
the program under these conditions, and telling the user how to
view a
copy of this License. (Exception: if the Program itself is
interactive
but does not normally print such an announcement, your work based
on the
Program is not required to print an announcement.)
    These requirements apply to the modified work as a whole. If
identifiable
    sections of that work are not derived from the Program, and can be
reasonably
    considered independent and separate works in themselves, then this
License,
    and its terms, do not apply to those sections when you distribute them
as
    separate works. But when you distribute the same sections as part of a
whole
    which is a work based on the Program, the distribution of the whole
must be
    on the terms of this License, whose permissions for other licensees
extend to
    the entire whole, and thus to each and every part regardless of who
wrote it.
    Thus, it is not the intent of this section to claim rights or contest
your
    rights to work written entirely by you; rather, the intent is to
exercise the
    right to control the distribution of derivative or collective works
based on
    the Program.
    In addition, mere aggregation of another work not based on the Program
with
    the Program (or with a work based on the Program) on a volume of a
storage or
    distribution medium does not bring the other work under the scope of
this
    License.
  4. You may copy and distribute the Program (or a work based on it, under
    Section 2) in object code or executable form under the terms of
Sections 1
    and 2 above provided that you also do one of the following:
      a. Accompany it with the complete corresponding machine-readable
source
        code, which must be distributed under the terms of Sections 1 and
2 above
        on a medium customarily used for software interchange; or,
      b. Accompany it with a written offer, valid for at least three
years, to

give any third party, for a charge no more than your cost of
physically
        performing source distribution, a complete machine-readable copy
of the
        corresponding source code, to be distributed under the terms of
Sections
        1 and 2 above on a medium customarily used for software
interchange; or,
      c. Accompany it with the information you received as to the offer to
        distribute corresponding source code. (This alternative is allowed
only
        for noncommercial distribution and only if you received the
program in
        object code or executable form with such an offer, in accord with
        Subsection b above.)
    The source code for a work means the preferred form of the work for
making
    modifications to it. For an executable work, complete source code
means all
    the source code for all modules it contains, plus any associated
interface
    definition files, plus the scripts used to control compilation and
    installation of the executable. However, as a special exception, the
source
    code distributed need not include anything that is normally
distributed (in
    either source or binary form) with the major components (compiler,
kernel,
    and so on) of the operating system on which the executable runs,
unless that
    component itself accompanies the executable.
    If distribution of executable or object code is made by offering
access to
    copy from a designated place, then offering equivalent access to copy
the
    source code from the same place counts as distribution of the source
code,
    even though third parties are not compelled to copy the source along
with the
    object code.
  5. You may not copy, modify, sublicense, or distribute the Program
except as
    expressly provided under this License. Any attempt otherwise to copy,
modify,
    sublicense or distribute the Program is void, and will automatically
    terminate your rights under this License. However, parties who have
received
    copies, or rights, from you under this License will not have their
licenses
    terminated so long as such parties remain in full compliance.
  6. You are not required to accept this License, since you have not
signed it.

However, nothing else grants you permission to modify or distribute the
   Program or its derivative works. These actions are prohibited by law if you
   do not accept this License. Therefore, by modifying or distributing the
   Program (or any work based on the Program), you indicate your acceptance of
   this License to do so, and all its terms and conditions for copying,
   distributing or modifying the Program or works based on it.
 7. Each time you redistribute the Program (or any work based on the Program),
   the recipient automatically receives a license from the original licensor to
   copy, distribute or modify the Program subject to these terms and conditions.
   You may not impose any further restrictions on the recipients' exercise of
   the rights granted herein. You are not responsible for enforcing compliance
   by third parties to this License.
 8. If, as a consequence of a court judgment or allegation of patent
   infringement or for any other reason (not limited to patent issues),
   conditions are imposed on you (whether by court order, agreement or
   otherwise) that contradict the conditions of this License, they do not excuse
   you from the conditions of this License. If you cannot distribute so as to
   satisfy simultaneously your obligations under this License and any other
   pertinent obligations, then as a consequence you may not distribute the
   Program at all. For example, if a patent license would not permit
   royalty-free redistribution of the Program by all those who receive copies
   directly or indirectly through you, then the only way you could satisfy both
   it and this License would be to refrain entirely from distribution of the
   Program.
   If any portion of this section is held invalid or unenforceable under any
   particular circumstance, the balance of the section is intended to apply and
   the section as a whole is intended to apply in other circumstances.
   It is not the purpose of this section to induce you to infringe any patents
   or other property right claims or to contest validity of any such claims;
   this section has the sole purpose of protecting the integrity of the free
   software distribution system, which is implemented by public license

practices. Many people have made generous contributions to the wide range of
software distributed through that system in reliance on consistent
application of that system; it is up to the author/donor to decide if he or
she is willing to distribute software through any other system and a licensee
cannot impose that choice.
This section is intended to make thoroughly clear what is believed to be a
consequence of the rest of this License.
9. If the distribution and/or use of the Program is restricted in certain
countries either by patents or by copyrighted interfaces, the original
copyright holder who places the Program under this License may add an
explicit geographical distribution limitation excluding those countries, so
that distribution is permitted only in or among countries not thus excluded.
In such case, this License incorporates the limitation as if written in the
body of this License.
10. The Free Software Foundation may publish revised and/or new versions of the
General Public License from time to time. Such new versions will be similar
in spirit to the present version, but may differ in detail to address new
problems or concerns.
Each version is given a distinguishing version number. If the Program
specifies a version number of this License which applies to it and "any later
version", you have the option of following the terms and conditions either of
that version or of any later version published by the Free Software
Foundation. If the Program does not specify a version number of this License,
you may choose any version ever published by the Free Software Foundation.
11. If you wish to incorporate parts of the Program into other free programs
whose distribution conditions are different, write to the author to ask for
permission. For software which is copyrighted by the Free Software
Foundation, write to the Free Software Foundation; we sometimes make
exceptions for this. Our decision will be guided by the two goals of
preserving the free status of all derivatives of our free software and of
promoting the sharing and reuse of software generally.
NO WARRANTY
12. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR

How to Apply These Terms to Your New Programs
If you develop a new program, and you want it to be of the greatest

to the public, the best way to achieve this is to make it free software
which
everyone can redistribute and change under these terms.
To do so, attach the following notices to the program. It is safest to
attach
them to the start of each source file to most effectively convey the
exclusion of
warranty; and each file should have at least the "copyright" line and a
pointer
to where the full notice is found.

GNU General Public License v2.0 w/Autoconf exception
(libnsl 1.3.0)

Autoconf GPL 2.0 with Exception
===============================
As a special exception, the Free Software Foundation gives unlimited
permission
to copy, distribute and modify the configure scripts that are the output
of
Autoconf. You need not follow the terms of the GNU General Public License
when

using or distributing such scripts, even though portions of the text of Autoconf
appear in them. The GNU General Public License (GPL) does govern all other use of
the material that constitutes the Autoconf program.
Certain portions of the Autoconf source text are designed to be copied (in
certain cases, depending on the input) into the output of Autoconf. We call these
the "data" portions. The rest of the Autoconf source text consists of comments
plus executable code that decides which of the data portions to output in any
given case. We call these comments and executable code the "non-data" portions.
Autoconf never copies any of the non-data portions into its output.
This special exception to the GPL applies to versions of Autoconf released by the
Free Software Foundation. When you make and distribute a modified version of
Autoconf, you may extend this special exception to the GPL to apply to your
modified version as well, *unless* your modified version has the potential to
copy into its output some of the text that was the non-data portion of the
version that you started with. (In other words, unless your change moves or
copies text from the non-data portions to the data portions.) If your
modification has such potential, you must delete any notice of this special
exception to the GPL from your modified version.

The GNU General Public License (GPL)
====================================
Version 2, June 1991
-------------------
Copyright (C) 1989, 1991 Free Software Foundation, Inc.
59 Temple Place, Suite 330, Boston, MA 02111-1307 USAEveryone is permitted
to copy and distribute verbatim copies
of this license document, but changing it is not allowed.
Preamble
The licenses for most software are designed to take away your freedom to share
and change it. By contrast, the GNU General Public License is intended to
guarantee your freedom to share and change free software--to make sure the
software is free for all its users. This General Public License applies to most
of the Free Software Foundation's software and to any other program whose authors
commit to using it. (Some other Free Software Foundation software is covered by
the GNU Library General Public License instead.) You can apply it to your
programs, too.

When we speak of free software, we are referring to freedom, not price. Our
General Public Licenses are designed to make sure that you have the freedom to
distribute copies of free software (and charge for this service if you wish),
that you receive source code or can get it if you want it, that you can change
the software or use pieces of it in new free programs; and that you know you can
do these things.
To protect your rights, we need to make restrictions that forbid anyone to deny
you these rights or to ask you to surrender the rights. These restrictions
translate to certain responsibilities for you if you distribute copies of the
software, or if you modify it.
For example, if you distribute copies of such a program, whether gratis or for a
fee, you must give the recipients all the rights that you have. You must make
sure that they, too, receive or can get the source code. And you must show them
these terms so they know their rights.
We protect your rights with two steps: (1) copyright the software, and (2) offer
you this license which gives you legal permission to copy, distribute and/or
modify the software.
Also, for each author's protection and ours, we want to make certain that
everyone understands that there is no warranty for this free software. If the
software is modified by someone else and passed on, we want its recipients to
know that what they have is not the original, so that any problems introduced by
others will not reflect on the original authors' reputations.
Finally, any free program is threatened constantly by software patents. We wish
to avoid the danger that redistributors of a free program will individually
obtain patent licenses, in effect making the program proprietary. To prevent
this, we have made it clear that any patent must be licensed for everyone's free
use or not licensed at all.
The precise terms and conditions for copying, distribution and modification
follow.
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
  1.  This License applies to any program or other work which contains a notice

placed by the copyright holder saying it may be distributed under the terms
    of this General Public License. The "Program", below, refers to any such
    program or work, and a "work based on the Program" means either the Program
    or any derivative work under copyright law: that is to say, a work containing
    the Program or a portion of it, either verbatim or with modifications and/or
    translated into another language. (Hereinafter, translation is included
    without limitation in the term "modification".) Each licensee is addressed as
    "you".
    Activities other than copying, distribution and modification are not covered
    by this License; they are outside its scope. The act of running the Program
    is not restricted, and the output from the Program is covered only if its
    contents constitute a work based on the Program (independent of having been
    made by running the Program). Whether that is true depends on what the
    Program does.
  2. You may copy and distribute verbatim copies of the Program's source code as
    you receive it, in any medium, provided that you conspicuously and
    appropriately publish on each copy an appropriate copyright notice and
    disclaimer of warranty; keep intact all the notices that refer to this
    License and to the absence of any warranty; and give any other recipients of
    the Program a copy of this License along with the Program.
    You may charge a fee for the physical act of transferring a copy, and you may
    at your option offer warranty protection in exchange for a fee.
  3. You may modify your copy or copies of the Program or any portion of it, thus
    forming a work based on the Program, and copy and distribute such
    modifications or work under the terms of Section 1 above, provided that you
    also meet all of these conditions:
      a. You must cause the modified files to carry prominent notices stating
        that you changed the files and the date of any change.
      b.  You must cause any work that you distribute or publish, that in whole
        or in part contains or is derived from the Program or any part thereof,
        to be licensed as a whole at no charge to all third parties under the
        terms of this License.

       c. If the modified program normally reads commands interactively
when run,
         you must cause it, when started running for such interactive use
in the
         most ordinary way, to print or display an announcement including
an
         appropriate copyright notice and a notice that there is no
warranty (or
         else, saying that you provide a warranty) and that users may
redistribute
         the program under these conditions, and telling the user how to
view a
         copy of this License. (Exception: if the Program itself is
interactive
         but does not normally print such an announcement, your work based
on the
         Program is not required to print an announcement.)
    These requirements apply to the modified work as a whole. If
identifiable
    sections of that work are not derived from the Program, and can be
reasonably
    considered independent and separate works in themselves, then this
License,
    and its terms, do not apply to those sections when you distribute them
as
    separate works. But when you distribute the same sections as part of a
whole
    which is a work based on the Program, the distribution of the whole
must be
    on the terms of this License, whose permissions for other licensees
extend to
    the entire whole, and thus to each and every part regardless of who
wrote it.
    Thus, it is not the intent of this section to claim rights or contest
your
    rights to work written entirely by you; rather, the intent is to
exercise the
    right to control the distribution of derivative or collective works
based on
    the Program.
    In addition, mere aggregation of another work not based on the Program
with
    the Program (or with a work based on the Program) on a volume of a
storage or
    distribution medium does not bring the other work under the scope of
this
    License.
  4. You may copy and distribute the Program (or a work based on it, under
    Section 2) in object code or executable form under the terms of
Sections 1
    and 2 above provided that you also do one of the following:
      a. Accompany it with the complete corresponding machine-readable
source

        code, which must be distributed under the terms of Sections 1 and
2 above
        on a medium customarily used for software interchange; or,
      b. Accompany it with a written offer, valid for at least three
years, to
        give any third party, for a charge no more than your cost of
physically
        performing source distribution, a complete machine-readable copy
of the
        corresponding source code, to be distributed under the terms of
Sections
        1 and 2 above on a medium customarily used for software
interchange; or,
      c. Accompany it with the information you received as to the offer to
        distribute corresponding source code. (This alternative is allowed
only
        for noncommercial distribution and only if you received the
program in
        object code or executable form with such an offer, in accord with
        Subsection b above.)
    The source code for a work means the preferred form of the work for
making
    modifications to it. For an executable work, complete source code
means all
    the source code for all modules it contains, plus any associated
interface
    definition files, plus the scripts used to control compilation and
    installation of the executable. However, as a special exception, the
source
    code distributed need not include anything that is normally
distributed (in
    either source or binary form) with the major components (compiler,
kernel,
    and so on) of the operating system on which the executable runs,
unless that
    component itself accompanies the executable.
    If distribution of executable or object code is made by offering
access to
    copy from a designated place, then offering equivalent access to copy
the
    source code from the same place counts as distribution of the source
code,
    even though third parties are not compelled to copy the source along
with the
    object code.
  5. You may not copy, modify, sublicense, or distribute the Program
except as
    expressly provided under this License. Any attempt otherwise to copy,
modify,
    sublicense or distribute the Program is void, and will automatically
    terminate your rights under this License. However, parties who have
received

**December 2022**

       copies, or rights, from you under this License will not have their
licenses
       terminated so long as such parties remain in full compliance.
    6. You are not required to accept this License, since you have not
signed it.
       However, nothing else grants you permission to modify or distribute
the
       Program or its derivative works. These actions are prohibited by law
if you
       do not accept this License. Therefore, by modifying or distributing
the
       Program (or any work based on the Program), you indicate your
acceptance of
       this License to do so, and all its terms and conditions for copying,
       distributing or modifying the Program or works based on it.
    7. Each time you redistribute the Program (or any work based on the
Program),
       the recipient automatically receives a license from the original
licensor to
       copy, distribute or modify the Program subject to these terms and
conditions.
       You may not impose any further restrictions on the recipients'
exercise of
       the rights granted herein. You are not responsible for enforcing
compliance
       by third parties to this License.
    8. If, as a consequence of a court judgment or allegation of patent
       infringement or for any other reason (not limited to patent issues),
       conditions are imposed on you (whether by court order, agreement or
       otherwise) that contradict the conditions of this License, they do not
excuse
       you from the conditions of this License. If you cannot distribute so
as to
       satisfy simultaneously your obligations under this License and any
other
       pertinent obligations, then as a consequence you may not distribute
the
       Program at all. For example, if a patent license would not permit
       royalty-free redistribution of the Program by all those who receive
copies
       directly or indirectly through you, then the only way you could
satisfy both
       it and this License would be to refrain entirely from distribution of
the
       Program.
       If any portion of this section is held invalid or unenforceable under
any
       particular circumstance, the balance of the section is intended to
apply and
       the section as a whole is intended to apply in other circumstances.
       It is not the purpose of this section to induce you to infringe any
patents

or other property right claims or to contest validity of any such
claims;
    this section has the sole purpose of protecting the integrity of the
free
    software distribution system, which is implemented by public license
    practices. Many people have made generous contributions to the wide
range of
    software distributed through that system in reliance on consistent
    application of that system; it is up to the author/donor to decide if
he or
    she is willing to distribute software through any other system and a
licensee
    cannot impose that choice.
    This section is intended to make thoroughly clear what is believed to
be a
    consequence of the rest of this License.
  9. If the distribution and/or use of the Program is restricted in
certain
    countries either by patents or by copyrighted interfaces, the original
    copyright holder who places the Program under this License may add an
    explicit geographical distribution limitation excluding those
countries, so
    that distribution is permitted only in or among countries not thus
excluded.
    In such case, this License incorporates the limitation as if written
in the
    body of this License.
  10. The Free Software Foundation may publish revised and/or new versions
of the
    General Public License from time to time. Such new versions will be
similar
    in spirit to the present version, but may differ in detail to address
new
    problems or concerns.
    Each version is given a distinguishing version number. If the Program
    specifies a version number of this License which applies to it and
"any later
    version", you have the option of following the terms and conditions
either of
    that version or of any later version published by the Free Software
    Foundation. If the Program does not specify a version number of this
License,
    you may choose any version ever published by the Free Software
Foundation.
  11. If you wish to incorporate parts of the Program into other free
programs
    whose distribution conditions are different, write to the author to
ask for
    permission. For software which is copyrighted by the Free Software
    Foundation, write to the Free Software Foundation; we sometimes make
    exceptions for this. Our decision will be guided by the two goals of
    preserving the free status of all derivatives of our free software and
of

promoting the sharing and reuse of software generally.
NO WARRANTY
   12. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR
   THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE
   STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE
   PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED,
   INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND
   FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND
   PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE,
   YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
   13. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL
   ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE
   THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY
   GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE
   OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR
   DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR
   A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH
   HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
   END OF TERMS AND CONDITIONS

or work under the terms of Section 1 above, provided that you also meet
all of
these conditions:
      a) You must cause the modified files to carry prominent notices
stating
      that you changed the files and the date of any change.
      b) You must cause any work that you distribute or publish, that in
whole or
      in part contains or is derived from the Program or any part thereof,
to be
      licensed as a whole at no charge to all third parties under the
terms of
      this License.
      c) If the modified program normally reads commands interactively
when run,
      you must cause it, when started running for such interactive use in
the
      most ordinary way, to print or display an announcement including an
      appropriate copyright notice and a notice that there is no warranty
(or
      else, saying that you provide a warranty) and that users may
redistribute
      the program under these conditions, and telling the user how to view
a copy
      of this License. (Exception: if the Program itself is interactive
but does
      not normally print such an announcement, your work based on the
Program is
      not required to print an announcement.)
These requirements apply to the modified work as a whole. If identifiable
sections of that work are not derived from the Program, and can be
reasonably

considered independent and separate works in themselves, then this
License, and
its terms, do not apply to those sections when you distribute them as
separate
works. But when you distribute the same sections as part of a whole which
is a
work based on the Program, the distribution of the whole must be on the
terms of
this License, whose permissions for other licensees extend to the entire
whole,
and thus to each and every part regardless of who wrote it.
Thus, it is not the intent of this section to claim rights or contest your
rights
to work written entirely by you; rather, the intent is to exercise the
right to
control the distribution of derivative or collective works based on the
Program.
In addition, mere aggregation of another work not based on the Program
with the
Program (or with a work based on the Program) on a volume of a storage or
distribution medium does not bring the other work under the scope of this
License.
3. You may copy and distribute the Program (or a work based on it, under
Section
2) in object code or executable form under the terms of Sections 1 and 2
above
provided that you also do one of the following:

 a) Accompany it with the complete corresponding machine-readable
source
 code, which must be distributed under the terms of Sections 1 and 2
above
 on a medium customarily used for software interchange; or,
 b) Accompany it with a written offer, valid for at least three
years, to
 give any third party, for a charge no more than your cost of
physically
 performing source distribution, a complete machine-readable copy of
the
 corresponding source code, to be distributed under the terms of
Sections 1
 and 2 above on a medium customarily used for software interchange;
or,
 c) Accompany it with the information you received as to the offer to
 distribute corresponding source code. (This alternative is allowed
only for
 noncommercial distribution
and only if you received the program in object code or executable form
with such
an offer, in accord with Subsection b above.)
The source code for a work means the preferred form of the work for making
modifications to it. For an executable work, complete source code means
all the

**December 2022**

source code for all modules it contains, plus any associated interface
definition
files, plus the scripts used to control compilation and installation of
the
executable. However, as a special exception, the source code distributed
need not
include anything that is normally distributed (in either source or binary
form)
with the major components (compiler, kernel, and so on) of the operating
system
on which the executable runs, unless that component itself accompanies the
executable.
If distribution of executable or object code is made by offering access to
copy
from a designated place, then offering equivalent access to copy the
source code
from the same place counts as distribution of the source code, even though
third
parties are not compelled to copy the source along with the object code.
4. You may not copy, modify, sublicense, or distribute the Program except
as
expressly provided under this License. Any attempt otherwise to copy,
modify,
sublicense or distribute the Program is void, and will automatically
terminate
your rights under this License. However, parties who have received copies,
or
rights, from you under this License will not have their licenses
terminated so
long as such parties remain in full compliance.
5. You are not required to accept this License, since you have not signed
it.
However, nothing else grants you permission to modify or distribute the
Program
or its derivative works. These actions are prohibited by law if you do not
accept
this License. Therefore, by modifying or distributing the Program (or any
work
based on the Program), you indicate your acceptance of this License to do
so, and
all its terms and conditions for copying, distributing or modifying the
Program
or works based on it.
6. Each time you redistribute the Program (or any work based on the
Program), the
recipient automatically receives a license from the original licensor to
copy,
distribute or modify the Program subject to these terms and conditions.
You may
not impose any further restrictions on the recipients' exercise of the
rights
granted herein. You are not responsible for enforcing compliance by third
parties

to this License.
7. If, as a consequence of a court judgment or allegation of patent infringement
or for any other reason (not limited to patent issues), conditions are imposed on
you (whether by court order, agreement or otherwise) that contradict the
conditions of this License, they do not excuse you from the conditions of this
License. If you cannot distribute so as to satisfy simultaneously your
obligations under this License and any other pertinent obligations, then as a
consequence you may not distribute the Program at all. For example, if a patent
license would not permit royalty-free redistribution of the Program by all those
who receive copies directly or indirectly through you, then the only way you
could satisfy both it and this License would be to refrain entirely from
distribution of the Program.
If any portion of this section is held invalid or unenforceable under any
particular circumstance, the balance of the section is intended to apply and the
section as a whole is intended to apply in other circumstances.
It is not the purpose of this section to induce you to infringe any patents or
other property right claims or to contest validity of any such claims; this
section has the sole purpose of protecting the integrity of the free software
distribution system, which is implemented by public license practices. Many
people have made generous contributions to the wide range of software distributed
through that system in reliance on consistent application of that system; it is
up to the author/donor to decide if he or she is willing to distribute software
through any other system and a licensee cannot impose that choice.
This section is intended to make thoroughly clear what is believed to be a
consequence of the rest of this License.
8. If the distribution and/or use of the Program is restricted in certain
countries either by patents or by copyrighted interfaces, the original copyright
holder who places the Program under this License may add an explicit geographical
distribution limitation excluding those countries, so that distribution is
permitted only in or among countries not thus excluded. In such case, this
License incorporates the limitation as if written in the body of this License.
9. The Free Software Foundation may publish revised and/or new versions of the
General Public License from time to time. Such new versions will be similar in

spirit to the present version, but may differ in detail to address new problems
or concerns.
Each version is given a distinguishing version number. If the Program specifies a
version number of this License which applies to it and "any later version", you
have the option of following the terms and conditions either of that version or
of any later version published by the Free Software Foundation. If the Program
does not specify a version number of this License, you may choose any version
ever published by the Free Software Foundation.
10. If you wish to incorporate parts of the Program into other free programs
whose distribution conditions are different, write to the author to ask for
permission. For software which is copyrighted by the Free Software Foundation,
write to the Free Software Foundation; we sometimes make exceptions for this. Our
decision will be guided by the two goals of preserving the free status of all
derivatives of our free software and of promoting the sharing and reuse of
software generally.
NO WARRANTY
11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE
PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED
IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS"
WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT
LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A
PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE
PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF
ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL
ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE
PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL,
SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY
TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING
RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF

THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER
PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Programs
If you develop a new program, and you want it to be of the greatest possible use
to the public, the best way to achieve this is to make it free software which
everyone can redistribute and change under these terms.
To do so, attach the following notices to the program. It is safest to attach
them to the start of each source file to most effectively convey the exclusion of
warranty; and each file should have at least the "copyright" line and a pointer
to where the full notice is found.
        one line to give the program's name and a brief idea of what it does.
        Copyright (C)
        This program is free software; you can redistribute it and/or modify it
        under the terms of the GNU General Public License as published by the Free
        Software Foundation; either version 2 of the License, or (at your option)
        any later version.
        This program is distributed in the hope that it will be useful, but WITHOUT
        ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or
        FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for
        more details.
        You should have received a copy of the GNU General Public License along
        with this program; if not, write to the Free Software Foundation, Inc., 59
        Temple Place, Suite 330, Boston, MA 02111-1307 USA
Also add information on how to contact you by electronic and paper mail.
If the program is interactive, make it output a short notice like this when it
starts in an interactive mode:
        Gnomovision version 69, Copyright (C) year name of author Gnomovision comes
        with ABSOLUTELY NO WARRANTY; for details type `show w'. This is free
        software, and you are welcome to redistribute it under certain conditions;
        type `show c' for details.
The hypothetical commands `show w' and `show c' should show the appropriate parts
of the General Public License. Of course, the commands you use may be called

something other than `show w' and `show c'; they could even be mouse-clicks or
menu items--whatever suits your program.
You should also get your employer (if you work as a programmer) or your school,
if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a
sample; alter the names:
        Yoyodyne, Inc., hereby disclaims all copyright interest
        in the program `Gnomovision' (which makes passes at compilers)
        written by James Hacker.

This General Public License does not permit incorporating your program into
proprietary programs. If your program is a subroutine library, you may consider
it more useful to permit linking proprietary applications with the library. If
this is what you want to do, use the GNU Library General Public License instead
of this License.
Classpath is distributed under the terms of the GNU General Public License with
the following clarification and special exception.
Linking this library statically or dynamically with other modules is making a
combined work based on this library. Thus, the terms and conditions of the GNU
General Public License cover the whole combination.
As a special exception, the copyright holders of this library give you permission
to link this library with independent modules to produce an executable,
regardless of the license terms of these independent modules, and to copy and
distribute the resulting executable under terms of your choice, provided that you
also meet, for each linked independent module, the terms and conditions of the
license of that module. An independent module is a module which is not derived
from or based on this library. If you modify this library, you may extend this
exception to your version of the library, but you are not obligated to do so. If
you do not wish to do so, delete this exception statement from your version.
As such, it can be used to run, create and distribute a large class of
applications and applets. When GNU Classpath is used unmodified as the core class
library for a virtual machine, compiler for the java languge, or for a program

written in the java programming language it does not affect the licensing for
distributing those programs directly.

--------------------
Copyright (C) 1989, 1991 Free Software Foundation, Inc.
59 Temple Place, Suite 330, Boston, MA 02111-1307 USAEveryone is permitted
to copy and distribute verbatim copies
of this license document, but changing it is not allowed.
Preamble
The licenses for most software are designed to take away your freedom to share
and change it. By contrast, the GNU General Public License is intended to
guarantee your freedom to share and change free software--to make sure the
software is free for all its users. This General Public License applies to most
of the Free Software Foundation's software and to any other program whose authors
commit to using it. (Some other Free Software Foundation software is covered by
the GNU Library General Public License instead.) You can apply it to your
programs, too.
When we speak of free software, we are referring to freedom, not price. Our
General Public Licenses are designed to make sure that you have the freedom to
distribute copies of free software (and charge for this service if you wish),
that you receive source code or can get it if you want it, that you can change

the software or use pieces of it in new free programs; and that you know
you can
do these things.
To protect your rights, we need to make restrictions that forbid anyone to
deny
you these rights or to ask you to surrender the rights. These restrictions
translate to certain responsibilities for you if you distribute copies of
the
software, or if you modify it.
For example, if you distribute copies of such a program, whether gratis or
for a
fee, you must give the recipients all the rights that you have. You must
make
sure that they, too, receive or can get the source code. And you must show
them
these terms so they know their rights.
We protect your rights with two steps: (1) copyright the software, and (2)
offer
you this license which gives you legal permission to copy, distribute
and/or
modify the software.
Also, for each author's protection and ours, we want to make certain that
everyone understands that there is no warranty for this free software. If
the
software is modified by someone else and passed on, we want its recipients
to
know that what they have is not the original, so that any problems
introduced by
others will not reflect on the original authors' reputations.
Finally, any free program is threatened constantly by software patents. We
wish
to avoid the danger that redistributors of a free program will
individually
obtain patent licenses, in effect making the program proprietary. To
prevent
this, we have made it clear that any patent must be licensed for
everyone's free
use or not licensed at all.
The precise terms and conditions for copying, distribution and
modification
follow.
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
  1.  This License applies to any program or other work which contains a
notice
    placed by the copyright holder saying it may be distributed under the
terms
    of this General Public License. The "Program", below, refers to any
such
    program or work, and a "work based on the Program" means either the
Program
    or any derivative work under copyright law: that is to say, a work
containing

the Program or a portion of it, either verbatim or with modifications and/or
translated into another language. (Hereinafter, translation is included
without limitation in the term "modification".) Each licensee is addressed as
"you".
Activities other than copying, distribution and modification are not covered
by this License; they are outside its scope. The act of running the Program
is not restricted, and the output from the Program is covered only if its
contents constitute a work based on the Program (independent of having been
made by running the Program). Whether that is true depends on what the
Program does.
  2. You may copy and distribute verbatim copies of the Program's source code as
you receive it, in any medium, provided that you conspicuously and
appropriately publish on each copy an appropriate copyright notice and
disclaimer of warranty; keep intact all the notices that refer to this
License and to the absence of any warranty; and give any other recipients of
the Program a copy of this License along with the Program.
You may charge a fee for the physical act of transferring a copy, and you may
at your option offer warranty protection in exchange for a fee.
  3. You may modify your copy or copies of the Program or any portion of it, thus
forming a work based on the Program, and copy and distribute such
modifications or work under the terms of Section 1 above, provided that you
also meet all of these conditions:
    a. You must cause the modified files to carry prominent notices stating
      that you changed the files and the date of any change.
    b.  You must cause any work that you distribute or publish, that in whole
      or in part contains or is derived from the Program or any part thereof,
      to be licensed as a whole at no charge to all third parties under the
      terms of this License.
    c. If the modified program normally reads commands interactively when run,
      you must cause it, when started running for such interactive use in the
      most ordinary way, to print or display an announcement including an
      appropriate copyright notice and a notice that there is no warranty (or

else, saying that you provide a warranty) and that users may redistribute
the program under these conditions, and telling the user how to view a
copy of this License. (Exception: if the Program itself is interactive
but does not normally print such an announcement, your work based on the
Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable
sections of that work are not derived from the Program, and can be reasonably
considered independent and separate works in themselves, then this License,
and its terms, do not apply to those sections when you distribute them as
separate works. But when you distribute the same sections as part of a whole
which is a work based on the Program, the distribution of the whole must be
on the terms of this License, whose permissions for other licensees extend to
the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your
rights to work written entirely by you; rather, the intent is to exercise the
right to control the distribution of derivative or collective works based on
the Program.

In addition, mere aggregation of another work not based on the Program with
the Program (or with a work based on the Program) on a volume of a storage or
distribution medium does not bring the other work under the scope of this
License.

  4. You may copy and distribute the Program (or a work based on it, under
    Section 2) in object code or executable form under the terms of Sections 1
    and 2 above provided that you also do one of the following:

    a. Accompany it with the complete corresponding machine-readable source
       code, which must be distributed under the terms of Sections 1 and 2 above
       on a medium customarily used for software interchange; or,

    b. Accompany it with a written offer, valid for at least three years, to
       give any third party, for a charge no more than your cost of physically

        performing source distribution, a complete machine-readable copy
of the
        corresponding source code, to be distributed under the terms of
Sections
        1 and 2 above on a medium customarily used for software
interchange; or,
      c. Accompany it with the information you received as to the offer to
      distribute corresponding source code. (This alternative is allowed
only
      for noncommercial distribution and only if you received the
program in
      object code or executable form with such an offer, in accord with
      Subsection b above.)
    The source code for a work means the preferred form of the work for
making
    modifications to it. For an executable work, complete source code
means all
    the source code for all modules it contains, plus any associated
interface
    definition files, plus the scripts used to control compilation and
    installation of the executable. However, as a special exception, the
source
    code distributed need not include anything that is normally
distributed (in
    either source or binary form) with the major components (compiler,
kernel,
    and so on) of the operating system on which the executable runs,
unless that
    component itself accompanies the executable.
    If distribution of executable or object code is made by offering
access to
    copy from a designated place, then offering equivalent access to copy
the
    source code from the same place counts as distribution of the source
code,
    even though third parties are not compelled to copy the source along
with the
    object code.
  5. You may not copy, modify, sublicense, or distribute the Program
except as
    expressly provided under this License. Any attempt otherwise to copy,
modify,
    sublicense or distribute the Program is void, and will automatically
    terminate your rights under this License. However, parties who have
received
    copies, or rights, from you under this License will not have their
licenses
    terminated so long as such parties remain in full compliance.
  6. You are not required to accept this License, since you have not
signed it.
    However, nothing else grants you permission to modify or distribute
the

Program or its derivative works. These actions are prohibited by law if you
do not accept this License. Therefore, by modifying or distributing the
Program (or any work based on the Program), you indicate your acceptance of
this License to do so, and all its terms and conditions for copying,
distributing or modifying the Program or works based on it.
7. Each time you redistribute the Program (or any work based on the Program),
the recipient automatically receives a license from the original licensor to
copy, distribute or modify the Program subject to these terms and conditions.
You may not impose any further restrictions on the recipients' exercise of
the rights granted herein. You are not responsible for enforcing compliance
by third parties to this License.
8. If, as a consequence of a court judgment or allegation of patent
infringement or for any other reason (not limited to patent issues),
conditions are imposed on you (whether by court order, agreement or
otherwise) that contradict the conditions of this License, they do not excuse
you from the conditions of this License. If you cannot distribute so as to
satisfy simultaneously your obligations under this License and any other
pertinent obligations, then as a consequence you may not distribute the
Program at all. For example, if a patent license would not permit
royalty-free redistribution of the Program by all those who receive copies
directly or indirectly through you, then the only way you could satisfy both
it and this License would be to refrain entirely from distribution of the
Program.
If any portion of this section is held invalid or unenforceable under any
particular circumstance, the balance of the section is intended to apply and
the section as a whole is intended to apply in other circumstances.
It is not the purpose of this section to induce you to infringe any patents
or other property right claims or to contest validity of any such claims;
this section has the sole purpose of protecting the integrity of the free
software distribution system, which is implemented by public license
practices. Many people have made generous contributions to the wide range of
software distributed through that system in reliance on consistent

application of that system; it is up to the author/donor to decide if
he or
    she is willing to distribute software through any other system and a
licensee
    cannot impose that choice.
    This section is intended to make thoroughly clear what is believed to
be a
    consequence of the rest of this License.
  9. If the distribution and/or use of the Program is restricted in
certain
    countries either by patents or by copyrighted interfaces, the original
    copyright holder who places the Program under this License may add an
    explicit geographical distribution limitation excluding those
countries, so
    that distribution is permitted only in or among countries not thus
excluded.
    In such case, this License incorporates the limitation as if written
in the
    body of this License.
  10. The Free Software Foundation may publish revised and/or new versions
of the
    General Public License from time to time. Such new versions will be
similar
    in spirit to the present version, but may differ in detail to address
new
    problems or concerns.
    Each version is given a distinguishing version number. If the Program
    specifies a version number of this License which applies to it and
"any later
    version", you have the option of following the terms and conditions
either of
    that version or of any later version published by the Free Software
    Foundation. If the Program does not specify a version number of this
License,
    you may choose any version ever published by the Free Software
Foundation.
  11. If you wish to incorporate parts of the Program into other free
programs
    whose distribution conditions are different, write to the author to
ask for
    permission. For software which is copyrighted by the Free Software
    Foundation, write to the Free Software Foundation; we sometimes make
    exceptions for this. Our decision will be guided by the two goals of
    preserving the free status of all derivatives of our free software and
of
    promoting the sharing and reuse of software generally.
    NO WARRANTY
  12. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY
FOR
    THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN
OTHERWISE
    STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE
THE

PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED,
    INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND
    FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND
    PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE,
    YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
  13. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL
    ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE
    THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY
    GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE
    OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR
    DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR
    A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH
    HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
    END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Programs
If you develop a new program, and you want it to be of the greatest possible use
to the public, the best way to achieve this is to make it free software which

This General Public License does not permit incorporating your program
into
proprietary programs. If your program is a subroutine library, you may
consider
it more useful to permit linking proprietary applications with the
library. If
this is what you want to do, use the GNU Library General Public License
instead
of this License.

The GNU General Public License (GPL)
===================================
Version 2, June 1991
--------------------
Copyright (C) 1989, 1991 Free Software Foundation, Inc.
59 Temple Place, Suite 330, Boston, MA 02111-1307 USAEveryone is permitted
to copy and distribute verbatim copies
of this license document, but changing it is not allowed.
Preamble
The licenses for most software are designed to take away your freedom to
share
and change it. By contrast, the GNU General Public License is intended to
guarantee your freedom to share and change free software--to make sure the
software is free for all its users. This General Public License applies to
most
of the Free Software Foundation's software and to any other program whose
authors
commit to using it. (Some other Free Software Foundation software is
covered by
the GNU Library General Public License instead.) You can apply it to your
programs, too.
When we speak of free software, we are referring to freedom, not price.
Our
General Public Licenses are designed to make sure that you have the
freedom to
distribute copies of free software (and charge for this service if you
wish),
that you receive source code or can get it if you want it, that you can
change
the software or use pieces of it in new free programs; and that you know
you can
do these things.
To protect your rights, we need to make restrictions that forbid anyone to
deny
you these rights or to ask you to surrender the rights. These restrictions
translate to certain responsibilities for you if you distribute copies of
the
software, or if you modify it.
For example, if you distribute copies of such a program, whether gratis or
for a
fee, you must give the recipients all the rights that you have. You must
make
sure that they, too, receive or can get the source code. And you must show
them
these terms so they know their rights.
We protect your rights with two steps: (1) copyright the software, and (2)
offer
you this license which gives you legal permission to copy, distribute
and/or
modify the software.
Also, for each author's protection and ours, we want to make certain that

everyone understands that there is no warranty for this free software. If
the
software is modified by someone else and passed on, we want its recipients
to
know that what they have is not the original, so that any problems
introduced by
others will not reflect on the original authors' reputations.
Finally, any free program is threatened constantly by software patents. We
wish
to avoid the danger that redistributors of a free program will
individually
obtain patent licenses, in effect making the program proprietary. To
prevent
this, we have made it clear that any patent must be licensed for
everyone's free
use or not licensed at all.
The precise terms and conditions for copying, distribution and
modification
follow.
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
  1.  This License applies to any program or other work which contains a
notice
    placed by the copyright holder saying it may be distributed under the
terms
    of this General Public License. The "Program", below, refers to any
such
    program or work, and a "work based on the Program" means either the
Program
    or any derivative work under copyright law: that is to say, a work
containing
    the Program or a portion of it, either verbatim or with modifications
and/or
    translated into another language. (Hereinafter, translation is
included
    without limitation in the term "modification".) Each licensee is
addressed as
    "you".
    Activities other than copying, distribution and modification are not
covered
    by this License; they are outside its scope. The act of running the
Program
    is not restricted, and the output from the Program is covered only if
its
    contents constitute a work based on the Program (independent of having
been
    made by running the Program). Whether that is true depends on what the
    Program does.
  2. You may copy and distribute verbatim copies of the Program's source
code as
    you receive it, in any medium, provided that you conspicuously and
    appropriately publish on each copy an appropriate copyright notice and
    disclaimer of warranty; keep intact all the notices that refer to this

License and to the absence of any warranty; and give any other recipients of
the Program a copy of this License along with the Program.
You may charge a fee for the physical act of transferring a copy, and you may
at your option offer warranty protection in exchange for a fee.
  3. You may modify your copy or copies of the Program or any portion of it, thus
forming a work based on the Program, and copy and distribute such
modifications or work under the terms of Section 1 above, provided that you
also meet all of these conditions:
    a. You must cause the modified files to carry prominent notices stating
       that you changed the files and the date of any change.
    b. You must cause any work that you distribute or publish, that in whole or
       in part contains or is derived from the Program or any part thereof, to
       be licensed as a whole at no charge to all third parties under the terms
       of this License.
    c. If the modified program normally reads commands interactively when run,
       you must cause it, when started running for such interactive use in the
       most ordinary way, to print or display an announcement including an
       appropriate copyright notice and a notice that there is no warranty (or
       else, saying that you provide a warranty) and that users may redistribute
       the program under these conditions, and telling the user how to view a
       copy of this License. (Exception: if the Program itself is interactive
       but does not normally print such an announcement, your work based on the
       Program is not required to print an announcement.)
    These requirements apply to the modified work as a whole. If identifiable
    sections of that work are not derived from the Program, and can be reasonably
    considered independent and separate works in themselves, then this License,
    and its terms, do not apply to those sections when you distribute them as
    separate works. But when you distribute the same sections as part of a whole
    which is a work based on the Program, the distribution of the whole must be
    on the terms of this License, whose permissions for other licensees extend to

the entire whole, and thus to each and every part regardless of who
wrote it.
    Thus, it is not the intent of this section to claim rights or contest
your
    rights to work written entirely by you; rather, the intent is to
exercise the
    right to control the distribution of derivative or collective works
based on
    the Program.
    In addition, mere aggregation of another work not based on the Program
with
    the Program (or with a work based on the Program) on a volume of a
storage or
    distribution medium does not bring the other work under the scope of
this
    License.
  4. You may copy and distribute the Program (or a work based on it, under
    Section 2) in object code or executable form under the terms of
Sections 1
    and 2 above provided that you also do one of the following:
      a. Accompany it with the complete corresponding machine-readable
source
        code, which must be distributed under the terms of Sections 1 and
2 above
        on a medium customarily used for software interchange; or,
      b. Accompany it with a written offer, valid for at least three
years, to
        give any third party, for a charge no more than your cost of
physically
        performing source distribution, a complete machine-readable copy
of the
        corresponding source code, to be distributed under the terms of
Sections
        1 and 2 above on a medium customarily used for software
interchange; or,
      c. Accompany it with the information you received as to the offer to
        distribute corresponding source code. (This alternative is allowed
only
        for noncommercial distribution and only if you received the
program in
        object code or executable form with such an offer, in accord with
        Subsection b above.)
    The source code for a work means the preferred form of the work for
making
    modifications to it. For an executable work, complete source code
means all
    the source code for all modules it contains, plus any associated
interface
    definition files, plus the scripts used to control compilation and
    installation of the executable. However, as a special exception, the
source
    code distributed need not include anything that is normally
distributed (in

either source or binary form) with the major components (compiler,
kernel,
    and so on) of the operating system on which the executable runs,
unless that
    component itself accompanies the executable.
    If distribution of executable or object code is made by offering
access to
    copy from a designated place, then offering equivalent access to copy
the
    source code from the same place counts as distribution of the source
code,
    even though third parties are not compelled to copy the source along
with the
    object code.
  5. You may not copy, modify, sublicense, or distribute the Program
except as
    expressly provided under this License. Any attempt otherwise to copy,
modify,
    sublicense or distribute the Program is void, and will automatically
    terminate your rights under this License. However, parties who have
received
    copies, or rights, from you under this License will not have their
licenses
    terminated so long as such parties remain in full compliance.
  6. You are not required to accept this License, since you have not
signed it.
    However, nothing else grants you permission to modify or distribute
the
    Program or its derivative works. These actions are prohibited by law
if you
    do not accept this License. Therefore, by modifying or distributing
the
    Program (or any work based on the Program), you indicate your
acceptance of
    this License to do so, and all its terms and conditions for copying,
    distributing or modifying the Program or works based on it.
  7. Each time you redistribute the Program (or any work based on the
Program),
    the recipient automatically receives a license from the original
licensor to
    copy, distribute or modify the Program subject to these terms and
conditions.
    You may not impose any further restrictions on the recipients'
exercise of
    the rights granted herein. You are not responsible for enforcing
compliance
    by third parties to this License.
  8. If, as a consequence of a court judgment or allegation of patent
    infringement or for any other reason (not limited to patent issues),
    conditions are imposed on you (whether by court order, agreement or
    otherwise) that contradict the conditions of this License, they do not
excuse

you from the conditions of this License. If you cannot distribute so
as to
    satisfy simultaneously your obligations under this License and any
other
    pertinent obligations, then as a consequence you may not distribute
the
    Program at all. For example, if a patent license would not permit
    royalty-free redistribution of the Program by all those who receive
copies
    directly or indirectly through you, then the only way you could
satisfy both
    it and this License would be to refrain entirely from distribution of
the
    Program.
    If any portion of this section is held invalid or unenforceable under
any
    particular circumstance, the balance of the section is intended to
apply and
    the section as a whole is intended to apply in other circumstances.
    It is not the purpose of this section to induce you to infringe any
patents
    or other property right claims or to contest validity of any such
claims;
    this section has the sole purpose of protecting the integrity of the
free
    software distribution system, which is implemented by public license
    practices. Many people have made generous contributions to the wide
range of
    software distributed through that system in reliance on consistent
    application of that system; it is up to the author/donor to decide if
he or
    she is willing to distribute software through any other system and a
licensee
    cannot impose that choice.
    This section is intended to make thoroughly clear what is believed to
be a
    consequence of the rest of this License.
  9. If the distribution and/or use of the Program is restricted in
certain
    countries either by patents or by copyrighted interfaces, the original
    copyright holder who places the Program under this License may add an
    explicit geographical distribution limitation excluding those
countries, so
    that distribution is permitted only in or among countries not thus
excluded.
    In such case, this License incorporates the limitation as if written
in the
    body of this License.
  10. The Free Software Foundation may publish revised and/or new versions
of the
    General Public License from time to time. Such new versions will be
similar

in spirit to the present version, but may differ in detail to address
new
    problems or concerns.
    Each version is given a distinguishing version number. If the Program
    specifies a version number of this License which applies to it and
"any later
    version", you have the option of following the terms and conditions
either of
    that version or of any later version published by the Free Software
    Foundation. If the Program does not specify a version number of this
License,
    you may choose any version ever published by the Free Software
Foundation.
  11. If you wish to incorporate parts of the Program into other free
programs
    whose distribution conditions are different, write to the author to
ask for
    permission. For software which is copyrighted by the Free Software
    Foundation, write to the Free Software Foundation; we sometimes make
    exceptions for this. Our decision will be guided by the two goals of
    preserving the free status of all derivatives of our free software and
of
    promoting the sharing and reuse of software generally.
    NO WARRANTY
  12. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY
FOR
    THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN
OTHERWISE
    STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE
THE
    PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR
IMPLIED,
    INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
MERCHANTABILITY AND
    FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY
AND
    PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE
DEFECTIVE,
    YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
  13. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN
WRITING WILL
    ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR
REDISTRIBUTE
    THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES,
INCLUDING ANY
    GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF
THE USE
    OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF
DATA OR
    DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD
PARTIES OR
    A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF
SUCH

     HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH
DAMAGES.
     END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Programs
If you develop a new program, and you want it to be of the greatest
possible use
to the public, the best way to achieve this is to make it free software
which
everyone can redistribute and change under these terms.
To do so, attach the following notices to the program. It is safest to
attach
them to the start of each source file to most effectively convey the
exclusion of
warranty; and each file should have at least the "copyright" line and a
pointer
to where the full notice is found.
one line to give the program's name and a brief idea of what it
does.Copyright (C)

Also add information on how to contact you by electronic and paper mail.
If the program is interactive, make it output a short notice like this
when it
starts in an interactive mode:

Gnomovision comes with ABSOLUTELY NO WARRANTY; for details
type `show w'. This is free software, and you are welcome
to redistribute it under certain conditions; type `show c'
for details.
The hypothetical commands `show w' and `show c' should show the
appropriate parts
of the General Public License. Of course, the commands you use may be
called
something other than `show w' and `show c'; they could even be mouse-
clicks or
menu items--whatever suits your program.
You should also get your employer (if you work as a programmer) or your
school,
if any, to sign a "copyright disclaimer" for the program, if necessary.

GNU GENERAL PUBLIC LICENSE
==========================
Version 3,  29 June 2007
Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>
Everyone is permitted to copy and distribute verbatim copies of this license
document, but changing it is not allowed.
Preamble
The GNU General Public License is a free, copyleft license for software and other
kinds of works.
The licenses for most software and other practical works are designed to take
away your freedom to share and change the works. By contrast, the GNU General
Public License is intended to guarantee your freedom to share and change all
versions of a program--to make sure it remains free software for all its users.
We, the Free Software Foundation, use the GNU General Public License for most of
our software; it applies also to any other work released this way by its authors.
You can apply it to your programs, too.
When we speak of free software, we are referring to freedom, not price. Our

General Public Licenses are designed to make sure that you have the freedom to
distribute copies of free software (and charge for them if you wish), that you
receive source code or can get it if you want it, that you can change the
software or use pieces of it in new free programs, and that you know you can do
these things.

To protect your rights, we need to prevent others from denying you these rights
or asking you to surrender the rights. Therefore, you have certain
responsibilities if you distribute copies of the software, or if you modify it:
responsibilities to respect the freedom of others.

For example, if you distribute copies of such a program, whether gratis or for a
fee, you must pass on to the recipients the same freedoms that you received. You
must make sure that they, too, receive or can get the source code. And you must
show them these terms so they know their rights.

Developers that use the GNU GPL protect your rights with two steps: (1) assert
copyright on the software, and (2) offer you this License giving you legal
permission to copy, distribute and/or modify it.

For the developers' and authors' protection, the GPL clearly explains that there
is no warranty for this free software. For both users' and authors' sake, the GPL
requires that modified versions be marked as changed, so that their problems will
not be attributed erroneously to authors of previous versions.

Some devices are designed to deny users access to install or run modified
versions of the software inside them, although the manufacturer can do so. This
is fundamentally incompatible with the aim of protecting users' freedom to change
the software. The systematic pattern of such abuse occurs in the area of products
for individuals to use, which is precisely where it is most unacceptable.
Therefore, we have designed this version of the GPL to prohibit the practice for
those products. If such problems arise substantially in other domains, we stand
ready to extend this provision to those domains in future versions of the GPL, as
needed to protect the freedom of users.

Finally, every program is threatened constantly by software patents. States
should not allow patents to restrict development and use of software on
general-purpose computers, but in those that do, we wish to avoid the special
danger that patents applied to a free program could make it effectively

proprietary. To prevent this, the GPL assures that patents cannot be used to
render the program non-free.
The precise terms and conditions for copying, distribution and modification
follow.
TERMS AND CONDITIONS
0. Definitions.
"This License" refers to version 3 of the GNU General Public License.
"Copyright" also means copyright-like laws that apply to other kinds of works,
such as semiconductor masks.
"The Program" refers to any copyrightable work licensed under this License. Each
licensee is addressed as "you". "Licensees" and "recipients" may be individuals
or organizations.
To "modify" a work means to copy from or adapt all or part of the work in a
fashion requiring copyright permission, other than the making of an exact copy.
The resulting work is called a "modified version" of the earlier work or a work
"based on" the earlier work.
A "covered work" means either the unmodified Program or a work based on the
Program.
To "propagate" a work means to do anything with it that, without permission,
would make you directly or secondarily liable for infringement under applicable
copyright law, except executing it on a computer or modifying a private copy.
Propagation includes copying, distribution (with or without modification), making
available to the public, and in some countries other activities as well.
To "convey" a work means any kind of propagation that enables other parties to
make or receive copies. Mere interaction with a user through a computer network,
with no transfer of a copy, is not conveying.
An interactive user interface displays "Appropriate Legal Notices" to the extent
that it includes a convenient and prominently visible feature that (1) displays
an appropriate copyright notice, and (2) tells the user that there is no warranty
for the work (except to the extent that warranties are provided), that licensees
may convey the work under this License, and how to view a copy of this License.
If the interface presents a list of user commands or options, such as a menu, a

prominent item in the list meets this criterion.
1. Source Code.
The "source code" for a work means the preferred form of the work for
making
modifications to it. "Object code" means any non-source form of a work.
A "Standard Interface" means an interface that either is an official
standard
defined by a recognized standards body, or, in the case of interfaces
specified
for a particular programming language, one that is widely used among
developers
working in that language.
The "System Libraries" of an executable work include anything, other than
the
work as a whole, that (a) is included in the normal form of packaging a
Major
Component, but which is not part of that Major Component, and (b) serves
only to
enable use of the work with that Major Component, or to implement a
Standard
Interface for which an implementation is available to the public in source
code
form. A "Major Component", in this context, means a major essential
component
(kernel, window system, and so on) of the specific operating system (if
any) on
which the executable work runs, or a compiler used to produce the work, or
an
object code interpreter used to run it.
The "Corresponding Source" for a work in object code form means all the
source
code needed to generate, install, and (for an executable work) run the
object
code and to modify the work, including scripts to control those
activities.
However, it does not include the work's System Libraries, or general-
purpose
tools or generally available free programs which are used unmodified in
performing those activities but which are not part of the work. For
example,
Corresponding Source includes interface definition files associated with
source
files for the work, and the source code for shared libraries and
dynamically
linked subprograms that the work is specifically designed to require, such
as by
intimate data communication or control flow between those subprograms and
other
parts of the work.
The Corresponding Source need not include anything that users can
regenerate
automatically from other parts of the Corresponding Source.
The Corresponding Source for a work in source code form is that same work.

2. Basic Permissions.
All rights granted under this License are granted for the term of copyright on
the Program, and are irrevocable provided the stated conditions are met. This
License explicitly affirms your unlimited permission to run the unmodified
Program. The output from running a covered work is covered by this License only
if the output, given its content, constitutes a covered work. This License
acknowledges your rights of fair use or other equivalent, as provided by
copyright law.
You may make, run and propagate covered works that you do not convey, without
conditions so long as your license otherwise remains in force. You may convey
covered works to others for the sole purpose of having them make modifications
exclusively for you, or provide you with facilities for running those works,
provided that you comply with the terms of this License in conveying all material
for which you do not control copyright. Those thus making or running the covered
works for you must do so exclusively on your behalf, under your direction and
control, on terms that prohibit them from making any copies of your copyrighted
material outside their relationship with you.
Conveying under any other circumstances is permitted solely under the conditions
stated below. Sublicensing is not allowed; section 10 makes it unnecessary.
3. Protecting Users' Legal Rights From Anti-Circumvention Law.
No covered work shall be deemed part of an effective technological measure under
any applicable law fulfilling obligations under article 11 of the WIPO copyright
treaty adopted on 20 December 1996, or similar laws prohibiting or restricting
circumvention of such measures.
When you convey a covered work, you waive any legal power to forbid circumvention
of technological measures to the extent such circumvention is effected by
exercising rights under this License with respect to the covered work, and you
disclaim any intention to limit operation or modification of the work as a means
of enforcing, against the work's users, your or third parties' legal rights to
forbid circumvention of technological measures.
4. Conveying Verbatim Copies.
You may convey verbatim copies of the Program's source code as you receive it, in

any medium, provided that you conspicuously and appropriately publish on each
copy an appropriate copyright notice; keep intact all notices stating that this
License and any non-permissive terms added in accord with section 7 apply to the
code; keep intact all notices of the absence of any warranty; and give all
recipients a copy of this License along with the Program.
You may charge any price or no price for each copy that you convey, and you may
offer support or warranty protection for a fee.
5. Conveying Modified Source Versions.
You may convey a work based on the Program, or the modifications to produce it
from the Program, in the form of source code under the terms of section 4,
provided that you also meet all of these conditions:
  * a) The work must carry prominent notices stating that you modified it, and
    giving a relevant date.
  * b) The work must carry prominent notices stating that it is released under
    this License and any conditions added under section 7. This requirement
    modifies the requirement in section 4 to "keep intact all notices".
  * c) You must license the entire work, as a whole, under this License to anyone
    who comes into possession of a copy. This License will therefore apply, along
    with any applicable section 7 additional terms, to the whole of the work, and
    all its parts, regardless of how they are packaged. This License gives no
    permission to license the work in any other way, but it does not invalidate
    such permission if you have separately received it.
  * d) If the work has interactive user interfaces, each must display Appropriate
    Legal Notices; however, if the Program has interactive interfaces that do not
    display Appropriate Legal Notices, your work need not make them do so.
A compilation of a covered work with other separate and independent works, which
are not by their nature extensions of the covered work, and which are not
combined with it such as to form a larger program, in or on a volume of a storage
or distribution medium, is called an "aggregate" if the compilation and its
resulting copyright are not used to limit the access or legal rights of the
compilation's users beyond what the individual works permit. Inclusion of a
covered work in an aggregate does not cause this License to apply to the other

parts of the aggregate.
6. Conveying Non-Source Forms.
You may convey a covered work in object code form under the terms of sections 4
and 5, provided that you also convey the machine-readable Corresponding Source
under the terms of this License, in one of these ways:
  * a) Convey the object code in, or embodied in, a physical product (including a
    physical distribution medium), accompanied by the Corresponding Source fixed
    on a durable physical medium customarily used for software interchange.
  * b) Convey the object code in, or embodied in, a physical product (including a
    physical distribution medium), accompanied by a written offer, valid for at
    least three years and valid for as long as you offer spare parts or customer
    support for that product model, to give anyone who possesses the object code
    either (1) a copy of the Corresponding Source for all the software in the
    product that is covered by this License, on a durable physical medium
    customarily used for software interchange, for a price no more than your
    reasonable cost of physically performing this conveying of source, or (2)
    access to copy the Corresponding Source from a network server at no charge.
  * c) Convey individual copies of the object code with a copy of the written
    offer to provide the Corresponding Source. This alternative is allowed only
    occasionally and noncommercially, and only if you received the object code
    with such an offer, in accord with subsection 6b.
  * d) Convey the object code by offering access from a designated place (gratis
    or for a charge), and offer equivalent access to the Corresponding Source in
    the same way through the same place at no further charge. You need not
    require recipients to copy the Corresponding Source along with the object
    code. If the place to copy the object code is a network server, the
    Corresponding Source may be on a different server (operated by you or a third
    party) that supports equivalent copying facilities, provided you maintain
    clear directions next to the object code saying where to find the
    Corresponding Source. Regardless of what server hosts the Corresponding

**Page 446**                          **December 2022**

       Source, you remain obligated to ensure that it is available for as
long as
    needed to satisfy these requirements.
  * e) Convey the object code using peer-to-peer transmission, provided
you
    inform other peers where the object code and Corresponding Source of
the work
    are being offered to the general public at no charge under subsection
6d.
A separable portion of the object code, whose source code is excluded from
the
Corresponding Source as a System Library, need not be included in
conveying the
object code work.
A "User Product" is either (1) a "consumer product", which means any
tangible
personal property which is normally used for personal, family, or
household
purposes, or (2) anything designed or sold for incorporation into a
dwelling. In
determining whether a product is a consumer product, doubtful cases shall
be
resolved in favor of coverage. For a particular product received by a
particular
user, "normally used" refers to a typical or common use of that class of
product,
regardless of the status of the particular user or of the way in which the
particular user actually uses, or expects or is expected to use, the
product. A
product is a consumer product regardless of whether the product has
substantial
commercial, industrial or non-consumer uses, unless such uses represent
the only
significant mode of use of the product.
"Installation Information" for a User Product means any methods,
procedures,
authorization keys, or other information required to install and execute
modified
versions of a covered work in that User Product from a modified version of
its
Corresponding Source. The information must suffice to ensure that the
continued
functioning of the modified object code is in no case prevented or
interfered
with solely because modification has been made.
If you convey an object code work under this section in, or with, or
specifically
for use in, a User Product, and the conveying occurs as part of a
transaction in
which the right of possession and use of the User Product is transferred
to the
recipient in perpetuity or for a fixed term (regardless of how the
transaction is

characterized), the Corresponding Source conveyed under this section must
be
accompanied by the Installation Information. But this requirement does not
apply
if neither you nor any third party retains the ability to install modified
object
code on the User Product (for example, the work has been installed in
ROM).
The requirement to provide Installation Information does not include a
requirement to continue to provide support service, warranty, or updates
for a
work that has been modified or installed by the recipient, or for the User
Product in which it has been modified or installed. Access to a network
may be
denied when the modification itself materially and adversely affects the
operation of the network or violates the rules and protocols for
communication
across the network.
Corresponding Source conveyed, and Installation Information provided, in
accord
with this section must be in a format that is publicly documented (and
with an
implementation available to the public in source code form), and must
require no
special password or key for unpacking, reading or copying.
7. Additional Terms.
"Additional permissions" are terms that supplement the terms of this
License by
making exceptions from one or more of its conditions. Additional
permissions that
are applicable to the entire Program shall be treated as though they were
included in this License, to the extent that they are valid under
applicable law.
If additional permissions apply only to part of the Program, that part may
be
used separately under those permissions, but the entire Program remains
governed
by this License without regard to the additional permissions.
When you convey a copy of a covered work, you may at your option remove
any
additional permissions from that copy, or from any part of it. (Additional
permissions may be written to require their own removal in certain cases
when you
modify the work.) You may place additional permissions on material, added
by you
to a covered work, for which you have or can give appropriate copyright
permission.
Notwithstanding any other provision of this License, for material you add
to a
covered work, you may (if authorized by the copyright holders of that
material)
supplement the terms of this License with terms:

  * a) Disclaiming warranty or limiting liability differently from the terms of
     sections 15 and 16 of this License; or
  * b) Requiring preservation of specified reasonable legal notices or author
     attributions in that material or in the Appropriate Legal Notices displayed
     by works containing it; or
  * c) Prohibiting misrepresentation of the origin of that material, or requiring
     that modified versions of such material be marked in reasonable ways as
     different from the original version; or
  * d) Limiting the use for publicity purposes of names of licensors or authors
     of the material; or
  * e) Declining to grant rights under trademark law for use of some trade names,
     trademarks, or service marks; or
  * f) Requiring indemnification of licensors and authors of that material by
     anyone who conveys the material (or modified versions of it) with contractual
     assumptions of liability to the recipient, for any liability that these
     contractual assumptions directly impose on those licensors and authors.
All other non-permissive additional terms are considered "further restrictions"
within the meaning of section 10. If the Program as you received it, or any part
of it, contains a notice stating that it is governed by this License along with a
term that is a further restriction, you may remove that term. If a license
document contains a further restriction but permits relicensing or conveying
under this License, you may add to a covered work material governed by the terms
of that license document, provided that the further restriction does not survive
such relicensing or conveying.
If you add terms to a covered work in accord with this section, you must place,
in the relevant source files, a statement of the additional terms that apply to
those files, or a notice indicating where to find the applicable terms.
Additional terms, permissive or non-permissive, may be stated in the form of a
separately written license, or stated as exceptions; the above requirements apply
either way.
8. Termination.

You may not propagate or modify a covered work except as expressly
provided under
this License. Any attempt otherwise to propagate or modify it is void, and
will
automatically terminate your rights under this License (including any
patent
licenses granted under the third paragraph of section 11).
However, if you cease all violation of this License, then your license
from a
particular copyright holder is reinstated (a) provisionally, unless and
until the
copyright holder explicitly and finally terminates your license, and (b)
permanently, if the copyright holder fails to notify you of the violation
by some
reasonable means prior to 60 days after the cessation.
Moreover, your license from a particular copyright holder is reinstated
permanently if the copyright holder notifies you of the violation by some
reasonable means, this is the first time you have received notice of
violation of
this License (for any work) from that copyright holder, and you cure the
violation prior to 30 days after your receipt of the notice.
Termination of your rights under this section does not terminate the
licenses of
parties who have received copies or rights from you under this License. If
your
rights have been terminated and not permanently reinstated, you do not
qualify to
receive new licenses for the same material under section 10.
9. Acceptance Not Required for Having Copies.
You are not required to accept this License in order to receive or run a
copy of
the Program. Ancillary propagation of a covered work occurring solely as a
consequence of using peer-to-peer transmission to receive a copy likewise
does
not require acceptance. However, nothing other than this License grants
you
permission to propagate or modify any covered work. These actions infringe
copyright if you do not accept this License. Therefore, by modifying or
propagating a covered work, you indicate your acceptance of this License
to do
so.
10. Automatic Licensing of Downstream Recipients.
Each time you convey a covered work, the recipient automatically receives
a
license from the original licensors, to run, modify and propagate that
work,
subject to this License. You are not responsible for enforcing compliance
by
third parties with this License.
An "entity transaction" is a transaction transferring control of an
organization,
or substantially all assets of one, or subdividing an organization, or
merging

organizations. If propagation of a covered work results from an entity
transaction, each party to that transaction who receives a copy of the
work also
receives whatever licenses to the work the party's predecessor in interest
had or
could give under the previous paragraph, plus a right to possession of the
Corresponding Source of the work from the predecessor in interest, if the
predecessor has it or can get it with reasonable efforts.

You may not impose any further restrictions on the exercise of the rights
granted
or affirmed under this License. For example, you may not impose a license
fee,
royalty, or other charge for exercise of rights granted under this
License, and
you may not initiate litigation (including a cross-claim or counterclaim
in a
lawsuit) alleging that any patent claim is infringed by making, using,
selling,
offering for sale, or importing the Program or any portion of it.

11. Patents.

A "contributor" is a copyright holder who authorizes use under this
License of
the Program or a work on which the Program is based. The work thus
licensed is
called the contributor's "contributor version".

A contributor's "essential patent claims" are all patent claims owned or
controlled by the contributor, whether already acquired or hereafter
acquired,
that would be infringed by some manner, permitted by this License, of
making,
using, or selling its contributor version, but do not include claims that
would
be infringed only as a consequence of further modification of the
contributor
version. For purposes of this definition, "control" includes the right to
grant
patent sublicenses in a manner consistent with the requirements of this
License.

Each contributor grants you a non-exclusive, worldwide, royalty-free
patent
license under the contributor's essential patent claims, to make, use,
sell,
offer for sale, import and otherwise run, modify and propagate the
contents of
its contributor version.

In the following three paragraphs, a "patent license" is any express
agreement or
commitment, however denominated, not to enforce a patent (such as an
express
permission to practice a patent or covenant not to sue for patent
infringement).
To "grant" such a patent license to a party means to make such an
agreement or

commitment not to enforce a patent against the party.
If you convey a covered work, knowingly relying on a patent license, and the
Corresponding Source of the work is not available for anyone to copy, free of
charge and under the terms of this License, through a publicly available network
server or other readily accessible means, then you must either (1) cause the
Corresponding Source to be so available, or (2) arrange to deprive yourself of
the benefit of the patent license for this particular work, or (3) arrange, in a
manner consistent with the requirements of this License, to extend the patent
license to downstream recipients. "Knowingly relying" means you have actual
knowledge that, but for the patent license, your conveying the covered work in a
country, or your recipient's use of the covered work in a country, would infringe
one or more identifiable patents in that country that you have reason to believe
are valid.
If, pursuant to or in connection with a single transaction or arrangement, you
convey, or propagate by procuring conveyance of, a covered work, and grant a
patent license to some of the parties receiving the covered work authorizing them
to use, propagate, modify or convey a specific copy of the covered work, then the
patent license you grant is automatically extended to all recipients of the
covered work and works based on it.
A patent license is "discriminatory" if it does not include within the scope of
its coverage, prohibits the exercise of, or is conditioned on the non-exercise of
one or more of the rights that are specifically granted under this License. You
may not convey a covered work if you are a party to an arrangement with a third
party that is in the business of distributing software, under which you make
payment to the third party based on the extent of your activity of conveying the
work, and under which the third party grants, to any of the parties who would
receive the covered work from you, a discriminatory patent license (a) in
connection with copies of the covered work conveyed by you (or copies made from

those copies), or (b) primarily for and in connection with specific products or
compilations that contain the covered work, unless you entered into that
arrangement, or that patent license was granted, prior to 28 March 2007.
Nothing in this License shall be construed as excluding or limiting any implied
license or other defenses to infringement that may otherwise be available to you
under applicable patent law.
12. No Surrender of Others' Freedom.
If conditions are imposed on you (whether by court order, agreement or otherwise)
that contradict the conditions of this License, they do not excuse you from the
conditions of this License. If you cannot convey a covered work so as to satisfy
simultaneously your obligations under this License and any other pertinent
obligations, then as a consequence you may not convey it at all. For example, if
you agree to terms that obligate you to collect a royalty for further conveying
from those to whom you convey the Program, the only way you could satisfy both
those terms and this License would be to refrain entirely from conveying the
Program.
13. Use with the GNU Affero General Public License.
Notwithstanding any other provision of this License, you have permission to link
or combine any covered work with a work licensed under version 3 of the GNU
Affero General Public License into a single combined work, and to convey the
resulting work. The terms of this License will continue to apply to the part
which is the covered work, but the special requirements of the GNU Affero General
Public License, section 13, concerning interaction through a network will apply
to the combination as such.
14. Revised Versions of this License.
The Free Software Foundation may publish revised and/or new versions of the GNU
General Public License from time to time. Such new versions will be similar in
spirit to the present version, but may differ in detail to address new problems
or concerns.
Each version is given a distinguishing version number. If the Program specifies
that a certain numbered version of the GNU General Public License "or any later

version" applies to it, you have the option of following the terms and conditions
either of that numbered version or of any later version published by the Free
Software Foundation. If the Program does not specify a version number of the GNU
General Public License, you may choose any version ever published by the Free
Software Foundation.
If the Program specifies that a proxy can decide which future versions of the GNU
General Public License can be used, that proxy's public statement of acceptance
of a version permanently authorizes you to choose that version for the Program.
Later license versions may give you additional or different permissions. However,
no additional obligations are imposed on any author or copyright holder as a
result of your choosing to follow a later version.
15. Disclaimer of Warranty.
THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.
EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER
PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER
EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE
QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE
DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
16. Limitation of Liability.
IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY
COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS
PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL,
INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE
THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED
INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE
PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY
HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
17. Interpretation of Sections 15 and 16.
If the disclaimer of warranty and limitation of liability provided above cannot
be given local legal effect according to their terms, reviewing courts shall

apply local law that most closely approximates an absolute waiver of all civil
liability in connection with the Program, unless a warranty or assumption of
liability accompanies a copy of the Program in return for a fee.
END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Programs
If you develop a new program, and you want it to be of the greatest possible use
to the public, the best way to achieve this is to make it free software which
everyone can redistribute and change under these terms.
To do so, attach the following notices to the program. It is safest to attach
them to the start of each source file to most effectively state the exclusion of
warranty; and each file should have at least the "copyright" line and a pointer
to where the full notice is found.

    <one line to give the program's name and a brief idea of what it does.>
    Copyright (C) <year>  <name of author>
    This program is free software: you can redistribute it and/or modify
    it under the terms of the GNU General Public License as published by
    the Free Software Foundation, either version 3 of the License, or
    (at your option) any later version.
    This program is distributed in the hope that it will be useful,
    but WITHOUT ANY WARRANTY; without even the implied warranty of
    MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE.  See the
    GNU General Public License for more details.
    You should have received a copy of the GNU General Public License
    along with this program.  If not, see <http://www.gnu.org/licenses/>.
Also add information on how to contact you by electronic and paper mail.
If the program does terminal interaction, make it output a short notice like this
when it starts in an interactive mode:
    <program>  Copyright (C) <year>  <name of author>
    This program comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
    This is free software, and you are welcome to redistribute it
    under certain conditions; type `show c' for details.
The hypothetical commands `show w' and `show c' should show the appropriate parts
of the General Public License. Of course, your program's commands might be
different; for a GUI interface, you would use an "about box".
You should also get your employer (if you work as a programmer) or school, if
any, to sign a "copyright disclaimer" for the program, if necessary. For more
information on this, and how to apply and follow the GNU GPL, see
<http://www.gnu.org/licenses/>.
The GNU General Public License does not permit incorporating your program into

proprietary programs. If your program is a subroutine library, you may consider
it more useful to permit linking proprietary applications with the library. If
this is what you want to do, use the GNU Lesser General Public License instead of
this License. But first, please read
<http://www.gnu.org/philosophy/why-not-lgpl.html>.

GNU GENERAL PUBLIC LICENSE
==========================
Version 3,  29 June 2007
Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>
Everyone is permitted to copy and distribute verbatim copies of this
license
document, but changing it is not allowed.
Preamble
The GNU General Public License is a free, copyleft license for software
and other
kinds of works.
The licenses for most software and other practical works are designed to
take
away your freedom to share and change the works. By contrast, the GNU
General
Public License is intended to guarantee your freedom to share and change
all
versions of a program--to make sure it remains free software for all its
users.
We, the Free Software Foundation, use the GNU General Public License for
most of
our software; it applies also to any other work released this way by its
authors.
You can apply it to your programs, too.
When we speak of free software, we are referring to freedom, not price.
Our
General Public Licenses are designed to make sure that you have the
freedom to
distribute copies of free software (and charge for them if you wish), that
you
receive source code or can get it if you want it, that you can change the

software or use pieces of it in new free programs, and that you know you can do
these things.
To protect your rights, we need to prevent others from denying you these rights
or asking you to surrender the rights. Therefore, you have certain
responsibilities if you distribute copies of the software, or if you modify it:
responsibilities to respect the freedom of others.
For example, if you distribute copies of such a program, whether gratis or for a
fee, you must pass on to the recipients the same freedoms that you received. You
must make sure that they, too, receive or can get the source code. And you must
show them these terms so they know their rights.
Developers that use the GNU GPL protect your rights with two steps: (1) assert
copyright on the software, and (2) offer you this License giving you legal
permission to copy, distribute and/or modify it.
For the developers' and authors' protection, the GPL clearly explains that there
is no warranty for this free software. For both users' and authors' sake, the GPL
requires that modified versions be marked as changed, so that their problems will
not be attributed erroneously to authors of previous versions.
Some devices are designed to deny users access to install or run modified
versions of the software inside them, although the manufacturer can do so. This
is fundamentally incompatible with the aim of protecting users' freedom to change
the software. The systematic pattern of such abuse occurs in the area of products
for individuals to use, which is precisely where it is most unacceptable.
Therefore, we have designed this version of the GPL to prohibit the practice for
those products. If such problems arise substantially in other domains, we stand
ready to extend this provision to those domains in future versions of the GPL, as
needed to protect the freedom of users.
Finally, every program is threatened constantly by software patents. States
should not allow patents to restrict development and use of software on
general-purpose computers, but in those that do, we wish to avoid the special
danger that patents applied to a free program could make it effectively
proprietary. To prevent this, the GPL assures that patents cannot be used to
render the program non-free.
The precise terms and conditions for copying, distribution and modification

follow.
TERMS AND CONDITIONS
0. Definitions.
"This License" refers to version 3 of the GNU General Public License.
"Copyright" also means copyright-like laws that apply to other kinds of works,
such as semiconductor masks.
"The Program" refers to any copyrightable work licensed under this License. Each
licensee is addressed as "you". "Licensees" and "recipients" may be individuals
or organizations.
To "modify" a work means to copy from or adapt all or part of the work in a
fashion requiring copyright permission, other than the making of an exact copy.
The resulting work is called a "modified version" of the earlier work or a work
"based on" the earlier work.
A "covered work" means either the unmodified Program or a work based on the
Program.
To "propagate" a work means to do anything with it that, without permission,
would make you directly or secondarily liable for infringement under applicable
copyright law, except executing it on a computer or modifying a private copy.
Propagation includes copying, distribution (with or without modification), making
available to the public, and in some countries other activities as well.
To "convey" a work means any kind of propagation that enables other parties to
make or receive copies. Mere interaction with a user through a computer network,
with no transfer of a copy, is not conveying.
An interactive user interface displays "Appropriate Legal Notices" to the extent
that it includes a convenient and prominently visible feature that (1) displays
an appropriate copyright notice, and (2) tells the user that there is no warranty
for the work (except to the extent that warranties are provided), that licensees
may convey the work under this License, and how to view a copy of this License.
If the interface presents a list of user commands or options, such as a menu, a
prominent item in the list meets this criterion.
1. Source Code.
The "source code" for a work means the preferred form of the work for making
modifications to it. "Object code" means any non-source form of a work.

A "Standard Interface" means an interface that either is an official standard
defined by a recognized standards body, or, in the case of interfaces specified
for a particular programming language, one that is widely used among developers
working in that language.

The "System Libraries" of an executable work include anything, other than the
work as a whole, that (a) is included in the normal form of packaging a Major
Component, but which is not part of that Major Component, and (b) serves only to
enable use of the work with that Major Component, or to implement a Standard
Interface for which an implementation is available to the public in source code
form. A "Major Component", in this context, means a major essential component
(kernel, window system, and so on) of the specific operating system (if any) on
which the executable work runs, or a compiler used to produce the work, or an
object code interpreter used to run it.

The "Corresponding Source" for a work in object code form means all the source
code needed to generate, install, and (for an executable work) run the object
code and to modify the work, including scripts to control those activities.
However, it does not include the work's System Libraries, or general-purpose
tools or generally available free programs which are used unmodified in
performing those activities but which are not part of the work. For example,
Corresponding Source includes interface definition files associated with source
files for the work, and the source code for shared libraries and dynamically
linked subprograms that the work is specifically designed to require, such as by
intimate data communication or control flow between those subprograms and other
parts of the work.

The Corresponding Source need not include anything that users can regenerate
automatically from other parts of the Corresponding Source.

The Corresponding Source for a work in source code form is that same work.

2. Basic Permissions.

All rights granted under this License are granted for the term of copyright on
the Program, and are irrevocable provided the stated conditions are met. This

License explicitly affirms your unlimited permission to run the unmodified
Program. The output from running a covered work is covered by this License
only
if the output, given its content, constitutes a covered work. This License
acknowledges your rights of fair use or other equivalent, as provided by
copyright law.
You may make, run and propagate covered works that you do not convey,
without
conditions so long as your license otherwise remains in force. You may
convey
covered works to others for the sole purpose of having them make
modifications
exclusively for you, or provide you with facilities for running those
works,
provided that you comply with the terms of this License in conveying all
material
for which you do not control copyright. Those thus making or running the
covered
works for you must do so exclusively on your behalf, under your direction
and
control, on terms that prohibit them from making any copies of your
copyrighted
material outside their relationship with you.
Conveying under any other circumstances is permitted solely under the
conditions
stated below. Sublicensing is not allowed; section 10 makes it
unnecessary.
3. Protecting Users' Legal Rights From Anti-Circumvention Law.
No covered work shall be deemed part of an effective technological measure
under
any applicable law fulfilling obligations under article 11 of the WIPO
copyright
treaty adopted on 20 December 1996, or similar laws prohibiting or
restricting
circumvention of such measures.
When you convey a covered work, you waive any legal power to forbid
circumvention
of technological measures to the extent such circumvention is effected by
exercising rights under this License with respect to the covered work, and
you
disclaim any intention to limit operation or modification of the work as a
means
of enforcing, against the work's users, your or third parties' legal
rights to
forbid circumvention of technological measures.
4. Conveying Verbatim Copies.
You may convey verbatim copies of the Program's source code as you receive
it, in
any medium, provided that you conspicuously and appropriately publish on
each
copy an appropriate copyright notice; keep intact all notices stating that
this

License and any non-permissive terms added in accord with section 7 apply to the
code; keep intact all notices of the absence of any warranty; and give all
recipients a copy of this License along with the Program.
You may charge any price or no price for each copy that you convey, and you may
offer support or warranty protection for a fee.
5. Conveying Modified Source Versions.
You may convey a work based on the Program, or the modifications to produce it
from the Program, in the form of source code under the terms of section 4,
provided that you also meet all of these conditions:
  * a) The work must carry prominent notices stating that you modified it, and
    giving a relevant date.
  * b) The work must carry prominent notices stating that it is released under
    this License and any conditions added under section 7. This requirement
    modifies the requirement in section 4 to "keep intact all notices".
  * c) You must license the entire work, as a whole, under this License to anyone
    who comes into possession of a copy. This License will therefore apply, along
    with any applicable section 7 additional terms, to the whole of the work, and
    all its parts, regardless of how they are packaged. This License gives no
    permission to license the work in any other way, but it does not invalidate
    such permission if you have separately received it.
  * d) If the work has interactive user interfaces, each must display Appropriate
    Legal Notices; however, if the Program has interactive interfaces that do not
    display Appropriate Legal Notices, your work need not make them do so.
A compilation of a covered work with other separate and independent works, which
are not by their nature extensions of the covered work, and which are not
combined with it such as to form a larger program, in or on a volume of a storage
or distribution medium, is called an "aggregate" if the compilation and its
resulting copyright are not used to limit the access or legal rights of the
compilation's users beyond what the individual works permit. Inclusion of a
covered work in an aggregate does not cause this License to apply to the other
parts of the aggregate.
6. Conveying Non-Source Forms.
You may convey a covered work in object code form under the terms of sections 4

and 5, provided that you also convey the machine-readable Corresponding Source
under the terms of this License, in one of these ways:
  * a) Convey the object code in, or embodied in, a physical product
(including a
    physical distribution medium), accompanied by the Corresponding Source
fixed
    on a durable physical medium customarily used for software
interchange.
  * b) Convey the object code in, or embodied in, a physical product
(including a
    physical distribution medium), accompanied by a written offer, valid
for at
    least three years and valid for as long as you offer spare parts or
customer
    support for that product model, to give anyone who possesses the
object code
    either (1) a copy of the Corresponding Source for all the software in
the
    product that is covered by this License, on a durable physical medium
    customarily used for software interchange, for a price no more than
your
    reasonable cost of physically performing this conveying of source, or
(2)
    access to copy the Corresponding Source from a network server at no
charge.
  * c) Convey individual copies of the object code with a copy of the
written
    offer to provide the Corresponding Source. This alternative is allowed
only
    occasionally and noncommercially, and only if you received the object
code
    with such an offer, in accord with subsection 6b.
  * d) Convey the object code by offering access from a designated place
(gratis
    or for a charge), and offer equivalent access to the Corresponding
Source in
    the same way through the same place at no further charge. You need not
    require recipients to copy the Corresponding Source along with the
object
    code. If the place to copy the object code is a network server, the
    Corresponding Source may be on a different server (operated by you or
a third
    party) that supports equivalent copying facilities, provided you
maintain
    clear directions next to the object code saying where to find the
    Corresponding Source. Regardless of what server hosts the
Corresponding
    Source, you remain obligated to ensure that it is available for as
long as
    needed to satisfy these requirements.
  * e) Convey the object code using peer-to-peer transmission, provided
you

inform other peers where the object code and Corresponding Source of
the work
are being offered to the general public at no charge under subsection
6d.
A separable portion of the object code, whose source code is excluded from
the
Corresponding Source as a System Library, need not be included in
conveying the
object code work.
A "User Product" is either (1) a "consumer product", which means any
tangible
personal property which is normally used for personal, family, or
household
purposes, or (2) anything designed or sold for incorporation into a
dwelling. In
determining whether a product is a consumer product, doubtful cases shall
be
resolved in favor of coverage. For a particular product received by a
particular
user, "normally used" refers to a typical or common use of that class of
product,
regardless of the status of the particular user or of the way in which the
particular user actually uses, or expects or is expected to use, the
product. A
product is a consumer product regardless of whether the product has
substantial
commercial, industrial or non-consumer uses, unless such uses represent
the only
significant mode of use of the product.
"Installation Information" for a User Product means any methods,
procedures,
authorization keys, or other information required to install and execute
modified
versions of a covered work in that User Product from a modified version of
its
Corresponding Source. The information must suffice to ensure that the
continued
functioning of the modified object code is in no case prevented or
interfered
with solely because modification has been made.
If you convey an object code work under this section in, or with, or
specifically
for use in, a User Product, and the conveying occurs as part of a
transaction in
which the right of possession and use of the User Product is transferred
to the
recipient in perpetuity or for a fixed term (regardless of how the
transaction is
characterized), the Corresponding Source conveyed under this section must
be
accompanied by the Installation Information. But this requirement does not
apply

if neither you nor any third party retains the ability to install modified object
code on the User Product (for example, the work has been installed in ROM).
The requirement to provide Installation Information does not include a
requirement to continue to provide support service, warranty, or updates for a
work that has been modified or installed by the recipient, or for the User
Product in which it has been modified or installed. Access to a network may be
denied when the modification itself materially and adversely affects the
operation of the network or violates the rules and protocols for communication
across the network.
Corresponding Source conveyed, and Installation Information provided, in accord
with this section must be in a format that is publicly documented (and with an
implementation available to the public in source code form), and must require no
special password or key for unpacking, reading or copying.
7. Additional Terms.
"Additional permissions" are terms that supplement the terms of this License by
making exceptions from one or more of its conditions. Additional permissions that
are applicable to the entire Program shall be treated as though they were
included in this License, to the extent that they are valid under applicable law.
If additional permissions apply only to part of the Program, that part may be
used separately under those permissions, but the entire Program remains governed
by this License without regard to the additional permissions.
When you convey a copy of a covered work, you may at your option remove any
additional permissions from that copy, or from any part of it. (Additional
permissions may be written to require their own removal in certain cases when you
modify the work.) You may place additional permissions on material, added by you
to a covered work, for which you have or can give appropriate copyright
permission.
Notwithstanding any other provision of this License, for material you add to a
covered work, you may (if authorized by the copyright holders of that material)
supplement the terms of this License with terms:
  * a) Disclaiming warranty or limiting liability differently from the terms of
    sections 15 and 16 of this License; or
  * b) Requiring preservation of specified reasonable legal notices or author

attributions in that material or in the Appropriate Legal Notices displayed
    by works containing it; or
  * c) Prohibiting misrepresentation of the origin of that material, or requiring
    that modified versions of such material be marked in reasonable ways as
    different from the original version; or
  * d) Limiting the use for publicity purposes of names of licensors or authors
    of the material; or
  * e) Declining to grant rights under trademark law for use of some trade names,
    trademarks, or service marks; or
  * f) Requiring indemnification of licensors and authors of that material by
    anyone who conveys the material (or modified versions of it) with contractual
    assumptions of liability to the recipient, for any liability that these
    contractual assumptions directly impose on those licensors and authors.
All other non-permissive additional terms are considered "further restrictions"
within the meaning of section 10. If the Program as you received it, or any part
of it, contains a notice stating that it is governed by this License along with a
term that is a further restriction, you may remove that term. If a license
document contains a further restriction but permits relicensing or conveying
under this License, you may add to a covered work material governed by the terms
of that license document, provided that the further restriction does not survive
such relicensing or conveying.
If you add terms to a covered work in accord with this section, you must place,
in the relevant source files, a statement of the additional terms that apply to
those files, or a notice indicating where to find the applicable terms.
Additional terms, permissive or non-permissive, may be stated in the form of a
separately written license, or stated as exceptions; the above requirements apply
either way.
8. Termination.
You may not propagate or modify a covered work except as expressly provided under
this License. Any attempt otherwise to propagate or modify it is void, and will
automatically terminate your rights under this License (including any patent

licenses granted under the third paragraph of section 11).
However, if you cease all violation of this License, then your license from a
particular copyright holder is reinstated (a) provisionally, unless and until the
copyright holder explicitly and finally terminates your license, and (b)
permanently, if the copyright holder fails to notify you of the violation by some
reasonable means prior to 60 days after the cessation.
Moreover, your license from a particular copyright holder is reinstated
permanently if the copyright holder notifies you of the violation by some
reasonable means, this is the first time you have received notice of
violation of
this License (for any work) from that copyright holder, and you cure the
violation prior to 30 days after your receipt of the notice.
Termination of your rights under this section does not terminate the
licenses of
parties who have received copies or rights from you under this License. If
your
rights have been terminated and not permanently reinstated, you do not
qualify to
receive new licenses for the same material under section 10.
9. Acceptance Not Required for Having Copies.
You are not required to accept this License in order to receive or run a
copy of
the Program. Ancillary propagation of a covered work occurring solely as a
consequence of using peer-to-peer transmission to receive a copy likewise
does
not require acceptance. However, nothing other than this License grants
you
permission to propagate or modify any covered work. These actions infringe
copyright if you do not accept this License. Therefore, by modifying or
propagating a covered work, you indicate your acceptance of this License
to do
so.
10. Automatic Licensing of Downstream Recipients.
Each time you convey a covered work, the recipient automatically receives
a
license from the original licensors, to run, modify and propagate that
work,
subject to this License. You are not responsible for enforcing compliance
by
third parties with this License.
An "entity transaction" is a transaction transferring control of an
organization,
or substantially all assets of one, or subdividing an organization, or
merging
organizations. If propagation of a covered work results from an entity
transaction, each party to that transaction who receives a copy of the
work also
receives whatever licenses to the work the party's predecessor in interest
had or
could give under the previous paragraph, plus a right to possession of the

**December 2022**

Corresponding Source of the work from the predecessor in interest, if the
predecessor has it or can get it with reasonable efforts.
You may not impose any further restrictions on the exercise of the rights
granted
or affirmed under this License. For example, you may not impose a license
fee,
royalty, or other charge for exercise of rights granted under this
License, and
you may not initiate litigation (including a cross-claim or counterclaim
in a
lawsuit) alleging that any patent claim is infringed by making, using,
selling,
offering for sale, or importing the Program or any portion of it.
11. Patents.
A "contributor" is a copyright holder who authorizes use under this
License of
the Program or a work on which the Program is based. The work thus
licensed is
called the contributor's "contributor version".
A contributor's "essential patent claims" are all patent claims owned or
controlled by the contributor, whether already acquired or hereafter
acquired,
that would be infringed by some manner, permitted by this License, of
making,
using, or selling its contributor version, but do not include claims that
would
be infringed only as a consequence of further modification of the
contributor
version. For purposes of this definition, "control" includes the right to
grant
patent sublicenses in a manner consistent with the requirements of this
License.
Each contributor grants you a non-exclusive, worldwide, royalty-free
patent
license under the contributor's essential patent claims, to make, use,
sell,
offer for sale, import and otherwise run, modify and propagate the
contents of
its contributor version.
In the following three paragraphs, a "patent license" is any express
agreement or
commitment, however denominated, not to enforce a patent (such as an
express
permission to practice a patent or covenant not to sue for patent
infringement).
To "grant" such a patent license to a party means to make such an
agreement or
commitment not to enforce a patent against the party.
If you convey a covered work, knowingly relying on a patent license, and
the
Corresponding Source of the work is not available for anyone to copy, free
of

charge and under the terms of this License, through a publicly available
network
server or other readily accessible means, then you must either (1) cause
the
Corresponding Source to be so available, or (2) arrange to deprive
yourself of
the benefit of the patent license for this particular work, or (3)
arrange, in a
manner consistent with the requirements of this License, to extend the
patent
license to downstream recipients. "Knowingly relying" means you have
actual
knowledge that, but for the patent license, your conveying the covered
work in a
country, or your recipient's use of the covered work in a country, would
infringe
one or more identifiable patents in that country that you have reason to
believe
are valid.
If, pursuant to or in connection with a single transaction or arrangement,
you
convey, or propagate by procuring conveyance of, a covered work, and grant
a
patent license to some of the parties receiving the covered work
authorizing them
to use, propagate, modify or convey a specific copy of the covered work,
then the
patent license you grant is automatically extended to all recipients of
the
covered work and works based on it.
A patent license is "discriminatory" if it does not include within the
scope of
its coverage, prohibits the exercise of, or is conditioned on the non-
exercise of
one or more of the rights that are specifically granted under this
License. You
may not convey a covered work if you are a party to an arrangement with a
third
party that is in the business of distributing software, under which you
make
payment to the third party based on the extent of your activity of
conveying the
work, and under which the third party grants, to any of the parties who
would
receive the covered work from you, a discriminatory patent license (a) in
connection with copies of the covered work conveyed by you (or copies made
from
those copies), or (b) primarily for and in connection with specific
products or
compilations that contain the covered work, unless you entered into that
arrangement, or that patent license was granted, prior to 28 March 2007.
Nothing in this License shall be construed as excluding or limiting any
implied

license or other defenses to infringement that may otherwise be available to you
under applicable patent law.
12. No Surrender of Others' Freedom.
If conditions are imposed on you (whether by court order, agreement or otherwise)
that contradict the conditions of this License, they do not excuse you from the
conditions of this License. If you cannot convey a covered work so as to satisfy
simultaneously your obligations under this License and any other pertinent
obligations, then as a consequence you may not convey it at all. For example, if
you agree to terms that obligate you to collect a royalty for further conveying
from those to whom you convey the Program, the only way you could satisfy both
those terms and this License would be to refrain entirely from conveying the
Program.
13. Use with the GNU Affero General Public License.
Notwithstanding any other provision of this License, you have permission to link
or combine any covered work with a work licensed under version 3 of the GNU
Affero General Public License into a single combined work, and to convey the
resulting work. The terms of this License will continue to apply to the part
which is the covered work, but the special requirements of the GNU Affero General
Public License, section 13, concerning interaction through a network will apply
to the combination as such.
14. Revised Versions of this License.
The Free Software Foundation may publish revised and/or new versions of the GNU
General Public License from time to time. Such new versions will be similar in
spirit to the present version, but may differ in detail to address new problems
or concerns.
Each version is given a distinguishing version number. If the Program specifies
that a certain numbered version of the GNU General Public License "or any later
version" applies to it, you have the option of following the terms and conditions
either of that numbered version or of any later version published by the Free
Software Foundation. If the Program does not specify a version number of the GNU

General Public License, you may choose any version ever published by the Free
Software Foundation.
If the Program specifies that a proxy can decide which future versions of the GNU
General Public License can be used, that proxy's public statement of acceptance
of a version permanently authorizes you to choose that version for the Program.
Later license versions may give you additional or different permissions. However,
no additional obligations are imposed on any author or copyright holder as a
result of your choosing to follow a later version.
15. Disclaimer of Warranty.
THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.
EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER
PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER
EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE
QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE
DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
16. Limitation of Liability.
IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY
COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS
PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL,
INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE
THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED
INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE
PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY
HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
17. Interpretation of Sections 15 and 16.
If the disclaimer of warranty and limitation of liability provided above cannot
be given local legal effect according to their terms, reviewing courts shall
apply local law that most closely approximates an absolute waiver of all civil
liability in connection with the Program, unless a warranty or assumption of
liability accompanies a copy of the Program in return for a fee.
END OF TERMS AND CONDITIONS

```
How to Apply These Terms to Your New Programs
If you develop a new program, and you want it to be of the greatest
possible use
to the public, the best way to achieve this is to make it free software
which
everyone can redistribute and change under these terms.
To do so, attach the following notices to the program. It is safest to
attach
them to the start of each source file to most effectively state the
exclusion of
warranty; and each file should have at least the "copyright" line and a
pointer
to where the full notice is found.
    <one line to give the program's name and a brief idea of what it
does.>
    Copyright (C) <year>  <name of author>
    This program is free software: you can redistribute it and/or modify
    it under the terms of the GNU General Public License as published by
    the Free Software Foundation, either version 3 of the License, or
    (at your option) any later version.
    This program is distributed in the hope that it will be useful,
    but WITHOUT ANY WARRANTY; without even the implied warranty of
    MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE.  See the
    GNU General Public License for more details.
    You should have received a copy of the GNU General Public License
    along with this program.  If not, see <http://www.gnu.org/licenses/>.
Also add information on how to contact you by electronic and paper mail.
If the program does terminal interaction, make it output a short notice
like this
when it starts in an interactive mode:
    <program>  Copyright (C) <year>  <name of author>
    This program comes with ABSOLUTELY NO WARRANTY; for details type `show
w'.
    This is free software, and you are welcome to redistribute it
    under certain conditions; type `show c' for details.
The hypothetical commands `show w' and `show c' should show the
appropriate parts
of the General Public License. Of course, your program's commands might be
different; for a GUI interface, you would use an "about box".
You should also get your employer (if you work as a programmer) or school,
if
any, to sign a "copyright disclaimer" for the program, if necessary. For
more
information on this, and how to apply and follow the GNU GPL, see
<http://www.gnu.org/licenses/>.
The GNU General Public License does not permit incorporating your program
into
proprietary programs. If your program is a subroutine library, you may
consider
it more useful to permit linking proprietary applications with the
library. If
this is what you want to do, use the GNU Lesser General Public License
instead of
```

this License. But first, please read

Preamble
The GNU General Public License is a free, copyleft license for software
and other
kinds of works.
The licenses for most software and other practical works are designed to
take
away your freedom to share and change the works. By contrast, the GNU
General
Public License is intended to guarantee your freedom to share and change
all
versions of a program--to make sure it remains free software for all its
users.
We, the Free Software Foundation, use the GNU General Public License for
most of
our software; it applies also to any other work released this way by its
authors.
You can apply it to your programs, too.
When we speak of free software, we are referring to freedom, not price.
Our
General Public Licenses are designed to make sure that you have the
freedom to

distribute copies of free software (and charge for them if you wish), that you
receive source code or can get it if you want it, that you can change the
software or use pieces of it in new free programs, and that you know you can do
these things.
To protect your rights, we need to prevent others from denying you these rights
or asking you to surrender the rights. Therefore, you have certain
responsibilities if you distribute copies of the software, or if you modify it:
responsibilities to respect the freedom of others.
For example, if you distribute copies of such a program, whether gratis or for a
fee, you must pass on to the recipients the same freedoms that you received. You
must make sure that they, too, receive or can get the source code. And you must
show them these terms so they know their rights.
Developers that use the GNU GPL protect your rights with two steps: (1) assert
copyright on the software, and (2) offer you this License giving you legal
permission to copy, distribute and/or modify it.
For the developers' and authors' protection, the GPL clearly explains that there
is no warranty for this free software. For both users' and authors' sake, the GPL
requires that modified versions be marked as changed, so that their problems will
not be attributed erroneously to authors of previous versions.
Some devices are designed to deny users access to install or run modified
versions of the software inside them, although the manufacturer can do so. This
is fundamentally incompatible with the aim of protecting users' freedom to change
the software. The systematic pattern of such abuse occurs in the area of products
for individuals to use, which is precisely where it is most unacceptable.
Therefore, we have designed this version of the GPL to prohibit the practice for
those products. If such problems arise substantially in other domains, we stand
ready to extend this provision to those domains in future versions of the GPL, as
needed to protect the freedom of users.
Finally, every program is threatened constantly by software patents. States
should not allow patents to restrict development and use of software on
general-purpose computers, but in those that do, we wish to avoid the special
danger that patents applied to a free program could make it effectively
proprietary. To prevent this, the GPL assures that patents cannot be used to

render the program non-free.
The precise terms and conditions for copying, distribution and modification
follow.
TERMS AND CONDITIONS
0. Definitions.
"This License" refers to version 3 of the GNU General Public License.
"Copyright" also means copyright-like laws that apply to other kinds of works,
such as semiconductor masks.
"The Program" refers to any copyrightable work licensed under this License. Each
licensee is addressed as "you". "Licensees" and "recipients" may be individuals
or organizations.
To "modify" a work means to copy from or adapt all or part of the work in a
fashion requiring copyright permission, other than the making of an exact copy.
The resulting work is called a "modified version" of the earlier work or a work
"based on" the earlier work.
A "covered work" means either the unmodified Program or a work based on the
Program.
To "propagate" a work means to do anything with it that, without permission,
would make you directly or secondarily liable for infringement under applicable
copyright law, except executing it on a computer or modifying a private copy.
Propagation includes copying, distribution (with or without modification), making
available to the public, and in some countries other activities as well.
To "convey" a work means any kind of propagation that enables other parties to
make or receive copies. Mere interaction with a user through a computer network,
with no transfer of a copy, is not conveying.
An interactive user interface displays "Appropriate Legal Notices" to the extent
that it includes a convenient and prominently visible feature that (1) displays
an appropriate copyright notice, and (2) tells the user that there is no warranty
for the work (except to the extent that warranties are provided), that licensees
may convey the work under this License, and how to view a copy of this License.
If the interface presents a list of user commands or options, such as a menu, a
prominent item in the list meets this criterion.
1. Source Code.

The "source code" for a work means the preferred form of the work for making
modifications to it. "Object code" means any non-source form of a work.
A "Standard Interface" means an interface that either is an official standard
defined by a recognized standards body, or, in the case of interfaces specified
for a particular programming language, one that is widely used among developers
working in that language.
The "System Libraries" of an executable work include anything, other than the
work as a whole, that (a) is included in the normal form of packaging a Major
Component, but which is not part of that Major Component, and (b) serves only to
enable use of the work with that Major Component, or to implement a Standard
Interface for which an implementation is available to the public in source code
form. A "Major Component", in this context, means a major essential component
(kernel, window system, and so on) of the specific operating system (if any) on
which the executable work runs, or a compiler used to produce the work, or an
object code interpreter used to run it.
The "Corresponding Source" for a work in object code form means all the source
code needed to generate, install, and (for an executable work) run the object
code and to modify the work, including scripts to control those activities.
However, it does not include the work's System Libraries, or general-purpose
tools or generally available free programs which are used unmodified in
performing those activities but which are not part of the work. For example,
Corresponding Source includes interface definition files associated with source
files for the work, and the source code for shared libraries and dynamically
linked subprograms that the work is specifically designed to require, such as by
intimate data communication or control flow between those subprograms and other
parts of the work.
The Corresponding Source need not include anything that users can regenerate
automatically from other parts of the Corresponding Source.
The Corresponding Source for a work in source code form is that same work.
2. Basic Permissions.

**December 2022**

All rights granted under this License are granted for the term of copyright on
the Program, and are irrevocable provided the stated conditions are met. This
License explicitly affirms your unlimited permission to run the unmodified
Program. The output from running a covered work is covered by this License only
if the output, given its content, constitutes a covered work. This License
acknowledges your rights of fair use or other equivalent, as provided by
copyright law.
You may make, run and propagate covered works that you do not convey, without
conditions so long as your license otherwise remains in force. You may convey
covered works to others for the sole purpose of having them make modifications
exclusively for you, or provide you with facilities for running those works,
provided that you comply with the terms of this License in conveying all material
for which you do not control copyright. Those thus making or running the covered
works for you must do so exclusively on your behalf, under your direction and
control, on terms that prohibit them from making any copies of your copyrighted
material outside their relationship with you.
Conveying under any other circumstances is permitted solely under the conditions
stated below. Sublicensing is not allowed; section 10 makes it unnecessary.
3. Protecting Users' Legal Rights From Anti-Circumvention Law.
No covered work shall be deemed part of an effective technological measure under
any applicable law fulfilling obligations under article 11 of the WIPO copyright
treaty adopted on 20 December 1996, or similar laws prohibiting or restricting
circumvention of such measures.
When you convey a covered work, you waive any legal power to forbid circumvention
of technological measures to the extent such circumvention is effected by
exercising rights under this License with respect to the covered work, and you
disclaim any intention to limit operation or modification of the work as a means
of enforcing, against the work's users, your or third parties' legal rights to
forbid circumvention of technological measures.
4. Conveying Verbatim Copies.
You may convey verbatim copies of the Program's source code as you receive it, in

any medium, provided that you conspicuously and appropriately publish on each
copy an appropriate copyright notice; keep intact all notices stating that this
License and any non-permissive terms added in accord with section 7 apply to the
code; keep intact all notices of the absence of any warranty; and give all
recipients a copy of this License along with the Program.
You may charge any price or no price for each copy that you convey, and you may
offer support or warranty protection for a fee.
5. Conveying Modified Source Versions.
You may convey a work based on the Program, or the modifications to produce it
from the Program, in the form of source code under the terms of section 4,
provided that you also meet all of these conditions:
  * a) The work must carry prominent notices stating that you modified it, and
    giving a relevant date.
  * b) The work must carry prominent notices stating that it is released under
    this License and any conditions added under section 7. This requirement
    modifies the requirement in section 4 to "keep intact all notices".
  * c) You must license the entire work, as a whole, under this License to anyone
    who comes into possession of a copy. This License will therefore apply, along
    with any applicable section 7 additional terms, to the whole of the work, and
    all its parts, regardless of how they are packaged. This License gives no
    permission to license the work in any other way, but it does not invalidate
    such permission if you have separately received it.
  * d) If the work has interactive user interfaces, each must display Appropriate
    Legal Notices; however, if the Program has interactive interfaces that do not
    display Appropriate Legal Notices, your work need not make them do so.
A compilation of a covered work with other separate and independent works, which
are not by their nature extensions of the covered work, and which are not
combined with it such as to form a larger program, in or on a volume of a storage
or distribution medium, is called an "aggregate" if the compilation and its
resulting copyright are not used to limit the access or legal rights of the
compilation's users beyond what the individual works permit. Inclusion of a
covered work in an aggregate does not cause this License to apply to the other

parts of the aggregate.
6. Conveying Non-Source Forms.
You may convey a covered work in object code form under the terms of sections 4
and 5, provided that you also convey the machine-readable Corresponding Source
under the terms of this License, in one of these ways:
  * a) Convey the object code in, or embodied in, a physical product (including a
    physical distribution medium), accompanied by the Corresponding Source fixed
    on a durable physical medium customarily used for software interchange.
  * b) Convey the object code in, or embodied in, a physical product (including a
    physical distribution medium), accompanied by a written offer, valid for at
    least three years and valid for as long as you offer spare parts or customer
    support for that product model, to give anyone who possesses the object code
    either (1) a copy of the Corresponding Source for all the software in the
    product that is covered by this License, on a durable physical medium
    customarily used for software interchange, for a price no more than your
    reasonable cost of physically performing this conveying of source, or (2)
    access to copy the Corresponding Source from a network server at no charge.
  * c) Convey individual copies of the object code with a copy of the written
    offer to provide the Corresponding Source. This alternative is allowed only
    occasionally and noncommercially, and only if you received the object code
    with such an offer, in accord with subsection 6b.
  * d) Convey the object code by offering access from a designated place (gratis
    or for a charge), and offer equivalent access to the Corresponding Source in
    the same way through the same place at no further charge. You need not
    require recipients to copy the Corresponding Source along with the object
    code. If the place to copy the object code is a network server, the
    Corresponding Source may be on a different server (operated by you or a third
    party) that supports equivalent copying facilities, provided you maintain
    clear directions next to the object code saying where to find the
    Corresponding Source. Regardless of what server hosts the Corresponding

Source, you remain obligated to ensure that it is available for as long as
    needed to satisfy these requirements.
  * e) Convey the object code using peer-to-peer transmission, provided you
    inform other peers where the object code and Corresponding Source of the work
    are being offered to the general public at no charge under subsection 6d.
A separable portion of the object code, whose source code is excluded from the
Corresponding Source as a System Library, need not be included in conveying the
object code work.
A "User Product" is either (1) a "consumer product", which means any tangible
personal property which is normally used for personal, family, or household
purposes, or (2) anything designed or sold for incorporation into a dwelling. In
determining whether a product is a consumer product, doubtful cases shall be
resolved in favor of coverage. For a particular product received by a particular
user, "normally used" refers to a typical or common use of that class of product,
regardless of the status of the particular user or of the way in which the
particular user actually uses, or expects or is expected to use, the product. A
product is a consumer product regardless of whether the product has substantial
commercial, industrial or non-consumer uses, unless such uses represent the only
significant mode of use of the product.
"Installation Information" for a User Product means any methods, procedures,
authorization keys, or other information required to install and execute modified
versions of a covered work in that User Product from a modified version of its
Corresponding Source. The information must suffice to ensure that the continued
functioning of the modified object code is in no case prevented or interfered
with solely because modification has been made.
If you convey an object code work under this section in, or with, or specifically
for use in, a User Product, and the conveying occurs as part of a transaction in
which the right of possession and use of the User Product is transferred to the
recipient in perpetuity or for a fixed term (regardless of how the transaction is

characterized), the Corresponding Source conveyed under this section must be
accompanied by the Installation Information. But this requirement does not apply
if neither you nor any third party retains the ability to install modified object
code on the User Product (for example, the work has been installed in ROM).
The requirement to provide Installation Information does not include a
requirement to continue to provide support service, warranty, or updates for a
work that has been modified or installed by the recipient, or for the User
Product in which it has been modified or installed. Access to a network may be
denied when the modification itself materially and adversely affects the
operation of the network or violates the rules and protocols for communication
across the network.
Corresponding Source conveyed, and Installation Information provided, in accord
with this section must be in a format that is publicly documented (and with an
implementation available to the public in source code form), and must require no
special password or key for unpacking, reading or copying.
7. Additional Terms.
"Additional permissions" are terms that supplement the terms of this License by
making exceptions from one or more of its conditions. Additional permissions that
are applicable to the entire Program shall be treated as though they were
included in this License, to the extent that they are valid under applicable law.
If additional permissions apply only to part of the Program, that part may be
used separately under those permissions, but the entire Program remains governed
by this License without regard to the additional permissions.
When you convey a copy of a covered work, you may at your option remove any
additional permissions from that copy, or from any part of it. (Additional
permissions may be written to require their own removal in certain cases when you
modify the work.) You may place additional permissions on material, added by you
to a covered work, for which you have or can give appropriate copyright permission.
Notwithstanding any other provision of this License, for material you add to a
covered work, you may (if authorized by the copyright holders of that material)
supplement the terms of this License with terms:

  * a) Disclaiming warranty or limiting liability differently from the terms of
    sections 15 and 16 of this License; or
  * b) Requiring preservation of specified reasonable legal notices or author
    attributions in that material or in the Appropriate Legal Notices displayed
    by works containing it; or
  * c) Prohibiting misrepresentation of the origin of that material, or requiring
    that modified versions of such material be marked in reasonable ways as
    different from the original version; or
  * d) Limiting the use for publicity purposes of names of licensors or authors
    of the material; or
  * e) Declining to grant rights under trademark law for use of some trade names,
    trademarks, or service marks; or
  * f) Requiring indemnification of licensors and authors of that material by
    anyone who conveys the material (or modified versions of it) with contractual
    assumptions of liability to the recipient, for any liability that these
    contractual assumptions directly impose on those licensors and authors.
All other non-permissive additional terms are considered "further restrictions"
within the meaning of section 10. If the Program as you received it, or any part
of it, contains a notice stating that it is governed by this License along with a
term that is a further restriction, you may remove that term. If a license
document contains a further restriction but permits relicensing or conveying
under this License, you may add to a covered work material governed by the terms
of that license document, provided that the further restriction does not survive
such relicensing or conveying.
If you add terms to a covered work in accord with this section, you must place,
in the relevant source files, a statement of the additional terms that apply to
those files, or a notice indicating where to find the applicable terms.
Additional terms, permissive or non-permissive, may be stated in the form of a
separately written license, or stated as exceptions; the above requirements apply
either way.
8. Termination.

You may not propagate or modify a covered work except as expressly provided under
this License. Any attempt otherwise to propagate or modify it is void, and will
automatically terminate your rights under this License (including any patent
licenses granted under the third paragraph of section 11).
However, if you cease all violation of this License, then your license from a
particular copyright holder is reinstated (a) provisionally, unless and until the
copyright holder explicitly and finally terminates your license, and (b)
permanently, if the copyright holder fails to notify you of the violation by some
reasonable means prior to 60 days after the cessation.
Moreover, your license from a particular copyright holder is reinstated
permanently if the copyright holder notifies you of the violation by some
reasonable means, this is the first time you have received notice of violation of
this License (for any work) from that copyright holder, and you cure the
violation prior to 30 days after your receipt of the notice.
Termination of your rights under this section does not terminate the licenses of
parties who have received copies or rights from you under this License. If your
rights have been terminated and not permanently reinstated, you do not qualify to
receive new licenses for the same material under section 10.
9. Acceptance Not Required for Having Copies.
You are not required to accept this License in order to receive or run a copy of
the Program. Ancillary propagation of a covered work occurring solely as a
consequence of using peer-to-peer transmission to receive a copy likewise does
not require acceptance. However, nothing other than this License grants you
permission to propagate or modify any covered work. These actions infringe
copyright if you do not accept this License. Therefore, by modifying or
propagating a covered work, you indicate your acceptance of this License to do
so.
10. Automatic Licensing of Downstream Recipients.
Each time you convey a covered work, the recipient automatically receives a
license from the original licensors, to run, modify and propagate that work,
subject to this License. You are not responsible for enforcing compliance by
third parties with this License.
An "entity transaction" is a transaction transferring control of an organization,
or substantially all assets of one, or subdividing an organization, or merging

organizations. If propagation of a covered work results from an entity
transaction, each party to that transaction who receives a copy of the
work also
receives whatever licenses to the work the party's predecessor in interest
had or
could give under the previous paragraph, plus a right to possession of the
Corresponding Source of the work from the predecessor in interest, if the
predecessor has it or can get it with reasonable efforts.
You may not impose any further restrictions on the exercise of the rights
granted
or affirmed under this License. For example, you may not impose a license
fee,
royalty, or other charge for exercise of rights granted under this
License, and
you may not initiate litigation (including a cross-claim or counterclaim
in a
lawsuit) alleging that any patent claim is infringed by making, using,
selling,
offering for sale, or importing the Program or any portion of it.
11. Patents.
A "contributor" is a copyright holder who authorizes use under this
License of
the Program or a work on which the Program is based. The work thus
licensed is
called the contributor's "contributor version".
A contributor's "essential patent claims" are all patent claims owned or
controlled by the contributor, whether already acquired or hereafter
acquired,
that would be infringed by some manner, permitted by this License, of
making,
using, or selling its contributor version, but do not include claims that
would
be infringed only as a consequence of further modification of the
contributor
version. For purposes of this definition, "control" includes the right to
grant
patent sublicenses in a manner consistent with the requirements of this
License.
Each contributor grants you a non-exclusive, worldwide, royalty-free
patent
license under the contributor's essential patent claims, to make, use,
sell,
offer for sale, import and otherwise run, modify and propagate the
contents of
its contributor version.
In the following three paragraphs, a "patent license" is any express
agreement or
commitment, however denominated, not to enforce a patent (such as an
express
permission to practice a patent or covenant not to sue for patent
infringement).
To "grant" such a patent license to a party means to make such an
agreement or

commitment not to enforce a patent against the party.
If you convey a covered work, knowingly relying on a patent license, and the
Corresponding Source of the work is not available for anyone to copy, free of
charge and under the terms of this License, through a publicly available network
server or other readily accessible means, then you must either (1) cause the
Corresponding Source to be so available, or (2) arrange to deprive yourself of
the benefit of the patent license for this particular work, or (3) arrange, in a
manner consistent with the requirements of this License, to extend the patent
license to downstream recipients. "Knowingly relying" means you have actual
knowledge that, but for the patent license, your conveying the covered work in a
country, or your recipient's use of the covered work in a country, would infringe
one or more identifiable patents in that country that you have reason to believe
are valid.
If, pursuant to or in connection with a single transaction or arrangement, you
convey, or propagate by procuring conveyance of, a covered work, and grant a
patent license to some of the parties receiving the covered work authorizing them
to use, propagate, modify or convey a specific copy of the covered work, then the
patent license you grant is automatically extended to all recipients of the
covered work and works based on it.
A patent license is "discriminatory" if it does not include within the scope of
its coverage, prohibits the exercise of, or is conditioned on the non-exercise of
one or more of the rights that are specifically granted under this License. You
may not convey a covered work if you are a party to an arrangement with a third
party that is in the business of distributing software, under which you make
payment to the third party based on the extent of your activity of conveying the
work, and under which the third party grants, to any of the parties who would
receive the covered work from you, a discriminatory patent license (a) in
connection with copies of the covered work conveyed by you (or copies made from

those copies), or (b) primarily for and in connection with specific products or
compilations that contain the covered work, unless you entered into that
arrangement, or that patent license was granted, prior to 28 March 2007.
Nothing in this License shall be construed as excluding or limiting any implied
license or other defenses to infringement that may otherwise be available to you
under applicable patent law.
12. No Surrender of Others' Freedom.
If conditions are imposed on you (whether by court order, agreement or otherwise)
that contradict the conditions of this License, they do not excuse you from the
conditions of this License. If you cannot convey a covered work so as to satisfy
simultaneously your obligations under this License and any other pertinent
obligations, then as a consequence you may not convey it at all. For example, if
you agree to terms that obligate you to collect a royalty for further conveying
from those to whom you convey the Program, the only way you could satisfy both
those terms and this License would be to refrain entirely from conveying the
Program.
13. Use with the GNU Affero General Public License.
Notwithstanding any other provision of this License, you have permission to link
or combine any covered work with a work licensed under version 3 of the GNU
Affero General Public License into a single combined work, and to convey the
resulting work. The terms of this License will continue to apply to the part
which is the covered work, but the special requirements of the GNU Affero General
Public License, section 13, concerning interaction through a network will apply
to the combination as such.
14. Revised Versions of this License.
The Free Software Foundation may publish revised and/or new versions of the GNU
General Public License from time to time. Such new versions will be similar in
spirit to the present version, but may differ in detail to address new problems
or concerns.
Each version is given a distinguishing version number. If the Program specifies
that a certain numbered version of the GNU General Public License "or any later

version" applies to it, you have the option of following the terms and conditions
either of that numbered version or of any later version published by the Free
Software Foundation. If the Program does not specify a version number of the GNU
General Public License, you may choose any version ever published by the Free
Software Foundation.
If the Program specifies that a proxy can decide which future versions of the GNU
General Public License can be used, that proxy's public statement of acceptance
of a version permanently authorizes you to choose that version for the Program.
Later license versions may give you additional or different permissions. However,
no additional obligations are imposed on any author or copyright holder as a
result of your choosing to follow a later version.
15. Disclaimer of Warranty.
THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.
EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER
PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER
EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE
QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE
DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
16. Limitation of Liability.
IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY
COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS
PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL,
INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE
THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED
INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE
PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY
HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
17. Interpretation of Sections 15 and 16.
If the disclaimer of warranty and limitation of liability provided above cannot
be given local legal effect according to their terms, reviewing courts shall

apply local law that most closely approximates an absolute waiver of all civil
liability in connection with the Program, unless a warranty or assumption of
liability accompanies a copy of the Program in return for a fee.
END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Programs
If you develop a new program, and you want it to be of the greatest possible use
to the public, the best way to achieve this is to make it free software which
everyone can redistribute and change under these terms.
To do so, attach the following notices to the program. It is safest to attach
them to the start of each source file to most effectively state the exclusion of
warranty; and each file should have at least the "copyright" line and a pointer
to where the full notice is found.
 <one line to give the program's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>
This program is free software: you can redistribute it and/or modify
it under the terms of the GNU General Public License as published by
the Free Software Foundation, either version 3 of the License, or
(at your option) any later version.
This program is distributed in the hope that it will be useful,
but WITHOUT ANY WARRANTY; without even the implied warranty of
MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the
GNU General Public License for more details.
You should have received a copy of the GNU General Public License
along with this program. If not, see <http://www.gnu.org/licenses/>.
Also add information on how to contact you by electronic and paper mail.
If the program does terminal interaction, make it output a short notice like this
when it starts in an interactive mode:
 <program> Copyright (C) <year> <name of author>
This program comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
This is free software, and you are welcome to redistribute it
under certain conditions; type `show c' for details.
The hypothetical commands `show w' and `show c' should show the appropriate parts
of the General Public License. Of course, your program's commands might be
different; for a GUI interface, you would use an "about box".
You should also get your employer (if you work as a programmer) or school, if
any, to sign a "copyright disclaimer" for the program, if necessary. For more
information on this, and how to apply and follow the GNU GPL, see
<http://www.gnu.org/licenses/>.
The GNU General Public License does not permit incorporating your program into

proprietary programs. If your program is a subroutine library, you may consider
it more useful to permit linking proprietary applications with the library. If
this is what you want to do, use the GNU Lesser General Public License instead of
this License. But first, please read
<http://www.gnu.org/philosophy/why-not-lgpl.html>.

GCC RUNTIME LIBRARY EXCEPTION
=============================
Version 3.1, 31 March 2009
Copyright © 2009 Free Software Foundation, Inc. <http://fsf.org/>
Everyone is permitted to copy and distribute verbatim copies of this license
document, but changing it is not allowed.
This GCC Runtime Library Exception ("Exception") is an additional permission
under section 7 of the GNU General Public License, version 3 ("GPLv3"). It
applies to a given file (the "Runtime Library") that bears a notice placed by the
copyright holder of the file stating that the file is governed by GPLv3 along
with this Exception.
When you use GCC to compile a program, GCC may combine portions of certain GCC
header files and runtime libraries with the compiled program. The purpose of this
Exception is to allow compilation of non-GPL (including proprietary) programs to
use, in this way, the header files and runtime libraries covered by this Exception.
GNU GENERAL PUBLIC LICENSE
--------------------------
Version 3,  29 June 2007
Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>
Everyone is permitted to copy and distribute verbatim copies of this license
document, but changing it is not allowed.
Preamble
The GNU General Public License is a free, copyleft license for software and other
kinds of works.
The licenses for most software and other practical works are designed to take

away your freedom to share and change the works. By contrast, the GNU
General
Public License is intended to guarantee your freedom to share and change
all
versions of a program--to make sure it remains free software for all its
users.
We, the Free Software Foundation, use the GNU General Public License for
most of
our software; it applies also to any other work released this way by its
authors.
You can apply it to your programs, too.
When we speak of free software, we are referring to freedom, not price.
Our
General Public Licenses are designed to make sure that you have the
freedom to
distribute copies of free software (and charge for them if you wish), that
you
receive source code or can get it if you want it, that you can change the
software or use pieces of it in new free programs, and that you know you
can do
these things.
To protect your rights, we need to prevent others from denying you these
rights
or asking you to surrender the rights. Therefore, you have certain
responsibilities if you distribute copies of the software, or if you
modify it:
responsibilities to respect the freedom of others.
For example, if you distribute copies of such a program, whether gratis or
for a
fee, you must pass on to the recipients the same freedoms that you
received. You
must make sure that they, too, receive or can get the source code. And you
must
show them these terms so they know their rights.
Developers that use the GNU GPL protect your rights with two steps: (1)
assert
copyright on the software, and (2) offer you this License giving you legal
permission to copy, distribute and/or modify it.
For the developers' and authors' protection, the GPL clearly explains that
there
is no warranty for this free software. For both users' and authors' sake,
the GPL
requires that modified versions be marked as changed, so that their
problems will
not be attributed erroneously to authors of previous versions.
Some devices are designed to deny users access to install or run modified
versions of the software inside them, although the manufacturer can do so.
This
is fundamentally incompatible with the aim of protecting users' freedom to
change
the software. The systematic pattern of such abuse occurs in the area of
products
for individuals to use, which is precisely where it is most unacceptable.

Therefore, we have designed this version of the GPL to prohibit the practice for
those products. If such problems arise substantially in other domains, we stand
ready to extend this provision to those domains in future versions of the GPL, as
needed to protect the freedom of users.
Finally, every program is threatened constantly by software patents. States
should not allow patents to restrict development and use of software on
general-purpose computers, but in those that do, we wish to avoid the special
danger that patents applied to a free program could make it effectively
proprietary. To prevent this, the GPL assures that patents cannot be used to
render the program non-free.
The precise terms and conditions for copying, distribution and modification
follow.
TERMS AND CONDITIONS
0. Definitions.
"This License" refers to version 3 of the GNU General Public License.
"Copyright" also means copyright-like laws that apply to other kinds of works,
such as semiconductor masks.
"The Program" refers to any copyrightable work licensed under this License. Each
licensee is addressed as "you". "Licensees" and "recipients" may be individuals
or organizations.
To "modify" a work means to copy from or adapt all or part of the work in a
fashion requiring copyright permission, other than the making of an exact copy.
The resulting work is called a "modified version" of the earlier work or a work
"based on" the earlier work.
A "covered work" means either the unmodified Program or a work based on the
Program.
To "propagate" a work means to do anything with it that, without permission,
would make you directly or secondarily liable for infringement under applicable
copyright law, except executing it on a computer or modifying a private copy.
Propagation includes copying, distribution (with or without modification), making
available to the public, and in some countries other activities as well.
To "convey" a work means any kind of propagation that enables other parties to
make or receive copies. Mere interaction with a user through a computer network,

**December 2022**

with no transfer of a copy, is not conveying.
An interactive user interface displays "Appropriate Legal Notices" to the extent
that it includes a convenient and prominently visible feature that (1) displays
an appropriate copyright notice, and (2) tells the user that there is no warranty
for the work (except to the extent that warranties are provided), that licensees
may convey the work under this License, and how to view a copy of this License.
If the interface presents a list of user commands or options, such as a menu, a
prominent item in the list meets this criterion.
1. Source Code.
The "source code" for a work means the preferred form of the work for making
modifications to it. "Object code" means any non-source form of a work.
A "Standard Interface" means an interface that either is an official standard
defined by a recognized standards body, or, in the case of interfaces specified
for a particular programming language, one that is widely used among developers
working in that language.
The "System Libraries" of an executable work include anything, other than the
work as a whole, that (a) is included in the normal form of packaging a Major
Component, but which is not part of that Major Component, and (b) serves only to
enable use of the work with that Major Component, or to implement a Standard
Interface for which an implementation is available to the public in source code
form. A "Major Component", in this context, means a major essential component
(kernel, window system, and so on) of the specific operating system (if any) on
which the executable work runs, or a compiler used to produce the work, or an
object code interpreter used to run it.
The "Corresponding Source" for a work in object code form means all the source
code needed to generate, install, and (for an executable work) run the object
code and to modify the work, including scripts to control those activities.
However, it does not include the work's System Libraries, or general-purpose
tools or generally available free programs which are used unmodified in
performing those activities but which are not part of the work. For example,

Corresponding Source includes interface definition files associated with source
files for the work, and the source code for shared libraries and dynamically
linked subprograms that the work is specifically designed to require, such as by
intimate data communication or control flow between those subprograms and other
parts of the work.
The Corresponding Source need not include anything that users can regenerate
automatically from other parts of the Corresponding Source.
The Corresponding Source for a work in source code form is that same work.
2. Basic Permissions.
All rights granted under this License are granted for the term of copyright on
the Program, and are irrevocable provided the stated conditions are met. This
License explicitly affirms your unlimited permission to run the unmodified
Program. The output from running a covered work is covered by this License only
if the output, given its content, constitutes a covered work. This License
acknowledges your rights of fair use or other equivalent, as provided by
copyright law.
You may make, run and propagate covered works that you do not convey, without
conditions so long as your license otherwise remains in force. You may convey
covered works to others for the sole purpose of having them make modifications
exclusively for you, or provide you with facilities for running those works,
provided that you comply with the terms of this License in conveying all material
for which you do not control copyright. Those thus making or running the covered
works for you must do so exclusively on your behalf, under your direction and
control, on terms that prohibit them from making any copies of your copyrighted
material outside their relationship with you.
Conveying under any other circumstances is permitted solely under the conditions
stated below. Sublicensing is not allowed; section 10 makes it unnecessary.
3. Protecting Users' Legal Rights From Anti-Circumvention Law.
No covered work shall be deemed part of an effective technological measure under
any applicable law fulfilling obligations under article 11 of the WIPO copyright
treaty adopted on 20 December 1996, or similar laws prohibiting or restricting
circumvention of such measures.

**December 2022**

When you convey a covered work, you waive any legal power to forbid circumvention
of technological measures to the extent such circumvention is effected by
exercising rights under this License with respect to the covered work, and you
disclaim any intention to limit operation or modification of the work as a means
of enforcing, against the work's users, your or third parties' legal rights to
forbid circumvention of technological measures.
4. Conveying Verbatim Copies.
You may convey verbatim copies of the Program's source code as you receive it, in
any medium, provided that you conspicuously and appropriately publish on each
copy an appropriate copyright notice; keep intact all notices stating that this
License and any non-permissive terms added in accord with section 7 apply to the
code; keep intact all notices of the absence of any warranty; and give all
recipients a copy of this License along with the Program.
You may charge any price or no price for each copy that you convey, and you may
offer support or warranty protection for a fee.
5. Conveying Modified Source Versions.
You may convey a work based on the Program, or the modifications to produce it
from the Program, in the form of source code under the terms of section 4,
provided that you also meet all of these conditions:
  * a) The work must carry prominent notices stating that you modified it, and
    giving a relevant date.
  * b) The work must carry prominent notices stating that it is released under
    this License and any conditions added under section 7. This requirement
    modifies the requirement in section 4 to "keep intact all notices".
  * c) You must license the entire work, as a whole, under this License to anyone
    who comes into possession of a copy. This License will therefore apply, along
    with any applicable section 7 additional terms, to the whole of the work, and
    all its parts, regardless of how they are packaged. This License gives no
    permission to license the work in any other way, but it does not invalidate
    such permission if you have separately received it.
  * d) If the work has interactive user interfaces, each must display Appropriate
    Legal Notices; however, if the Program has interactive interfaces that do not
    display Appropriate Legal Notices, your work need not make them do so.

A compilation of a covered work with other separate and independent works, which
are not by their nature extensions of the covered work, and which are not
combined with it such as to form a larger program, in or on a volume of a storage
or distribution medium, is called an "aggregate" if the compilation and its
resulting copyright are not used to limit the access or legal rights of the
compilation's users beyond what the individual works permit. Inclusion of a
covered work in an aggregate does not cause this License to apply to the other
parts of the aggregate.
6. Conveying Non-Source Forms.
You may convey a covered work in object code form under the terms of sections 4
and 5, provided that you also convey the machine-readable Corresponding Source
under the terms of this License, in one of these ways:
  * a) Convey the object code in, or embodied in, a physical product (including a
    physical distribution medium), accompanied by the Corresponding Source fixed
    on a durable physical medium customarily used for software interchange.
  * b) Convey the object code in, or embodied in, a physical product (including a
    physical distribution medium), accompanied by a written offer, valid for at
    least three years and valid for as long as you offer spare parts or customer
    support for that product model, to give anyone who possesses the object code
    either (1) a copy of the Corresponding Source for all the software in the
    product that is covered by this License, on a durable physical medium
    customarily used for software interchange, for a price no more than your
    reasonable cost of physically performing this conveying of source, or (2)
    access to copy the Corresponding Source from a network server at no charge.
  * c) Convey individual copies of the object code with a copy of the written
    offer to provide the Corresponding Source. This alternative is allowed only
    occasionally and noncommercially, and only if you received the object code
    with such an offer, in accord with subsection 6b.
  * d) Convey the object code by offering access from a designated place (gratis

or for a charge), and offer equivalent access to the Corresponding Source in
   the same way through the same place at no further charge. You need not
   require recipients to copy the Corresponding Source along with the object
   code. If the place to copy the object code is a network server, the
   Corresponding Source may be on a different server (operated by you or a third
   party) that supports equivalent copying facilities, provided you maintain
   clear directions next to the object code saying where to find the
   Corresponding Source. Regardless of what server hosts the Corresponding
   Source, you remain obligated to ensure that it is available for as long as
   needed to satisfy these requirements.
  * e) Convey the object code using peer-to-peer transmission, provided you
   inform other peers where the object code and Corresponding Source of the work
   are being offered to the general public at no charge under subsection 6d.
A separable portion of the object code, whose source code is excluded from the
Corresponding Source as a System Library, need not be included in conveying the
object code work.
A "User Product" is either (1) a "consumer product", which means any tangible
personal property which is normally used for personal, family, or household
purposes, or (2) anything designed or sold for incorporation into a dwelling. In
determining whether a product is a consumer product, doubtful cases shall be
resolved in favor of coverage. For a particular product received by a particular
user, "normally used" refers to a typical or common use of that class of product,
regardless of the status of the particular user or of the way in which the
particular user actually uses, or expects or is expected to use, the product. A
product is a consumer product regardless of whether the product has substantial
commercial, industrial or non-consumer uses, unless such uses represent the only
significant mode of use of the product.
"Installation Information" for a User Product means any methods, procedures,
authorization keys, or other information required to install and execute modified
versions of a covered work in that User Product from a modified version of its

Corresponding Source. The information must suffice to ensure that the continued
functioning of the modified object code is in no case prevented or interfered
with solely because modification has been made.
If you convey an object code work under this section in, or with, or specifically
for use in, a User Product, and the conveying occurs as part of a transaction in
which the right of possession and use of the User Product is transferred to the
recipient in perpetuity or for a fixed term (regardless of how the transaction is
characterized), the Corresponding Source conveyed under this section must be
accompanied by the Installation Information. But this requirement does not apply
if neither you nor any third party retains the ability to install modified object
code on the User Product (for example, the work has been installed in ROM).
The requirement to provide Installation Information does not include a
requirement to continue to provide support service, warranty, or updates for a
work that has been modified or installed by the recipient, or for the User
Product in which it has been modified or installed. Access to a network may be
denied when the modification itself materially and adversely affects the
operation of the network or violates the rules and protocols for communication
across the network.
Corresponding Source conveyed, and Installation Information provided, in accord
with this section must be in a format that is publicly documented (and with an
implementation available to the public in source code form), and must require no
special password or key for unpacking, reading or copying.
7. Additional Terms.
"Additional permissions" are terms that supplement the terms of this License by
making exceptions from one or more of its conditions. Additional permissions that
are applicable to the entire Program shall be treated as though they were
included in this License, to the extent that they are valid under applicable law.
If additional permissions apply only to part of the Program, that part may be
used separately under those permissions, but the entire Program remains governed
by this License without regard to the additional permissions.
When you convey a copy of a covered work, you may at your option remove any

**December 2022**

additional permissions from that copy, or from any part of it. (Additional
permissions may be written to require their own removal in certain cases
when you
modify the work.) You may place additional permissions on material, added
by you
to a covered work, for which you have or can give appropriate copyright
permission.
Notwithstanding any other provision of this License, for material you add
to a
covered work, you may (if authorized by the copyright holders of that
material)
supplement the terms of this License with terms:
  * a) Disclaiming warranty or limiting liability differently from the
terms of
    sections 15 and 16 of this License; or
  * b) Requiring preservation of specified reasonable legal notices or
author
    attributions in that material or in the Appropriate Legal Notices
displayed
    by works containing it; or
  * c) Prohibiting misrepresentation of the origin of that material, or
requiring
    that modified versions of such material be marked in reasonable ways
as
    different from the original version; or
  * d) Limiting the use for publicity purposes of names of licensors or
authors
    of the material; or
  * e) Declining to grant rights under trademark law for use of some trade
names,
    trademarks, or service marks; or
  * f) Requiring indemnification of licensors and authors of that material
by
    anyone who conveys the material (or modified versions of it) with
contractual
    assumptions of liability to the recipient, for any liability that
these
    contractual assumptions directly impose on those licensors and
authors.
All other non-permissive additional terms are considered "further
restrictions"
within the meaning of section 10. If the Program as you received it, or
any part
of it, contains a notice stating that it is governed by this License along
with a
term that is a further restriction, you may remove that term. If a license
document contains a further restriction but permits relicensing or
conveying
under this License, you may add to a covered work material governed by the
terms
of that license document, provided that the further restriction does not
survive
such relicensing or conveying.

If you add terms to a covered work in accord with this section, you must place,
in the relevant source files, a statement of the additional terms that apply to
those files, or a notice indicating where to find the applicable terms.
Additional terms, permissive or non-permissive, may be stated in the form of a
separately written license, or stated as exceptions; the above requirements apply
either way.
8. Termination.
You may not propagate or modify a covered work except as expressly provided under
this License. Any attempt otherwise to propagate or modify it is void, and will
automatically terminate your rights under this License (including any patent
licenses granted under the third paragraph of section 11).
However, if you cease all violation of this License, then your license from a
particular copyright holder is reinstated (a) provisionally, unless and until the
copyright holder explicitly and finally terminates your license, and (b)
permanently, if the copyright holder fails to notify you of the violation by some
reasonable means prior to 60 days after the cessation.
Moreover, your license from a particular copyright holder is reinstated
permanently if the copyright holder notifies you of the violation by some
reasonable means, this is the first time you have received notice of violation of
this License (for any work) from that copyright holder, and you cure the
violation prior to 30 days after your receipt of the notice.
Termination of your rights under this section does not terminate the licenses of
parties who have received copies or rights from you under this License. If your
rights have been terminated and not permanently reinstated, you do not qualify to
receive new licenses for the same material under section 10.
9. Acceptance Not Required for Having Copies.
You are not required to accept this License in order to receive or run a copy of
the Program. Ancillary propagation of a covered work occurring solely as a
consequence of using peer-to-peer transmission to receive a copy likewise does
not require acceptance. However, nothing other than this License grants you
permission to propagate or modify any covered work. These actions infringe
copyright if you do not accept this License. Therefore, by modifying or
propagating a covered work, you indicate your acceptance of this License to do
so.
10. Automatic Licensing of Downstream Recipients.

Each time you convey a covered work, the recipient automatically receives a
license from the original licensors, to run, modify and propagate that work,
subject to this License. You are not responsible for enforcing compliance by
third parties with this License.
An "entity transaction" is a transaction transferring control of an organization,
or substantially all assets of one, or subdividing an organization, or merging
organizations. If propagation of a covered work results from an entity
transaction, each party to that transaction who receives a copy of the work also
receives whatever licenses to the work the party's predecessor in interest had or
could give under the previous paragraph, plus a right to possession of the
Corresponding Source of the work from the predecessor in interest, if the
predecessor has it or can get it with reasonable efforts.
You may not impose any further restrictions on the exercise of the rights granted
or affirmed under this License. For example, you may not impose a license fee,
royalty, or other charge for exercise of rights granted under this License, and
you may not initiate litigation (including a cross-claim or counterclaim in a
lawsuit) alleging that any patent claim is infringed by making, using, selling,
offering for sale, or importing the Program or any portion of it.
11. Patents.
A "contributor" is a copyright holder who authorizes use under this License of
the Program or a work on which the Program is based. The work thus licensed is
called the contributor's "contributor version".
A contributor's "essential patent claims" are all patent claims owned or
controlled by the contributor, whether already acquired or hereafter acquired,
that would be infringed by some manner, permitted by this License, of making,
using, or selling its contributor version, but do not include claims that would
be infringed only as a consequence of further modification of the contributor
version. For purposes of this definition, "control" includes the right to grant
patent sublicenses in a manner consistent with the requirements of this License.
Each contributor grants you a non-exclusive, worldwide, royalty-free patent
license under the contributor's essential patent claims, to make, use, sell,

offer for sale, import and otherwise run, modify and propagate the
contents of
its contributor version.
In the following three paragraphs, a "patent license" is any express
agreement or
commitment, however denominated, not to enforce a patent (such as an
express
permission to practice a patent or covenant not to sue for patent
infringement).
To "grant" such a patent license to a party means to make such an
agreement or
commitment not to enforce a patent against the party.
If you convey a covered work, knowingly relying on a patent license, and
the
Corresponding Source of the work is not available for anyone to copy, free
of
charge and under the terms of this License, through a publicly available
network
server or other readily accessible means, then you must either (1) cause
the
Corresponding Source to be so available, or (2) arrange to deprive
yourself of
the benefit of the patent license for this particular work, or (3)
arrange, in a
manner consistent with the requirements of this License, to extend the
patent
license to downstream recipients. "Knowingly relying" means you have
actual
knowledge that, but for the patent license, your conveying the covered
work in a
country, or your recipient's use of the covered work in a country, would
infringe
one or more identifiable patents in that country that you have reason to
believe
are valid.
If, pursuant to or in connection with a single transaction or arrangement,
you
convey, or propagate by procuring conveyance of, a covered work, and grant
a
patent license to some of the parties receiving the covered work
authorizing them
to use, propagate, modify or convey a specific copy of the covered work,
then the
patent license you grant is automatically extended to all recipients of
the
covered work and works based on it.
A patent license is "discriminatory" if it does not include within the
scope of
its coverage, prohibits the exercise of, or is conditioned on the non-
exercise of
one or more of the rights that are specifically granted under this
License. You

may not convey a covered work if you are a party to an arrangement with a
third
party that is in the business of distributing software, under which you
make
payment to the third party based on the extent of your activity of
conveying the
work, and under which the third party grants, to any of the parties who
would
receive the covered work from you, a discriminatory patent license (a) in
connection with copies of the covered work conveyed by you (or copies made
from
those copies), or (b) primarily for and in connection with specific
products or
compilations that contain the covered work, unless you entered into that
arrangement, or that patent license was granted, prior to 28 March 2007.
Nothing in this License shall be construed as excluding or limiting any
implied
license or other defenses to infringement that may otherwise be available
to you
under applicable patent law.
12. No Surrender of Others' Freedom.
If conditions are imposed on you (whether by court order, agreement or
otherwise)
that contradict the conditions of this License, they do not excuse you
from the
conditions of this License. If you cannot convey a covered work so as to
satisfy
simultaneously your obligations under this License and any other pertinent
obligations, then as a consequence you may not convey it at all. For
example, if
you agree to terms that obligate you to collect a royalty for further
conveying
from those to whom you convey the Program, the only way you could satisfy
both
those terms and this License would be to refrain entirely from conveying
the
Program.
13. Use with the GNU Affero General Public License.
Notwithstanding any other provision of this License, you have permission
to link
or combine any covered work with a work licensed under version 3 of the
GNU
Affero General Public License into a single combined work, and to convey
the
resulting work. The terms of this License will continue to apply to the
part
which is the covered work, but the special requirements of the GNU Affero
General
Public License, section 13, concerning interaction through a network will
apply
to the combination as such.
14. Revised Versions of this License.

The Free Software Foundation may publish revised and/or new versions of the GNU
General Public License from time to time. Such new versions will be similar in
spirit to the present version, but may differ in detail to address new problems
or concerns.
Each version is given a distinguishing version number. If the Program specifies
that a certain numbered version of the GNU General Public License "or any later
version" applies to it, you have the option of following the terms and conditions
either of that numbered version or of any later version published by the Free
Software Foundation. If the Program does not specify a version number of the GNU
General Public License, you may choose any version ever published by the Free
Software Foundation.
If the Program specifies that a proxy can decide which future versions of the GNU
General Public License can be used, that proxy's public statement of acceptance
of a version permanently authorizes you to choose that version for the Program.
Later license versions may give you additional or different permissions. However,
no additional obligations are imposed on any author or copyright holder as a
result of your choosing to follow a later version.
15. Disclaimer of Warranty.
THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.
EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER
PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER
EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE
QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE
DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
16. Limitation of Liability.
IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY
COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS
PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL,
INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE

**December 2022**

THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED
INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE
PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY
HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
17. Interpretation of Sections 15 and 16.
If the disclaimer of warranty and limitation of liability provided above cannot
be given local legal effect according to their terms, reviewing courts shall
apply local law that most closely approximates an absolute waiver of all civil
liability in connection with the Program, unless a warranty or assumption of
liability accompanies a copy of the Program in return for a fee.
END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Programs
If you develop a new program, and you want it to be of the greatest possible use
to the public, the best way to achieve this is to make it free software which
everyone can redistribute and change under these terms.
To do so, attach the following notices to the program. It is safest to attach
them to the start of each source file to most effectively state the exclusion of
warranty; and each file should have at least the "copyright" line and a pointer
to where the full notice is found.
 <one line to give the program's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>
This program is free software: you can redistribute it and/or modify
it under the terms of the GNU General Public License as published by
the Free Software Foundation, either version 3 of the License, or
(at your option) any later version.
This program is distributed in the hope that it will be useful,
but WITHOUT ANY WARRANTY; without even the implied warranty of
MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the
GNU General Public License for more details.
You should have received a copy of the GNU General Public License
along with this program. If not, see <http://www.gnu.org/licenses/>.
Also add information on how to contact you by electronic and paper mail.
If the program does terminal interaction, make it output a short notice like this
when it starts in an interactive mode:
 <program> Copyright (C) <year> <name of author>
This program comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
This is free software, and you are welcome to redistribute it
under certain conditions; type `show c' for details.
The hypothetical commands `show w' and `show c' should show the appropriate parts

of the General Public License. Of course, your program's commands might be
different; for a GUI interface, you would use an "about box".
You should also get your employer (if you work as a programmer) or school,
if
any, to sign a "copyright disclaimer" for the program, if necessary. For
more
information on this, and how to apply and follow the GNU GPL, see
<http://www.gnu.org/licenses/>.
The GNU General Public License does not permit incorporating your program
into
proprietary programs. If your program is a subroutine library, you may
consider
it more useful to permit linking proprietary applications with the
library. If
this is what you want to do, use the GNU Lesser General Public License
instead of
this License. But first, please read
<http://www.gnu.org/philosophy/why-not-lgpl.html>.

GNU General Public License v3.0 with Exceptions
(libgcc 8.5.0, libstdc++ 8.5.0, libstdc++-devel 9.3.1)

This license was detected as belonging to the reciprocal license family.
However,
this license may contain an exception relative to the applicability of
certain
provisions of the license and this exception may alter your specific
obligations
when using it. The exact nature of the exception was not specified at the
time of
discovery. You are advised to examine the project's license directly in
order to
determine if it applies to your usage.
GNU GENERAL PUBLIC LICENSE
==========================
Version 3,  29 June 2007
Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>
Everyone is permitted to copy and distribute verbatim copies of this
license
document, but changing it is not allowed.
Preamble
The GNU General Public License is a free, copyleft license for software
and other
kinds of works.
The licenses for most software and other practical works are designed to
take
away your freedom to share and change the works. By contrast, the GNU
General
Public License is intended to guarantee your freedom to share and change
all

versions of a program--to make sure it remains free software for all its
users.
We, the Free Software Foundation, use the GNU General Public License for
most of
our software; it applies also to any other work released this way by its
authors.
You can apply it to your programs, too.
When we speak of free software, we are referring to freedom, not price.
Our
General Public Licenses are designed to make sure that you have the
freedom to
distribute copies of free software (and charge for them if you wish), that
you
receive source code or can get it if you want it, that you can change the
software or use pieces of it in new free programs, and that you know you
can do
these things.
To protect your rights, we need to prevent others from denying you these
rights
or asking you to surrender the rights. Therefore, you have certain
responsibilities if you distribute copies of the software, or if you
modify it:
responsibilities to respect the freedom of others.
For example, if you distribute copies of such a program, whether gratis or
for a
fee, you must pass on to the recipients the same freedoms that you
received. You
must make sure that they, too, receive or can get the source code. And you
must
show them these terms so they know their rights.
Developers that use the GNU GPL protect your rights with two steps: (1)
assert
copyright on the software, and (2) offer you this License giving you legal
permission to copy, distribute and/or modify it.
For the developers' and authors' protection, the GPL clearly explains that
there
is no warranty for this free software. For both users' and authors' sake,
the GPL
requires that modified versions be marked as changed, so that their
problems will
not be attributed erroneously to authors of previous versions.
Some devices are designed to deny users access to install or run modified
versions of the software inside them, although the manufacturer can do so.
This
is fundamentally incompatible with the aim of protecting users' freedom to
change
the software. The systematic pattern of such abuse occurs in the area of
products
for individuals to use, which is precisely where it is most unacceptable.
Therefore, we have designed this version of the GPL to prohibit the
practice for
those products. If such problems arise substantially in other domains, we
stand

ready to extend this provision to those domains in future versions of the
GPL, as
needed to protect the freedom of users.
Finally, every program is threatened constantly by software patents.
States
should not allow patents to restrict development and use of software on
general-purpose computers, but in those that do, we wish to avoid the
special
danger that patents applied to a free program could make it effectively
proprietary. To prevent this, the GPL assures that patents cannot be used
to
render the program non-free.
The precise terms and conditions for copying, distribution and
modification
follow.
TERMS AND CONDITIONS
0. Definitions.
"This License" refers to version 3 of the GNU General Public License.
"Copyright" also means copyright-like laws that apply to other kinds of
works,
such as semiconductor masks.
"The Program" refers to any copyrightable work licensed under this
License. Each
licensee is addressed as "you". "Licensees" and "recipients" may be
individuals
or organizations.
To "modify" a work means to copy from or adapt all or part of the work in
a
fashion requiring copyright permission, other than the making of an exact
copy.
The resulting work is called a "modified version" of the earlier work or a
work
"based on" the earlier work.
A "covered work" means either the unmodified Program or a work based on
the
Program.
To "propagate" a work means to do anything with it that, without
permission,
would make you directly or secondarily liable for infringement under
applicable
copyright law, except executing it on a computer or modifying a private
copy.
Propagation includes copying, distribution (with or without modification),
making
available to the public, and in some countries other activities as well.
To "convey" a work means any kind of propagation that enables other
parties to
make or receive copies. Mere interaction with a user through a computer
network,
with no transfer of a copy, is not conveying.
An interactive user interface displays "Appropriate Legal Notices" to the
extent

that it includes a convenient and prominently visible feature that (1) displays
an appropriate copyright notice, and (2) tells the user that there is no warranty
for the work (except to the extent that warranties are provided), that licensees
may convey the work under this License, and how to view a copy of this License.
If the interface presents a list of user commands or options, such as a menu, a
prominent item in the list meets this criterion.
1. Source Code.
The "source code" for a work means the preferred form of the work for making
modifications to it. "Object code" means any non-source form of a work.
A "Standard Interface" means an interface that either is an official standard
defined by a recognized standards body, or, in the case of interfaces specified
for a particular programming language, one that is widely used among developers
working in that language.
The "System Libraries" of an executable work include anything, other than the
work as a whole, that (a) is included in the normal form of packaging a Major
Component, but which is not part of that Major Component, and (b) serves only to
enable use of the work with that Major Component, or to implement a Standard
Interface for which an implementation is available to the public in source code
form. A "Major Component", in this context, means a major essential component
(kernel, window system, and so on) of the specific operating system (if any) on
which the executable work runs, or a compiler used to produce the work, or an
object code interpreter used to run it.
The "Corresponding Source" for a work in object code form means all the source
code needed to generate, install, and (for an executable work) run the object
code and to modify the work, including scripts to control those activities.
However, it does not include the work's System Libraries, or general-purpose
tools or generally available free programs which are used unmodified in
performing those activities but which are not part of the work. For example,
Corresponding Source includes interface definition files associated with source

files for the work, and the source code for shared libraries and dynamically
linked subprograms that the work is specifically designed to require, such as by
intimate data communication or control flow between those subprograms and other
parts of the work.
The Corresponding Source need not include anything that users can regenerate
automatically from other parts of the Corresponding Source.
The Corresponding Source for a work in source code form is that same work.
2. Basic Permissions.
All rights granted under this License are granted for the term of copyright on
the Program, and are irrevocable provided the stated conditions are met. This
License explicitly affirms your unlimited permission to run the unmodified
Program. The output from running a covered work is covered by this License only
if the output, given its content, constitutes a covered work. This License
acknowledges your rights of fair use or other equivalent, as provided by
copyright law.
You may make, run and propagate covered works that you do not convey, without
conditions so long as your license otherwise remains in force. You may convey
covered works to others for the sole purpose of having them make modifications
exclusively for you, or provide you with facilities for running those works,
provided that you comply with the terms of this License in conveying all material
for which you do not control copyright. Those thus making or running the covered
works for you must do so exclusively on your behalf, under your direction and
control, on terms that prohibit them from making any copies of your copyrighted
material outside their relationship with you.
Conveying under any other circumstances is permitted solely under the conditions
stated below. Sublicensing is not allowed; section 10 makes it unnecessary.
3. Protecting Users' Legal Rights From Anti-Circumvention Law.
No covered work shall be deemed part of an effective technological measure under
any applicable law fulfilling obligations under article 11 of the WIPO copyright
treaty adopted on 20 December 1996, or similar laws prohibiting or restricting
circumvention of such measures.
When you convey a covered work, you waive any legal power to forbid circumvention

of technological measures to the extent such circumvention is effected by
exercising rights under this License with respect to the covered work, and
you
disclaim any intention to limit operation or modification of the work as a
means
of enforcing, against the work's users, your or third parties' legal
rights to
forbid circumvention of technological measures.
4. Conveying Verbatim Copies.
You may convey verbatim copies of the Program's source code as you receive
it, in
any medium, provided that you conspicuously and appropriately publish on
each
copy an appropriate copyright notice; keep intact all notices stating that
this
License and any non-permissive terms added in accord with section 7 apply
to the
code; keep intact all notices of the absence of any warranty; and give all
recipients a copy of this License along with the Program.
You may charge any price or no price for each copy that you convey, and
you may
offer support or warranty protection for a fee.
5. Conveying Modified Source Versions.
You may convey a work based on the Program, or the modifications to
produce it
from the Program, in the form of source code under the terms of section 4,
provided that you also meet all of these conditions:
  * a) The work must carry prominent notices stating that you modified it,
and
    giving a relevant date.
  * b) The work must carry prominent notices stating that it is released
under
    this License and any conditions added under section 7. This
requirement
    modifies the requirement in section 4 to "keep intact all notices".
  * c) You must license the entire work, as a whole, under this License to
anyone
    who comes into possession of a copy. This License will therefore
apply, along
    with any applicable section 7 additional terms, to the whole of the
work, and
    all its parts, regardless of how they are packaged. This License gives
no
    permission to license the work in any other way, but it does not
invalidate
    such permission if you have separately received it.
  * d) If the work has interactive user interfaces, each must display
Appropriate
    Legal Notices; however, if the Program has interactive interfaces that
do not
    display Appropriate Legal Notices, your work need not make them do so.
A compilation of a covered work with other separate and independent works,
which

are not by their nature extensions of the covered work, and which are not
combined with it such as to form a larger program, in or on a volume of a
storage
or distribution medium, is called an "aggregate" if the compilation and
its
resulting copyright are not used to limit the access or legal rights of
the
compilation's users beyond what the individual works permit. Inclusion of
a
covered work in an aggregate does not cause this License to apply to the
other
parts of the aggregate.
6. Conveying Non-Source Forms.
You may convey a covered work in object code form under the terms of
sections 4
and 5, provided that you also convey the machine-readable Corresponding
Source
under the terms of this License, in one of these ways:
  * a) Convey the object code in, or embodied in, a physical product
(including a
    physical distribution medium), accompanied by the Corresponding Source
fixed
    on a durable physical medium customarily used for software
interchange.
  * b) Convey the object code in, or embodied in, a physical product
(including a
    physical distribution medium), accompanied by a written offer, valid
for at
    least three years and valid for as long as you offer spare parts or
customer
    support for that product model, to give anyone who possesses the
object code
    either (1) a copy of the Corresponding Source for all the software in
the
    product that is covered by this License, on a durable physical medium
    customarily used for software interchange, for a price no more than
your
    reasonable cost of physically performing this conveying of source, or
(2)
    access to copy the Corresponding Source from a network server at no
charge.
  * c) Convey individual copies of the object code with a copy of the
written
    offer to provide the Corresponding Source. This alternative is allowed
only
    occasionally and noncommercially, and only if you received the object
code
    with such an offer, in accord with subsection 6b.
  * d) Convey the object code by offering access from a designated place
(gratis
    or for a charge), and offer equivalent access to the Corresponding
Source in
    the same way through the same place at no further charge. You need not

     require recipients to copy the Corresponding Source along with the
object
     code. If the place to copy the object code is a network server, the
     Corresponding Source may be on a different server (operated by you or
a third
     party) that supports equivalent copying facilities, provided you
maintain
     clear directions next to the object code saying where to find the
     Corresponding Source. Regardless of what server hosts the
Corresponding
     Source, you remain obligated to ensure that it is available for as
long as
     needed to satisfy these requirements.
   * e) Convey the object code using peer-to-peer transmission, provided
you
     inform other peers where the object code and Corresponding Source of
the work
     are being offered to the general public at no charge under subsection
6d.
A separable portion of the object code, whose source code is excluded from
the
Corresponding Source as a System Library, need not be included in
conveying the
object code work.
A "User Product" is either (1) a "consumer product", which means any
tangible
personal property which is normally used for personal, family, or
household
purposes, or (2) anything designed or sold for incorporation into a
dwelling. In
determining whether a product is a consumer product, doubtful cases shall
be
resolved in favor of coverage. For a particular product received by a
particular
user, "normally used" refers to a typical or common use of that class of
product,
regardless of the status of the particular user or of the way in which the
particular user actually uses, or expects or is expected to use, the
product. A
product is a consumer product regardless of whether the product has
substantial
commercial, industrial or non-consumer uses, unless such uses represent
the only
significant mode of use of the product.
"Installation Information" for a User Product means any methods,
procedures,
authorization keys, or other information required to install and execute
modified
versions of a covered work in that User Product from a modified version of
its
Corresponding Source. The information must suffice to ensure that the
continued

functioning of the modified object code is in no case prevented or interfered
with solely because modification has been made.
If you convey an object code work under this section in, or with, or specifically
for use in, a User Product, and the conveying occurs as part of a transaction in
which the right of possession and use of the User Product is transferred to the
recipient in perpetuity or for a fixed term (regardless of how the transaction is
characterized), the Corresponding Source conveyed under this section must be
accompanied by the Installation Information. But this requirement does not apply
if neither you nor any third party retains the ability to install modified object
code on the User Product (for example, the work has been installed in ROM).
The requirement to provide Installation Information does not include a
requirement to continue to provide support service, warranty, or updates for a
work that has been modified or installed by the recipient, or for the User
Product in which it has been modified or installed. Access to a network may be
denied when the modification itself materially and adversely affects the
operation of the network or violates the rules and protocols for communication
across the network.
Corresponding Source conveyed, and Installation Information provided, in accord
with this section must be in a format that is publicly documented (and with an
implementation available to the public in source code form), and must require no
special password or key for unpacking, reading or copying.
7. Additional Terms.
"Additional permissions" are terms that supplement the terms of this License by
making exceptions from one or more of its conditions. Additional permissions that
are applicable to the entire Program shall be treated as though they were
included in this License, to the extent that they are valid under applicable law.
If additional permissions apply only to part of the Program, that part may be
used separately under those permissions, but the entire Program remains governed
by this License without regard to the additional permissions.
When you convey a copy of a covered work, you may at your option remove any
additional permissions from that copy, or from any part of it. (Additional

permissions may be written to require their own removal in certain cases when you
modify the work.) You may place additional permissions on material, added by you
to a covered work, for which you have or can give appropriate copyright permission.
Notwithstanding any other provision of this License, for material you add to a
covered work, you may (if authorized by the copyright holders of that material)
supplement the terms of this License with terms:
  * a) Disclaiming warranty or limiting liability differently from the terms of
    sections 15 and 16 of this License; or
  * b) Requiring preservation of specified reasonable legal notices or author
    attributions in that material or in the Appropriate Legal Notices displayed
    by works containing it; or
  * c) Prohibiting misrepresentation of the origin of that material, or requiring
    that modified versions of such material be marked in reasonable ways as
    different from the original version; or
  * d) Limiting the use for publicity purposes of names of licensors or authors
    of the material; or
  * e) Declining to grant rights under trademark law for use of some trade names,
    trademarks, or service marks; or
  * f) Requiring indemnification of licensors and authors of that material by
    anyone who conveys the material (or modified versions of it) with contractual
    assumptions of liability to the recipient, for any liability that these
    contractual assumptions directly impose on those licensors and authors.
All other non-permissive additional terms are considered "further restrictions"
within the meaning of section 10. If the Program as you received it, or any part
of it, contains a notice stating that it is governed by this License along with a
term that is a further restriction, you may remove that term. If a license
document contains a further restriction but permits relicensing or conveying
under this License, you may add to a covered work material governed by the terms
of that license document, provided that the further restriction does not survive
such relicensing or conveying.

If you add terms to a covered work in accord with this section, you must place,
in the relevant source files, a statement of the additional terms that apply to
those files, or a notice indicating where to find the applicable terms.
Additional terms, permissive or non-permissive, may be stated in the form of a
separately written license, or stated as exceptions; the above requirements apply
either way.
8. Termination.
You may not propagate or modify a covered work except as expressly provided under
this License. Any attempt otherwise to propagate or modify it is void, and will
automatically terminate your rights under this License (including any patent
licenses granted under the third paragraph of section 11).
However, if you cease all violation of this License, then your license from a
particular copyright holder is reinstated (a) provisionally, unless and until the
copyright holder explicitly and finally terminates your license, and (b)
permanently, if the copyright holder fails to notify you of the violation by some
reasonable means prior to 60 days after the cessation.
Moreover, your license from a particular copyright holder is reinstated
permanently if the copyright holder notifies you of the violation by some
reasonable means, this is the first time you have received notice of violation of
this License (for any work) from that copyright holder, and you cure the
violation prior to 30 days after your receipt of the notice.
Termination of your rights under this section does not terminate the licenses of
parties who have received copies or rights from you under this License. If your
rights have been terminated and not permanently reinstated, you do not qualify to
receive new licenses for the same material under section 10.
9. Acceptance Not Required for Having Copies.
You are not required to accept this License in order to receive or run a copy of
the Program. Ancillary propagation of a covered work occurring solely as a
consequence of using peer-to-peer transmission to receive a copy likewise does
not require acceptance. However, nothing other than this License grants you
permission to propagate or modify any covered work. These actions infringe
copyright if you do not accept this License. Therefore, by modifying or
propagating a covered work, you indicate your acceptance of this License to do
so.
10. Automatic Licensing of Downstream Recipients.

Each time you convey a covered work, the recipient automatically receives a
license from the original licensors, to run, modify and propagate that work,
subject to this License. You are not responsible for enforcing compliance by
third parties with this License.
An "entity transaction" is a transaction transferring control of an organization,
or substantially all assets of one, or subdividing an organization, or merging
organizations. If propagation of a covered work results from an entity
transaction, each party to that transaction who receives a copy of the work also
receives whatever licenses to the work the party's predecessor in interest had or
could give under the previous paragraph, plus a right to possession of the
Corresponding Source of the work from the predecessor in interest, if the
predecessor has it or can get it with reasonable efforts.
You may not impose any further restrictions on the exercise of the rights granted
or affirmed under this License. For example, you may not impose a license fee,
royalty, or other charge for exercise of rights granted under this License, and
you may not initiate litigation (including a cross-claim or counterclaim in a
lawsuit) alleging that any patent claim is infringed by making, using, selling,
offering for sale, or importing the Program or any portion of it.
11. Patents.
A "contributor" is a copyright holder who authorizes use under this License of
the Program or a work on which the Program is based. The work thus licensed is
called the contributor's "contributor version".
A contributor's "essential patent claims" are all patent claims owned or
controlled by the contributor, whether already acquired or hereafter acquired,
that would be infringed by some manner, permitted by this License, of making,
using, or selling its contributor version, but do not include claims that would
be infringed only as a consequence of further modification of the contributor
version. For purposes of this definition, "control" includes the right to grant
patent sublicenses in a manner consistent with the requirements of this License.
Each contributor grants you a non-exclusive, worldwide, royalty-free patent
license under the contributor's essential patent claims, to make, use, sell,

offer for sale, import and otherwise run, modify and propagate the
contents of
its contributor version.
In the following three paragraphs, a "patent license" is any express
agreement or
commitment, however denominated, not to enforce a patent (such as an
express
permission to practice a patent or covenant not to sue for patent
infringement).
To "grant" such a patent license to a party means to make such an
agreement or
commitment not to enforce a patent against the party.
If you convey a covered work, knowingly relying on a patent license, and
the
Corresponding Source of the work is not available for anyone to copy, free
of
charge and under the terms of this License, through a publicly available
network
server or other readily accessible means, then you must either (1) cause
the
Corresponding Source to be so available, or (2) arrange to deprive
yourself of
the benefit of the patent license for this particular work, or (3)
arrange, in a
manner consistent with the requirements of this License, to extend the
patent
license to downstream recipients. "Knowingly relying" means you have
actual
knowledge that, but for the patent license, your conveying the covered
work in a
country, or your recipient's use of the covered work in a country, would
infringe
one or more identifiable patents in that country that you have reason to
believe
are valid.
If, pursuant to or in connection with a single transaction or arrangement,
you
convey, or propagate by procuring conveyance of, a covered work, and grant
a
patent license to some of the parties receiving the covered work
authorizing them
to use, propagate, modify or convey a specific copy of the covered work,
then the
patent license you grant is automatically extended to all recipients of
the
covered work and works based on it.
A patent license is "discriminatory" if it does not include within the
scope of
its coverage, prohibits the exercise of, or is conditioned on the non-
exercise of
one or more of the rights that are specifically granted under this
License. You

may not convey a covered work if you are a party to an arrangement with a third
party that is in the business of distributing software, under which you make
payment to the third party based on the extent of your activity of conveying the
work, and under which the third party grants, to any of the parties who would
receive the covered work from you, a discriminatory patent license (a) in
connection with copies of the covered work conveyed by you (or copies made from
those copies), or (b) primarily for and in connection with specific products or
compilations that contain the covered work, unless you entered into that
arrangement, or that patent license was granted, prior to 28 March 2007.
Nothing in this License shall be construed as excluding or limiting any implied
license or other defenses to infringement that may otherwise be available to you
under applicable patent law.
12. No Surrender of Others' Freedom.
If conditions are imposed on you (whether by court order, agreement or otherwise)
that contradict the conditions of this License, they do not excuse you from the
conditions of this License. If you cannot convey a covered work so as to satisfy
simultaneously your obligations under this License and any other pertinent
obligations, then as a consequence you may not convey it at all. For example, if
you agree to terms that obligate you to collect a royalty for further conveying
from those to whom you convey the Program, the only way you could satisfy both
those terms and this License would be to refrain entirely from conveying the
Program.
13. Use with the GNU Affero General Public License.
Notwithstanding any other provision of this License, you have permission to link
or combine any covered work with a work licensed under version 3 of the GNU
Affero General Public License into a single combined work, and to convey the
resulting work. The terms of this License will continue to apply to the part
which is the covered work, but the special requirements of the GNU Affero General
Public License, section 13, concerning interaction through a network will apply
to the combination as such.
14. Revised Versions of this License.

The Free Software Foundation may publish revised and/or new versions of the GNU
General Public License from time to time. Such new versions will be similar in
spirit to the present version, but may differ in detail to address new problems
or concerns.
Each version is given a distinguishing version number. If the Program specifies
that a certain numbered version of the GNU General Public License "or any later
version" applies to it, you have the option of following the terms and conditions
either of that numbered version or of any later version published by the Free
Software Foundation. If the Program does not specify a version number of the GNU
General Public License, you may choose any version ever published by the Free
Software Foundation.
If the Program specifies that a proxy can decide which future versions of the GNU
General Public License can be used, that proxy's public statement of acceptance
of a version permanently authorizes you to choose that version for the Program.
Later license versions may give you additional or different permissions. However,
no additional obligations are imposed on any author or copyright holder as a
result of your choosing to follow a later version.
15. Disclaimer of Warranty.
THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.
EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER
PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER
EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE
QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE
DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
16. Limitation of Liability.
IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY
COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS
PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL,
INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE

THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING
RENDERED
INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE
PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER
PARTY
HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
17. Interpretation of Sections 15 and 16.
If the disclaimer of warranty and limitation of liability provided above
cannot
be given local legal effect according to their terms, reviewing courts
shall
apply local law that most closely approximates an absolute waiver of all
civil
liability in connection with the Program, unless a warranty or assumption
of
liability accompanies a copy of the Program in return for a fee.
END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Programs
If you develop a new program, and you want it to be of the greatest
possible use
to the public, the best way to achieve this is to make it free software
which
everyone can redistribute and change under these terms.
To do so, attach the following notices to the program. It is safest to
attach
them to the start of each source file to most effectively state the
exclusion of
warranty; and each file should have at least the "copyright" line and a
pointer
to where the full notice is found.
    <one line to give the program's name and a brief idea of what it
does.>
    Copyright (C) <year>  <name of author>
    This program is free software: you can redistribute it and/or modify
    it under the terms of the GNU General Public License as published by
    the Free Software Foundation, either version 3 of the License, or
    (at your option) any later version.
    This program is distributed in the hope that it will be useful,
    but WITHOUT ANY WARRANTY; without even the implied warranty of
    MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE.  See the
    GNU General Public License for more details.
    You should have received a copy of the GNU General Public License
    along with this program.  If not, see <http://www.gnu.org/licenses/>.
Also add information on how to contact you by electronic and paper mail.
If the program does terminal interaction, make it output a short notice
like this
when it starts in an interactive mode:
    <program>  Copyright (C) <year>  <name of author>
    This program comes with ABSOLUTELY NO WARRANTY; for details type `show
w'.
    This is free software, and you are welcome to redistribute it
    under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the
appropriate parts
of the General Public License. Of course, your program's commands might be
different; for a GUI interface, you would use an "about box".
You should also get your employer (if you work as a programmer) or school,
if
any, to sign a "copyright disclaimer" for the program, if necessary. For
more
information on this, and how to apply and follow the GNU GPL, see
<http://www.gnu.org/licenses/>.
The GNU General Public License does not permit incorporating your program
into
proprietary programs. If your program is a subroutine library, you may
consider
it more useful to permit linking proprietary applications with the
library. If
this is what you want to do, use the GNU Lesser General Public License
instead of
this License. But first, please read
<http://www.gnu.org/philosophy/why-not-lgpl.html>.

GNU Lesser General Public License v2.0
(Guile 2.2.7+1)

GNU LESSER GENERAL PUBLIC LICENSE VERSION 2
===========================================
GNU LIBRARY GENERAL PUBLIC LICENSE
Version 2, June 1991
Copyright (C) 1991 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
Everyone is permitted to copy and distribute verbatim copies of this
license
document, but changing it is not allowed.
[This is the first released version of the library GPL. It is numbered 2
because
it goes with version 2 of the ordinary GPL.]
Preamble
The licenses for most software are designed to take away your freedom to
share
and change it. By contrast, the GNU General Public Licenses are intended
to
guarantee your freedom to share and change free software--to make sure the
software is free for all its users.
This license, the Library General Public License, applies to some
specially
designated Free Software Foundation software, and to any other libraries
whose
authors decide to use it. You can use it for your libraries, too.
When we speak of free software, we are referring to freedom, not price.
Our

General Public Licenses are designed to make sure that you have the freedom to
distribute copies of free software (and charge for this service if you wish),
that you receive source code or can get it if you want it, that you can change
the software or use pieces of it in new free programs; and that you know you can
do these things.
To protect your rights, we need to make restrictions that forbid anyone to deny
you these rights or to ask you to surrender the rights. These restrictions
translate to certain responsibilities for you if you distribute copies of the
library, or if you modify it.
For example, if you distribute copies of the library, whether gratis or for a
fee, you must give the recipients all the rights that we gave you. You must make
sure that they, too, receive or can get the source code. If you link a program
with the library, you must provide complete object files to the recipients so
that they can relink them with the library, after making changes to the library
and recompiling it. And you must show them these terms so they know their rights.
Our method of protecting your rights has two steps: (1) copyright the library,
and (2) offer you this license which gives you legal permission to copy,
distribute and/or modify the library.
Also, for each distributor's protection, we want to make certain that everyone
understands that there is no warranty for this free library. If the library is
modified by someone else and passed on, we want its recipients to know that what
they have is not the original version, so that any problems introduced by others
will not reflect on the original authors' reputations.
Finally, any free program is threatened constantly by software patents. We wish
to avoid the danger that companies distributing free software will individually
obtain patent licenses, thus in effect transforming the program into proprietary
software. To prevent this, we have made it clear that any patent must be licensed
for everyone's free use or not licensed at all.
Most GNU software, including some libraries, is covered by the ordinary GNU
General Public License, which was designed for utility programs. This license,

the GNU Library General Public License, applies to certain designated libraries.
This license is quite different from the ordinary one; be sure to read it in
full, and don't assume that anything in it is the same as in the ordinary license.
The reason we have a separate public license for some libraries is that they blur
the distinction we usually make between modifying or adding to a program and
simply using it. Linking a program with a library, without changing the library,
is in some sense simply using the library, and is analogous to running a utility
program or application program. However, in a textual and legal sense, the linked
executable is a combined work, a derivative of the original library, and the
ordinary General Public License treats it as such.
Because of this blurred distinction, using the ordinary General Public License
for libraries did not effectively promote software sharing, because most
developers did not use the libraries. We concluded that weaker conditions might
promote sharing better.
However, unrestricted linking of non-free programs would deprive the users of
those programs of all benefit from the free status of the libraries themselves.
This Library General Public License is intended to permit developers of non-free
programs to use free libraries, while preserving your freedom as a user of such
programs to change the free libraries that are incorporated in them. (We have not
seen how to achieve this as regards changes in header files, but we have achieved
it as regards changes in the actual functions of the Library.) The hope is that
this will lead to faster development of free libraries.
The precise terms and conditions for copying, distribution and modification
follow. Pay close attention to the difference between a "work based on the
library" and a "work that uses the library". The former contains code derived
from the library, while the latter only works together with the library.
Note that it is possible for a library to be covered by the ordinary General
Public License rather than by this special one.
GNU LIBRARY GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION
AND MODIFICATION

  1. This License Agreement applies to any software library which contains
a
     notice placed by the copyright holder or other authorized party saying
it may
     be distributed under the terms of this Library General Public License
(also
     called "this License"). Each licensee is addressed as "you".
     A "library" means a collection of software functions and/or data
prepared so
     as to be conveniently linked with application programs (which use some
of
     those functions and data) to form executables.
     The "Library", below, refers to any such software library or work
which has
     been distributed under these terms. A "work based on the Library"
means
     either the Library or any derivative work under copyright law: that is
to
     say, a work containing the Library or a portion of it, either verbatim
or
     with modifications and/or translated straightforwardly into another
language.
     (Hereinafter, translation is included without limitation in the term
     "modification".)
     "Source code" for a work means the preferred form of the work for
making
     modifications to it. For a library, complete source code means all the
source
     code for all modules it contains, plus any associated interface
definition
     files, plus the scripts used to control compilation and installation
of the
     library.
     Activities other than copying, distribution and modification are not
covered
     by this License; they are outside its scope. The act of running a
program
     using the Library is not restricted, and output from such a program is
     covered only if its contents constitute a work based on the Library
     (independent of the use of the Library in a tool for writing it).
Whether
     that is true depends on what the Library does and what the program
that uses
     the Library does.
  2. You may copy and distribute verbatim copies of the Library's complete
source
     code as you receive it, in any medium, provided that you conspicuously
and
     appropriately publish on each copy an appropriate copyright notice and
     disclaimer of warranty; keep intact all the notices that refer to this
     License and to the absence of any warranty; and distribute a copy of
this

License along with the Library. You may charge a fee for the physical act of
    transferring a copy, and you may at your option offer warranty protection in
    exchange for a fee.
  3. You may modify your copy or copies of the Library or any portion of it, thus
    forming a work based on the Library, and copy and distribute such
    modifications or work under the terms of Section 1 above, provided that you
    also meet all of these conditions:
      a. The modified work must itself be a software library.
      b. You must cause the files modified to carry prominent notices stating
        that you changed the files and the date of any change.
      c. You must cause the whole of the work to be licensed at no charge to all
        third parties under the terms of this License.
      d. If a facility in the modified Library refers to a function or a table of
        data to be supplied by an application program that uses the facility,
        other than as an argument passed when the facility is invoked, then you
        must make a good faith effort to ensure that, in the event an application
        does not supply such function or table, the facility still operates, and
        performs whatever part of its purpose remains meaningful. (For example, a
        function in a library to compute square roots has a purpose that is
        entirely well-defined independent of the application. Therefore,
        Subsection 2d requires that any application-supplied function or table
        used by this function must be optional: if the application does not
        supply it, the square root function must still compute square roots.)
    These requirements apply to the modified work as a whole. If identifiable
    sections of that work are not derived from the Library, and can be reasonably
    considered independent and separate works in themselves, then this License,
    and its terms, do not apply to those sections when you distribute them as
    separate works. But when you distribute the same sections as part of a whole
    which is a work based on the Library, the distribution of the whole must be
    on the terms of this License, whose permissions for other licensees extend to

the entire whole, and thus to each and every part regardless of who
wrote it.
    Thus, it is not the intent of this section to claim rights or contest
your
    rights to work written entirely by you; rather, the intent is to
exercise the
    right to control the distribution of derivative or collective works
based on
    the Library.
    In addition, mere aggregation of another work not based on the Library
with
    the Library (or with a work based on the Library) on a volume of a
storage or
    distribution medium does not bring the other work under the scope of
this
    License.
  4. You may opt to apply the terms of the ordinary GNU General Public
License
    instead of this License to a given copy of the Library. To do this,
you must
    alter all the notices that refer to this License, so that they refer
to the
    ordinary GNU General Public License, version 2, instead of to this
License.
    (If a newer version than version 2 of the ordinary GNU General Public
License
    has appeared, then you can specify that version instead if you wish.)
Do not
    make any other change in these notices.
    Once this change is made in a given copy, it is irreversible for that
copy,
    so the ordinary GNU General Public License applies to all subsequent
copies
    and derivative works made from that copy.
    This option is useful when you wish to copy part of the code of the
Library
    into a program that is not a library.
  5. You may copy and distribute the Library (or a portion or derivative
of it,
    under Section 2) in object code or executable form under the terms of
    Sections 1 and 2 above provided that you accompany it with the
complete
    corresponding machine-readable source code, which must be distributed
under
    the terms of Sections 1 and 2 above on a medium customarily used for
software
    interchange.
    If distribution of object code is made by offering access to copy from
a
    designated place, then offering equivalent access to copy the source
code
    from the same place satisfies the requirement to distribute the source
code,

even though third parties are not compelled to copy the source along with the
    object code.
  6. A program that contains no derivative of any portion of the Library, but is
    designed to work with the Library by being compiled or linked with it, is
    called a "work that uses the Library". Such a work, in isolation, is not a
    derivative work of the Library, and therefore falls outside the scope of this
    License. However, linking a "work that uses the Library" with the Library
    creates an executable that is a derivative of the Library (because it
    contains portions of the Library), rather than a "work that uses the
    library". The executable is therefore covered by this License. Section 6
    states terms for distribution of such executables.
    When a "work that uses the Library" uses material from a header file that is
    part of the Library, the object code for the work may be a derivative work of
    the Library even though the source code is not. Whether this is true is
    especially significant if the work can be linked without the Library, or if
    the work is itself a library. The threshold for this to be true is not
    precisely defined by law.
    If such an object file uses only numerical parameters, data structure layouts
    and accessors, and small macros and small inline functions (ten lines or less
    in length), then the use of the object file is unrestricted, regardless of
    whether it is legally a derivative work. (Executables containing this object
    code plus portions of the Library will still fall under Section 6.)
    Otherwise, if the work is a derivative of the Library, you may distribute the
    object code for the work under the terms of Section 6. Any executables
    containing that work also fall under Section 6, whether or not they are
    linked directly with the Library itself.
  7. As an exception to the Sections above, you may also compile or link a "work
    that uses the Library" with the Library to produce a work containing portions
    of the Library, and distribute that work under terms of your choice, provided
    that the terms permit modification of the work for the customer's own use and
    reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the
Library is
used in it and that the Library and its use are covered by this
License. You
must supply a copy of this License. If the work during execution
displays
copyright notices, you must include the copyright notice for the
Library
among them, as well as a reference directing the user to the copy of
this
License. Also, you must do one of these things:
    a. Accompany the work with the complete corresponding machine-
readable
      source code for the Library including whatever changes were used
in the
      work (which must be distributed under Sections 1 and 2 above);
and, if
      the work is an executable linked with the Library, with the
complete
      machine-readable "work that uses the Library", as object code
and/or
      source code, so that the user can modify the Library and then
relink to
      produce a modified executable containing the modified Library. (It
is
      understood that the user who changes the contents of definitions
files in
      the Library will not necessarily be able to recompile the
application to
      use the modified definitions.)
    b. Accompany the work with a written offer, valid for at least three
years,
      to give the same user the materials specified in Subsection 6a,
above,
      for a charge no more than the cost of performing this
distribution.
    c. If distribution of the work is made by offering access to copy
from a
      designated place, offer equivalent access to copy the above
specified
      materials from the same place.
    d. Verify that the user has already received a copy of these
materials or
      that you have already sent this user a copy.
    For an executable, the required form of the "work that uses the
Library" must
    include any data and utility programs needed for reproducing the
executable
    from it. However, as a special exception, the source code distributed
need
    not include anything that is normally distributed (in either source or
binary
    form) with the major components (compiler, kernel, and so on) of the

operating system on which the executable runs, unless that component
itself
     accompanies the executable.
     It may happen that this requirement contradicts the license
restrictions of
     other proprietary libraries that do not normally accompany the
operating
     system. Such a contradiction means you cannot use both them and the
Library
     together in an executable that you distribute.
  8. You may place library facilities that are a work based on the Library
     side-by-side in a single library together with other library
facilities not
     covered by this License, and distribute such a combined library,
provided
     that the separate distribution of the work based on the Library and of
the
     other library facilities is otherwise permitted, and provided that you
do
     these two things:

       a. Accompany the combined library with a copy of the same work based
on the
          Library, uncombined with any other library facilities. This must
be
          distributed under the terms of the Sections above.
       b. Give prominent notice with the combined library of the fact that
part of
          it is a work based on the Library, and explaining where to find
the
          accompanying uncombined form of the same work.
  9. You may not copy, modify, sublicense, link with, or distribute the
Library
     except as expressly provided under this License. Any attempt otherwise
to
     copy, modify, sublicense, link with, or distribute the Library is
void, and
     will automatically terminate your rights under this License. However,
parties
     who have received copies, or rights, from you under this License will
not
     have their licenses terminated so long as such parties remain in full
     compliance.
  10. You are not required to accept this License, since you have not
signed it.
     However, nothing else grants you permission to modify or distribute
the
     Library or its derivative works. These actions are prohibited by law
if you
     do not accept this License. Therefore, by modifying or distributing
the
     Library (or any work based on the Library), you indicate your
acceptance of
     this License to do so, and all its terms and conditions for copying,

```
    distributing or modifying the Library or works based on it.
  11. Each time you redistribute the Library (or any work based on the
Library),
    the recipient automatically receives a license from the original
licensor to
    copy, distribute, link with or modify the Library subject to these
terms and
    conditions. You may not impose any further restrictions on the
recipients'
    exercise of the rights granted herein. You are not responsible for
enforcing
    compliance by third parties to this License.
  12. If, as a consequence of a court judgment or allegation of patent
    infringement or for any other reason (not limited to patent issues),
    conditions are imposed on you (whether by court order, agreement or
    otherwise) that contradict the conditions of this License, they do not
excuse
    you from the conditions of this License. If you cannot distribute so
as to
    satisfy simultaneously your obligations under this License and any
other
    pertinent obligations, then as a consequence you may not distribute
the
    Library at all. For example, if a patent license would not permit
    royalty-free redistribution of the Library by all those who receive
copies
    directly or indirectly through you, then the only way you could
satisfy both
    it and this License would be to refrain entirely from distribution of
the
    Library.
    If any portion of this section is held invalid or unenforceable under
any
    particular circumstance, the balance of the section is intended to
apply, and
    the section as a whole is intended to apply in other circumstances.
    It is not the purpose of this section to induce you to infringe any
patents
    or other property right claims or to contest validity of any such
claims;
    this section has the sole purpose of protecting the integrity of the
free
    software distribution system which is implemented by public license
    practices. Many people have made generous contributions to the wide
range of
    software distributed through that system in reliance on consistent
    application of that system; it is up to the author/donor to decide if
he or
    she is willing to distribute software through any other system and a
licensee
    cannot impose that choice.
    This section is intended to make thoroughly clear what is believed to
be a
```

consequence of the rest of this License.
  13. If the distribution and/or use of the Library is restricted in certain
    countries either by patents or by copyrighted interfaces, the original
    copyright holder who places the Library under this License may add an
    explicit geographical distribution limitation excluding those countries, so
    that distribution is permitted only in or among countries not thus excluded.
    In such case, this License incorporates the limitation as if written in the
    body of this License.
  14. The Free Software Foundation may publish revised and/or new versions of the
    Library General Public License from time to time. Such new versions will be
    similar in spirit to the present version, but may differ in detail to address
    new problems or concerns. Each version is given a distinguishing version
    number. If the Library specifies a version number of this License which
    applies to it and "any later version", you have the option of following the
    terms and conditions either of that version or of any later version published
    by the Free Software Foundation. If the Library does not specify a license
    version number, you may choose any version ever published by the Free
    Software Foundation.
  15. If you wish to incorporate parts of the Library into other free programs
    whose distribution conditions are incompatible with these, write to the
    author to ask for permission. For software which is copyrighted by the Free
    Software Foundation, write to the Free Software Foundation; we sometimes make
    exceptions for this. Our decision will be guided by the two goals of
    preserving the free status of all derivatives of our free software and of
    promoting the sharing and reuse of software generally.
    NO WARRANTY
  16. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR
    THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE
    STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE
    LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED,
    INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND

        FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY
AND
        PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE
DEFECTIVE,
        YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
    17. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN
WRITING WILL
        ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR
REDISTRIBUTE
        THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES,
INCLUDING ANY
        GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF
THE USE
        OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF
DATA OR
        DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD
PARTIES OR
        A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF
SUCH
        HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH
DAMAGES.
END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Libraries
If you develop a new library, and you want it to be of the greatest
possible use
to the public, we recommend making it free software that everyone can
redistribute and change. You can do so by permitting redistribution under
these
terms (or, alternatively, under the terms of the ordinary General Public
License).
To apply these terms, attach the following notices to the library. It is
safest
to attach them to the start of each source file to most effectively convey
the
exclusion of warranty; and each file should have at least the "copyright"
line
and a pointer to where the full notice is found.
<one line to give the library's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>
This library is free software; you can redistribute it and/or modify it
under the
terms of the GNU Library General Public License as published by the Free
Software
Foundation; either version 2 of the License, or (at your option) any later
version.
This library is distributed in the hope that it will be useful, but
WITHOUT ANY
WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS

PARTICULAR PURPOSE. See the GNU Library General Public License for more

GNU LESSER GENERAL PUBLIC LICENSE VERSION 2
==========================================
GNU LIBRARY GENERAL PUBLIC LICENSE
Version 2, June 1991
Copyright (C) 1991 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
Everyone is permitted to copy and distribute verbatim copies of this
license
document, but changing it is not allowed.
[This is the first released version of the library GPL. It is numbered 2
because
it goes with version 2 of the ordinary GPL.]
Preamble
The licenses for most software are designed to take away your freedom to
share
and change it. By contrast, the GNU General Public Licenses are intended
to
guarantee your freedom to share and change free software--to make sure the
software is free for all its users.
This license, the Library General Public License, applies to some
specially

designated Free Software Foundation software, and to any other libraries whose
authors decide to use it. You can use it for your libraries, too.
When we speak of free software, we are referring to freedom, not price. Our
General Public Licenses are designed to make sure that you have the freedom to
distribute copies of free software (and charge for this service if you wish),
that you receive source code or can get it if you want it, that you can change
the software or use pieces of it in new free programs; and that you know you can
do these things.
To protect your rights, we need to make restrictions that forbid anyone to deny
you these rights or to ask you to surrender the rights. These restrictions
translate to certain responsibilities for you if you distribute copies of the
library, or if you modify it.
For example, if you distribute copies of the library, whether gratis or for a
fee, you must give the recipients all the rights that we gave you. You must make
sure that they, too, receive or can get the source code. If you link a program
with the library, you must provide complete object files to the recipients so
that they can relink them with the library, after making changes to the library
and recompiling it. And you must show them these terms so they know their
rights.
Our method of protecting your rights has two steps: (1) copyright the library,
and (2) offer you this license which gives you legal permission to copy,
distribute and/or modify the library.
Also, for each distributor's protection, we want to make certain that everyone
understands that there is no warranty for this free library. If the library is
modified by someone else and passed on, we want its recipients to know that what
they have is not the original version, so that any problems introduced by others
will not reflect on the original authors' reputations.
Finally, any free program is threatened constantly by software patents. We wish
to avoid the danger that companies distributing free software will individually
obtain patent licenses, thus in effect transforming the program into proprietary
software. To prevent this, we have made it clear that any patent must be licensed

for everyone's free use or not licensed at all.
Most GNU software, including some libraries, is covered by the ordinary GNU
General Public License, which was designed for utility programs. This license,
the GNU Library General Public License, applies to certain designated libraries.
This license is quite different from the ordinary one; be sure to read it in
full, and don't assume that anything in it is the same as in the ordinary license.
The reason we have a separate public license for some libraries is that they blur
the distinction we usually make between modifying or adding to a program and
simply using it. Linking a program with a library, without changing the library,
is in some sense simply using the library, and is analogous to running a utility
program or application program. However, in a textual and legal sense, the linked
executable is a combined work, a derivative of the original library, and the
ordinary General Public License treats it as such.
Because of this blurred distinction, using the ordinary General Public License
for libraries did not effectively promote software sharing, because most
developers did not use the libraries. We concluded that weaker conditions might
promote sharing better.
However, unrestricted linking of non-free programs would deprive the users of
those programs of all benefit from the free status of the libraries themselves.
This Library General Public License is intended to permit developers of non-free
programs to use free libraries, while preserving your freedom as a user of such
programs to change the free libraries that are incorporated in them. (We have not
seen how to achieve this as regards changes in header files, but we have achieved
it as regards changes in the actual functions of the Library.) The hope is that
this will lead to faster development of free libraries.
The precise terms and conditions for copying, distribution and modification
follow. Pay close attention to the difference between a "work based on the
library" and a "work that uses the library". The former contains code derived
from the library, while the latter only works together with the library.
Note that it is possible for a library to be covered by the ordinary General

Public License rather than by this special one.
GNU LIBRARY GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION
AND MODIFICATION
  1. This License Agreement applies to any software library which contains a
    notice placed by the copyright holder or other authorized party saying it may
    be distributed under the terms of this Library General Public License (also
    called "this License"). Each licensee is addressed as "you".
    A "library" means a collection of software functions and/or data prepared so
    as to be conveniently linked with application programs (which use some of
    those functions and data) to form executables.
    The "Library", below, refers to any such software library or work which has
    been distributed under these terms. A "work based on the Library" means
    either the Library or any derivative work under copyright law: that is to
    say, a work containing the Library or a portion of it, either verbatim or
    with modifications and/or translated straightforwardly into another language.
    (Hereinafter, translation is included without limitation in the term
    "modification".)
    "Source code" for a work means the preferred form of the work for making
    modifications to it. For a library, complete source code means all the source
    code for all modules it contains, plus any associated interface definition
    files, plus the scripts used to control compilation and installation of the
    library.
    Activities other than copying, distribution and modification are not covered
    by this License; they are outside its scope. The act of running a program
    using the Library is not restricted, and output from such a program is
    covered only if its contents constitute a work based on the Library
    (independent of the use of the Library in a tool for writing it). Whether
    that is true depends on what the Library does and what the program that uses
    the Library does.
  2. You may copy and distribute verbatim copies of the Library's complete source
    code as you receive it, in any medium, provided that you conspicuously and
    appropriately publish on each copy an appropriate copyright notice and

    disclaimer of warranty; keep intact all the notices that refer to this
    License and to the absence of any warranty; and distribute a copy of
this
    License along with the Library. You may charge a fee for the physical
act of
    transferring a copy, and you may at your option offer warranty
protection in
    exchange for a fee.
  3. You may modify your copy or copies of the Library or any portion of
it, thus
    forming a work based on the Library, and copy and distribute such
    modifications or work under the terms of Section 1 above, provided
that you
    also meet all of these conditions:
      a. The modified work must itself be a software library.
      b. You must cause the files modified to carry prominent notices
stating
         that you changed the files and the date of any change.
      c. You must cause the whole of the work to be licensed at no charge
to all
         third parties under the terms of this License.
      d. If a facility in the modified Library refers to a function or a
table of
         data to be supplied by an application program that uses the
facility,
         other than as an argument passed when the facility is invoked,
then you
         must make a good faith effort to ensure that, in the event an
application
         does not supply such function or table, the facility still
operates, and
         performs whatever part of its purpose remains meaningful. (For
example, a
         function in a library to compute square roots has a purpose that
is
         entirely well-defined independent of the application. Therefore,
         Subsection 2d requires that any application-supplied function or
table
         used by this function must be optional: if the application does
not
         supply it, the square root function must still compute square
roots.)
    These requirements apply to the modified work as a whole. If
identifiable
    sections of that work are not derived from the Library, and can be
reasonably
    considered independent and separate works in themselves, then this
License,
    and its terms, do not apply to those sections when you distribute them
as
    separate works. But when you distribute the same sections as part of a
whole

```
    which is a work based on the Library, the distribution of the whole
must be
    on the terms of this License, whose permissions for other licensees
extend to
    the entire whole, and thus to each and every part regardless of who
wrote it.
    Thus, it is not the intent of this section to claim rights or contest
your
    rights to work written entirely by you; rather, the intent is to
exercise the
    right to control the distribution of derivative or collective works
based on
    the Library.
    In addition, mere aggregation of another work not based on the Library
with
    the Library (or with a work based on the Library) on a volume of a
storage or
    distribution medium does not bring the other work under the scope of
this
    License.
  4. You may opt to apply the terms of the ordinary GNU General Public
License
    instead of this License to a given copy of the Library. To do this,
you must
    alter all the notices that refer to this License, so that they refer
to the
    ordinary GNU General Public License, version 2, instead of to this
License.
    (If a newer version than version 2 of the ordinary GNU General Public
License
    has appeared, then you can specify that version instead if you wish.)
Do not
    make any other change in these notices.
    Once this change is made in a given copy, it is irreversible for that
copy,
    so the ordinary GNU General Public License applies to all subsequent
copies
    and derivative works made from that copy.
    This option is useful when you wish to copy part of the code of the
Library
    into a program that is not a library.
  5. You may copy and distribute the Library (or a portion or derivative
of it,
    under Section 2) in object code or executable form under the terms of
    Sections 1 and 2 above provided that you accompany it with the
complete
    corresponding machine-readable source code, which must be distributed
under
    the terms of Sections 1 and 2 above on a medium customarily used for
software
    interchange.
    If distribution of object code is made by offering access to copy from
a
```

designated place, then offering equivalent access to copy the source code
from the same place satisfies the requirement to distribute the source code,
even though third parties are not compelled to copy the source along with the
object code.
  6. A program that contains no derivative of any portion of the Library, but is
designed to work with the Library by being compiled or linked with it, is
called a "work that uses the Library". Such a work, in isolation, is not a
derivative work of the Library, and therefore falls outside the scope of this
License. However, linking a "work that uses the Library" with the Library
creates an executable that is a derivative of the Library (because it
contains portions of the Library), rather than a "work that uses the
library". The executable is therefore covered by this License. Section 6
states terms for distribution of such executables.
When a "work that uses the Library" uses material from a header file that is
part of the Library, the object code for the work may be a derivative work of
the Library even though the source code is not. Whether this is true is
especially significant if the work can be linked without the Library, or if
the work is itself a library. The threshold for this to be true is not
precisely defined by law.
If such an object file uses only numerical parameters, data structure layouts
and accessors, and small macros and small inline functions (ten lines or less
in length), then the use of the object file is unrestricted, regardless of
whether it is legally a derivative work. (Executables containing this object
code plus portions of the Library will still fall under Section 6.)
Otherwise, if the work is a derivative of the Library, you may distribute the
object code for the work under the terms of Section 6. Any executables
containing that work also fall under Section 6, whether or not they are
linked directly with the Library itself.
  7. As an exception to the Sections above, you may also compile or link a "work
that uses the Library" with the Library to produce a work containing portions
of the Library, and distribute that work under terms of your choice, provided

that the terms permit modification of the work for the customer's own
use and
reverse engineering for debugging such modifications.
You must give prominent notice with each copy of the work that the
Library is
used in it and that the Library and its use are covered by this
License. You
must supply a copy of this License. If the work during execution
displays
copyright notices, you must include the copyright notice for the
Library
among them, as well as a reference directing the user to the copy of
this
License. Also, you must do one of these things:
    a. Accompany the work with the complete corresponding machine-
readable
       source code for the Library including whatever changes were used
in the
       work (which must be distributed under Sections 1 and 2 above);
and, if
       the work is an executable linked with the Library, with the
complete
       machine-readable "work that uses the Library", as object code
and/or
       source code, so that the user can modify the Library and then
relink to
       produce a modified executable containing the modified Library. (It
is
       understood that the user who changes the contents of definitions
files in
       the Library will not necessarily be able to recompile the
application to
       use the modified definitions.)
    b. Accompany the work with a written offer, valid for at least three
years,
       to give the same user the materials specified in Subsection 6a,
above,
       for a charge no more than the cost of performing this
distribution.
    c. If distribution of the work is made by offering access to copy
from a
       designated place, offer equivalent access to copy the above
specified
       materials from the same place.
    d. Verify that the user has already received a copy of these
materials or
       that you have already sent this user a copy.
    For an executable, the required form of the "work that uses the
Library" must
    include any data and utility programs needed for reproducing the
executable
    from it. However, as a special exception, the source code distributed
need

not include anything that is normally distributed (in either source or binary
    form) with the major components (compiler, kernel, and so on) of the
    operating system on which the executable runs, unless that component itself
    accompanies the executable.
    It may happen that this requirement contradicts the license restrictions of
    other proprietary libraries that do not normally accompany the operating
    system. Such a contradiction means you cannot use both them and the Library
    together in an executable that you distribute.
  8. You may place library facilities that are a work based on the Library
    side-by-side in a single library together with other library facilities not
    covered by this License, and distribute such a combined library, provided
    that the separate distribution of the work based on the Library and of the
    other library facilities is otherwise permitted, and provided that you do
    these two things:
      a. Accompany the combined library with a copy of the same work based on the
        Library, uncombined with any other library facilities. This must be
        distributed under the terms of the Sections above.
      b. Give prominent notice with the combined library of the fact that part of
        it is a work based on the Library, and explaining where to find the
        accompanying uncombined form of the same work.
  9. You may not copy, modify, sublicense, link with, or distribute the Library
    except as expressly provided under this License. Any attempt otherwise to
    copy, modify, sublicense, link with, or distribute the Library is void, and
    will automatically terminate your rights under this License. However, parties
    who have received copies, or rights, from you under this License will not
    have their licenses terminated so long as such parties remain in full
    compliance.
  10. You are not required to accept this License, since you have not signed it.
    However, nothing else grants you permission to modify or distribute the
    Library or its derivative works. These actions are prohibited by law if you
    do not accept this License. Therefore, by modifying or distributing the

Library (or any work based on the Library), you indicate your acceptance of
   this License to do so, and all its terms and conditions for copying,
   distributing or modifying the Library or works based on it.
  11. Each time you redistribute the Library (or any work based on the Library),
   the recipient automatically receives a license from the original licensor to
   copy, distribute, link with or modify the Library subject to these terms and
   conditions. You may not impose any further restrictions on the recipients'
   exercise of the rights granted herein. You are not responsible for enforcing
   compliance by third parties to this License.
  12. If, as a consequence of a court judgment or allegation of patent
   infringement or for any other reason (not limited to patent issues),
   conditions are imposed on you (whether by court order, agreement or
   otherwise) that contradict the conditions of this License, they do not excuse
   you from the conditions of this License. If you cannot distribute so as to
   satisfy simultaneously your obligations under this License and any other
   pertinent obligations, then as a consequence you may not distribute the
   Library at all. For example, if a patent license would not permit
   royalty-free redistribution of the Library by all those who receive copies
   directly or indirectly through you, then the only way you could satisfy both
   it and this License would be to refrain entirely from distribution of the
   Library.
   If any portion of this section is held invalid or unenforceable under any
   particular circumstance, the balance of the section is intended to apply, and
   the section as a whole is intended to apply in other circumstances.
   It is not the purpose of this section to induce you to infringe any patents
   or other property right claims or to contest validity of any such claims;
   this section has the sole purpose of protecting the integrity of the free
   software distribution system which is implemented by public license
   practices. Many people have made generous contributions to the wide range of
   software distributed through that system in reliance on consistent
   application of that system; it is up to the author/donor to decide if he or
   she is willing to distribute software through any other system and a licensee

cannot impose that choice.
   This section is intended to make thoroughly clear what is believed to be a
   consequence of the rest of this License.
  13. If the distribution and/or use of the Library is restricted in certain
   countries either by patents or by copyrighted interfaces, the original
   copyright holder who places the Library under this License may add an
   explicit geographical distribution limitation excluding those countries, so
   that distribution is permitted only in or among countries not thus excluded.
   In such case, this License incorporates the limitation as if written in the
   body of this License.
  14. The Free Software Foundation may publish revised and/or new versions of the
   Library General Public License from time to time. Such new versions will be
   similar in spirit to the present version, but may differ in detail to address
   new problems or concerns. Each version is given a distinguishing version
   number. If the Library specifies a version number of this License which
   applies to it and "any later version", you have the option of following the
   terms and conditions either of that version or of any later version published
   by the Free Software Foundation. If the Library does not specify a license
   version number, you may choose any version ever published by the Free
   Software Foundation.
  15. If you wish to incorporate parts of the Library into other free programs
   whose distribution conditions are incompatible with these, write to the
   author to ask for permission. For software which is copyrighted by the Free
   Software Foundation, write to the Free Software Foundation; we sometimes make
   exceptions for this. Our decision will be guided by the two goals of
   preserving the free status of all derivatives of our free software and of
   promoting the sharing and reuse of software generally.
   NO WARRANTY
  16. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR
   THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE
   STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE

LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED,
    INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND
    FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND
    PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE,
    YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
  17. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL
    ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE
    THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY
    GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE
    OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR
    DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR
    A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH
    HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Libraries
If you develop a new library, and you want it to be of the greatest possible use
to the public, we recommend making it free software that everyone can
redistribute and change. You can do so by permitting redistribution under these
terms (or, alternatively, under the terms of the ordinary General Public License).
To apply these terms, attach the following notices to the library. It is safest
to attach them to the start of each source file to most effectively convey the
exclusion of warranty; and each file should have at least the "copyright" line
and a pointer to where the full notice is found.
<one line to give the library's name and a brief idea of what it does.>

WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A

      the version number 2.1.]
Preamble
--------
The licenses for most software are designed to take away your freedom to
share
and change it. By contrast, the GNU General Public Licenses are intended
to
guarantee your freedom to share and change free software--to make sure the
software is free for all its users.
This license, the Lesser General Public License, applies to some specially
designated software packages--typically libraries--of the Free Software
Foundation and other authors who decide to use it. You can use it too, but
we
suggest you first think carefully about whether this license or the
ordinary
General Public License is the better strategy to use in any particular
case,
based on the explanations below.
When we speak of free software, we are referring to freedom of use, not
price.
Our General Public Licenses are designed to make sure that you have the
freedom
to distribute copies of free software (and charge for this service if you
wish);
that you receive source code or can get it if you want it; that you can
change
the software and use pieces of it in new free programs; and that you are
informed
that you can do these things.
To protect your rights, we need to make restrictions that forbid
distributors to
deny you these rights or to ask you to surrender these rights. These
restrictions
translate to certain responsibilities for you if you distribute copies of
the
library or if you modify it.
For example, if you distribute copies of the library, whether gratis or
for a
fee, you must give the recipients all the rights that we gave you. You
must make
sure that they, too, receive or can get the source code. If you link other
code
```

with the library, you must provide complete object files to the
recipients, so
that they can relink them with the library after making changes to the
library
and recompiling it. And you must show them these terms so they know their
rights.
We protect your rights with a two-step method: (1) we copyright the
library, and
(2) we offer you this license, which gives you legal permission to copy,
distribute and/or modify the library.
To protect each distributor, we want to make it very clear that there is
no
warranty for the free library. Also, if the library is modified by someone
else
and passed on, the recipients should know that what they have is not the
original
version, so that the original author's reputation will not be affected by
problems that might be introduced by others.
Finally, software patents pose a constant threat to the existence of any
free
program. We wish to make sure that a company cannot effectively restrict
the
users of a free program by obtaining a restrictive license from a patent
holder.
Therefore, we insist that any patent license obtained for a version of the
library must be consistent with the full freedom of use specified in this
license.
Most GNU software, including some libraries, is covered by the ordinary
GNU
General Public License. This license, the GNU Lesser General Public
License,
applies to certain designated libraries, and is quite different from the
ordinary
General Public License. We use this license for certain libraries in order
to
permit linking those libraries into non-free programs.
When a program is linked with a library, whether statically or using a
shared
library, the combination of the two is legally speaking a combined work, a
derivative of the original library. The ordinary General Public License
therefore
permits such linking only if the entire combination fits its criteria of
freedom.
The Lesser General Public License permits more lax criteria for linking
other
code with the library.
We call this license the "Lesser" General Public License because it does
Less to
protect the user's freedom than the ordinary General Public License. It
also
provides other free software developers Less of an advantage over
competing

non-free programs. These disadvantages are the reason we use the ordinary General
Public License for many libraries. However, the Lesser license provides
advantages in certain special circumstances.
For example, on rare occasions, there may be a special need to encourage the
widest possible use of a certain library, so that it becomes a de-facto standard.
To achieve this, non-free programs must be allowed to use the library. A more
frequent case is that a free library does the same job as widely used non-free
libraries. In this case, there is little to gain by limiting the free library to
free software only, so we use the Lesser General Public License.
In other cases, permission to use a particular library in non-free programs
enables a greater number of people to use a large body of free software. For
example, permission to use the GNU C Library in non-free programs enables many
more people to use the whole GNU operating system, as well as its variant, the
GNU/Linux operating system.
Although the Lesser General Public License is Less protective of the users'
freedom, it does ensure that the user of a program that is linked with the
Library has the freedom and the wherewithal to run that program using a modified
version of the Library.
The precise terms and conditions for copying, distribution and modification
follow. Pay close attention to the difference between a "work based on the
library" and a "work that uses the library". The former contains code derived
from the library, whereas the latter must be combined with the library in order
to run.
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
---------------------------------------------------------------
0. This License Agreement applies to any software library or other program which
contains a notice placed by the copyright holder or other authorized party saying
it may be distributed under the terms of this Lesser General Public License (also
called "this License"). Each licensee is addressed as "you".
A "library" means a collection of software functions and/or data prepared so as
to be conveniently linked with application programs (which use some of those
functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been
distributed under these terms. A "work based on the Library" means either the
Library or any derivative work under copyright law: that is to say, a work
containing the Library or a portion of it, either verbatim or with modifications
and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)
"Source code" for a work means the preferred form of the work for making
modifications to it. For a library, complete source code means all the source
code for all modules it contains, plus any associated interface definition files,
plus the scripts used to control compilation and installation of the library.
Activities other than copying, distribution and modification are not covered by
this License; they are outside its scope. The act of running a program using the
Library is not restricted, and output from such a program is covered only if its
contents constitute a work based on the Library (independent of the use of the
Library in a tool for writing it). Whether that is true depends on what the
Library does and what the program that uses the Library does.
1. You may copy and distribute verbatim copies of the Library's complete source
code as you receive it, in any medium, provided that you conspicuously and
appropriately publish on each copy an appropriate copyright notice and disclaimer
of warranty; keep intact all the notices that refer to this License and to the
absence of any warranty; and distribute a copy of this License along with the
Library.
You may charge a fee for the physical act of transferring a copy, and you may at
your option offer warranty protection in exchange for a fee.
2. You may modify your copy or copies of the Library or any portion of it, thus
forming a work based on the Library, and copy and distribute such modifications
or work under the terms of Section 1 above, provided that you also meet all of
these conditions:
      a) The modified work must itself be a software library.
      b) You must cause the files modified to carry prominent notices stating
      that you changed the files and the date of any change.
      c) You must cause the whole of the work to be licensed at no charge to all

third parties under the terms of this License.
    d) If a facility in the modified Library refers to a function or a table of
    data to be supplied by an application program that uses the facility, other
    than as an argument passed when the facility is invoked, then you must make
    a good faith effort to ensure that, in the event an application does not
    supply such function or table, the facility still operates, and performs
    whatever part of its purpose remains meaningful.
    (For example, a function in a library to compute square roots has a purpose
    that is entirely well-defined independent of the application. Therefore,
    Subsection 2d requires that any application-supplied function or table used
    by this function must be optional: if the application does not supply it,
    the square root function must still compute square roots.)
    These requirements apply to the modified work as a whole. If identifiable
    sections of that work are not derived from the Library, and can be
    reasonably considered independent and separate works in themselves, then
    this License, and its terms, do not apply to those sections when you
    distribute them as separate works. But when you distribute the same
    sections as part of a whole which is a work based on the Library, the
    distribution of the whole must be on the terms of this License, whose
    permissions for other licensees extend to the entire whole, and thus to
    each and every part regardless of who wrote it.
    Thus, it is not the intent of this section to claim rights or contest your
    rights to work written entirely by you; rather, the intent is to exercise
    the right to control the distribution of derivative or collective works
    based on the Library.
    In addition, mere aggregation of another work not based on the Library with
    the Library (or with a work based on the Library) on a volume of a storage
    or distribution medium does not bring the other work under the scope of
    this License.
3. You may opt to apply the terms of the ordinary GNU General Public License
instead of this License to a given copy of the Library. To do this, you must

alter all the notices that refer to this License, so that they refer to
the
ordinary GNU General Public License, version 2, instead of to this
License. (If a
newer version than version 2 of the ordinary GNU General Public License
has
appeared, then you can specify that version instead if you wish.) Do not
make any
other change in these notices.
Once this change is made in a given copy, it is irreversible for that
copy, so
the ordinary GNU General Public License applies to all subsequent copies
and
derivative works made from that copy.
This option is useful when you wish to copy part of the code of the
Library into
a program that is not a library.
4. You may copy and distribute the Library (or a portion or derivative of
it,
under Section 2) in object code or executable form under the terms of
Sections 1
and 2 above provided that you accompany it with the complete corresponding
machine-readable source code, which must be distributed under the terms of
Sections 1 and 2 above on a medium customarily used for software
interchange.
If distribution of object code is made by offering access to copy from a
designated place, then offering equivalent access to copy the source code
from
the same place satisfies the requirement to distribute the source code,
even
though third parties are not compelled to copy the source along with the
object
code.
5. A program that contains no derivative of any portion of the Library,
but is
designed to work with the Library by being compiled or linked with it, is
called
a "work that uses the Library". Such a work, in isolation, is not a
derivative
work of the Library, and therefore falls outside the scope of this
License.
However, linking a "work that uses the Library" with the Library creates
an
executable that is a derivative of the Library (because it contains
portions of
the Library), rather than a "work that uses the library". The executable
is
therefore covered by this License. Section 6 states terms for distribution
of
such executables.
When a "work that uses the Library" uses material from a header file that
is part

**December 2022**

of the Library, the object code for the work may be a derivative work of
the
Library even though the source code is not. Whether this is true is
especially
significant if the work can be linked without the Library, or if the work
is
itself a library. The threshold for this to be true is not precisely
defined by
law.
If such an object file uses only numerical parameters, data structure
layouts and
accessors, and small macros and small inline functions (ten lines or less
in
length), then the use of the object file is unrestricted, regardless of
whether
it is legally a derivative work. (Executables containing this object code
plus
portions of the Library will still fall under Section 6.)
Otherwise, if the work is a derivative of the Library, you may distribute
the
object code for the work under the terms of Section 6. Any executables
containing
that work also fall under Section 6, whether or not they are linked
directly with
the Library itself.
6. As an exception to the Sections above, you may also combine or link a
"work
that uses the Library" with the Library to produce a work containing
portions of
the Library, and distribute that work under terms of your choice, provided
that
the terms permit modification of the work for the customer's own use and
reverse
engineering for debugging such modifications.
You must give prominent notice with each copy of the work that the Library
is
used in it and that the Library and its use are covered by this License.
You must
supply a copy of this License. If the work during execution displays
copyright
notices, you must include the copyright notice for the Library among them,
as
well as a reference directing the user to the copy of this License. Also,
you
must do one of these things:
      a) Accompany the work with the complete corresponding machine-
readable
      source code for the Library including whatever changes were used in
the
      work (which must be distributed under Sections 1 and 2 above); and,
if the
      work is an executable linked with the Library, with the complete

machine-readable "work that uses the Library", as object code and/or source
    code, so that the user can modify the Library and then relink to produce a
    modified executable containing the modified Library. (It is understood that
    the user who changes the contents of definitions files in the Library will
    not necessarily be able to recompile the application to use the modified
    definitions.)
    b) Use a suitable shared library mechanism for linking with the Library. A
    suitable mechanism is one that (1) uses at run time a copy of the library
    already present on the user's computer system, rather than copying library
    functions into the executable, and (2) will operate properly with a
    modified version of the library, if the user installs one, as long as the
    modified version is interface-compatible with the version that the work was
    made with.
    c) Accompany the work with a written offer, valid for at least three years,
    to give the same user the materials specified in Subsection 6a, above, for
    a charge no more than the cost of performing this distribution.
    d) If distribution of the work is made by offering access to copy from a
    designated place, offer equivalent access to copy the above specified
    materials from the same place.
    e) Verify that the user has already received a copy of these materials or
    that you have already sent this user a copy.
For an executable, the required form of the "work that uses the Library" must
include any data and utility programs needed for reproducing the executable from
it. However, as a special exception, the materials to be distributed need not
include anything that is normally distributed (in either source or binary form)
with the major components (compiler, kernel, and so on) of the operating system
on which the executable runs, unless that component itself accompanies the executable.
It may happen that this requirement contradicts the license restrictions of other
proprietary libraries that do not normally accompany the operating system. Such a

contradiction means you cannot use both them and the Library together in an
executable that you distribute.
7. You may place library facilities that are a work based on the Library
side-by-side in a single library together with other library facilities not
covered by this License, and distribute such a combined library, provided that
the separate distribution of the work based on the Library and of the other
library facilities is otherwise permitted, and provided that you do these two
things:

      a) Accompany the combined library with a copy of the same work based on the
      Library, uncombined with any other library facilities. This must be
      distributed under the terms of the Sections above.
      b) Give prominent notice with the combined library of the fact that part of
      it is a work based on the Library, and explaining where to find the
      accompanying uncombined form of the same work.
8. You may not copy, modify, sublicense, link with, or distribute the Library
except as expressly provided under this License. Any attempt otherwise to copy,
modify, sublicense, link with, or distribute the Library is void, and will
automatically terminate your rights under this License. However, parties who have
received copies, or rights, from you under this License will not have their
licenses terminated so long as such parties remain in full compliance.
9. You are not required to accept this License, since you have not signed it.
However, nothing else grants you permission to modify or distribute the Library
or its derivative works. These actions are prohibited by law if you do not accept
this License. Therefore, by modifying or distributing the Library (or any work
based on the Library), you indicate your acceptance of this License to do so, and
all its terms and conditions for copying, distributing or modifying the Library
or works based on it.
10. Each time you redistribute the Library (or any work based on the Library),
the recipient automatically receives a license from the original licensor to
copy, distribute, link with or modify the Library subject to these terms and
conditions. You may not impose any further restrictions on the recipients'
exercise of the rights granted herein. You are not responsible for enforcing

**Page 554**                    **December 2022**

compliance by third parties with this License.
11. If, as a consequence of a court judgment or allegation of patent infringement
or for any other reason (not limited to patent issues), conditions are imposed on
you (whether by court order, agreement or otherwise) that contradict the
conditions of this License, they do not excuse you from the conditions of this
License. If you cannot distribute so as to satisfy simultaneously your
obligations under this License and any other pertinent obligations, then as a
consequence you may not distribute the Library at all. For example, if a patent
license would not permit royalty-free redistribution of the Library by all those
who receive copies directly or indirectly through you, then the only way you
could satisfy both it and this License would be to refrain entirely from
distribution of the Library.
If any portion of this section is held invalid or unenforceable under any
particular circumstance, the balance of the section is intended to apply, and the
section as a whole is intended to apply in other circumstances.
It is not the purpose of this section to induce you to infringe any patents or
other property right claims or to contest validity of any such claims; this
section has the sole purpose of protecting the integrity of the free software
distribution system which is implemented by public license practices. Many people
have made generous contributions to the wide range of software distributed
through that system in reliance on consistent application of that system; it is
up to the author/donor to decide if he or she is willing to distribute software
through any other system and a licensee cannot impose that choice.
This section is intended to make thoroughly clear what is believed to be a
consequence of the rest of this License.
12. If the distribution and/or use of the Library is restricted in certain
countries either by patents or by copyrighted interfaces, the original copyright
holder who places the Library under this License may add an explicit geographical
distribution limitation excluding those countries, so that distribution is
permitted only in or among countries not thus excluded. In such case, this
License incorporates the limitation as if written in the body of this License.
13. The Free Software Foundation may publish revised and/or new versions of the
Lesser General Public License from time to time. Such new versions will be
similar in spirit to the present version, but may differ in detail to address new

problems or concerns.
Each version is given a distinguishing version number. If the Library
specifies a
version number of this License which applies to it and "any later
version", you
have the option of following the terms and conditions either of that
version or
of any later version published by the Free Software Foundation. If the
Library
does not specify a license version number, you may choose any version ever
published by the Free Software Foundation.
14. If you wish to incorporate parts of the Library into other free
programs
whose distribution conditions are incompatible with these, write to the
author to
ask for permission. For software which is copyrighted by the Free Software
Foundation, write to the Free Software Foundation; we sometimes make
exceptions
for this. Our decision will be guided by the two goals of preserving the
free
status of all derivatives of our free software and of promoting the
sharing and
reuse of software generally.
NO WARRANTY
15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY
FOR THE
LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE
STATED
IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY
"AS IS"
WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT
NOT
LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A
PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF
THE
LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE
COST OF
ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING
WILL
ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR
REDISTRIBUTE THE
LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY
GENERAL,
SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR
INABILITY
TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA
BEING
RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A
FAILURE OF
THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR
OTHER
PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Libraries
----------------------------------------------
If you develop a new library, and you want it to be of the greatest
possible use
to the public, we recommend making it free software that everyone can
redistribute and change. You can do so by permitting redistribution under
these
terms (or, alternatively, under the terms of the ordinary General Public
License).
To apply these terms, attach the following notices to the library. It is
safest
to attach them to the start of each source file to most effectively convey
the
exclusion of warranty; and each file should have at least the "copyright"
line
and a pointer to where the full notice is found.
        one line to give the library's name and an idea of what it does.
        Copyright (C) year name of author
        This library is free software; you can redistribute it and/or
        modify it under the terms of the GNU Lesser General Public
        License as published by the Free Software Foundation; either
        version 2.1 of the License, or (at your option) any later version.
        This library is distributed in the hope that it will be useful,
        but WITHOUT ANY WARRANTY; without even the implied warranty of
        MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU
        Lesser General Public License for more details.
        You should have received a copy of the GNU Lesser General Public
        License along with this library; if not, write to the Free Software
        Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307
USA
Also add information on how to contact you by electronic and paper mail.
You should also get your employer (if you work as a programmer) or your
school,
if any, to sign a "copyright disclaimer" for the library, if necessary.
Here is a
sample; alter the names:
        Yoyodyne, Inc., hereby disclaims all copyright interest in
        the library `Frob' (a library for tweaking knobs) written
        by James Random Hacker.

      the version number 2.1.]

```
Preamble
--------
The licenses for most software are designed to take away your freedom to
share
and change it. By contrast, the GNU General Public Licenses are intended
to
guarantee your freedom to share and change free software--to make sure the
software is free for all its users.
This license, the Lesser General Public License, applies to some specially
designated software packages--typically libraries--of the Free Software
Foundation and other authors who decide to use it. You can use it too, but
we
suggest you first think carefully about whether this license or the
ordinary
General Public License is the better strategy to use in any particular
case,
based on the explanations below.
When we speak of free software, we are referring to freedom of use, not
price.
Our General Public Licenses are designed to make sure that you have the
freedom
to distribute copies of free software (and charge for this service if you
wish);
that you receive source code or can get it if you want it; that you can
change
the software and use pieces of it in new free programs; and that you are
informed
that you can do these things.
To protect your rights, we need to make restrictions that forbid
distributors to
deny you these rights or to ask you to surrender these rights. These
restrictions
translate to certain responsibilities for you if you distribute copies of
the
library or if you modify it.
For example, if you distribute copies of the library, whether gratis or
for a
fee, you must give the recipients all the rights that we gave you. You
must make
sure that they, too, receive or can get the source code. If you link other
code
with the library, you must provide complete object files to the
recipients, so
that they can relink them with the library after making changes to the
library
and recompiling it. And you must show them these terms so they know their
rights.
We protect your rights with a two-step method: (1) we copyright the
library, and
(2) we offer you this license, which gives you legal permission to copy,
distribute and/or modify the library.
To protect each distributor, we want to make it very clear that there is
no
```

warranty for the free library. Also, if the library is modified by someone
else
and passed on, the recipients should know that what they have is not the
original
version, so that the original author's reputation will not be affected by
problems that might be introduced by others.
Finally, software patents pose a constant threat to the existence of any
free
program. We wish to make sure that a company cannot effectively restrict
the
users of a free program by obtaining a restrictive license from a patent
holder.
Therefore, we insist that any patent license obtained for a version of the
library must be consistent with the full freedom of use specified in this
license.
Most GNU software, including some libraries, is covered by the ordinary
GNU
General Public License. This license, the GNU Lesser General Public
License,
applies to certain designated libraries, and is quite different from the
ordinary
General Public License. We use this license for certain libraries in order
to
permit linking those libraries into non-free programs.
When a program is linked with a library, whether statically or using a
shared
library, the combination of the two is legally speaking a combined work, a
derivative of the original library. The ordinary General Public License
therefore
permits such linking only if the entire combination fits its criteria of
freedom.
The Lesser General Public License permits more lax criteria for linking
other
code with the library.
We call this license the "Lesser" General Public License because it does
Less to
protect the user's freedom than the ordinary General Public License. It
also
provides other free software developers Less of an advantage over
competing
non-free programs. These disadvantages are the reason we use the ordinary
General
Public License for many libraries. However, the Lesser license provides
advantages in certain special circumstances.
For example, on rare occasions, there may be a special need to encourage
the
widest possible use of a certain library, so that it becomes a de-facto
standard.
To achieve this, non-free programs must be allowed to use the library. A
more
frequent case is that a free library does the same job as widely used non-
free

libraries. In this case, there is little to gain by limiting the free
library to
free software only, so we use the Lesser General Public License.
In other cases, permission to use a particular library in non-free
programs
enables a greater number of people to use a large body of free software.
For
example, permission to use the GNU C Library in non-free programs enables
many
more people to use the whole GNU operating system, as well as its variant,
the
GNU/Linux operating system.
Although the Lesser General Public License is Less protective of the
users'
freedom, it does ensure that the user of a program that is linked with the
Library has the freedom and the wherewithal to run that program using a
modified
version of the Library.
The precise terms and conditions for copying, distribution and
modification
follow. Pay close attention to the difference between a "work based on the
library" and a "work that uses the library". The former contains code
derived
from the library, whereas the latter must be combined with the library in
order
to run.
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
---------------------------------------------------------------
0. This License Agreement applies to any software library or other program
which
contains a notice placed by the copyright holder or other authorized party
saying
it may be distributed under the terms of this Lesser General Public
License (also
called "this License"). Each licensee is addressed as "you".
A "library" means a collection of software functions and/or data prepared
so as
to be conveniently linked with application programs (which use some of
those
functions and data) to form executables.
The "Library", below, refers to any such software library or work which
has been
distributed under these terms. A "work based on the Library" means either
the
Library or any derivative work under copyright law: that is to say, a work
containing the Library or a portion of it, either verbatim or with
modifications
and/or translated straightforwardly into another language. (Hereinafter,
translation is included without limitation in the term "modification".)
"Source code" for a work means the preferred form of the work for making
modifications to it. For a library, complete source code means all the
source

code for all modules it contains, plus any associated interface definition files,
plus the scripts used to control compilation and installation of the library.
Activities other than copying, distribution and modification are not covered by
this License; they are outside its scope. The act of running a program using the
Library is not restricted, and output from such a program is covered only if its
contents constitute a work based on the Library (independent of the use of the
Library in a tool for writing it). Whether that is true depends on what the
Library does and what the program that uses the Library does.
1. You may copy and distribute verbatim copies of the Library's complete source
code as you receive it, in any medium, provided that you conspicuously and
appropriately publish on each copy an appropriate copyright notice and disclaimer
of warranty; keep intact all the notices that refer to this License and to the
absence of any warranty; and distribute a copy of this License along with the
Library.
You may charge a fee for the physical act of transferring a copy, and you may at
your option offer warranty protection in exchange for a fee.
2. You may modify your copy or copies of the Library or any portion of it, thus
forming a work based on the Library, and copy and distribute such modifications
or work under the terms of Section 1 above, provided that you also meet all of
these conditions:
      a) The modified work must itself be a software library.
      b) You must cause the files modified to carry prominent notices stating
      that you changed the files and the date of any change.
      c) You must cause the whole of the work to be licensed at no charge to all
      third parties under the terms of this License.
      d) If a facility in the modified Library refers to a function or a table of
      data to be supplied by an application program that uses the facility, other
      than as an argument passed when the facility is invoked, then you must make
      a good faith effort to ensure that, in the event an application does not
      supply such function or table, the facility still operates, and performs
      whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a
purpose
that is entirely well-defined independent of the application.
Therefore,
Subsection 2d requires that any application-supplied function or
table used
by this function must be optional: if the application does not
supply it,
the square root function must still compute square roots.)
These requirements apply to the modified work as a whole. If
identifiable
sections of that work are not derived from the Library, and can be
reasonably considered independent and separate works in themselves,
then
this License, and its terms, do not apply to those sections when you
distribute them as separate works. But when you distribute the same
sections as part of a whole which is a work based on the Library,
the
distribution of the whole must be on the terms of this License,
whose
permissions for other licensees extend to the entire whole, and thus
to
each and every part regardless of who wrote it.
Thus, it is not the intent of this section to claim rights or
contest your
rights to work written entirely by you; rather, the intent is to
exercise
the right to control the distribution of derivative or collective
works
based on the Library.
In addition, mere aggregation of another work not based on the
Library with
the Library (or with a work based on the Library) on a volume of a
storage
or distribution medium does not bring the other work under the scope
of
this License.
3. You may opt to apply the terms of the ordinary GNU General Public
License
instead of this License to a given copy of the Library. To do this, you
must
alter all the notices that refer to this License, so that they refer to
the
ordinary GNU General Public License, version 2, instead of to this
License. (If a
newer version than version 2 of the ordinary GNU General Public License
has
appeared, then you can specify that version instead if you wish.) Do not
make any
other change in these notices.
Once this change is made in a given copy, it is irreversible for that
copy, so

the ordinary GNU General Public License applies to all subsequent copies
and
derivative works made from that copy.
This option is useful when you wish to copy part of the code of the
Library into
a program that is not a library.
4. You may copy and distribute the Library (or a portion or derivative of
it,
under Section 2) in object code or executable form under the terms of
Sections 1
and 2 above provided that you accompany it with the complete corresponding
machine-readable source code, which must be distributed under the terms of
Sections 1 and 2 above on a medium customarily used for software
interchange.
If distribution of object code is made by offering access to copy from a
designated place, then offering equivalent access to copy the source code
from
the same place satisfies the requirement to distribute the source code,
even
though third parties are not compelled to copy the source along with the
object
code.
5. A program that contains no derivative of any portion of the Library,
but is
designed to work with the Library by being compiled or linked with it, is
called
a "work that uses the Library". Such a work, in isolation, is not a
derivative
work of the Library, and therefore falls outside the scope of this
License.
However, linking a "work that uses the Library" with the Library creates
an
executable that is a derivative of the Library (because it contains
portions of
the Library), rather than a "work that uses the library". The executable
is
therefore covered by this License. Section 6 states terms for distribution
of
such executables.
When a "work that uses the Library" uses material from a header file that
is part
of the Library, the object code for the work may be a derivative work of
the
Library even though the source code is not. Whether this is true is
especially
significant if the work can be linked without the Library, or if the work
is
itself a library. The threshold for this to be true is not precisely
defined by
law.
If such an object file uses only numerical parameters, data structure
layouts and

**December 2022**

accessors, and small macros and small inline functions (ten lines or less in
length), then the use of the object file is unrestricted, regardless of whether
it is legally a derivative work. (Executables containing this object code plus
portions of the Library will still fall under Section 6.)
Otherwise, if the work is a derivative of the Library, you may distribute the
object code for the work under the terms of Section 6. Any executables containing
that work also fall under Section 6, whether or not they are linked directly with
the Library itself.
6. As an exception to the Sections above, you may also combine or link a "work
that uses the Library" with the Library to produce a work containing portions of
the Library, and distribute that work under terms of your choice, provided that
the terms permit modification of the work for the customer's own use and reverse
engineering for debugging such modifications.
You must give prominent notice with each copy of the work that the Library is
used in it and that the Library and its use are covered by this License.
You must
supply a copy of this License. If the work during execution displays copyright
notices, you must include the copyright notice for the Library among them, as
well as a reference directing the user to the copy of this License. Also, you
must do one of these things:

    a) Accompany the work with the complete corresponding machine-readable
    source code for the Library including whatever changes were used in the
    work (which must be distributed under Sections 1 and 2 above); and, if the
    work is an executable linked with the Library, with the complete
    machine-readable "work that uses the Library", as object code and/or source
    code, so that the user can modify the Library and then relink to produce a
    modified executable containing the modified Library. (It is understood that
    the user who changes the contents of definitions files in the Library will
    not necessarily be able to recompile the application to use the modified
    definitions.)

        b) Use a suitable shared library mechanism for linking with the
Library. A
        suitable mechanism is one that (1) uses at run time a copy of the
library
        already present on the user's computer system, rather than copying
library
        functions into the executable, and (2) will operate properly with a
        modified version of the library, if the user installs one, as long
as the
        modified version is interface-compatible with the version that the
work was
        made with.
        c) Accompany the work with a written offer, valid for at least three
years,
        to give the same user the materials specified in Subsection 6a,
above, for
        a charge no more than the cost of performing this distribution.
        d) If distribution of the work is made by offering access to copy
from a
        designated place, offer equivalent access to copy the above
specified
        materials from the same place.
        e) Verify that the user has already received a copy of these
materials or
        that you have already sent this user a copy.
For an executable, the required form of the "work that uses the Library"
must
include any data and utility programs needed for reproducing the
executable from
it. However, as a special exception, the materials to be distributed need
not
include anything that is normally distributed (in either source or binary
form)
with the major components (compiler, kernel, and so on) of the operating
system
on which the executable runs, unless that component itself accompanies the
executable.
It may happen that this requirement contradicts the license restrictions
of other
proprietary libraries that do not normally accompany the operating system.
Such a
contradiction means you cannot use both them and the Library together in
an
executable that you distribute.
7. You may place library facilities that are a work based on the Library
side-by-side in a single library together with other library facilities
not
covered by this License, and distribute such a combined library, provided
that
the separate distribution of the work based on the Library and of the
other
library facilities is otherwise permitted, and provided that you do these
two

things:
      a) Accompany the combined library with a copy of the same work based
on the
      Library, uncombined with any other library facilities. This must be
      distributed under the terms of the Sections above.
      b) Give prominent notice with the combined library of the fact that
part of
      it is a work based on the Library, and explaining where to find the
      accompanying uncombined form of the same work.
8. You may not copy, modify, sublicense, link with, or distribute the
Library
except as expressly provided under this License. Any attempt otherwise to
copy,
modify, sublicense, link with, or distribute the Library is void, and will
automatically terminate your rights under this License. However, parties
who have
received copies, or rights, from you under this License will not have
their
licenses terminated so long as such parties remain in full compliance.
9. You are not required to accept this License, since you have not signed
it.
However, nothing else grants you permission to modify or distribute the
Library
or its derivative works. These actions are prohibited by law if you do not
accept
this License. Therefore, by modifying or distributing the Library (or any
work
based on the Library), you indicate your acceptance of this License to do
so, and
all its terms and conditions for copying, distributing or modifying the
Library
or works based on it.
10. Each time you redistribute the Library (or any work based on the
Library),
the recipient automatically receives a license from the original licensor
to
copy, distribute, link with or modify the Library subject to these terms
and
conditions. You may not impose any further restrictions on the recipients'
exercise of the rights granted herein. You are not responsible for
enforcing
compliance by third parties with this License.
11. If, as a consequence of a court judgment or allegation of patent
infringement
or for any other reason (not limited to patent issues), conditions are
imposed on
you (whether by court order, agreement or otherwise) that contradict the
conditions of this License, they do not excuse you from the conditions of
this
License. If you cannot distribute so as to satisfy simultaneously your
obligations under this License and any other pertinent obligations, then
as a

consequence you may not distribute the Library at all. For example, if a patent
license would not permit royalty-free redistribution of the Library by all those
who receive copies directly or indirectly through you, then the only way you
could satisfy both it and this License would be to refrain entirely from
distribution of the Library.
If any portion of this section is held invalid or unenforceable under any
particular circumstance, the balance of the section is intended to apply, and the
section as a whole is intended to apply in other circumstances.
It is not the purpose of this section to induce you to infringe any patents or
other property right claims or to contest validity of any such claims; this
section has the sole purpose of protecting the integrity of the free software
distribution system which is implemented by public license practices. Many
people
have made generous contributions to the wide range of software distributed
through that system in reliance on consistent application of that system; it is
up to the author/donor to decide if he or she is willing to distribute software
through any other system and a licensee cannot impose that choice.
This section is intended to make thoroughly clear what is believed to be a
consequence of the rest of this License.
12. If the distribution and/or use of the Library is restricted in certain
countries either by patents or by copyrighted interfaces, the original copyright
holder who places the Library under this License may add an explicit
geographical
distribution limitation excluding those countries, so that distribution is
permitted only in or among countries not thus excluded. In such case, this
License incorporates the limitation as if written in the body of this License.
13. The Free Software Foundation may publish revised and/or new versions of the
Lesser General Public License from time to time. Such new versions will be
similar in spirit to the present version, but may differ in detail to address new
problems or concerns.
Each version is given a distinguishing version number. If the Library specifies a
version number of this License which applies to it and "any later version", you
have the option of following the terms and conditions either of that version or
of any later version published by the Free Software Foundation. If the Library
does not specify a license version number, you may choose any version ever
published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs
whose distribution conditions are incompatible with these, write to the author to
ask for permission. For software which is copyrighted by the Free Software
Foundation, write to the Free Software Foundation; we sometimes make exceptions
for this. Our decision will be guided by the two goals of preserving the free
status of all derivatives of our free software and of promoting the sharing and
reuse of software generally.
NO WARRANTY
15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE
LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED
IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS"
WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT
LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A
PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE
LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF
ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL
ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE
LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL,
SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY
TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING
RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF
THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER
PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Libraries
-----------------------------------------------
If you develop a new library, and you want it to be of the greatest possible use
to the public, we recommend making it free software that everyone can
redistribute and change. You can do so by permitting redistribution under these
terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest
to attach them to the start of each source file to most effectively convey the
exclusion of warranty; and each file should have at least the "copyright" line
and a pointer to where the full notice is found.
        one line to give the library's name and an idea of what it does.
        Copyright (C) year name of author
        This library is free software; you can redistribute it and/or
        modify it under the terms of the GNU Lesser General Public
        License as published by the Free Software Foundation; either
        version 2.1 of the License, or (at your option) any later version.
        This library is distributed in the hope that it will be useful,
        but WITHOUT ANY WARRANTY; without even the implied warranty of
        MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU
        Lesser General Public License for more details.
        You should have received a copy of the GNU Lesser General Public
        License along with this library; if not, write to the Free Software
        Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307
USA
Also add information on how to contact you by electronic and paper mail.
You should also get your employer (if you work as a programmer) or your
school,
if any, to sign a "copyright disclaimer" for the library, if necessary.
Here is a
sample; alter the names:

GNU LESSER GENERAL PUBLIC LICENSE
=================================
Version 3,  29 June 2007
Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>
Everyone is permitted to copy and distribute verbatim copies of this
license
document, but changing it is not allowed.
This version of the GNU Lesser General Public License incorporates the
terms and
conditions of version 3 of the GNU General Public License, supplemented by
the
additional permissions listed below.
0. Additional Definitions.
As used herein, "this License" refers to version 3 of the GNU Lesser
General
Public License, and the "GNU GPL" refers to version 3 of the GNU General
Public
License.
"The Library" refers to a covered work governed by this License, other
than an
Application or a Combined Work as defined below.
An "Application" is any work that makes use of an interface provided by
the
Library, but which is not otherwise based on the Library. Defining a
subclass of
a class defined by the Library is deemed a mode of using an interface
provided by
the Library.
A "Combined Work" is a work produced by combining or linking an
Application with
the Library. The particular version of the Library with which the Combined
Work
was made is also called the "Linked Version".
The "Minimal Corresponding Source" for a Combined Work means the
Corresponding
Source for the Combined Work, excluding any source code for portions of
the
Combined Work that, considered in isolation, are based on the Application,
and
not on the Linked Version.
The "Corresponding Application Code" for a Combined Work means the object
code
and/or source code for the Application, including any data and utility
programs
needed for reproducing the Combined Work from the Application, but
excluding the
System Libraries of the Combined Work.
1. Exception to Section 3 of the GNU GPL.
You may convey a covered work under sections 3 and 4 of this License
without
being bound by section 3 of the GNU GPL.
2. Conveying Modified Versions.
```

If you modify a copy of the Library, and, in your modifications, a
facility
refers to a function or data to be supplied by an Application that uses
the
facility (other than as an argument passed when the facility is invoked),
then
you may convey a copy of the modified version:
  * a) under this License, provided that you make a good faith effort to
ensure
    that, in the event an Application does not supply the function or
data, the
    facility still operates, and performs whatever part of its purpose
remains
    meaningful, or
  * b) under the GNU GPL, with none of the additional permissions of this
License
    applicable to that copy.
3. Object Code Incorporating Material from Library Header Files.
The object code form of an Application may incorporate material from a
header
file that is part of the Library. You may convey such object code under
terms of
your choice, provided that, if the incorporated material is not limited to
numerical parameters, data structure layouts and accessors, or small
macros,
inline functions and templates (ten or fewer lines in length), you do both
of the
following:
  * a) Give prominent notice with each copy of the object code that the
Library
    is used in it and that the Library and its use are covered by this
License.
  * b) Accompany the object code with a copy of the GNU GPL and this
license
    document.
4. Combined Works.
You may convey a Combined Work under terms of your choice that, taken
together,
effectively do not restrict modification of the portions of the Library
contained
in the Combined Work and reverse engineering for debugging such
modifications, if
you also do each of the following:
  * a) Give prominent notice with each copy of the Combined Work that the
Library
    is used in it and that the Library and its use are covered by this
License.
  * b) Accompany the Combined Work with a copy of the GNU GPL and this
license
    document.
  * c) For a Combined Work that displays copyright notices during
execution,

include the copyright notice for the Library among these notices, as
well as
    a reference directing the user to the copies of the GNU GPL and this
license
    document.
  * d) Do one of the following:
     * 0) Convey the Minimal Corresponding Source under the terms of this
       License, and the Corresponding Application Code in a form suitable
for,
       and under terms that permit, the user to recombine or relink the
       Application with a modified version of the Linked Version to
produce a
       modified Combined Work, in the manner specified by section 6 of
the GNU
       GPL for conveying Corresponding Source.
     * 1) Use a suitable shared library mechanism for linking with the
Library.
       A suitable mechanism is one that (a) uses at run time a copy of
the
       Library already present on the user's computer system, and (b)
will
       operate properly with a modified version of the Library that is
       interface-compatible with the Linked Version.
  * e) Provide Installation Information, but only if you would otherwise
be
    required to provide such information under section 6 of the GNU GPL,
and only
    to the extent that such information is necessary to install and
execute a
    modified version of the Combined Work produced by recombining or
relinking
    the Application with a modified version of the Linked Version. (If you
use
    option 4d0, the Installation Information must accompany the Minimal
    Corresponding Source and Corresponding Application Code. If you use
option
    4d1, you must provide the Installation Information in the manner
specified by
    section 6 of the GNU GPL for conveying Corresponding Source.)
5. Combined Libraries.
You may place library facilities that are a work based on the Library side
by
side in a single library together with other library facilities that are
not
Applications and are not covered by this License, and convey such a
combined
library under terms of your choice, if you do both of the following:
  * a) Accompany the combined library with a copy of the same work based
on the
    Library, uncombined with any other library facilities, conveyed under
the
    terms of this License.

---

  * b) Give prominent notice with the combined library that part of it is a work
    based on the Library, and explaining where to find the accompanying
    uncombined form of the same work.
6. Revised Versions of the GNU Lesser General Public License.
The Free Software Foundation may publish revised and/or new versions of the GNU
Lesser General Public License from time to time. Such new versions will be
similar in spirit to the present version, but may differ in detail to
address new
problems or concerns.
Each version is given a distinguishing version number. If the Library as
you
received it specifies that a certain numbered version of the GNU Lesser
General
Public License "or any later version" applies to it, you have the option
of
following the terms and conditions either of that published version or of
any
later version published by the Free Software Foundation. If the Library as
you
received it does not specify a version number of the GNU Lesser General
Public
License, you may choose any version of the GNU Lesser General Public
License ever
published by the Free Software Foundation.
If the Library as you received it specifies that a proxy can decide
whether
future versions of the GNU Lesser General Public License shall apply, that
proxy's public statement of acceptance of any version is permanent
authorization
for you to choose that version for the Library.

GNU GENERAL PUBLIC LICENSE
==========================
Version 3,  29 June 2007
Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>
Everyone is permitted to copy and distribute verbatim copies of this
license
document, but changing it is not allowed.
Preamble
The GNU General Public License is a free, copyleft license for software
and other
kinds of works.
The licenses for most software and other practical works are designed to
take
away your freedom to share and change the works. By contrast, the GNU
General
Public License is intended to guarantee your freedom to share and change
all
versions of a program--to make sure it remains free software for all its
users.

We, the Free Software Foundation, use the GNU General Public License for most of
our software; it applies also to any other work released this way by its authors.
You can apply it to your programs, too.
When we speak of free software, we are referring to freedom, not price. Our
General Public Licenses are designed to make sure that you have the freedom to
distribute copies of free software (and charge for them if you wish), that you
receive source code or can get it if you want it, that you can change the
software or use pieces of it in new free programs, and that you know you can do
these things.
To protect your rights, we need to prevent others from denying you these rights
or asking you to surrender the rights. Therefore, you have certain
responsibilities if you distribute copies of the software, or if you modify it:
responsibilities to respect the freedom of others.
For example, if you distribute copies of such a program, whether gratis or for a
fee, you must pass on to the recipients the same freedoms that you received. You
must make sure that they, too, receive or can get the source code. And you must
show them these terms so they know their rights.
Developers that use the GNU GPL protect your rights with two steps: (1) assert
copyright on the software, and (2) offer you this License giving you legal
permission to copy, distribute and/or modify it.
For the developers' and authors' protection, the GPL clearly explains that there
is no warranty for this free software. For both users' and authors' sake, the GPL
requires that modified versions be marked as changed, so that their problems will
not be attributed erroneously to authors of previous versions.
Some devices are designed to deny users access to install or run modified
versions of the software inside them, although the manufacturer can do so. This
is fundamentally incompatible with the aim of protecting users' freedom to change
the software. The systematic pattern of such abuse occurs in the area of products
for individuals to use, which is precisely where it is most unacceptable.
Therefore, we have designed this version of the GPL to prohibit the practice for
those products. If such problems arise substantially in other domains, we stand
ready to extend this provision to those domains in future versions of the GPL, as

needed to protect the freedom of users.
Finally, every program is threatened constantly by software patents. States
should not allow patents to restrict development and use of software on
general-purpose computers, but in those that do, we wish to avoid the special
danger that patents applied to a free program could make it effectively
proprietary. To prevent this, the GPL assures that patents cannot be used to
render the program non-free.
The precise terms and conditions for copying, distribution and modification
follow.
TERMS AND CONDITIONS
0. Definitions.
"This License" refers to version 3 of the GNU General Public License.
"Copyright" also means copyright-like laws that apply to other kinds of works,
such as semiconductor masks.
"The Program" refers to any copyrightable work licensed under this License. Each
licensee is addressed as "you". "Licensees" and "recipients" may be individuals
or organizations.
To "modify" a work means to copy from or adapt all or part of the work in a
fashion requiring copyright permission, other than the making of an exact copy.
The resulting work is called a "modified version" of the earlier work or a work
"based on" the earlier work.
A "covered work" means either the unmodified Program or a work based on the
Program.
To "propagate" a work means to do anything with it that, without permission,
would make you directly or secondarily liable for infringement under applicable
copyright law, except executing it on a computer or modifying a private copy.
Propagation includes copying, distribution (with or without modification), making
available to the public, and in some countries other activities as well.
To "convey" a work means any kind of propagation that enables other parties to
make or receive copies. Mere interaction with a user through a computer network,
with no transfer of a copy, is not conveying.
An interactive user interface displays "Appropriate Legal Notices" to the extent
that it includes a convenient and prominently visible feature that (1) displays

an appropriate copyright notice, and (2) tells the user that there is no warranty
for the work (except to the extent that warranties are provided), that licensees
may convey the work under this License, and how to view a copy of this License.
If the interface presents a list of user commands or options, such as a menu, a
prominent item in the list meets this criterion.
1. Source Code.
The "source code" for a work means the preferred form of the work for making
modifications to it. "Object code" means any non-source form of a work.
A "Standard Interface" means an interface that either is an official standard
defined by a recognized standards body, or, in the case of interfaces specified
for a particular programming language, one that is widely used among developers
working in that language.
The "System Libraries" of an executable work include anything, other than the
work as a whole, that (a) is included in the normal form of packaging a Major
Component, but which is not part of that Major Component, and (b) serves only to
enable use of the work with that Major Component, or to implement a Standard
Interface for which an implementation is available to the public in source code
form. A "Major Component", in this context, means a major essential component
(kernel, window system, and so on) of the specific operating system (if any) on
which the executable work runs, or a compiler used to produce the work, or an
object code interpreter used to run it.
The "Corresponding Source" for a work in object code form means all the source
code needed to generate, install, and (for an executable work) run the object
code and to modify the work, including scripts to control those activities.
However, it does not include the work's System Libraries, or general-purpose
tools or generally available free programs which are used unmodified in
performing those activities but which are not part of the work. For example,
Corresponding Source includes interface definition files associated with source
files for the work, and the source code for shared libraries and dynamically

linked subprograms that the work is specifically designed to require, such as by
intimate data communication or control flow between those subprograms and other
parts of the work.
The Corresponding Source need not include anything that users can regenerate
automatically from other parts of the Corresponding Source.
The Corresponding Source for a work in source code form is that same work.
2. Basic Permissions.
All rights granted under this License are granted for the term of copyright on
the Program, and are irrevocable provided the stated conditions are met. This
License explicitly affirms your unlimited permission to run the unmodified
Program. The output from running a covered work is covered by this License only
if the output, given its content, constitutes a covered work. This License
acknowledges your rights of fair use or other equivalent, as provided by
copyright law.
You may make, run and propagate covered works that you do not convey, without
conditions so long as your license otherwise remains in force. You may convey
covered works to others for the sole purpose of having them make modifications
exclusively for you, or provide you with facilities for running those works,
provided that you comply with the terms of this License in conveying all material
for which you do not control copyright. Those thus making or running the covered
works for you must do so exclusively on your behalf, under your direction and
control, on terms that prohibit them from making any copies of your copyrighted
material outside their relationship with you.
Conveying under any other circumstances is permitted solely under the conditions
stated below. Sublicensing is not allowed; section 10 makes it unnecessary.
3. Protecting Users' Legal Rights From Anti-Circumvention Law.
No covered work shall be deemed part of an effective technological measure under
any applicable law fulfilling obligations under article 11 of the WIPO copyright
treaty adopted on 20 December 1996, or similar laws prohibiting or restricting
circumvention of such measures.
When you convey a covered work, you waive any legal power to forbid circumvention
of technological measures to the extent such circumvention is effected by

exercising rights under this License with respect to the covered work, and you
disclaim any intention to limit operation or modification of the work as a means
of enforcing, against the work's users, your or third parties' legal rights to
forbid circumvention of technological measures.
4. Conveying Verbatim Copies.
You may convey verbatim copies of the Program's source code as you receive it, in
any medium, provided that you conspicuously and appropriately publish on each
copy an appropriate copyright notice; keep intact all notices stating that this
License and any non-permissive terms added in accord with section 7 apply to the
code; keep intact all notices of the absence of any warranty; and give all
recipients a copy of this License along with the Program.
You may charge any price or no price for each copy that you convey, and you may
offer support or warranty protection for a fee.
5. Conveying Modified Source Versions.
You may convey a work based on the Program, or the modifications to produce it
from the Program, in the form of source code under the terms of section 4,
provided that you also meet all of these conditions:
  * a) The work must carry prominent notices stating that you modified it, and
    giving a relevant date.
  * b) The work must carry prominent notices stating that it is released under
    this License and any conditions added under section 7. This requirement
    modifies the requirement in section 4 to "keep intact all notices".
  * c) You must license the entire work, as a whole, under this License to anyone
    who comes into possession of a copy. This License will therefore apply, along
    with any applicable section 7 additional terms, to the whole of the work, and
    all its parts, regardless of how they are packaged. This License gives no
    permission to license the work in any other way, but it does not invalidate
    such permission if you have separately received it.
  * d) If the work has interactive user interfaces, each must display Appropriate
    Legal Notices; however, if the Program has interactive interfaces that do not
    display Appropriate Legal Notices, your work need not make them do so.
A compilation of a covered work with other separate and independent works, which
are not by their nature extensions of the covered work, and which are not

combined with it such as to form a larger program, in or on a volume of a storage
or distribution medium, is called an "aggregate" if the compilation and its
resulting copyright are not used to limit the access or legal rights of the
compilation's users beyond what the individual works permit. Inclusion of a
covered work in an aggregate does not cause this License to apply to the other
parts of the aggregate.
6. Conveying Non-Source Forms.
You may convey a covered work in object code form under the terms of sections 4
and 5, provided that you also convey the machine-readable Corresponding Source
under the terms of this License, in one of these ways:
  * a) Convey the object code in, or embodied in, a physical product (including a
    physical distribution medium), accompanied by the Corresponding Source fixed
    on a durable physical medium customarily used for software interchange.
  * b) Convey the object code in, or embodied in, a physical product (including a
    physical distribution medium), accompanied by a written offer, valid for at
    least three years and valid for as long as you offer spare parts or customer
    support for that product model, to give anyone who possesses the object code
    either (1) a copy of the Corresponding Source for all the software in the
    product that is covered by this License, on a durable physical medium
    customarily used for software interchange, for a price no more than your
    reasonable cost of physically performing this conveying of source, or (2)
    access to copy the Corresponding Source from a network server at no charge.
  * c) Convey individual copies of the object code with a copy of the written
    offer to provide the Corresponding Source. This alternative is allowed only
    occasionally and noncommercially, and only if you received the object code
    with such an offer, in accord with subsection 6b.
  * d) Convey the object code by offering access from a designated place (gratis
    or for a charge), and offer equivalent access to the Corresponding Source in
    the same way through the same place at no further charge. You need not

```
    require recipients to copy the Corresponding Source along with the
object
    code. If the place to copy the object code is a network server, the
    Corresponding Source may be on a different server (operated by you or
a third
    party) that supports equivalent copying facilities, provided you
maintain
    clear directions next to the object code saying where to find the
    Corresponding Source. Regardless of what server hosts the
Corresponding
    Source, you remain obligated to ensure that it is available for as
long as
    needed to satisfy these requirements.
  * e) Convey the object code using peer-to-peer transmission, provided
you
    inform other peers where the object code and Corresponding Source of
the work
    are being offered to the general public at no charge under subsection
6d.
A separable portion of the object code, whose source code is excluded from
the
Corresponding Source as a System Library, need not be included in
conveying the
object code work.
A "User Product" is either (1) a "consumer product", which means any
tangible
personal property which is normally used for personal, family, or
household
purposes, or (2) anything designed or sold for incorporation into a
dwelling. In
determining whether a product is a consumer product, doubtful cases shall
be
resolved in favor of coverage. For a particular product received by a
particular
user, "normally used" refers to a typical or common use of that class of
product,
regardless of the status of the particular user or of the way in which the
particular user actually uses, or expects or is expected to use, the
product. A
product is a consumer product regardless of whether the product has
substantial
commercial, industrial or non-consumer uses, unless such uses represent
the only
significant mode of use of the product.
"Installation Information" for a User Product means any methods,
procedures,
authorization keys, or other information required to install and execute
modified
versions of a covered work in that User Product from a modified version of
its
Corresponding Source. The information must suffice to ensure that the
continued
```

functioning of the modified object code is in no case prevented or interfered
with solely because modification has been made.
If you convey an object code work under this section in, or with, or specifically
for use in, a User Product, and the conveying occurs as part of a transaction in
which the right of possession and use of the User Product is transferred to the
recipient in perpetuity or for a fixed term (regardless of how the transaction is
characterized), the Corresponding Source conveyed under this section must be
accompanied by the Installation Information. But this requirement does not apply
if neither you nor any third party retains the ability to install modified object
code on the User Product (for example, the work has been installed in ROM).
The requirement to provide Installation Information does not include a
requirement to continue to provide support service, warranty, or updates for a
work that has been modified or installed by the recipient, or for the User
Product in which it has been modified or installed. Access to a network may be
denied when the modification itself materially and adversely affects the
operation of the network or violates the rules and protocols for communication
across the network.
Corresponding Source conveyed, and Installation Information provided, in accord
with this section must be in a format that is publicly documented (and with an
implementation available to the public in source code form), and must require no
special password or key for unpacking, reading or copying.
7. Additional Terms.
"Additional permissions" are terms that supplement the terms of this License by
making exceptions from one or more of its conditions. Additional permissions that
are applicable to the entire Program shall be treated as though they were
included in this License, to the extent that they are valid under applicable law.
If additional permissions apply only to part of the Program, that part may be
used separately under those permissions, but the entire Program remains governed
by this License without regard to the additional permissions.
When you convey a copy of a covered work, you may at your option remove any
additional permissions from that copy, or from any part of it. (Additional

permissions may be written to require their own removal in certain cases when you
modify the work.) You may place additional permissions on material, added by you
to a covered work, for which you have or can give appropriate copyright permission.
Notwithstanding any other provision of this License, for material you add to a
covered work, you may (if authorized by the copyright holders of that material)
supplement the terms of this License with terms:
  * a) Disclaiming warranty or limiting liability differently from the terms of
    sections 15 and 16 of this License; or
  * b) Requiring preservation of specified reasonable legal notices or author
    attributions in that material or in the Appropriate Legal Notices displayed
    by works containing it; or
  * c) Prohibiting misrepresentation of the origin of that material, or requiring
    that modified versions of such material be marked in reasonable ways as
    different from the original version; or
  * d) Limiting the use for publicity purposes of names of licensors or authors
    of the material; or
  * e) Declining to grant rights under trademark law for use of some trade names,
    trademarks, or service marks; or
  * f) Requiring indemnification of licensors and authors of that material by
    anyone who conveys the material (or modified versions of it) with contractual
    assumptions of liability to the recipient, for any liability that these
    contractual assumptions directly impose on those licensors and authors.
All other non-permissive additional terms are considered "further restrictions"
within the meaning of section 10. If the Program as you received it, or any part
of it, contains a notice stating that it is governed by this License along with a
term that is a further restriction, you may remove that term. If a license
document contains a further restriction but permits relicensing or conveying
under this License, you may add to a covered work material governed by the terms
of that license document, provided that the further restriction does not survive
such relicensing or conveying.

If you add terms to a covered work in accord with this section, you must place,
in the relevant source files, a statement of the additional terms that apply to
those files, or a notice indicating where to find the applicable terms.
Additional terms, permissive or non-permissive, may be stated in the form of a
separately written license, or stated as exceptions; the above requirements apply
either way.
8. Termination.
You may not propagate or modify a covered work except as expressly provided under
this License. Any attempt otherwise to propagate or modify it is void, and will
automatically terminate your rights under this License (including any patent
licenses granted under the third paragraph of section 11).
However, if you cease all violation of this License, then your license from a
particular copyright holder is reinstated (a) provisionally, unless and until the
copyright holder explicitly and finally terminates your license, and (b)
permanently, if the copyright holder fails to notify you of the violation by some
reasonable means prior to 60 days after the cessation.
Moreover, your license from a particular copyright holder is reinstated
permanently if the copyright holder notifies you of the violation by some
reasonable means, this is the first time you have received notice of violation of
this License (for any work) from that copyright holder, and you cure the
violation prior to 30 days after your receipt of the notice.
Termination of your rights under this section does not terminate the licenses of
parties who have received copies or rights from you under this License. If your
rights have been terminated and not permanently reinstated, you do not qualify to
receive new licenses for the same material under section 10.
9. Acceptance Not Required for Having Copies.
You are not required to accept this License in order to receive or run a copy of
the Program. Ancillary propagation of a covered work occurring solely as a
consequence of using peer-to-peer transmission to receive a copy likewise does
not require acceptance. However, nothing other than this License grants you
permission to propagate or modify any covered work. These actions infringe
copyright if you do not accept this License. Therefore, by modifying or
propagating a covered work, you indicate your acceptance of this License to do
so.
10. Automatic Licensing of Downstream Recipients.

Each time you convey a covered work, the recipient automatically receives a
license from the original licensors, to run, modify and propagate that work,
subject to this License. You are not responsible for enforcing compliance by
third parties with this License.
An "entity transaction" is a transaction transferring control of an organization,
or substantially all assets of one, or subdividing an organization, or merging
organizations. If propagation of a covered work results from an entity
transaction, each party to that transaction who receives a copy of the work also
receives whatever licenses to the work the party's predecessor in interest had or
could give under the previous paragraph, plus a right to possession of the
Corresponding Source of the work from the predecessor in interest, if the
predecessor has it or can get it with reasonable efforts.
You may not impose any further restrictions on the exercise of the rights granted
or affirmed under this License. For example, you may not impose a license fee,
royalty, or other charge for exercise of rights granted under this License, and
you may not initiate litigation (including a cross-claim or counterclaim in a
lawsuit) alleging that any patent claim is infringed by making, using, selling,
offering for sale, or importing the Program or any portion of it.
11. Patents.
A "contributor" is a copyright holder who authorizes use under this License of
the Program or a work on which the Program is based. The work thus licensed is
called the contributor's "contributor version".
A contributor's "essential patent claims" are all patent claims owned or
controlled by the contributor, whether already acquired or hereafter acquired,
that would be infringed by some manner, permitted by this License, of making,
using, or selling its contributor version, but do not include claims that would
be infringed only as a consequence of further modification of the contributor
version. For purposes of this definition, "control" includes the right to grant
patent sublicenses in a manner consistent with the requirements of this License.
Each contributor grants you a non-exclusive, worldwide, royalty-free patent
license under the contributor's essential patent claims, to make, use, sell,

offer for sale, import and otherwise run, modify and propagate the
contents of
its contributor version.
In the following three paragraphs, a "patent license" is any express
agreement or
commitment, however denominated, not to enforce a patent (such as an
express
permission to practice a patent or covenant not to sue for patent
infringement).
To "grant" such a patent license to a party means to make such an
agreement or
commitment not to enforce a patent against the party.
If you convey a covered work, knowingly relying on a patent license, and
the
Corresponding Source of the work is not available for anyone to copy, free
of
charge and under the terms of this License, through a publicly available
network
server or other readily accessible means, then you must either (1) cause
the
Corresponding Source to be so available, or (2) arrange to deprive
yourself of
the benefit of the patent license for this particular work, or (3)
arrange, in a
manner consistent with the requirements of this License, to extend the
patent
license to downstream recipients. "Knowingly relying" means you have
actual
knowledge that, but for the patent license, your conveying the covered
work in a
country, or your recipient's use of the covered work in a country, would
infringe
one or more identifiable patents in that country that you have reason to
believe
are valid.
If, pursuant to or in connection with a single transaction or arrangement,
you
convey, or propagate by procuring conveyance of, a covered work, and grant
a
patent license to some of the parties receiving the covered work
authorizing them
to use, propagate, modify or convey a specific copy of the covered work,
then the
patent license you grant is automatically extended to all recipients of
the
covered work and works based on it.
A patent license is "discriminatory" if it does not include within the
scope of
its coverage, prohibits the exercise of, or is conditioned on the non-
exercise of
one or more of the rights that are specifically granted under this
License. You

may not convey a covered work if you are a party to an arrangement with a
third
party that is in the business of distributing software, under which you
make
payment to the third party based on the extent of your activity of
conveying the
work, and under which the third party grants, to any of the parties who
would
receive the covered work from you, a discriminatory patent license (a) in
connection with copies of the covered work conveyed by you (or copies made
from
those copies), or (b) primarily for and in connection with specific
products or
compilations that contain the covered work, unless you entered into that
arrangement, or that patent license was granted, prior to 28 March 2007.
Nothing in this License shall be construed as excluding or limiting any
implied
license or other defenses to infringement that may otherwise be available
to you
under applicable patent law.
12. No Surrender of Others' Freedom.
If conditions are imposed on you (whether by court order, agreement or
otherwise)
that contradict the conditions of this License, they do not excuse you
from the
conditions of this License. If you cannot convey a covered work so as to
satisfy
simultaneously your obligations under this License and any other pertinent
obligations, then as a consequence you may not convey it at all. For
example, if
you agree to terms that obligate you to collect a royalty for further
conveying
from those to whom you convey the Program, the only way you could satisfy
both
those terms and this License would be to refrain entirely from conveying
the
Program.
13. Use with the GNU Affero General Public License.
Notwithstanding any other provision of this License, you have permission
to link
or combine any covered work with a work licensed under version 3 of the
GNU
Affero General Public License into a single combined work, and to convey
the
resulting work. The terms of this License will continue to apply to the
part
which is the covered work, but the special requirements of the GNU Affero
General
Public License, section 13, concerning interaction through a network will
apply
to the combination as such.
14. Revised Versions of this License.

The Free Software Foundation may publish revised and/or new versions of the GNU
General Public License from time to time. Such new versions will be similar in
spirit to the present version, but may differ in detail to address new problems
or concerns.
Each version is given a distinguishing version number. If the Program specifies
that a certain numbered version of the GNU General Public License "or any later
version" applies to it, you have the option of following the terms and conditions
either of that numbered version or of any later version published by the Free
Software Foundation. If the Program does not specify a version number of the GNU
General Public License, you may choose any version ever published by the Free
Software Foundation.
If the Program specifies that a proxy can decide which future versions of the GNU
General Public License can be used, that proxy's public statement of acceptance
of a version permanently authorizes you to choose that version for the Program.
Later license versions may give you additional or different permissions. However,
no additional obligations are imposed on any author or copyright holder as a
result of your choosing to follow a later version.
15. Disclaimer of Warranty.
THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.
EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER
PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER
EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE
QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE
DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
16. Limitation of Liability.
IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY
COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS
PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL,
INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE

**December 2022**

THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING
RENDERED
INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE
PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER
PARTY
HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
17. Interpretation of Sections 15 and 16.
If the disclaimer of warranty and limitation of liability provided above
cannot
be given local legal effect according to their terms, reviewing courts
shall
apply local law that most closely approximates an absolute waiver of all
civil
liability in connection with the Program, unless a warranty or assumption
of
liability accompanies a copy of the Program in return for a fee.
END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Programs
If you develop a new program, and you want it to be of the greatest
possible use
to the public, the best way to achieve this is to make it free software
which
everyone can redistribute and change under these terms.
To do so, attach the following notices to the program. It is safest to
attach
them to the start of each source file to most effectively state the
exclusion of
warranty; and each file should have at least the "copyright" line and a
pointer
to where the full notice is found.
    <one line to give the program's name and a brief idea of what it
does.>
    Copyright (C) <year>  <name of author>
    This program is free software: you can redistribute it and/or modify
    it under the terms of the GNU General Public License as published by
    the Free Software Foundation, either version 3 of the License, or
    (at your option) any later version.
    This program is distributed in the hope that it will be useful,
    but WITHOUT ANY WARRANTY; without even the implied warranty of
    MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE.  See the
    GNU General Public License for more details.
    You should have received a copy of the GNU General Public License
    along with this program.  If not, see <http://www.gnu.org/licenses/>.
Also add information on how to contact you by electronic and paper mail.
If the program does terminal interaction, make it output a short notice
like this
when it starts in an interactive mode:
    <program>  Copyright (C) <year>  <name of author>
    This program comes with ABSOLUTELY NO WARRANTY; for details type `show
w'.
    This is free software, and you are welcome to redistribute it
    under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate parts
of the General Public License. Of course, your program's commands might be
different; for a GUI interface, you would use an "about box".
You should also get your employer (if you work as a programmer) or school, if
any, to sign a "copyright disclaimer" for the program, if necessary. For more
information on this, and how to apply and follow the GNU GPL, see
<http://www.gnu.org/licenses/>.
The GNU General Public License does not permit incorporating your program into
proprietary programs. If your program is a subroutine library, you may consider
it more useful to permit linking proprietary applications with the library. If
this is what you want to do, use the GNU Lesser General Public License instead of
this License. But first, please read
<http://www.gnu.org/philosophy/why-not-lgpl.html>.

     because it goes with version 2 of the ordinary GPL.]
Preamble
--------
The licenses for most software are designed to take away your freedom to share
and change it. By contrast, the GNU General Public Licenses are intended to
guarantee your freedom to share and change free software--to make sure the
software is free for all its users.
This license, the Library General Public License, applies to some specially
designated Free Software Foundation software, and to other libraries whose

authors who decide to use it. You can use it for your libraries too.
When we speak of free software, we are referring to freedom, not price. Our
General Public Licenses are designed to make sure that you have the freedom to
distribute copies of free software (and charge for this service if you wish),
that you receive source code or can get it if you want it, that you can change
the software or use pieces of it in new free programs; and that you know you can
do these things.
To protect your rights, we need to make restrictions that forbid anyone to deny
you these rights or to ask you to surrender the rights. These restrictions
translate to certain responsibilities for you if you distribute copies of the
library, or if you modify it.
For example, if you distribute copies of the library, whether gratis or for a
fee, you must give the recipients all the rights that we gave you. You must make
sure that they, too, receive or can get the source code. If you link a program
with the library, you must provide complete object files to the recipients so
that they can relink them with the library after making changes to the library
and recompiling it. And you must show them these terms so they know their rights.
Our method of protecting your rights has two steps: (1) copyright the library,
and (2) offer you this license, which gives you legal permission to copy,
distribute and/or modify the library.
Also, for each distributor's protection, we want to make certain that everyone
understands that there is no warranty for this free library. If the library is
modified by someone else and passed on, we want its recipients to know that what
they have is not the original version, so that any problems introduced by others
will not reflect on the original authors' reputations.
Finally, any free program is threatened constantly by software patents. We wish
to avoid the danger that companies distributing free software will individually
obtain patent licenses, thus in effect transforming the program into proprietary
software. To prevent this, we have made it clear that any patent must be licensed
for everyone's free use or not licensed at all.

Most GNU software, including some libraries, is covered by the ordinary GNU
General Public License, which was designed for utility programs. This license,
the GNU Library General Public License, applies to certain designated libraries.
This license is quite different from the ordinary one; be sure to read it in
full, and don't assume that anything in it is the same as in the ordinary license.

The reason we have a separate public license for some libraries is that they blur
the distinction we usually make between modifying or adding to a program and
simply using it. Linking a program with a library, without changing the library,
is in some sense simply using the library, and is analogous to running a utility
program or application program. However, in a textual and legal sense, the linked
executable is a combined work, a derivative of the original library, and the
ordinary General Public License treats it as such.

Because of this blurred distinction, using the ordinary General Public License
for libraries did not effectively promote software sharing, because most
developers did not use the libraries. We concluded that weaker conditions might
promote sharing better.

However, unrestricted linking of non-free programs would deprive the users of
those programs of all benefit from the free status of the libraries themselves.

This Library General Public License is intended to permit developers of non-free
programs to use free libraries, while preserving your freedom as a user of such
programs to change the free libraries that are incorporated in them. (We have not
seen how to achieve this as regards changes in header files, but we have achieved
it as regards changes in the actual functions of the Library.) The hope is that
this will lead to faster development of free libraries.

The precise terms and conditions for copying, distribution and modification
follow. Pay close attention to the difference between a "work based on the
library" and a "work that uses the library". The former contains code derived
from the library, while the latter only works together with the library.
Note that it is possible for a library to be covered by the ordinary General
Public License rather than by this special one.

```
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
----------------------------------------------------------------
0. This License Agreement applies to any software library which contains a
notice
placed by the copyright holder or other authorized party saying it may be
distributed under the terms of this Library General Public License (also
called
"this License"). Each licensee is addressed as "you".
A "library" means a collection of software functions and/or data prepared
so as
to be conveniently linked with application programs (which use some of
those
functions and data) to form executables.
The "Library", below, refers to any such software library or work which
has been
distributed under these terms. A "work based on the Library" means either
the
Library or any derivative work under copyright law: that is to say, a work
containing the Library or a portion of it, either verbatim or with
modifications
and/or translated straightforwardly into another language. (Hereinafter,
translation is included without limitation in the term "modification".)
"Source code" for a work means the preferred form of the work for making
modifications to it. For a library, complete source code means all the
source
code for all modules it contains, plus any associated interface definition
files,
plus the scripts used to control compilation and installation of the
library.
Activities other than copying, distribution and modification are not
covered by
this License; they are outside its scope. The act of running a program
using the
Library is not restricted, and output from such a program is covered only
if its
contents constitute a work based on the Library (independent of the use of
the
Library in a tool for writing it). Whether that is true depends on what
the
Library does and what the program that uses the Library does.
1. You may copy and distribute verbatim copies of the Library's complete
source
code as you receive it, in any medium, provided that you conspicuously and
appropriately publish on each copy an appropriate copyright notice and
disclaimer
of warranty; keep intact all the notices that refer to this License and to
the
absence of any warranty; and distribute a copy of this License along with
the
Library.
You may charge a fee for the physical act of transferring a copy, and you
may at
your option offer warranty protection in exchange for a fee.
```

**Page 594**                    **December 2022**

2. You may modify your copy or copies of the Library or any portion of it, thus
forming a work based on the Library, and copy and distribute such modifications
or work under the terms of Section 1 above, provided that you also meet all of
these conditions:
      a) The modified work must itself be a software library.
      b) You must cause the files modified to carry prominent notices stating
      that you changed the files and the date of any change.
      c) You must cause the whole of the work to be licensed at no charge to all
      third parties under the terms of this License.
      d) If a facility in the modified Library refers to a function or a table of
      data to be supplied by an application program that uses the facility, other
      than as an argument passed when the facility is invoked, then you must make
      a good faith effort to ensure that, in the event an application does not
      supply such function or table, the facility still operates, and performs
      whatever part of its purpose remains meaningful.
      (For example, a function in a library to compute square roots has a purpose
      that is entirely well-defined independent of the application. Therefore,
      Subsection 2d requires that any application-supplied function or table used
      by this function must be optional: if the application does not supply it,
      the square root function must still compute square roots.)
      These requirements apply to the modified work as a whole. If identifiable
      sections of that work are not derived from the Library, and can be
      reasonably considered independent and separate works in themselves, then
      this License, and its terms, do not apply to those sections when you
      distribute them as separate works. But when you distribute the same
      sections as part of a whole which is a work based on the Library, the
      distribution of the whole must be on the terms of this License, whose
      permissions for other licensees extend to the entire whole, and thus to
      each and every part regardless of who wrote it.
      Thus, it is not the intent of this section to claim rights or contest your
      rights to work written entirely by you; rather, the intent is to exercise

the right to control the distribution of derivative or collective works
based on the Library.
In addition, mere aggregation of another work not based on the Library with
the Library (or with a work based on the Library) on a volume of a storage
or distribution medium does not bring the other work under the scope of
this License.
3. You may opt to apply the terms of the ordinary GNU General Public License
instead of this License to a given copy of the Library. To do this, you must
alter all the notices that refer to this License, so that they refer to the
ordinary GNU General Public License, version 2, instead of to this
License. (If a
newer version than version 2 of the ordinary GNU General Public License has
appeared, then you can specify that version instead if you wish.) Do not make any
other change in these notices.
Once this change is made in a given copy, it is irreversible for that copy, so
the ordinary GNU General Public License applies to all subsequent copies and
derivative works made from that copy.
This option is useful when you wish to copy part of the code of the Library into
a program that is not a library.
4. You may copy and distribute the Library (or a portion or derivative of it,
under Section 2) in object code or executable form under the terms of Sections 1
and 2 above provided that you accompany it with the complete corresponding
machine-readable source code, which must be distributed under the terms of
Sections 1 and 2 above on a medium customarily used for software
interchange.
If distribution of object code is made by offering access to copy from a
designated place, then offering equivalent access to copy the source code from
the same place satisfies the requirement to distribute the source code, even
though third parties are not compelled to copy the source along with the object
code.
5. A program that contains no derivative of any portion of the Library, but is
designed to work with the Library by being compiled or linked with it, is called
a "work that uses the Library". Such a work, in isolation, is not a derivative

**December 2022**

work of the Library, and therefore falls outside the scope of this
License.
However, linking a "work that uses the Library" with the Library creates
an
executable that is a derivative of the Library (because it contains
portions of
the Library), rather than a "work that uses the library". The executable
is
therefore covered by this License. Section 6 states terms for distribution
of
such executables.
When a "work that uses the Library" uses material from a header file that
is part
of the Library, the object code for the work may be a derivative work of
the
Library even though the source code is not. Whether this is true is
especially
significant if the work can be linked without the Library, or if the work
is
itself a library. The threshold for this to be true is not precisely
defined by
law.
If such an object file uses only numerical parameters, data structure
layouts and
accessors, and small macros and small inline functions (ten lines or less
in
length), then the use of the object file is unrestricted, regardless of
whether
it is legally a derivative work. (Executables containing this object code
plus
portions of the Library will still fall under Section 6.)
Otherwise, if the work is a derivative of the Library, you may distribute
the
object code for the work under the terms of Section 6. Any executables
containing
that work also fall under Section 6, whether or not they are linked
directly with
the Library itself.
6. As an exception to the Sections above, you may also compile or link a
"work
that uses the Library" with the Library to produce a work containing
portions of
the Library, and distribute that work under terms of your choice, provided
that
the terms permit modification of the work for the customer's own use and
reverse
engineering for debugging such modifications.
You must give prominent notice with each copy of the work that the Library
is
used in it and that the Library and its use are covered by this License.
You must
supply a copy of this License. If the work during execution displays
copyright

notices, you must include the copyright notice for the Library among them, as
well as a reference directing the user to the copy of this License. Also, you
must do one of these things:

      a) Accompany the work with the complete corresponding machine-readable
      source code for the Library including whatever changes were used in the
      work (which must be distributed under Sections 1 and 2 above); and, if the
      work is an executable linked with the Library, with the complete
      machine-readable "work that uses the Library", as object code and/or source
      code, so that the user can modify the Library and then relink to produce a
      modified executable containing the modified Library. (It is understood that
      the user who changes the contents of definitions files in the Library will
      not necessarily be able to recompile the application to use the modified
      definitions.)
      b) Accompany the work with a written offer, valid for at least three years,
      to give the same user the materials specified in Subsection 6a, above, for
      a charge no more than the cost of performing this distribution.
      c) If distribution of the work is made by offering access to copy from a
      designated place, offer equivalent access to copy the above specified
      materials from the same place.
      d) Verify that the user has already received a copy of these materials or
      that you have already sent this user a copy.
For an executable, the required form of the "work that uses the Library" must
include any data and utility programs needed for reproducing the executable from
it. However, as a special exception, the source code distributed need not include
anything that is normally distributed (in either source or binary form) with the
major components (compiler, kernel, and so on) of the operating system on which
the executable runs, unless that component itself accompanies the executable.
It may happen that this requirement contradicts the license restrictions of other
proprietary libraries that do not normally accompany the operating system. Such a

contradiction means you cannot use both them and the Library together in
an
executable that you distribute.
7. You may place library facilities that are a work based on the Library
side-by-side in a single library together with other library facilities
not
covered by this License, and distribute such a combined library, provided
that
the separate distribution of the work based on the Library and of the
other
library facilities is otherwise permitted, and provided that you do these
two
things:
      a) Accompany the combined library with a copy of the same work based
on the
      Library, uncombined with any other library facilities. This must be
      distributed under the terms of the Sections above.
      b) Give prominent notice with the combined library of the fact that
part of
      it is a work based on the Library, and explaining where to find the
      accompanying uncombined form of the same work.
8. You may not copy, modify, sublicense, link with, or distribute the
Library
except as expressly provided under this License. Any attempt otherwise to
copy,
modify, sublicense, link with, or distribute the Library is void, and will
automatically terminate your rights under this License. However, parties
who have
received copies, or rights, from you under this License will not have
their
licenses terminated so long as such parties remain in full compliance.
9. You are not required to accept this License, since you have not signed
it.
However, nothing else grants you permission to modify or distribute the
Library
or its derivative works. These actions are prohibited by law if you do not
accept
this License. Therefore, by modifying or distributing the Library (or any
work
based on the Library), you indicate your acceptance of this License to do
so, and
all its terms and conditions for copying, distributing or modifying the
Library
or works based on it.
10. Each time you redistribute the Library (or any work based on the
Library),
the recipient automatically receives a license from the original licensor
to
copy, distribute, link with or modify the Library subject to these terms
and
conditions. You may not impose any further restrictions on the recipients'
exercise of the rights granted herein. You are not responsible for
enforcing

compliance by third parties to this License.
11. If, as a consequence of a court judgment or allegation of patent
infringement
or for any other reason (not limited to patent issues), conditions are
imposed on
you (whether by court order, agreement or otherwise) that contradict the
conditions of this License, they do not excuse you from the conditions of
this
License. If you cannot distribute so as to satisfy simultaneously your
obligations under this License and any other pertinent obligations, then
as a
consequence you may not distribute the Library at all. For example, if a
patent
license would not permit royalty-free redistribution of the Library by all
those
who receive copies directly or indirectly through you, then the only way
you
could satisfy both it and this License would be to refrain entirely from
distribution of the Library.
If any portion of this section is held invalid or unenforceable under any
particular circumstance, the balance of the section is intended to apply,
and the
section as a whole is intended to apply in other circumstances.
It is not the purpose of this section to induce you to infringe any
patents or
other property right claims or to contest validity of any such claims;
this
section has the sole purpose of protecting the integrity of the free
software
distribution system which is implemented by public license practices. Many
people
have made generous contributions to the wide range of software distributed
through that system in reliance on consistent application of that system;
it is
up to the author/donor to decide if he or she is willing to distribute
software
through any other system and a licensee cannot impose that choice.
This section is intended to make thoroughly clear what is believed to be a
consequence of the rest of this License.
12. If the distribution and/or use of the Library is restricted in certain
countries either by patents or by copyrighted interfaces, the original
copyright
holder who places the Library under this License may add an explicit
geographical
distribution limitation excluding those countries, so that distribution is
permitted only in or among countries not thus excluded. In such case, this
License incorporates the limitation as if written in the body of this
License.
13. The Free Software Foundation may publish revised and/or new versions
of the
Library General Public License from time to time. Such new versions will
be

similar in spirit to the present version, but may differ in detail to address new
problems or concerns.
Each version is given a distinguishing version number. If the Library
specifies a
version number of this License which applies to it and "any later
version", you
have the option of following the terms and conditions either of that
version or
of any later version published by the Free Software Foundation. If the
Library
does not specify a license version number, you may choose any version ever
published by the Free Software Foundation.
14. If you wish to incorporate parts of the Library into other free
programs
whose distribution conditions are incompatible with these, write to the
author to
ask for permission. For software which is copyrighted by the Free Software
Foundation, write to the Free Software Foundation; we sometimes make
exceptions
for this. Our decision will be guided by the two goals of preserving the
free
status of all derivatives of our free software and of promoting the
sharing and
reuse of software generally.
NO WARRANTY
15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY
FOR THE
LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE
STATED
IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY
"AS IS"
WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT
NOT
LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A
PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF
THE
LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE
COST OF
ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING
WILL
ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR
REDISTRIBUTE THE
LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY
GENERAL,
SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR
INABILITY
TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA
BEING
RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A
FAILURE OF

THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER
PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Libraries
-----------------------------------------------
If you develop a new library, and you want it to be of the greatest possible use
to the public, we recommend making it free software that everyone can
redistribute and change. You can do so by permitting redistribution under these
terms (or, alternatively, under the terms of the ordinary General Public License).
To apply these terms, attach the following notices to the library. It is safest
to attach them to the start of each source file to most effectively convey the
exclusion of warranty; and each file should have at least the "copyright" line
and a pointer to where the full notice is found.

        modify it under the terms of the GNU Library General Public
        License as published by the Free Software Foundation; either
        version 2 of the License, or (at your option) any later version.
        This library is distributed in the hope that it will be useful,
        but WITHOUT ANY WARRANTY; without even the implied warranty of

Also add information on how to contact you by electronic and paper mail.
You should also get your employer (if you work as a programmer) or your school,
if any, to sign a "copyright disclaimer" for the library, if necessary. Here is a

        of this license document, but changing it is not allowed.

Preamble
--------
The licenses for most software are designed to take away your freedom to share
and change it. By contrast, the GNU General Public Licenses are intended to
guarantee your freedom to share and change free software--to make sure the
software is free for all its users.
This license, the Library General Public License, applies to some specially
designated Free Software Foundation software, and to other libraries whose
authors who decide to use it. You can use it for your libraries too.
When we speak of free software, we are referring to freedom, not price. Our
General Public Licenses are designed to make sure that you have the freedom to
distribute copies of free software (and charge for this service if you wish),
that you receive source code or can get it if you want it, that you can change

**December 2022**

the software or use pieces of it in new free programs; and that you know you can
do these things.
To protect your rights, we need to make restrictions that forbid anyone to deny
you these rights or to ask you to surrender the rights. These restrictions
translate to certain responsibilities for you if you distribute copies of the
library, or if you modify it.
For example, if you distribute copies of the library, whether gratis or for a
fee, you must give the recipients all the rights that we gave you. You must make
sure that they, too, receive or can get the source code. If you link a program
with the library, you must provide complete object files to the recipients so
that they can relink them with the library after making changes to the library
and recompiling it. And you must show them these terms so they know their rights.
Our method of protecting your rights has two steps: (1) copyright the library,
and (2) offer you this license, which gives you legal permission to copy,
distribute and/or modify the library.
Also, for each distributor's protection, we want to make certain that everyone
understands that there is no warranty for this free library. If the library is
modified by someone else and passed on, we want its recipients to know that what
they have is not the original version, so that any problems introduced by others
will not reflect on the original authors' reputations.
Finally, any free program is threatened constantly by software patents. We wish
to avoid the danger that companies distributing free software will individually
obtain patent licenses, thus in effect transforming the program into proprietary
software. To prevent this, we have made it clear that any patent must be licensed
for everyone's free use or not licensed at all.
Most GNU software, including some libraries, is covered by the ordinary GNU
General Public License, which was designed for utility programs. This license,
the GNU Library General Public License, applies to certain designated libraries.
This license is quite different from the ordinary one; be sure to read it in
full, and don't assume that anything in it is the same as in the ordinary
license.

The reason we have a separate public license for some libraries is that they blur
the distinction we usually make between modifying or adding to a program and
simply using it. Linking a program with a library, without changing the library,
is in some sense simply using the library, and is analogous to running a utility
program or application program. However, in a textual and legal sense, the linked
executable is a combined work, a derivative of the original library, and the
ordinary General Public License treats it as such.
Because of this blurred distinction, using the ordinary General Public License
for libraries did not effectively promote software sharing, because most
developers did not use the libraries. We concluded that weaker conditions might
promote sharing better.
However, unrestricted linking of non-free programs would deprive the users of
those programs of all benefit from the free status of the libraries themselves.
This Library General Public License is intended to permit developers of non-free
programs to use free libraries, while preserving your freedom as a user of such
programs to change the free libraries that are incorporated in them. (We have not
seen how to achieve this as regards changes in header files, but we have achieved
it as regards changes in the actual functions of the Library.) The hope is that
this will lead to faster development of free libraries.
The precise terms and conditions for copying, distribution and modification
follow. Pay close attention to the difference between a "work based on the
library" and a "work that uses the library". The former contains code derived
from the library, while the latter only works together with the library.
Note that it is possible for a library to be covered by the ordinary General
Public License rather than by this special one.
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
----------------------------------------------------------------
0. This License Agreement applies to any software library which contains a notice
placed by the copyright holder or other authorized party saying it may be
distributed under the terms of this Library General Public License (also called
"this License"). Each licensee is addressed as "you".
A "library" means a collection of software functions and/or data prepared so as

to be conveniently linked with application programs (which use some of those
functions and data) to form executables.
The "Library", below, refers to any such software library or work which has been
distributed under these terms. A "work based on the Library" means either the
Library or any derivative work under copyright law: that is to say, a work
containing the Library or a portion of it, either verbatim or with modifications
and/or translated straightforwardly into another language. (Hereinafter,
translation is included without limitation in the term "modification".)
"Source code" for a work means the preferred form of the work for making
modifications to it. For a library, complete source code means all the source
code for all modules it contains, plus any associated interface definition files,
plus the scripts used to control compilation and installation of the library.
Activities other than copying, distribution and modification are not covered by
this License; they are outside its scope. The act of running a program using the
Library is not restricted, and output from such a program is covered only if its
contents constitute a work based on the Library (independent of the use of the
Library in a tool for writing it). Whether that is true depends on what the
Library does and what the program that uses the Library does.
1. You may copy and distribute verbatim copies of the Library's complete source
code as you receive it, in any medium, provided that you conspicuously and
appropriately publish on each copy an appropriate copyright notice and disclaimer
of warranty; keep intact all the notices that refer to this License and to the
absence of any warranty; and distribute a copy of this License along with the
Library.
You may charge a fee for the physical act of transferring a copy, and you may at
your option offer warranty protection in exchange for a fee.
2. You may modify your copy or copies of the Library or any portion of it, thus
forming a work based on the Library, and copy and distribute such modifications
or work under the terms of Section 1 above, provided that you also meet all of
these conditions:
      a) The modified work must itself be a software library.
      b) You must cause the files modified to carry prominent notices stating

that you changed the files and the date of any change.
c) You must cause the whole of the work to be licensed at no charge
to all
third parties under the terms of this License.
d) If a facility in the modified Library refers to a function or a
table of
data to be supplied by an application program that uses the
facility, other
than as an argument passed when the facility is invoked, then you
must make
a good faith effort to ensure that, in the event an application does
not
supply such function or table, the facility still operates, and
performs
whatever part of its purpose remains meaningful.
(For example, a function in a library to compute square roots has a
purpose
that is entirely well-defined independent of the application.
Therefore,
Subsection 2d requires that any application-supplied function or
table used
by this function must be optional: if the application does not
supply it,
the square root function must still compute square roots.)
These requirements apply to the modified work as a whole. If
identifiable
sections of that work are not derived from the Library, and can be
reasonably considered independent and separate works in themselves,
then
this License, and its terms, do not apply to those sections when you
distribute them as separate works. But when you distribute the same
sections as part of a whole which is a work based on the Library,
the
distribution of the whole must be on the terms of this License,
whose
permissions for other licensees extend to the entire whole, and thus
to
each and every part regardless of who wrote it.
Thus, it is not the intent of this section to claim rights or
contest your
rights to work written entirely by you; rather, the intent is to
exercise
the right to control the distribution of derivative or collective
works
based on the Library.
In addition, mere aggregation of another work not based on the
Library with
the Library (or with a work based on the Library) on a volume of a
storage
or distribution medium does not bring the other work under the scope
of
this License.

3. You may opt to apply the terms of the ordinary GNU General Public License
instead of this License to a given copy of the Library. To do this, you must
alter all the notices that refer to this License, so that they refer to the
ordinary GNU General Public License, version 2, instead of to this License. (If a
newer version than version 2 of the ordinary GNU General Public License has
appeared, then you can specify that version instead if you wish.) Do not make any
other change in these notices.
Once this change is made in a given copy, it is irreversible for that copy, so
the ordinary GNU General Public License applies to all subsequent copies and
derivative works made from that copy.
This option is useful when you wish to copy part of the code of the Library into
a program that is not a library.
4. You may copy and distribute the Library (or a portion or derivative of it,
under Section 2) in object code or executable form under the terms of Sections 1
and 2 above provided that you accompany it with the complete corresponding
machine-readable source code, which must be distributed under the terms of
Sections 1 and 2 above on a medium customarily used for software interchange.
If distribution of object code is made by offering access to copy from a
designated place, then offering equivalent access to copy the source code from
the same place satisfies the requirement to distribute the source code, even
though third parties are not compelled to copy the source along with the object
code.
5. A program that contains no derivative of any portion of the Library, but is
designed to work with the Library by being compiled or linked with it, is called
a "work that uses the Library". Such a work, in isolation, is not a derivative
work of the Library, and therefore falls outside the scope of this License.
However, linking a "work that uses the Library" with the Library creates an
executable that is a derivative of the Library (because it contains portions of
the Library), rather than a "work that uses the library". The executable is
therefore covered by this License. Section 6 states terms for distribution of

such executables.
When a "work that uses the Library" uses material from a header file that
is part
of the Library, the object code for the work may be a derivative work of
the
Library even though the source code is not. Whether this is true is
especially
significant if the work can be linked without the Library, or if the work
is
itself a library. The threshold for this to be true is not precisely
defined by
law.
If such an object file uses only numerical parameters, data structure
layouts and
accessors, and small macros and small inline functions (ten lines or less
in
length), then the use of the object file is unrestricted, regardless of
whether
it is legally a derivative work. (Executables containing this object code
plus
portions of the Library will still fall under Section 6.)
Otherwise, if the work is a derivative of the Library, you may distribute
the
object code for the work under the terms of Section 6. Any executables
containing
that work also fall under Section 6, whether or not they are linked
directly with
the Library itself.
6. As an exception to the Sections above, you may also compile or link a
"work
that uses the Library" with the Library to produce a work containing
portions of
the Library, and distribute that work under terms of your choice, provided
that
the terms permit modification of the work for the customer's own use and
reverse
engineering for debugging such modifications.
You must give prominent notice with each copy of the work that the Library
is
used in it and that the Library and its use are covered by this License.
You must
supply a copy of this License. If the work during execution displays
copyright
notices, you must include the copyright notice for the Library among them,
as
well as a reference directing the user to the copy of this License. Also,
you
must do one of these things:
      a) Accompany the work with the complete corresponding machine-
readable
      source code for the Library including whatever changes were used in
the

work (which must be distributed under Sections 1 and 2 above); and, if the

work is an executable linked with the Library, with the complete

machine-readable "work that uses the Library", as object code and/or source

code, so that the user can modify the Library and then relink to produce a

modified executable containing the modified Library. (It is understood that

the user who changes the contents of definitions files in the Library will

not necessarily be able to recompile the application to use the modified

definitions.)

b) Accompany the work with a written offer, valid for at least three years,

to give the same user the materials specified in Subsection 6a, above, for

a charge no more than the cost of performing this distribution.

c) If distribution of the work is made by offering access to copy from a

designated place, offer equivalent access to copy the above specified

materials from the same place.

d) Verify that the user has already received a copy of these materials or

that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must

include any data and utility programs needed for reproducing the executable from

it. However, as a special exception, the source code distributed need not include

anything that is normally distributed (in either source or binary form) with the

major components (compiler, kernel, and so on) of the operating system on which

the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other

proprietary libraries that do not normally accompany the operating system. Such a

contradiction means you cannot use both them and the Library together in an

executable that you distribute.

7. You may place library facilities that are a work based on the Library

side-by-side in a single library together with other library facilities not

covered by this License, and distribute such a combined library, provided that

the separate distribution of the work based on the Library and of the other

library facilities is otherwise permitted, and provided that you do these two
things:
      a) Accompany the combined library with a copy of the same work based on the
      Library, uncombined with any other library facilities. This must be
      distributed under the terms of the Sections above.
      b) Give prominent notice with the combined library of the fact that part of
      it is a work based on the Library, and explaining where to find the
      accompanying uncombined form of the same work.
8. You may not copy, modify, sublicense, link with, or distribute the Library
except as expressly provided under this License. Any attempt otherwise to copy,
modify, sublicense, link with, or distribute the Library is void, and will
automatically terminate your rights under this License. However, parties who have
received copies, or rights, from you under this License will not have their
licenses terminated so long as such parties remain in full compliance.
9. You are not required to accept this License, since you have not signed it.
However, nothing else grants you permission to modify or distribute the Library
or its derivative works. These actions are prohibited by law if you do not accept
this License. Therefore, by modifying or distributing the Library (or any work
based on the Library), you indicate your acceptance of this License to do so, and
all its terms and conditions for copying, distributing or modifying the Library
or works based on it.
10. Each time you redistribute the Library (or any work based on the Library),
the recipient automatically receives a license from the original licensor to
copy, distribute, link with or modify the Library subject to these terms and
conditions. You may not impose any further restrictions on the recipients'
exercise of the rights granted herein. You are not responsible for enforcing
compliance by third parties to this License.
11. If, as a consequence of a court judgment or allegation of patent infringement
or for any other reason (not limited to patent issues), conditions are imposed on
you (whether by court order, agreement or otherwise) that contradict the
conditions of this License, they do not excuse you from the conditions of this
License. If you cannot distribute so as to satisfy simultaneously your

obligations under this License and any other pertinent obligations, then as a
consequence you may not distribute the Library at all. For example, if a patent
license would not permit royalty-free redistribution of the Library by all those
who receive copies directly or indirectly through you, then the only way you
could satisfy both it and this License would be to refrain entirely from
distribution of the Library.
If any portion of this section is held invalid or unenforceable under any
particular circumstance, the balance of the section is intended to apply, and the
section as a whole is intended to apply in other circumstances.
It is not the purpose of this section to induce you to infringe any patents or
other property right claims or to contest validity of any such claims; this
section has the sole purpose of protecting the integrity of the free software
distribution system which is implemented by public license practices. Many people
have made generous contributions to the wide range of software distributed
through that system in reliance on consistent application of that system; it is
up to the author/donor to decide if he or she is willing to distribute software
through any other system and a licensee cannot impose that choice.
This section is intended to make thoroughly clear what is believed to be a
consequence of the rest of this License.
12. If the distribution and/or use of the Library is restricted in certain
countries either by patents or by copyrighted interfaces, the original copyright
holder who places the Library under this License may add an explicit geographical
distribution limitation excluding those countries, so that distribution is
permitted only in or among countries not thus excluded. In such case, this
License incorporates the limitation as if written in the body of this License.
13. The Free Software Foundation may publish revised and/or new versions of the
Library General Public License from time to time. Such new versions will be
similar in spirit to the present version, but may differ in detail to address new
problems or concerns.
Each version is given a distinguishing version number. If the Library specifies a
version number of this License which applies to it and "any later version", you
have the option of following the terms and conditions either of that version or

of any later version published by the Free Software Foundation. If the
Library
does not specify a license version number, you may choose any version ever
published by the Free Software Foundation.
14. If you wish to incorporate parts of the Library into other free
programs
whose distribution conditions are incompatible with these, write to the
author to
ask for permission. For software which is copyrighted by the Free Software
Foundation, write to the Free Software Foundation; we sometimes make
exceptions
for this. Our decision will be guided by the two goals of preserving the
free
status of all derivatives of our free software and of promoting the
sharing and
reuse of software generally.
NO WARRANTY
15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY
FOR THE
LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE
STATED
IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY
"AS IS"
WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT
NOT
LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A
PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF
THE
LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE
COST OF
ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING
WILL
ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR
REDISTRIBUTE THE
LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY
GENERAL,
SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR
INABILITY
TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA
BEING
RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A
FAILURE OF
THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR
OTHER
PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Libraries
----------------------------------------------
If you develop a new library, and you want it to be of the greatest
possible use
to the public, we recommend making it free software that everyone can

redistribute and change. You can do so by permitting redistribution under these
terms (or, alternatively, under the terms of the ordinary General Public
License).
To apply these terms, attach the following notices to the library. It is safest
to attach them to the start of each source file to most effectively convey the
exclusion of warranty; and each file should have at least the "copyright" line
and a pointer to where the full notice is found.

    one line to give the library's name and an idea of what it does.
    Copyright (C) year name of author
    This library is free software; you can redistribute it and/or
    modify it under the terms of the GNU Library General Public
    License as published by the Free Software Foundation; either
    version 2 of the License, or (at your option) any later version.
    This library is distributed in the hope that it will be useful,
    but WITHOUT ANY WARRANTY; without even the implied warranty of
    MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU
    Library General Public License for more details.

Also add information on how to contact you by electronic and paper mail.
You should also get your employer (if you work as a programmer) or your school,

The licenses for most software are designed to take away your freedom to

guarantee your freedom to share and change free software--to make sure the
software is free for all its users. This General Public License applies to
most
of the Free Software Foundation's software and to any other program whose
authors
commit to using it. (Some other Free Software Foundation software is
covered by
the GNU Library General Public License instead.) You can apply it to your
programs, too.
When we speak of free software, we are referring to freedom, not price.
Our
General Public Licenses are designed to make sure that you have the
freedom to
distribute copies of free software (and charge for this service if you
wish),
that you receive source code or can get it if you want it, that you can
change
the software or use pieces of it in new free programs; and that you know
you can

To protect your rights, we need to make restrictions that forbid anyone to
deny

translate to certain responsibilities for you if you distribute copies of
the

For example, if you distribute copies of such a program, whether gratis or

make

We protect your rights with two steps: (1) copyright the software, and (2)

Also, for each author's protection and ours, we want to make certain that

Finally, any free program is threatened constantly by software patents. We wish
to avoid the danger that redistributors of a free program will individually
obtain patent licenses, in effect making the program proprietary. To prevent
this, we have made it clear that any patent must be licensed for everyone's free
use or not licensed at all.
The precise terms and conditions for copying, distribution and modification
follow.
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
  1.  This License applies to any program or other work which contains a notice
    placed by the copyright holder saying it may be distributed under the terms
    of this General Public License. The "Program", below, refers to any such
    program or work, and a "work based on the Program" means either the Program
    or any derivative work under copyright law: that is to say, a work containing
    the Program or a portion of it, either verbatim or with modifications and/or
    translated into another language. (Hereinafter, translation is included
    without limitation in the term "modification".) Each licensee is addressed as
    "you".
    Activities other than copying, distribution and modification are not covered
    by this License; they are outside its scope. The act of running the Program
    is not restricted, and the output from the Program is covered only if its
    contents constitute a work based on the Program (independent of having been
    made by running the Program). Whether that is true depends on what the
    Program does.
  2. You may copy and distribute verbatim copies of the Program's source code as
    you receive it, in any medium, provided that you conspicuously and
    appropriately publish on each copy an appropriate copyright notice and
    disclaimer of warranty; keep intact all the notices that refer to this
    License and to the absence of any warranty; and give any other recipients of
    the Program a copy of this License along with the Program.
    You may charge a fee for the physical act of transferring a copy, and you may
    at your option offer warranty protection in exchange for a fee.

   3. You may modify your copy or copies of the Program or any portion of
it, thus
      forming a work based on the Program, and copy and distribute such
      modifications or work under the terms of Section 1 above, provided
that you
      also meet all of these conditions:
        a. You must cause the modified files to carry prominent notices
stating
           that you changed the files and the date of any change.
        b.  You must cause any work that you distribute or publish, that in
whole
           or in part contains or is derived from the Program or any part
thereof,
           to be licensed as a whole at no charge to all third parties under
the
           terms of this License.
        c. If the modified program normally reads commands interactively
when run,
           you must cause it, when started running for such interactive use
in the
           most ordinary way, to print or display an announcement including
an
           appropriate copyright notice and a notice that there is no
warranty (or
           else, saying that you provide a warranty) and that users may
redistribute
           the program under these conditions, and telling the user how to
view a
           copy of this License. (Exception: if the Program itself is
interactive
           but does not normally print such an announcement, your work based
on the
           Program is not required to print an announcement.)
      These requirements apply to the modified work as a whole. If
identifiable
      sections of that work are not derived from the Program, and can be
reasonably
      considered independent and separate works in themselves, then this
License,
      and its terms, do not apply to those sections when you distribute them
as
      separate works. But when you distribute the same sections as part of a
whole
      which is a work based on the Program, the distribution of the whole
must be
      on the terms of this License, whose permissions for other licensees
extend to
      the entire whole, and thus to each and every part regardless of who
wrote it.
      Thus, it is not the intent of this section to claim rights or contest
your
      rights to work written entirely by you; rather, the intent is to
exercise the

right to control the distribution of derivative or collective works based on
the Program.
In addition, mere aggregation of another work not based on the Program with
the Program (or with a work based on the Program) on a volume of a storage or
distribution medium does not bring the other work under the scope of this
License.
  4. You may copy and distribute the Program (or a work based on it, under
    Section 2) in object code or executable form under the terms of Sections 1
    and 2 above provided that you also do one of the following:
      a. Accompany it with the complete corresponding machine-readable source
        code, which must be distributed under the terms of Sections 1 and 2 above
        on a medium customarily used for software interchange; or,
      b. Accompany it with a written offer, valid for at least three years, to
        give any third party, for a charge no more than your cost of physically
        performing source distribution, a complete machine-readable copy of the
        corresponding source code, to be distributed under the terms of Sections
        1 and 2 above on a medium customarily used for software interchange; or,
      c. Accompany it with the information you received as to the offer to
        distribute corresponding source code. (This alternative is allowed only
        for noncommercial distribution and only if you received the program in
        object code or executable form with such an offer, in accord with
        Subsection b above.)
    The source code for a work means the preferred form of the work for making
    modifications to it. For an executable work, complete source code means all
    the source code for all modules it contains, plus any associated interface
    definition files, plus the scripts used to control compilation and
    installation of the executable. However, as a special exception, the source
    code distributed need not include anything that is normally distributed (in
    either source or binary form) with the major components (compiler, kernel,
    and so on) of the operating system on which the executable runs, unless that
    component itself accompanies the executable.

**December 2022**

     If distribution of executable or object code is made by offering
access to
     copy from a designated place, then offering equivalent access to copy
the
     source code from the same place counts as distribution of the source
code,
     even though third parties are not compelled to copy the source along
with the
     object code.
  5. You may not copy, modify, sublicense, or distribute the Program
except as
     expressly provided under this License. Any attempt otherwise to copy,
modify,
     sublicense or distribute the Program is void, and will automatically
     terminate your rights under this License. However, parties who have
received
     copies, or rights, from you under this License will not have their
licenses
     terminated so long as such parties remain in full compliance.
  6. You are not required to accept this License, since you have not
signed it.
     However, nothing else grants you permission to modify or distribute
the
     Program or its derivative works. These actions are prohibited by law
if you
     do not accept this License. Therefore, by modifying or distributing
the
     Program (or any work based on the Program), you indicate your
acceptance of
     this License to do so, and all its terms and conditions for copying,
     distributing or modifying the Program or works based on it.
  7. Each time you redistribute the Program (or any work based on the
Program),
     the recipient automatically receives a license from the original
licensor to
     copy, distribute or modify the Program subject to these terms and
conditions.
     You may not impose any further restrictions on the recipients'
exercise of
     the rights granted herein. You are not responsible for enforcing
compliance
     by third parties to this License.
  8. If, as a consequence of a court judgment or allegation of patent
     infringement or for any other reason (not limited to patent issues),
     conditions are imposed on you (whether by court order, agreement or
     otherwise) that contradict the conditions of this License, they do not
excuse
     you from the conditions of this License. If you cannot distribute so
as to
     satisfy simultaneously your obligations under this License and any
other
     pertinent obligations, then as a consequence you may not distribute
the

Program at all. For example, if a patent license would not permit
royalty-free redistribution of the Program by all those who receive
copies
directly or indirectly through you, then the only way you could
satisfy both
it and this License would be to refrain entirely from distribution of
the
Program.
If any portion of this section is held invalid or unenforceable under
any
particular circumstance, the balance of the section is intended to
apply and
the section as a whole is intended to apply in other circumstances.
It is not the purpose of this section to induce you to infringe any
patents
or other property right claims or to contest validity of any such
claims;
this section has the sole purpose of protecting the integrity of the
free
software distribution system, which is implemented by public license
practices. Many people have made generous contributions to the wide
range of
software distributed through that system in reliance on consistent
application of that system; it is up to the author/donor to decide if
he or
she is willing to distribute software through any other system and a
licensee
cannot impose that choice.
This section is intended to make thoroughly clear what is believed to
be a
consequence of the rest of this License.
  9. If the distribution and/or use of the Program is restricted in
certain
    countries either by patents or by copyrighted interfaces, the original
    copyright holder who places the Program under this License may add an
    explicit geographical distribution limitation excluding those
countries, so
    that distribution is permitted only in or among countries not thus
excluded.
    In such case, this License incorporates the limitation as if written
in the
    body of this License.
  10. The Free Software Foundation may publish revised and/or new versions
of the
    General Public License from time to time. Such new versions will be
similar
    in spirit to the present version, but may differ in detail to address
new
    problems or concerns.
    Each version is given a distinguishing version number. If the Program
    specifies a version number of this License which applies to it and
"any later

version", you have the option of following the terms and conditions either of
   that version or of any later version published by the Free Software
   Foundation. If the Program does not specify a version number of this License,
   you may choose any version ever published by the Free Software Foundation.
  11. If you wish to incorporate parts of the Program into other free programs
   whose distribution conditions are different, write to the author to ask for
   permission. For software which is copyrighted by the Free Software
   Foundation, write to the Free Software Foundation; we sometimes make
   exceptions for this. Our decision will be guided by the two goals of
   preserving the free status of all derivatives of our free software and of
   promoting the sharing and reuse of software generally.
   NO WARRANTY
  12. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR
   THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE
   STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE
   PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED,
   INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND
   FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND
   PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE,
   YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
  13. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL
   ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE
   THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY
   GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE
   OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR
   DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR
   A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH
   HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
   END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Programs
If you develop a new program, and you want it to be of the greatest possible use

to the public, the best way to achieve this is to make it free software which
everyone can redistribute and change under these terms.
To do so, attach the following notices to the program. It is safest to attach
them to the start of each source file to most effectively convey the exclusion of
warranty; and each file should have at least the "copyright" line and a pointer
to where the full notice is found.
one line to give the program's name and a brief idea of what it does.Copyright (C)
This program is free software; you can redistribute it and/or
modify it under the terms of the GNU General Public License
as published by the Free Software Foundation; either version 2
of the License, or (at your option) any later version.
This program is distributed in the hope that it will be useful,
but WITHOUT ANY WARRANTY; without even the implied warranty of
MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the
GNU General Public License for more details.
You should have received a copy of the GNU General Public License
along with this program; if not, write to the Free Software
Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA
Also add information on how to contact you by electronic and paper mail.
If the program is interactive, make it output a short notice like this when it
starts in an interactive mode:
Gnomovision version 69, Copyright (C) year name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details
type `show w'. This is free software, and you are welcome
to redistribute it under certain conditions; type `show c'
for details.
The hypothetical commands `show w' and `show c' should show the appropriate parts
of the General Public License. Of course, the commands you use may be called
something other than `show w' and `show c'; they could even be mouse-clicks or
menu items--whatever suits your program.
You should also get your employer (if you work as a programmer) or your school,
if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a
sample; alter the names:
Yoyodyne, Inc., hereby disclaims all copyright
interest in the program `Gnomovision'
(which makes passes at compilers) written
by James Hacker.
signature of Ty Coon, 1 April 1989
Ty Coon, President of Vice
This General Public License does not permit incorporating your program into

proprietary programs. If your program is a subroutine library, you may consider
it more useful to permit linking proprietary applications with the library. If
this is what you want to do, use the GNU Library General Public License instead
of this License.

The regular expression support is based on Henry Spencer's POSIX 1003.2 compliant
regex package that has "Copyright 1992, 1993, 1994 Henry Spencer. All rights

The textfmt program is distantly related to the lptops program written by Nelson

Independent JPEG Group License
(libjpeg 2.0.6, libjpeg-turbo 1.5.3)

In plain English:
1. We don't promise that this software works.  (But if you find any bugs,
   please let us know!)
2. You can use this software for whatever you want.  You don't have to pay
us.
3. You may not pretend that you wrote this software.  If you use it in a
   program, you must acknowledge somewhere in your documentation that
   you've used the IJG code.
In legalese:
The authors make NO WARRANTY or representation, either express or implied,
with respect to this software, its quality, accuracy, merchantability, or
fitness for a particular purpose.  This software is provided "AS IS", and
you,
its user, assume the entire risk as to its quality and accuracy.
This software is copyright (C) 1991-1998, Thomas G. Lane.
All Rights Reserved except as specified below.
Permission is hereby granted to use, copy, modify, and distribute this
software (or portions thereof) for any purpose, without fee, subject to
these
conditions:
(1) If any part of the source code for this software is distributed, then
this
README file must be included, with this copyright and no-warranty notice
unaltered; and any additions, deletions, or changes to the original files
must be clearly indicated in accompanying documentation.
(2) If only executable code is distributed, then the accompanying
documentation must state that "this software is based in part on the work
of
the Independent JPEG Group".
(3) Permission for use of this software is granted only if the user
accepts
full responsibility for any undesirable consequences; the authors accept
NO LIABILITY for damages of any kind.

These conditions apply to any software derived from or based on the IJG code,
not just to the unmodified library.  If you use our work, you ought to acknowledge us.
Permission is NOT granted for the use of any IJG author's name or company name
in advertising or publicity relating to this software or products derived from
it.  This software may be referred to only as "the Independent JPEG Group's
software".
We specifically permit and encourage the use of this software as the basis of
commercial products, provided that all warranty or liability claims are assumed by the product vendor.
ansi2knr.c is included in this distribution by permission of L. Peter Deutsch,
sole proprietor of its copyright holder, Aladdin Enterprises of Menlo Park, CA.
ansi2knr.c is NOT covered by the above copyright and conditions, but instead
by the usual distribution terms of the Free Software Foundation; principally,
that you must include source code if you redistribute it.  (See the file
ansi2knr.c for full details.)  However, since ansi2knr.c is not needed as part
of any program generated from the IJG code, this does not limit you more than
the foregoing paragraphs do.
The Unix configuration script "configure" was produced with GNU Autoconf.
It is copyright by the Free Software Foundation but is freely distributable.
The same holds for its supporting scripts (config.guess, config.sub,
ltconfig, ltmain.sh).  Another support script, install-sh, is copyright
by M.I.T. but is also freely distributable.
It appears that the arithmetic coding option of the JPEG spec is covered by
patents owned by IBM, AT&T, and Mitsubishi.  Hence arithmetic coding cannot
legally be used without obtaining one or more licenses.  For this reason,
support for arithmetic coding has been removed from the free JPEG software.
(Since arithmetic coding provides only a marginal gain over the unpatented
Huffman mode, it is unlikely that very many implementations will support it.)
So far as we are aware, there are no patent restrictions on the remaining code.
The IJG distribution formerly included code to read and write GIF files.
To avoid entanglement with the Unisys LZW patent, GIF reading support has
been removed altogether, and the GIF writer has been simplified to produce
"uncompressed GIFs".  This technique does not use the LZW algorithm; the
resulting GIF files are larger than usual, but are readable by all standard

GIF decoders.
We are required to state that
    "The Graphics Interchange Format(c) is the Copyright property of
    CompuServe Incorporated.  GIF(sm) is a Service Mark property of
    CompuServe Incorporated."

of the

   normal SFX banner has not been removed from the binary or disabled.

 3.  Altered versions--including, but not limited to, ports to new operating

   or added functionality, and dynamic, shared, or static library versions not

   from Info-ZIP--must be plainly marked as such and must not be misrepresented

   as being the original source or, if binaries, compiled from the original

   source. Such altered versions also must not be misrepresented as being

   Info-ZIP releases--including, but not limited to, labeling of the altered

   versions with the names "Info-ZIP" (or any variation thereof, including, but

 4.  Info-ZIP retains the right to use the names "Info-ZIP," "Zip," "UnZip,"

   "UnZipSFX," "WiZ," "Pocket UnZip," "Pocket Zip," and "MacZip" for its own

Mozilla Public License 1.0
(EXPath HTTP Client Saxon Implementation 1.4.1, java-1_8_0-openj9-headless
1.8.0.292)

Mozilla Public License Version 1.0
==================================
1. Definitions.
  1.1. "Contributor" means each entity that creates or contributes to the
  creation of Modifications.
  1.2. "Contributor Version" means the combination of the Original Code,
prior
  Modifications used by a Contributor, and the Modifications made by that
  particular Contributor.
  1.3. "Covered Code" means the Original Code or Modifications or the
combination
  of the Original Code and Modifications, in each case including portions
  thereof.

**December 2022**

1.4. "Electronic Distribution Mechanism" means a mechanism generally accepted
  in the software development community for the electronic transfer of data.
  1.5. "Executable" means Covered Code in any form other than Source Code.
  1.6. "Initial Developer" means the individual or entity identified as the
  Initial Developer in the Source Code notice required by Exhibit A.
  1.7. "Larger Work" means a work which combines Covered Code or portions thereof
  with code not governed by the terms of this License.
  1.8. "License" means this document.
  1.9. "Modifications" means any addition to or deletion from the substance or
  structure of either the Original Code or any previous Modifications. When
  Covered Code is released as a series of files, a Modification is:
    A. Any addition to or deletion from the contents of a file containing
    Original Code or previous Modifications.
    B. Any new file that contains any part of the Original Code or previous
    Modifications.
  1.10. "Original Code" means Source Code of computer software code which is
  described in the Source Code notice required by Exhibit A as Original
Code, and
  which, at the time of its release under this License is not already Covered
  Code governed by this License.
  1.11. "Source Code" means the preferred form of the Covered Code for making
  modifications to it, including all modules it contains, plus any associated
  interface definition files, scripts used to control compilation and
  installation of an Executable, or a list of source code differential
  comparisons against either the Original Code or another well known, available
  Covered Code of the Contributor's choice. The Source Code can be in a
  compressed or archival form, provided the appropriate decompression or
  de-archiving software is widely available for no charge.
  1.12. "You" means an individual or a legal entity exercising rights under, and
  complying with all of the terms of, this License or a future version of this
  License issued under Section 6.1. For legal entities, "You" includes any entity
  which controls, is controlled by, or is under common control with You. For
  purposes of this definition, "control" means (a) the power, direct or indirect,
  to cause the direction or management of such entity, whether by contract or

otherwise, or (b) ownership of fifty percent (50%) or more of the
outstanding
  shares or beneficial ownership of such entity.
2. Source Code License.
  2.1. The Initial Developer Grant.
  The Initial Developer hereby grants You a world-wide, royalty-free,
  non-exclusive license, subject to third party intellectual property
claims:
    (a) to use, reproduce, modify, display, perform, sublicense and
distribute
    the Original Code (or portions thereof) with or without Modifications,
or as
    part of a Larger Work; and
    (b) under patents now or hereafter owned or controlled by Initial
Developer,
    to make, have made, use and sell ("Utilize") the Original Code (or
portions
    thereof), but solely to the extent that any such patent is reasonably
    necessary to enable You to Utilize the Original Code (or portions
thereof)
    and not to any greater extent that may be necessary to Utilize further
    Modifications or combinations.
  2.2. Contributor Grant.
  Each Contributor hereby grants You a world-wide, royalty-free, non-
exclusive
  license, subject to third party intellectual property claims:
    (a) to use, reproduce, modify, display, perform, sublicense and
distribute
    the Modifications created by such Contributor (or portions thereof)
either on
    an unmodified basis, with other Modifications, as Covered Code or as
part of
    a Larger Work; and
    (b) under patents now or hereafter owned or controlled by Contributor,
to
    Utilize the Contributor Version (or portions thereof), but solely to
the
    extent that any such patent is reasonably necessary to enable You to
Utilize
    the Contributor Version (or portions thereof), and not to any greater
extent
    that may be necessary to Utilize further Modifications or
combinations.
3. Distribution Obligations.
  3.1. Application of License.
  The Modifications which You create or to which You contribute are
governed by
  the terms of this License, including without limitation Section 2.2. The
Source
  Code version of Covered Code may be distributed only under the terms of
this
  License or a future version of this License released under Section 6.1,
and You

   must include a copy of this License with every copy of the Source Code
You
   distribute. You may not offer or impose any terms on any Source Code
version
   that alters or restricts the applicable version of this License or the
   recipients' rights hereunder. However, You may include an additional
document
   offering the additional rights described in Section 3.5.
   3.2. Availability of Source Code.
   Any Modification which You create or to which You contribute must be
made
   available in Source Code form under the terms of this License either on
the
   same media as an Executable version or via an accepted Electronic
Distribution
   Mechanism to anyone to whom you made an Executable version available;
and if
   made available via Electronic Distribution Mechanism, must remain
available for
   at least twelve (12) months after the date it initially became
available, or at
   least six (6) months after a subsequent version of that particular
Modification
   has been made available to such recipients. You are responsible for
ensuring
   that the Source Code version remains available even if the Electronic
   Distribution Mechanism is maintained by a third party.
   3.3. Description of Modifications.
   You must cause all Covered Code to which you contribute to contain a
file
   documenting the changes You made to create that Covered Code and the
date of
   any change. You must include a prominent statement that the Modification
is
   derived, directly or indirectly, from Original Code provided by the
Initial
   Developer and including the name of the Initial Developer in (a) the
Source
   Code, and (b) in any notice in an Executable version or related
documentation
   in which You describe the origin or ownership of the Covered Code.
   3.4. Intellectual Property Matters
     (a) Third Party Claims.
     If You have knowledge that a party claims an intellectual property
right in
     particular functionality or code (or its utilization under this
License), you
     must include a text file with the source code distribution titled
"LEGAL"
     which describes the claim and the party making the claim in sufficient
detail
     that a recipient will know whom to contact. If you obtain such
knowledge

after You make Your Modification available as described in Section
3.2, You
   shall promptly modify the LEGAL file in all copies You make available
   thereafter and shall take other steps (such as notifying appropriate
mailing
   lists or newsgroups) reasonably calculated to inform those who
received the
   Covered Code that new knowledge has been obtained.
   (b) Contributor APIs.
   If Your Modification is an application programming interface and You
own or
   control patents which are reasonably necessary to implement that API,
you
   must also include this information in the LEGAL file.
  3.5. Required Notices.
  You must duplicate the notice in Exhibit A in each file of the Source
Code, and
  this License in any documentation for the Source Code, where You
describe
  recipients' rights relating to Covered Code. If You created one or more
  Modification(s), You may add your name as a Contributor to the notice
described
  in Exhibit A. If it is not possible to put such notice in a particular
Source
  Code file due to its structure, then you must include such notice in a
location
   (such as a relevant directory file) where a user would be likely to look
for
  such a notice. You may choose to offer, and to charge a fee for,
warranty,
  support, indemnity or liability obligations to one or more recipients of
  Covered Code. However, You may do so only on Your own behalf, and not on
behalf
  of the Initial Developer or any Contributor. You must make it absolutely
clear
  than any such warranty, support, indemnity or liability obligation is
offered
  by You alone, and You hereby agree to indemnify the Initial Developer
and every
  Contributor for any liability incurred by the Initial Developer or such
  Contributor as a result of warranty, support, indemnity or liability
terms You
   offer.
  3.6. Distribution of Executable Versions.
  You may distribute Covered Code in Executable form only if the
requirements of
  Section 3.1-3.5 have been met for that Covered Code, and if You include
a
  notice stating that the Source Code version of the Covered Code is
available
  under the terms of this License, including a description of how and
where You

have fulfilled the obligations of Section 3.2. The notice must be conspicuously
  included in any notice in an Executable version, related documentation or
  collateral in which You describe recipients' rights relating to the Covered
  Code. You may distribute the Executable version of Covered Code under a license
  of Your choice, which may contain terms different from this License, provided
  that You are in compliance with the terms of this License and that the license
  for the Executable version does not attempt to limit or alter the recipient's
  rights in the Source Code version from the rights set forth in this License. If
  You distribute the Executable version under a different license You must make
  it absolutely clear that any terms which differ from this License are offered
  by You alone, not by the Initial Developer or any Contributor. You hereby agree
  to indemnify the Initial Developer and every Contributor for any liability
  incurred by the Initial Developer or such Contributor as a result of any such
  terms You offer.
  3.7. Larger Works.
  You may create a Larger Work by combining Covered Code with other code not
  governed by the terms of this License and distribute the Larger Work as a
  single product. In such a case, You must make sure the requirements of this
  License are fulfilled for the Covered Code.
4. Inability to Comply Due to Statute or Regulation.
  If it is impossible for You to comply with any of the terms of this License
  with respect to some or all of the Covered Code due to statute or regulation
  then You must: (a) comply with the terms of this License to the maximum extent
  possible; and (b) describe the limitations and the code they affect. Such
  description must be included in the LEGAL file described in Section 3.4 and
  must be included with all distributions of the Source Code. Except to the
  extent prohibited by statute or regulation, such description must be
  sufficiently detailed for a recipient of ordinary skill to be able to
  understand it.
5. Application of this License.

   This License applies to code to which the Initial Developer has attached the
   notice in Exhibit A, and to related Covered Code.
6. Versions of the License.
   6.1. New Versions.
   Netscape Communications Corporation ("Netscape") may publish revised and/or new
   versions of the License from time to time. Each version will be given a
   distinguishing version number.
   6.2. Effect of New Versions.
   Once Covered Code has been published under a particular version of the License,
   You may always continue to use it under the terms of that version. You may also
   choose to use such Covered Code under the terms of any subsequent version of
   the License published by Netscape. No one other than Netscape has the right to
   modify the terms applicable to Covered Code created under this License.
   6.3. Derivative Works.
   If you create or use a modified version of this License (which you may only do
   in order to apply it to code which is not already Covered Code governed by this
   License), you must (a) rename Your license so that the phrases "Mozilla",
   "MOZILLAPL", "MOZPL", "Netscape", "NPL" or any confusingly similar phrase do
   not appear anywhere in your license and (b) otherwise make it clear that your
   version of the license contains terms which differ from the Mozilla Public
   License and Netscape Public License. (Filling in the name of the Initial
   Developer, Original Code or Contributor in the notice described in Exhibit A
   shall not of themselves be deemed to be modifications of this License.)
7. DISCLAIMER OF WARRANTY.
   COVERED CODE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS, WITHOUT
   WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, WITHOUT
   LIMITATION, WARRANTIES THAT THE COVERED CODE IS FREE OF DEFECTS, MERCHANTABLE,
   FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK AS TO THE
   QUALITY AND PERFORMANCE OF THE COVERED CODE IS WITH YOU. SHOULD ANY COVERED
   CODE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR ANY
   OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR
   CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS
   LICENSE. NO USE OF ANY COVERED CODE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS
   DISCLAIMER.

8. TERMINATION.

  This License and the rights granted hereunder will terminate
automatically if

  You fail to comply with terms herein and fail to cure such breach within
30

  days of becoming aware of the breach. All sublicenses to the Covered
Code which

  are properly granted shall survive any termination of this License.
Provisions

  which, by their nature, must remain in effect beyond the termination of
this

  License shall survive.

9. LIMITATION OF LIABILITY.

  UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT
(INCLUDING

  NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL THE INITIAL DEVELOPER, ANY
OTHER

  CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED CODE, OR ANY SUPPLIER OF ANY
OF SUCH

  PARTIES, BE LIABLE TO YOU OR ANY OTHER PERSON FOR ANY INDIRECT, SPECIAL,

  INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT

  LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER
FAILURE OR

  MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF
SUCH

  PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS

  LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR
PERSONAL

  INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE
LAW

  PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION
OR

  LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THAT EXCLUSION AND

  LIMITATION MAY NOT APPLY TO YOU.

10. U.S. GOVERNMENT END USERS.

  The Covered Code is a "commercial item," as that term is defined in 48
C.F.R.

  2.101 (Oct. 1995), consisting of "commercial computer software" and
"commercial

  computer software documentation," as such terms are used in 48 C.F.R.
12.212

  (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1
through

  227.7202-4 (June 1995), all U.S. Government End Users acquire Covered
Code with

  only those rights set forth herein.

11. MISCELLANEOUS.

  This License represents the complete agreement concerning subject matter

  hereof. If any provision of this License is held to be unenforceable,
such

  provision shall be reformed only to the extent necessary to make it

  enforceable. This License shall be governed by California law provisions

(except to the extent applicable law, if any, provides otherwise), excluding
  its conflict-of-law provisions. With respect to disputes in which at least one
  party is a citizen of, or an entity chartered or registered to do business in,
  the United States of America: (a) unless otherwise agreed in writing, all
  disputes relating to this License (excepting any dispute relating to
  intellectual property rights) shall be subject to final and binding
  arbitration, with the losing party paying all costs of arbitration; (b) any
  arbitration relating to this Agreement shall be held in Santa Clara County,
  California, under the auspices of JAMS/EndDispute; and (c) any litigation
  relating to this Agreement shall be subject to the jurisdiction of the Federal
  Courts of the Northern District of California, with venue lying in Santa Clara
  County, California, with the losing party responsible for costs, including
  without limitation, court costs and reasonable attorneys fees and expenses. The
  application of the United Nations Convention on Contracts for the International
  Sale of Goods is expressly excluded. Any law or regulation which provides that
  the language of a contract shall be construed against the drafter shall not
  apply to this License.
12. RESPONSIBILITY FOR CLAIMS.
  Except in cases where another Contributor has failed to comply with Section 3.4,
  You are responsible for damages arising, directly or indirectly, out of Your
  utilization of rights under this License, based on the number of copies of
  Covered Code you made available, the revenues you received from utilizing such
  rights, and other relevant factors. You agree to work with affected parties to
  distribute responsibility on an equitable basis.

```

possible, whether at the time of the initial grant or subsequently

1.9. ''Modifications'' means any addition to or deletion from the
substance or
structure of either the Original Code or any previous Modifications.
When
Covered Code is released as a series of files, a Modification is:
A. Any addition to or deletion from the contents of a file containing
Original Code or previous Modifications.
B. Any new file that contains any part of the Original Code or
previous
Modifications.
1.10. ''Original Code'' means Source Code of computer software code
which is
described in the Source Code notice required by Exhibit A as Original
Code, and
which, at the time of its release under this License is not already
Covered
Code governed by this License.
1.10.1. "Patent Claims" means any patent claim(s), now owned or
hereafter
acquired, including without limitation,  method, process, and apparatus
claims,
in any patent Licensable by grantor.
1.11. ''Source Code'' means the preferred form of the Covered Code for
making
modifications to it, including all modules it contains, plus any
associated
interface definition files, scripts used to control compilation and
installation of an Executable, or source code differential comparisons
against
either the Original Code or another well known, available Covered Code
of the
Contributor's choice. The Source Code can be in a compressed or archival
form,
provided the appropriate decompression or de-archiving software is
widely
available for no charge.
1.12. "You'' (or "Your") means an individual or a legal entity
exercising
rights under, and complying with all of the terms of, this License or a
future
version of this License issued under Section 6.1. For legal entities,

control with You. For purposes of this definition, "control'' means (a)
the
power, direct or indirect, to cause the direction or management of such

2. Source Code License.
  2.1. The Initial Developer Grant. The Initial Developer hereby grants
You a
  world-wide, royalty-free, non-exclusive license, subject to third party
  intellectual property claims:
    (a) under intellectual property rights (other than patent or
trademark)
    Licensable by Initial Developer to use, reproduce, modify, display,
perform,
    sublicense and distribute the Original Code (or portions thereof) with
or
    without Modifications, and/or as part of a Larger Work; and
    (b) under Patents Claims infringed by the making, using or selling of
    Original Code, to make, have made, use, practice, sell, and offer for
sale,
    and/or otherwise dispose of the Original Code (or portions thereof).

    (c) the licenses granted in this Section 2.1(a) and (b) are effective
on the
    date Initial Developer first distributes Original Code under the terms
of
    this License.
    (d) Notwithstanding Section 2.1(b) above, no patent license is
granted: 1)
    for code that You delete from the Original Code; 2) separate from the
    Original Code;  or 3) for infringements caused by: i) the modification
of the
    Original Code or ii) the combination of the Original Code with other
software
    or devices.
  2.2. Contributor Grant. Subject to third party intellectual property
claims,
  each Contributor hereby grants You a world-wide, royalty-free, non-
exclusive
  license
      (a) under intellectual property rights (other than patent or
trademark)
    Licensable by Contributor, to use, reproduce, modify, display,
perform,
    sublicense and distribute the Modifications created by such
Contributor (or
    portions thereof) either on an unmodified basis, with other
Modifications, as
    Covered Code and/or as part of a Larger Work; and
    (b) under Patent Claims infringed by the making, using, or selling of
    Modifications made by that Contributor either alone and/or in
combination
    with its Contributor Version (or portions of such combination), to
make, use,
    sell, offer for sale, have made, and/or otherwise dispose of: 1)
    Modifications made by that Contributor (or portions thereof); and 2)
the
```

combination of  Modifications made by that Contributor with its Contributor
    Version (or portions of such combination).
    (c) the licenses granted in Sections 2.2(a) and 2.2(b) are effective on the
    date Contributor first makes Commercial Use of the Covered Code.
    (d)    Notwithstanding Section 2.2(b) above, no patent license is granted: 1)
    for any code that Contributor has deleted from the Contributor Version; 2)
    separate from the Contributor Version;  3)  for infringements caused by: i)
    third party modifications of Contributor Version or ii)  the combination of
    Modifications made by that Contributor with other software  (except as part
    of the Contributor Version) or other devices; or 4) under Patent Claims
    infringed by Covered Code in the absence of Modifications made by that
    Contributor.
3. Distribution Obligations.
  3.1. Application of License. The Modifications which You create or to which You
  contribute are governed by the terms of this License, including without
  limitation Section 2.2. The Source Code version of Covered Code may be
  distributed only under the terms of this License or a future version of this
  License released under Section 6.1, and You must include a copy of this License
  with every copy of the Source Code You distribute. You may not offer or impose
  any terms on any Source Code version that alters or restricts the applicable
  version of this License or the recipients' rights hereunder. However, You may
  include an additional document offering the additional rights described in
  Section 3.5.
  3.2. Availability of Source Code. Any Modification which You create or to which
  You contribute must be made available in Source Code form under the terms of
  this License either on the same media as an Executable version or via an
  accepted Electronic Distribution Mechanism to anyone to whom you made an
  Executable version available; and if made available via Electronic Distribution
  Mechanism, must remain available for at least twelve (12) months after the date
  it initially became available, or at least six (6) months after a subsequent
  version of that particular Modification has been made available to such
  recipients. You are responsible for ensuring that the Source Code version

remains available even if the Electronic Distribution Mechanism is maintained
  by a third party.
  3.3. Description of Modifications. You must cause all Covered Code to which You
  contribute to contain a file documenting the changes You made to create that
  Covered Code and the date of any change. You must include a prominent statement
  that the Modification is derived, directly or indirectly, from Original Code
  provided by the Initial Developer and including the name of the Initial
  Developer in (a) the Source Code, and (b) in any notice in an Executable
  version or related documentation in which You describe the origin or ownership
  of the Covered Code.
  3.4. Intellectual Property Matters
     (a) Third Party Claims. If Contributor has knowledge that a license under a
     third party's intellectual property rights is required to exercise the rights
     granted by such Contributor under Sections 2.1 or 2.2, Contributor must
     include a text file with the Source Code distribution titled "LEGAL'' which
     describes the claim and the party making the claim in sufficient detail that
     a recipient will know whom to contact. If Contributor obtains such knowledge
     after the Modification is made available as described in Section 3.2,
     Contributor shall promptly modify the LEGAL file in all copies Contributor
     makes available thereafter and shall take other steps (such as notifying
     appropriate mailing lists or newsgroups) reasonably calculated to inform
     those who received the Covered Code that new knowledge has been obtained.
     (b) Contributor APIs. If Contributor's Modifications include an application
     programming interface and Contributor has knowledge of patent licenses which
     are reasonably necessary to implement that API, Contributor must also include
     this information in the LEGAL file.
            (c)    Representations.
     Contributor represents that, except as disclosed pursuant to Section 3.4(a)
     above, Contributor believes that Contributor's Modifications are
     Contributor's original creation(s) and/or Contributor has sufficient rights
     to grant the rights conveyed by this License.

**December 2022**

  3.5. Required Notices. You must duplicate the notice in Exhibit A in each file
  of the Source Code.  If it is not possible to put such notice in a particular
  Source Code file due to its structure, then You must include such notice in a
  location (such as a relevant directory) where a user would be likely to look
  for such a notice.  If You created one or more Modification(s) You may add your
  name as a Contributor to the notice described in Exhibit A.  You must also
  duplicate this License in any documentation for the Source Code where You
  describe recipients' rights or ownership rights relating to Covered Code.  You
  may choose to offer, and to charge a fee for, warranty, support, indemnity or
  liability obligations to one or more recipients of Covered Code. However, You
  may do so only on Your own behalf, and not on behalf of the Initial Developer
  or any Contributor. You must make it absolutely clear than any such warranty,
  support, indemnity or liability obligation is offered by You alone, and You
  hereby agree to indemnify the Initial Developer and every Contributor for any
  liability incurred by the Initial Developer or such Contributor as a result of
  warranty, support, indemnity or liability terms You offer.
  3.6. Distribution of Executable Versions. You may distribute Covered Code in
  Executable form only if the requirements of Section 3.1-3.5 have been met for
  that Covered Code, and if You include a notice stating that the Source Code
  version of the Covered Code is available under the terms of this License,
  including a description of how and where You have fulfilled the obligations of
  Section 3.2. The notice must be conspicuously included in any notice in an
  Executable version, related documentation or collateral in which You describe
  recipients' rights relating to the Covered Code. You may distribute the
  Executable version of Covered Code or ownership rights under a license of Your
  choice, which may contain terms different from this License, provided that You
  are in compliance with the terms of this License and that the license for the

                                           **December 2022**

Executable version does not attempt to limit or alter the recipient's rights in
the Source Code version from the rights set forth in this License. If You
distribute the Executable version under a different license You must make it
absolutely clear that any terms which differ from this License are offered by
You alone, not by the Initial Developer or any Contributor. You hereby agree to
indemnify the Initial Developer and every Contributor for any liability
incurred by the Initial Developer or such Contributor as a result of any such
terms You offer.
3.7. Larger Works. You may create a Larger Work by combining Covered Code with
other code not governed by the terms of this License and distribute the Larger
Work as a single product. In such a case, You must make sure the requirements
of this License are fulfilled for the Covered Code.
4. Inability to Comply Due to Statute or Regulation.
If it is impossible for You to comply with any of the terms of this License
with respect to some or all of the Covered Code due to statute, judicial order,
or regulation then You must: (a) comply with the terms of this License to the
maximum extent possible; and (b) describe the limitations and the code they
affect. Such description must be included in the LEGAL file described in
Section 3.4 and must be included with all distributions of the Source Code.
Except to the extent prohibited by statute or regulation, such description must
be sufficiently detailed for a recipient of ordinary skill to be able to
understand it.
5. Application of this License.
This License applies to code to which the Initial Developer has attached the
notice in Exhibit A and to related Covered Code.
6. Versions of the License.
6.1. New Versions. Netscape Communications Corporation (''Netscape'') may
publish revised and/or new versions of the License from time to time. Each
version will be given a distinguishing version number.
6.2. Effect of New Versions. Once Covered Code has been published under a
particular version of the License, You may always continue to use it under the
terms of that version. You may also choose to use such Covered Code under the

terms of any subsequent version of the License published by Netscape. No one
  other than Netscape has the right to modify the terms applicable to Covered
  Code created under this License.
  6.3. Derivative Works. If You create or use a modified version of this License
  (which you may only do in order to apply it to code which is not already
  Covered Code governed by this License), You must (a) rename Your license so
  that the phrases ''Mozilla'', ''MOZILLAPL'', ''MOZPL'', ''Netscape'', "MPL",
  ''NPL'' or any confusingly similar phrase do not appear in your license (except
  to note that your license differs from this License) and (b) otherwise make it
  clear that Your version of the license contains terms which differ from the
  Mozilla Public License and Netscape Public License. (Filling in the name of the
  Initial Developer, Original Code or Contributor in the notice described in
  Exhibit A shall not of themselves be deemed to be modifications of this
  License.)
7. DISCLAIMER OF WARRANTY. COVERED CODE IS PROVIDED UNDER THIS LICENSE ON AN "AS
IS'' BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING,
WITHOUT LIMITATION, WARRANTIES THAT THE COVERED CODE IS FREE OF DEFECTS,
MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGING. THE ENTIRE RISK AS
TO THE QUALITY AND PERFORMANCE OF THE COVERED CODE IS WITH YOU. SHOULD ANY
COVERED CODE PROVE DEFECTIVE IN ANY RESPECT, YOU (NOT THE INITIAL DEVELOPER OR
ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR
CORRECTION. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS
LICENSE. NO USE OF ANY COVERED CODE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS
DISCLAIMER. 8. TERMINATION.
  8.1.  This License and the rights granted hereunder will terminate
  automatically if You fail to comply with terms herein and fail to cure such
  breach within 30 days of becoming aware of the breach. All sublicenses to the
  Covered Code which are properly granted shall survive any termination of this
  License. Provisions which, by their nature, must remain in effect beyond the
  termination of this License shall survive.
  8.2.  If You initiate litigation by asserting a patent infringement claim

(excluding declatory judgment actions) against Initial Developer or a
Contributor (the Initial Developer or Contributor against whom You file such
action is referred to as "Participant")  alleging that:
 (a)  such Participant's Contributor Version directly or indirectly infringes
any patent, then any and all rights granted by such Participant to You under
Sections 2.1 and/or 2.2 of this License shall, upon 60 days notice from
Participant terminate prospectively, unless if within 60 days after receipt of
notice You either: (i)  agree in writing to pay Participant a mutually
agreeable reasonable royalty for Your past and future use of Modifications made
by such Participant, or (ii) withdraw Your litigation claim with respect to the
Contributor Version against such Participant.  If within 60 days of notice, a
reasonable royalty and payment arrangement are not mutually agreed upon in
writing by the parties or the litigation claim is not withdrawn, the rights
granted by Participant to You under Sections 2.1 and/or 2.2 automatically
terminate at the expiration of the 60 day notice period specified above.
 (b)  any software, hardware, or device, other than such Participant's
Contributor Version, directly or indirectly infringes any patent, then any
rights granted to You by such Participant under Sections 2.1(b) and 2.2(b) are
revoked effective as of the date You first made, used, sold, distributed, or
had made, Modifications made by that Participant.
 8.3.  If You assert a patent infringement claim against Participant alleging
that such Participant's Contributor Version directly or indirectly infringes
any patent where such claim is resolved (such as by license or settlement)
prior to the initiation of patent infringement litigation, then the reasonable
value of the licenses granted by such Participant under Sections 2.1 or 2.2
shall be taken into account in determining the amount or value of any payment
or license.
 8.4.  In the event of termination under Sections 8.1 or 8.2 above,  all end
user license agreements (excluding distributors and resellers) which have been
validly granted by You or any distributor hereunder prior to termination shall
survive termination.

9. LIMITATION OF LIABILITY. UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY,
WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL YOU, THE
INITIAL DEVELOPER, ANY OTHER CONTRIBUTOR, OR ANY DISTRIBUTOR OF COVERED CODE, OR
ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT,
SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT
LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR
MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH
PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS
LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY
RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS
SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF
INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT
APPLY TO YOU. 10. U.S. GOVERNMENT END USERS.
  The Covered Code is a ''commercial item,'' as that term is defined in 48 C.F.R.
  2.101 (Oct. 1995), consisting of ''commercial computer software'' and
  ''commercial computer software documentation,'' as such terms are used in 48
  C.F.R. 12.212 (Sept. 1995). Consistent with 48 C.F.R. 12.212 and 48 C.F.R.
  227.7202-1 through 227.7202-4 (June 1995), all U.S. Government End Users
  acquire Covered Code with only those rights set forth herein.
11. MISCELLANEOUS.
  This License represents the complete agreement concerning subject matter
  hereof. If any provision of this License is held to be unenforceable, such
  provision shall be reformed only to the extent necessary to make it
  enforceable. This License shall be governed by California law provisions
  (except to the extent applicable law, if any, provides otherwise), excluding
  its conflict-of-law provisions. With respect to disputes in which at least one
  party is a citizen of, or an entity chartered or registered to do business in
  the United States of America, any litigation relating to this License shall be
  subject to the jurisdiction of the Federal Courts of the Northern District of
  California, with venue lying in Santa Clara County, California, with the losing
  party responsible for costs, including without limitation, court costs and

December 2022

reasonable attorneys' fees and expenses. The application of the United Nations
   Convention on Contracts for the International Sale of Goods is expressly
   excluded. Any law or regulation which provides that the language of a contract
   shall be construed against the drafter shall not apply to this License.
12. RESPONSIBILITY FOR CLAIMS.
   As between Initial Developer and the Contributors, each party is responsible
   for claims and damages arising, directly or indirectly, out of its utilization
   of rights under this License and You agree to work with Initial Developer and
   Contributors to distribute such responsibility on an equitable basis. Nothing
   herein is intended or shall be deemed to constitute any admission of liability.
13. MULTIPLE-LICENSED CODE.
   Initial Developer may designate portions of the Covered Code as
   Multiple-Licensed.  Multiple-Licensedmeans that the Initial Developer permits
   you to utilize portions of the Covered Code under Your choice of the MPL or the
   alternative licenses, if any, specified by the Initial Developer in the file
   described in Exhibit A.

means
a.
that the initial Contributor has attached the notice described in Exhibit B

or earlier of the License, but not also under the terms of a Secondary
License.

2. License Grants and Conditions
--------------------------------
2.1. Grants
Each Contributor hereby grants You a world-wide, royalty-free, non-
exclusive
license:
a.
under intellectual property rights (other than patent or trademark)
Licensable by such Contributor to use, reproduce, make available,
modify,
display, perform, distribute, and otherwise exploit its
Contributions,
either on an unmodified basis, with Modifications, or as part of a
Larger
Work; and
b.

for sale,
have made, import, and otherwise transfer either its Contributions
or its
Contributor Version.
2.2. Effective Date
The licenses granted in Section 2.1 with respect to any Contribution
become
effective for each Contribution on the date the Contributor first
distributes
such Contribution.
2.3. Limitations on Grant Scope
The licenses granted in this Section 2 are the only rights granted under
this
License. No additional rights or licenses will be implied from the
distribution
or licensing of Covered Software under this License. Notwithstanding
Section 2.1(b) above, no patent license is granted by a Contributor:
a.

for any code that a Contributor has removed from Covered Software;
or
   b.
      for infringements caused by: (i) Your and any other third party's
      modifications of Covered Software, or (ii) the combination of its
      Contributions with other software (except as part of its Contributor
      Version); or
   c.
      under Patent Claims infringed by Covered Software in the absence of
its
      Contributions.
  This License does not grant any rights in the trademarks, service marks,
or
  logos of any Contributor (except as may be necessary to comply with the
notice
  requirements in Section 3.4).
  2.4. Subsequent Licenses
  No Contributor makes additional grants as a result of Your choice to
distribute
  the Covered Software under a subsequent version of this License (see
  Section 10.2) or under the terms of a Secondary License (if permitted
under the
  terms of Section 3.3).
  2.5. Representation
  Each Contributor represents that the Contributor believes its
Contributions are
  its original creation(s) or it has sufficient rights to grant the rights
to its
  Contributions conveyed by this License.
  2.6. Fair Use
  This License is not intended to limit any rights You have under
applicable
  copyright doctrines of fair use, fair dealing, or other equivalents.
  2.7. Conditions
  Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted
in
  Section 2.1.
3. Responsibilities
-------------------
  3.1. Distribution of Source Form
  All distribution of Covered Software in Source Code Form, including any
  Modifications that You create or to which You contribute, must be under
the
  terms of this License. You must inform recipients that the Source Code
Form of
  the Covered Software is governed by the terms of this License, and how
they can
  obtain a copy of this License. You may not attempt to alter or restrict
the
  recipients' rights in the Source Code Form.
  3.2. Distribution of Executable Form
  If You distribute Covered Software in Executable Form then:
   a.

        such Covered Software must also be made available in Source Code
Form, as
        described in Section 3.1, and You must inform recipients of the
Executable
        Form how they can obtain a copy of such Source Code Form by
reasonable
        means in a timely manner, at a charge no more than the cost of
distribution
        to the recipient; and
     b.
        You may distribute such Executable Form under the terms of this
License, or
        sublicense it under different terms, provided that the license for
the
        Executable Form does not attempt to limit or alter the recipients'
rights
        in the Source Code Form under this License.
  3.3. Distribution of a Larger Work
  You may create and distribute a Larger Work under terms of Your choice,
  provided that You also comply with the requirements of this License for
the
  Covered Software. If the Larger Work is a combination of Covered
Software with
  a work governed by one or more Secondary Licenses, and the Covered
Software is
  not Incompatible With Secondary Licenses, this License permits You to
  additionally distribute such Covered Software under the terms of such
Secondary
  License(s), so that the recipient of the Larger Work may, at their
option,
  further distribute the Covered Software under the terms of either this
License
  or such Secondary License(s).
  3.4. Notices
  You may not remove or alter the substance of any license notices
(including
  copyright notices, patent notices, disclaimers of warranty, or
limitations of
  liability) contained within the Source Code Form of the Covered
Software,
  except that You may alter any license notices to the extent required to
remedy
  known factual inaccuracies.
  3.5. Application of Additional Terms
  You may choose to offer, and to charge a fee for, warranty, support,
indemnity
  or liability obligations to one or more recipients of Covered Software.
  However, You may do so only on Your own behalf, and not on behalf of any
  Contributor. You must make it absolutely clear that any such warranty,
support,
  indemnity, or liability obligation is offered by You alone, and You
hereby
  agree to indemnify every Contributor for any liability incurred by such

   Contributor as a result of warranty, support, indemnity or liability terms You
   offer. You may include additional disclaimers of warranty and limitations of
   liability specific to any jurisdiction.

4. Inability to Comply Due to Statute or Regulation
---------------------------------------------------

If it is impossible for You to comply with any of the terms of this License with
respect to some or all of the Covered Software due to statute, judicial order, or
regulation then You must: (a) comply with the terms of this License to the
maximum extent possible; and (b) describe the limitations and the code they
affect. Such description must be placed in a text file included with all
distributions of the Covered Software under this License. Except to the extent
prohibited by statute or regulation, such description must be sufficiently
detailed for a recipient of ordinary skill to be able to understand it.

5. Termination
--------------

   5.1. The rights granted under this License will terminate automatically if You
   fail to comply with any of its terms. However, if You become compliant, then
   the rights granted under this License from a particular Contributor are
   reinstated (a) provisionally, unless and until such Contributor explicitly and
   finally terminates Your grants, and (b) on an ongoing basis, if such
   Contributor fails to notify You of the non-compliance by some reasonable means
   prior to 60 days after You have come back into compliance. Moreover, Your
   grants from a particular Contributor are reinstated on an ongoing basis if such
   Contributor notifies You of the non-compliance by some reasonable means, this
   is the first time You have received notice of non-compliance with this License
   from such Contributor, and You become compliant prior to 30 days after Your
   receipt of the notice.

   5.2. If You initiate litigation against any entity by asserting a patent
   infringement claim (excluding declaratory judgment actions, counter-claims, and
   cross-claims) alleging that a Contributor Version directly or indirectly
   infringes any patent, then the rights granted to You by any and all
   Contributors for the Covered Software under Section 2.1 of this License shall
   terminate.

   5.3. In the event of termination under Sections 5.1 or 5.2 above, all end user

  license agreements (excluding distributors and resellers) which have been
  validly granted by You or Your distributors under this License prior to
  termination shall survive termination.
6. Disclaimer of Warranty
-------------------------
Covered Software is provided under this License on an "as is" basis, without
warranty of any kind, either expressed, implied, or statutory, including, without
limitation, warranties that the Covered Software is free of defects,
merchantable, fit for a particular purpose or non-infringing. The entire risk as
to the quality and performance of the Covered Software is with You. Should any
Covered Software prove defective in any respect, You (not any Contributor) assume
the cost of any necessary servicing, repair, or correction. This disclaimer of
warranty constitutes an essential part of this License. No use of any Covered
Software is authorized under this License except under this disclaimer.
7. Limitation of Liability
--------------------------
Under no circumstances and under no legal theory, whether tort (including
negligence), contract, or otherwise, shall any Contributor, or anyone who
distributes Covered Software as permitted above, be liable to You for any direct,
indirect, special, incidental, or consequential damages of any character
including, without limitation, damages for lost profits, loss of goodwill, work
stoppage, computer failure or malfunction, or any and all other commercial
damages or losses, even if such party shall have been informed of the possibility
of such damages. This limitation of liability shall not apply to liability for
death or personal injury resulting from such party's negligence to the extent
applicable law prohibits such limitation. Some jurisdictions do not allow the
exclusion or limitation of incidental or consequential damages, so this exclusion
and limitation may not apply to You.
8. Litigation
-------------
Any litigation relating to this License may be brought only in the courts of a
jurisdiction where the defendant maintains its principal place of business and
such litigation shall be governed by laws of that jurisdiction, without reference
to its conflict-of-law provisions. Nothing in this Section shall prevent a
party's ability to bring cross-claims or counter-claims.

9. Miscellaneous
----------------
This License represents the complete agreement concerning the subject
matter
hereof. If any provision of this License is held to be unenforceable, such
provision shall be reformed only to the extent necessary to make it
enforceable.
Any law or regulation which provides that the language of a contract shall
be
construed against the drafter shall not be used to construe this License
against
a Contributor.
10. Versions of the License
---------------------------
  10.1. New Versions
  Mozilla Foundation is the license steward. Except as provided in
Section 10.3,
  no one other than the license steward has the right to modify or publish
new
  versions of this License. Each version will be given a distinguishing
version
  number.
  10.2. Effect of New Versions
  You may distribute the Covered Software under the terms of the version
of the
  License under which You originally received the Covered Software, or
under the
  terms of any subsequent version published by the license steward.
  10.3. Modified Versions
  If you create software not governed by this License, and you want to
create a
  new license for such software, you may create and use a modified version
of
  this License if you rename the license and remove any references to the
name of
  the license steward (except to note that such modified license differs
from
  this License).
  10.4. Distributing Source Code Form that is Incompatible With Secondary
  Licenses
  If You choose to distribute Source Code Form that is Incompatible With
  Secondary Licenses under the terms of this version of the License, the
notice
  described in Exhibit B of this License must be attached.
Exhibit A - Source Code Form License Notice
-------------------------------------------
  This Source Code Form is subject to the terms of the Mozilla Public
License,
  v. 2.0. If a copy of the MPL was not distributed with this file, You can
  obtain one at http://mozilla.org/MPL/2.0/.
If it is not possible or desirable to put the notice in a particular file,
then

You may include the notice in a location (such as a LICENSE file in a relevant
directory) where a recipient would be likely to look for such a notice.
You may add additional accurate notices of copyright ownership.
Exhibit B - "Incompatible With Secondary Licenses" Notice
---------------------------------------------------------
  This Source Code Form is "Incompatible With Secondary Licenses", as defined
  by the Mozilla Public License, v. 2.0.

(Red Hat Universal Base Image 8.3)

END USER LICENSE AGREEMENT
RED HAT UNIVERSAL BASE IMAGE
PLEASE READ THIS END USER LICENSEAGREEMENT CAREFULLY BEFORE USING
SOFTWARE FROM RED HAT. BY USING RED HAT SOFTWARE, YOU SIGNIFY YOUR
ASSENT TO AND ACCEPTANCE OF THIS END USER LICENSEAGREEMENT AND ACKNOWLEDGE
YOU HAVE READ AND UNDERSTAND THE TERMS. AN INDIVIDUAL ACTING ON BEHALF OF
AN ENTITY REPRESENTS THAT HE OR SHE HAS THE AUTHORITY TO ENTER INTO THIS
END USER LICENSEAGREEMENT ON BEHALF OF THAT ENTITY. IF YOU DO NOT ACCEPT
THE TERMS OF THIS AGREEMENT, THEN YOU MUST NOT USE THE RED HAT SOFTWARE.
THIS END USER LICENSE AGREEMENT DOES NOT PROVIDE ANY RIGHTS TO RED HAT
SERVICES SUCH AS SOFTWARE MAINTENANCE, UPGRADES OR SUPPORT. PLEASE REVIEW
YOUR SERVICE OR SUBSCRIPTION AGREEMENT(S) THAT YOU MAY HAVE WITH
RED HAT OR OTHER AUTHORIZED RED HAT SERVICE PROVIDERS REGARDING
SERVICES AND ASSOCIATED PAYMENTS.
This end user license agreement ("EULA") governs the use of Red Hat
Universal Base Image and associated software supporting such container(s)
and any related updates, source code, including the appearance, structure
and organization (the "Programs"), regardless of the delivery mechanism.
If a Red Hat Universal Base Image is included in another Red Hat product,
the EULA terms of such other Red Hat product will apply and supersede this
EULA.  If a Red Hat Universal Base Image is included in athird party work,
the terms of this EULA will continue to govern the Red Hat Universal Base
Image.
1. License Grant.Subject to the termsof this EULA, Red Hat, Inc. ("Red
Hat") grants to you a perpetual, worldwide license to the Programs (each
of which may include multiple software components).  With the exception of
the Red Hat trademark identified in Section 2 below, each software
component is governed by a license that permits you to run, copy, modify,
and redistribute (subject to certain obligations in some cases) the
software components.  This EULA pertains solely to the Programs and does
not limit your rights under, or grant you rights that supersede, the
license terms applicable to any particular component.  The license terms
applicable to each software component are provided in the source code of
that component.
2. Intellectual Property Rights.  The Programs and each of their
components are owned by Red Hat and other licensors and are protected

under copyright law and other laws as applicable.  Title to the Programs and any component shall remain with Red Hat and other licensors, subject to the applicable license, excluding any independently developed and licensed work.  The "Red Hat" trademark is a registered trademark of Red Hat and its affiliates in the U.S. and other countries. Subject to Red Hat's trademark usage guidelines (set forth athttp://www.redhat.com/about/corporate/trademark/),this EULA permits you to distribute the Programs that includethe Red Hat trademark, provided you donot make any statements on behalf of Red Hat, including but not limited to, stating or in any way suggesting(in any public, private and/or confidential statement (whether written or verbal)) that Red Hat supports or endorses software built and delivered with a Red Hat Universal Base Image(s)(such derivative worksreferred to as a "Red Hat Based Container Images"); provided if a Red Hat BasedContainer Image is Red Hat Certifiedand deployed on a Red Hat supported configuration as set forth athttps://access.redhat.com/articles/2726611then you may state that the Red Hat Universal Base Image is supported by Red Hat.  You agree to include this unmodified EULA in all distributions of container images sourced, built or otherwise derived from the Programs.  If you modify the Red Hat Universal Base Image(s), you mustremove any Red Hat trademark(s) prior to any subsequent distribution.  Any breach of this Section 2 is a material breach of the EULA and you may no longer use and/or distribute the Red Hat trademark(s).  Modifications to the software may corrupt the Programs.

3. Limited Warranty.  Except as specifically stated in this Section 3, a separate agreement with Red Hat, or a license for a particular component,to the maximum extent permitted under applicable law, the Programs and the components are provided and licensed "as is" without warranty of any kind, expressed or implied, including the implied warranties of merchantability, non-infringement or fitness for a particular purpose.Neither Red Hat nor its affiliates warrant that the functions contained in the Programs will meet your requirements or that the operation of the Programs will be entirely error free, appear or perform precisely as described in the accompanying documentation, or comply with regulatory requirements.Red Hat warrants that the media on which the Programs and the components are provided will be free from defects in materials and manufacture under normal use for a period of 30 days from the date of delivery to you.This warranty extends only to the party that purchases subscription services for the supported configurationsfrom Red Hat and/or its affiliates or a Red Hat authorized distributor.

4. Limitation of Remedies and Liability. To the maximum extent permitted by applicable law, your exclusive remedy under this EULA is to return any defective media within 30 days of delivery along with a copy of your payment receipt and Red Hat, at its option, will replace it or refund the money you paid for the media.  To the maximum extent permitted under applicable law, under no circumstances will  Red Hat, its affiliates, any Red Hat authorized distributor, or the licensor of any component provided to you under this EULA  be liable to you for any incidental or consequential damages, including lost profits or lost savings arising out of the use or inability to use the Programs or any component, even if Red Hat, its affiliates, an authorized

distributor, and/or licensor has been advised of the possibility of such damages. In no event shall Red Hat's or its affiliates' liability, an authorized distributor's liability or the liability ofthe licensor of a component provided to you under this EULA exceed the amount that you paid to Red Hat for the media under this EULA.

5. Export Control. As required by the laws of the United States and other countries, you represent and warrant that you: (a) understand that thePrograms and their components may be subject to export controls under the U.S. Commerce Department's Export Administration Regulations ("EAR"); (b) are not located in a prohibited destination country under the EAR or U.S. sanctions regulations (currently Cuba,Iran, North Korea, Sudan, Syria, and the Crimea Region of Ukraine, subject to change as posted by the United States government); (c) will not export, re-export, or transfer the Programs to any prohibited destination, persons or entities on the U.S. Bureau of Industry and Security Denied Parties List or Entity List, or the U.S. Office of Foreign Assets Control list of Specially Designated Nationals and Blocked Persons, or any similar lists maintained by other countries, without the necessary export license(s) or authorizations(s); (d) will not use or transfer the Programs for use in connection with any nuclear, chemical or biological weapons, missile technology, or military end-uses where prohibited by an applicable arms embargo, unless authorized by the relevant government agency by regulation or specific license; (e) understand and agree that if you are in the United States and export or transfer the Programs to eligible end users, you will, to the extent required by EAR Section 740.17(e), submit semi-annual reports to the Commerce Department's Bureau of Industry and Security, which include the name and address (including country) of each transferee; and (f) understand that countries including the United States may restrict the import, use, or export of encryption products (which may include the Programs and the components) and agree that you shall be solely responsible for compliance with any such import, use, or export restrictions.

6. Third Party Software. The Program maybe provided with third party software programs subject to their own license terms. The license terms either accompany the third party software programs or, in some instances, maybe viewed at registry.access.redhat.com. If you do not agree to abide by the applicable license terms for the third party software programs, then you may not install, distribute or use them.

7. General.If any provision of this EULA is held to be unenforceable, the enforceability of the remaining provisions shall not be affected. Any claim, controversy or dispute arising under or relating to this EULA shall be governed by the laws of the State of New York and of the United States, without regard to any conflict of laws provisions. The rights and obligations of the parties to this EULA shall not be governed by the United Nations Convention on the International Sale of Goods. Copyright © 2019 Red Hat, Inc. All rights reserved. SMAIL General Public License
(debianutils 4.11.2, debianutils 4.8.6.1, debianutils 4.9.1)

SMAIL GENERAL PUBLIC LICENSE
============================
(Clarified 11 Feb 1988)
-----------------------
Copyright (C) 1988 Landon Curt Noll & Ronald S. Karr
Copyright (C) 1992 Ronald S. Karr
Copyleft (GNU) 1988 Landon Curt Noll & Ronald S. Karr
Everyone is permitted to copy and distribute verbatim copies of this
license, but
changing it is not allowed. You can also use this wording to make the
terms for
other programs.
The license agreements of most software companies keep you at the mercy of
those
companies. By contrast, our general public license is intended to give
everyone
the right to share SMAIL. To make sure that you get the rights we want you
to
have, we need to make restrictions that forbid anyone to deny you these
rights or
to ask you to surrender the rights. Hence this license agreement.
Specifically, we want to make sure that you have the right to give away
copies of
SMAIL, that you receive source code or else can get it if you want it,
that you
can change SMAIL or use pieces of it in new free programs, and that you
know you
can do these things.
To make sure that everyone has such rights, we have to forbid you to
deprive
anyone else of these rights. For example, if you distribute copies of
SMAIL, you
must give the recipients all the rights that you have. You must make sure
that
they, too, receive or can get the source code. And you must tell them
their
rights.
Also, for our own protection, we must make certain that everyone finds out
that
there is no warranty for SMAIL. If SMAIL is modified by someone else and
passed
on, we want its recipients to know that what they have is not what we
distributed, so that any problems introduced by others will not reflect on
our
reputation.
Therefore we (Landon Curt Noll and Ronald S. Karr) make the following
terms which
say what you must do to be allowed to distribute or change SMAIL.
COPYING POLICIES
  1. You may copy and distribute verbatim copies of SMAIL source code as
you

receive it, in any medium, provided that you conspicuously and appropriately
publish on each copy a valid copyright notice "Copyright (C) 1988 Landon Curt
Noll & Ronald S. Karr" (or with whatever year is appropriate); keep intact
the notices on all files that refer to this License Agreement and to the
absence of any warranty; and give any other recipients of the SMAIL program a
copy of this License Agreement along with the program. You may charge a
distribution fee for the physical act of transferring a copy.
  2. You may modify your copy or copies of SMAIL or any portion of it, and copy
and distribute such modifications under the terms of Paragraph 1 above,
provided that you also do the following:
    a. cause the modified files to carry prominent notices stating that you
       changed the files and the date of any change; and
    b. cause the whole of any work that you distribute or publish, that in
       whole or in part contains or is a derivative of SMAIL or any part
       thereof, to be licensed at no charge to all third parties on terms
       identical to those contained in this License Agreement (except that you
       may choose to grant more extensive warranty protection to some or all
       third parties, at your option).
    c. You may charge a distribution fee for the physical act of transferring a
       copy, and you may at your option offer warranty protection in exchange
       for a fee.
    Mere aggregation of another unrelated program with this program (or its
    derivative) on a volume of a storage or distribution medium does not bring
    the other program under the scope of these terms.
  3. You may copy and distribute SMAIL (or a portion or derivative of it, under
    Paragraph 2) in object code or executable form under the terms of Paragraphs
    1 and 2 above provided that you also do one of the following:
    a. accompany it with the complete corresponding machine-readable source
       code, which must be distributed under the terms of Paragraphs 1 and 2
       above; or,
    b. accompany it with a written offer, valid for at least three years, to
       give any third party free (except for a nominal shipping charge) a

complete machine-readable copy of the corresponding source code, to be
distributed under the terms of Paragraphs 1 and 2 above; or,
c. accompany it with the information you received as to where the
corresponding source code may be obtained. (This alternative is allowed
only for non-commercial distribution and only if you received the program
in object code or executable form alone.)
For an executable file, complete source code means all the source code for
all modules it contains; but, as a special exception, it need not include
source code for modules which are standard libraries that accompany the
operating system on which the executable file runs.
4. You may not copy, sublicense, distribute or transfer SMAIL except as
expressly provided under this License Agreement. Any attempt otherwise to
copy, sublicense, distribute or transfer SMAIL is void and your rights to use
the program under this License agreement shall be automatically terminated.
However, parties who have received computer software programs from you with
this License Agreement will not have their licenses terminated so long as
such parties remain in full compliance.
5. If you wish to incorporate parts of SMAIL into other free programs whose
distribution conditions are different, write to Landon Curt Noll & Ronald S.
Karr via the Free Software Foundation at 51 Franklin St, Fifth Floor, Boston,
MA 02110-1301, USA. We have not yet worked out a simple rule that can be
stated here, but we will often permit this. We will be guided by the two
goals of preserving the free status of all derivatives of our free software
and of promoting the sharing and reuse of software.
Your comments and suggestions about our licensing policies and our software are
welcome! This contract was based on the contract made by the Free Software
Foundation. Please contact the Free Software Foundation, Inc., 51 Franklin St,
Fifth Floor, Boston, MA 02110-1301, USA, or call (617) 542-5942 for details on
copylefted material in general.

PERMITTED
ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY LOST PROFITS, LOST

OR

"CLASSPATH" EXCEPTION TO THE GPL VERSION 2
==========================================
Certain source files distributed by Sun Microsystems, Inc. are subject to
the

following clarification and special exception to the GPL Version 2, but only
where Sun has expressly included in the particular source file's header the words
"Sun designates this particular file as subject to the "Classpath" exception as
provided by Sun in the License file that accompanied this code."
Linking this library statically or dynamically with other modules is making a
combined work based on this library. Thus, the terms and conditions of the GNU
General Public License Version 2 cover the whole combination.
As a special exception, the copyright holders of this library give you permission
to link this library with independent modules to produce an executable,
regardless of the license terms of these independent modules, and to copy and
distribute the resulting executable under terms of your choice, provided that you
also meet, for each linked independent module, the terms and conditions of the
license of that module. An independent module is a module which is not derived
from or based on this library. If you modify this library, you may extend this
exception to your version of the library, but you are not obligated to do so. If
you do not wish to do so, delete this exception statement from your version.

The GNU General Public License (GPL)
------------------------------------
Version 2, June 1991
--------------------
Copyright (C) 1989, 1991 Free Software Foundation, Inc.
59 Temple Place, Suite 330, Boston, MA 02111-1307 USAEveryone is permitted
to copy and distribute verbatim copies
of this license document, but changing it is not allowed.
Preamble
The licenses for most software are designed to take away your freedom to share
and change it. By contrast, the GNU General Public License is intended to
guarantee your freedom to share and change free software--to make sure the
software is free for all its users. This General Public License applies to most
of the Free Software Foundation's software and to any other program whose authors
commit to using it. (Some other Free Software Foundation software is covered by
the GNU Library General Public License instead.) You can apply it to your
programs, too.

When we speak of free software, we are referring to freedom, not price. Our
General Public Licenses are designed to make sure that you have the freedom to
distribute copies of free software (and charge for this service if you wish),
that you receive source code or can get it if you want it, that you can change
the software or use pieces of it in new free programs; and that you know you can
do these things.
To protect your rights, we need to make restrictions that forbid anyone to deny
you these rights or to ask you to surrender the rights. These restrictions
translate to certain responsibilities for you if you distribute copies of the
software, or if you modify it.
For example, if you distribute copies of such a program, whether gratis or for a
fee, you must give the recipients all the rights that you have. You must make
sure that they, too, receive or can get the source code. And you must show them
these terms so they know their rights.
We protect your rights with two steps: (1) copyright the software, and (2) offer
you this license which gives you legal permission to copy, distribute and/or
modify the software.
Also, for each author's protection and ours, we want to make certain that
everyone understands that there is no warranty for this free software. If the
software is modified by someone else and passed on, we want its recipients to
know that what they have is not the original, so that any problems introduced by
others will not reflect on the original authors' reputations.
Finally, any free program is threatened constantly by software patents. We wish
to avoid the danger that redistributors of a free program will individually
obtain patent licenses, in effect making the program proprietary. To prevent
this, we have made it clear that any patent must be licensed for everyone's free
use or not licensed at all.
The precise terms and conditions for copying, distribution and modification
follow.
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
  1.  This License applies to any program or other work which contains a notice

placed by the copyright holder saying it may be distributed under the terms
of this General Public License. The "Program", below, refers to any such
program or work, and a "work based on the Program" means either the Program
or any derivative work under copyright law: that is to say, a work containing
the Program or a portion of it, either verbatim or with modifications and/or
translated into another language. (Hereinafter, translation is included
without limitation in the term "modification".) Each licensee is addressed as
"you".
Activities other than copying, distribution and modification are not covered
by this License; they are outside its scope. The act of running the Program
is not restricted, and the output from the Program is covered only if its
contents constitute a work based on the Program (independent of having been
made by running the Program). Whether that is true depends on what the
Program does.
  2. You may copy and distribute verbatim copies of the Program's source code as
you receive it, in any medium, provided that you conspicuously and
appropriately publish on each copy an appropriate copyright notice and
disclaimer of warranty; keep intact all the notices that refer to this
License and to the absence of any warranty; and give any other recipients of
the Program a copy of this License along with the Program.
You may charge a fee for the physical act of transferring a copy, and you may
at your option offer warranty protection in exchange for a fee.
  3. You may modify your copy or copies of the Program or any portion of it, thus
forming a work based on the Program, and copy and distribute such
modifications or work under the terms of Section 1 above, provided that you
also meet all of these conditions:
    a. You must cause the modified files to carry prominent notices stating
        that you changed the files and the date of any change.
    b.  You must cause any work that you distribute or publish, that in whole
        or in part contains or is derived from the Program or any part thereof,
        to be licensed as a whole at no charge to all third parties under the
        terms of this License.

       c. If the modified program normally reads commands interactively
when run,
         you must cause it, when started running for such interactive use
in the
         most ordinary way, to print or display an announcement including
an
         appropriate copyright notice and a notice that there is no
warranty (or
         else, saying that you provide a warranty) and that users may
redistribute
         the program under these conditions, and telling the user how to
view a
         copy of this License. (Exception: if the Program itself is
interactive
         but does not normally print such an announcement, your work based
on the
         Program is not required to print an announcement.)
     These requirements apply to the modified work as a whole. If
identifiable
     sections of that work are not derived from the Program, and can be
reasonably
     considered independent and separate works in themselves, then this
License,
     and its terms, do not apply to those sections when you distribute them
as
     separate works. But when you distribute the same sections as part of a
whole
     which is a work based on the Program, the distribution of the whole
must be
     on the terms of this License, whose permissions for other licensees
extend to
     the entire whole, and thus to each and every part regardless of who
wrote it.
     Thus, it is not the intent of this section to claim rights or contest
your
     rights to work written entirely by you; rather, the intent is to
exercise the
     right to control the distribution of derivative or collective works
based on
     the Program.
     In addition, mere aggregation of another work not based on the Program
with
     the Program (or with a work based on the Program) on a volume of a
storage or
     distribution medium does not bring the other work under the scope of
this
     License.
   4. You may copy and distribute the Program (or a work based on it, under
     Section 2) in object code or executable form under the terms of
Sections 1
     and 2 above provided that you also do one of the following:
       a. Accompany it with the complete corresponding machine-readable
source

        code, which must be distributed under the terms of Sections 1 and
2 above
        on a medium customarily used for software interchange; or,
     b. Accompany it with a written offer, valid for at least three
years, to
        give any third party, for a charge no more than your cost of
physically
        performing source distribution, a complete machine-readable copy
of the
        corresponding source code, to be distributed under the terms of
Sections
        1 and 2 above on a medium customarily used for software
interchange; or,
     c. Accompany it with the information you received as to the offer to
        distribute corresponding source code. (This alternative is allowed
only
        for noncommercial distribution and only if you received the
program in
        object code or executable form with such an offer, in accord with
        Subsection b above.)
    The source code for a work means the preferred form of the work for
making
    modifications to it. For an executable work, complete source code
means all
    the source code for all modules it contains, plus any associated
interface
    definition files, plus the scripts used to control compilation and
    installation of the executable. However, as a special exception, the
source
    code distributed need not include anything that is normally
distributed (in
    either source or binary form) with the major components (compiler,
kernel,
    and so on) of the operating system on which the executable runs,
unless that
    component itself accompanies the executable.
    If distribution of executable or object code is made by offering
access to
    copy from a designated place, then offering equivalent access to copy
the
    source code from the same place counts as distribution of the source
code,
    even though third parties are not compelled to copy the source along
with the
    object code.
  5. You may not copy, modify, sublicense, or distribute the Program
except as
    expressly provided under this License. Any attempt otherwise to copy,
modify,
    sublicense or distribute the Program is void, and will automatically
    terminate your rights under this License. However, parties who have
received

copies, or rights, from you under this License will not have their licenses
    terminated so long as such parties remain in full compliance.
  6. You are not required to accept this License, since you have not signed it.
    However, nothing else grants you permission to modify or distribute the
    Program or its derivative works. These actions are prohibited by law if you
    do not accept this License. Therefore, by modifying or distributing the
    Program (or any work based on the Program), you indicate your acceptance of
    this License to do so, and all its terms and conditions for copying,
    distributing or modifying the Program or works based on it.
  7. Each time you redistribute the Program (or any work based on the Program),
    the recipient automatically receives a license from the original licensor to
    copy, distribute or modify the Program subject to these terms and conditions.
    You may not impose any further restrictions on the recipients' exercise of
    the rights granted herein. You are not responsible for enforcing compliance
    by third parties to this License.
  8. If, as a consequence of a court judgment or allegation of patent
    infringement or for any other reason (not limited to patent issues),
    conditions are imposed on you (whether by court order, agreement or
    otherwise) that contradict the conditions of this License, they do not excuse
    you from the conditions of this License. If you cannot distribute so as to
    satisfy simultaneously your obligations under this License and any other
    pertinent obligations, then as a consequence you may not distribute the
    Program at all. For example, if a patent license would not permit
    royalty-free redistribution of the Program by all those who receive copies
    directly or indirectly through you, then the only way you could satisfy both
    it and this License would be to refrain entirely from distribution of the
    Program.
    If any portion of this section is held invalid or unenforceable under any
    particular circumstance, the balance of the section is intended to apply and
    the section as a whole is intended to apply in other circumstances.
    It is not the purpose of this section to induce you to infringe any patents

or other property right claims or to contest validity of any such claims;
    this section has the sole purpose of protecting the integrity of the free
    software distribution system, which is implemented by public license
    practices. Many people have made generous contributions to the wide range of
    software distributed through that system in reliance on consistent
    application of that system; it is up to the author/donor to decide if he or
    she is willing to distribute software through any other system and a licensee
    cannot impose that choice.
    This section is intended to make thoroughly clear what is believed to be a
    consequence of the rest of this License.

  9. If the distribution and/or use of the Program is restricted in certain
    countries either by patents or by copyrighted interfaces, the original
    copyright holder who places the Program under this License may add an
    explicit geographical distribution limitation excluding those countries, so
    that distribution is permitted only in or among countries not thus excluded.
    In such case, this License incorporates the limitation as if written in the
    body of this License.

  10. The Free Software Foundation may publish revised and/or new versions of the
    General Public License from time to time. Such new versions will be similar
    in spirit to the present version, but may differ in detail to address new
    problems or concerns.
    Each version is given a distinguishing version number. If the Program
    specifies a version number of this License which applies to it and "any later
    version", you have the option of following the terms and conditions either of
    that version or of any later version published by the Free Software
    Foundation. If the Program does not specify a version number of this License,
    you may choose any version ever published by the Free Software Foundation.

  11. If you wish to incorporate parts of the Program into other free programs
    whose distribution conditions are different, write to the author to ask for
    permission. For software which is copyrighted by the Free Software
    Foundation, write to the Free Software Foundation; we sometimes make
    exceptions for this. Our decision will be guided by the two goals of
    preserving the free status of all derivatives of our free software and of

promoting the sharing and reuse of software generally.
NO WARRANTY
12. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR
THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE
STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE
PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED,
INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND
FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND
PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE,
YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
13. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL
ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE
THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY
GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE
OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR
DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR
A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH
HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
END OF TERMS AND CONDITIONS
How to Apply These Terms to Your New Programs
If you develop a new program, and you want it to be of the greatest possible use
to the public, the best way to achieve this is to make it free software which
everyone can redistribute and change under these terms.
To do so, attach the following notices to the program. It is safest to attach
them to the start of each source file to most effectively convey the exclusion of
warranty; and each file should have at least the "copyright" line and a pointer
to where the full notice is found.
one line to give the program's name and a brief idea of what it does.Copyright (C)
This program is free software; you can redistribute it and/or
modify it under the terms of the GNU General Public License

of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful,
but WITHOUT ANY WARRANTY; without even the implied warranty of
MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the
GNU General Public License for more details.
You should have received a copy of the GNU General Public License

Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA
Also add information on how to contact you by electronic and paper mail.
If the program is interactive, make it output a short notice like this
when it
starts in an interactive mode:
Gnomovision version 69, Copyright (C) year name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details
type `show w'. This is free software, and you are welcome
to redistribute it under certain conditions; type `show c'
for details.
The hypothetical commands `show w' and `show c' should show the
appropriate parts
of the General Public License. Of course, the commands you use may be
called
something other than `show w' and `show c'; they could even be mouse-
clicks or
menu items--whatever suits your program.
You should also get your employer (if you work as a programmer) or your
school,
if any, to sign a "copyright disclaimer" for the program, if necessary.
Here is a
sample; alter the names:

interest in the program `Gnomovision'
(which makes passes at compilers) written
by James Hacker.

Ty Coon, President of Vice
This General Public License does not permit incorporating your program
into
proprietary programs. If your program is a subroutine library, you may
consider
it more useful to permit linking proprietary applications with the
library. If
this is what you want to do, use the GNU Library General Public License
instead
of this License.

Vim License
(Vim 7.4.629, Vim v8.1.2269)

VIM LICENSE
===========
  I. There are no restrictions on distributing unmodified copies of Vim
except
    that they must include this license text. You can also distribute
unmodified
    parts of Vim, likewise unrestricted except that they must include this
    license text. You are also allowed to include executables that you
made from
    the unmodified Vim sources, plus your own usage examples and Vim
scripts.
  II. It is allowed to distribute a modified (or extended) version of Vim,
    including executables and/or source code, when the following four
conditions
    are met:
      1. This license text must be included unmodified.
      2.  The modified Vim must be distributed in one of the following
five ways:
          a.  If you make changes to Vim yourself, you must clearly
describe in
              the distribution how to contact you. When the maintainer asks
you (in
              any way) for a copy of the modified Vim you distributed, you
must
              make your changes, including source code, available to the
maintainer
              without fee. The maintainer reserves the right to include your
              changes in the official version of Vim. What the maintainer
will do
              with your changes and under what license they will be
distributed is
              negotiable. If there has been no negotiation then this
license, or a

later version, also applies to your changes. The current
maintainer
            is Bram Moolenaar {Bram@vim.org}. If this changes it will be
            announced in appropriate places (most likely vim.sf.net,
www.vim.org
            and/or comp.editors). When it is completely impossible to
contact the
            maintainer, the obligation to send him your changes ceases.
Once the
            maintainer has confirmed that he has received your changes
they will
            not have to be sent again.
        b.  If you have received a modified Vim that was distributed as
            mentioned under a) you are allowed to further distribute it
            unmodified, as mentioned at I). If you make additional changes
the
            text under a) applies to those changes.
        c. Provide all the changes, including source code, with every
copy of
            the modified Vim you distribute. This may be done in the form
of a
            context diff. You can choose what license to use for new code
you
            add. The changes and their license must not restrict others
from
            making their own changes to the official version of Vim.
        d.  When you have a modified Vim which includes changes as
mentioned
            under c), you can distribute it without the source code for
the
            changes if the following three conditions are met:
              - The license that applies to the changes permits you to
distribute
              the changes to the Vim maintainer without fee or
restriction, and
              permits the Vim maintainer to include the changes in the
official
              version of Vim without fee or restriction.
              - You keep the changes for at least three years after last
              distributing the corresponding modified Vim. When the
maintainer or
              someone who you distributed the modified Vim to asks you (in
any
              way) for the changes within this period, you must make them
              available to him.
              - You clearly describe in the distribution how to contact
you. This
              contact information must remain valid for at least three
years
              after last distributing the corresponding modified Vim, or
as long
              as possible.

              e.  When the GNU General Public License (GPL) applies to the
changes,
                 you can distribute the modified Vim under the GNU GPL version
2 or
                 any later version.
        3. A message must be added, at least in the output of the ":version"
           command and in the intro screen, such that the user of the
modified Vim
           is able to see that it was modified. When distributing as
mentioned under
           2)e) adding the message is only required for as far as this does
not
           conflict with the license used for the changes.
      4.  The contact information as required under 2)a) and 2)d) must not
be
           removed or changed, except that the person himself can make
corrections.
   III.  If you distribute a modified version of Vim, you are encouraged to
use
      the Vim license for your changes and make them available to the
maintainer,
      including the source code. The preferred way to do this is by e-mail
or by
      uploading the files to a server and e-mailing the URL. If the number
of
      changes is small (e.g., a modified Makefile) e-mailing a context diff
will
      do. The e-mail address to be used is {maintainer@vim.org}
   IV. It is not allowed to remove this license from the distribution of
the Vim
      sources, parts of it or from a modified version. You may use this
license for
      previous Vim releases instead of the license that they came with, at
your
      option.
